Quarterhill Highlights the Future of Intelligent Tolling at IBTTA 2026

2026-11-05

Live Demonstrations of New Quarterhill Roadside and Back-Office Platforms at Booth 503, November 12-15 in Arlington, Texas

TORONTO, Nov. 5, 2026 /PRNewswire/ -- **Quarterhill Inc.** ("Quarterhill" or the "Company") (TSX: QTRH) (OTCQX: QTRHF), a leading technology innovator providing next-generation, Ai-driven Intelligent Transportation System ("ITS") solutions, today announced its participation in the International Bridge, Tunnel and Turnpike Association's (IBTTA) 94th Annual Meeting & Exhibition, taking place November 12–15, 2026, in Arlington, Texas. At booth 503, Quarterhill will showcase its roadside and back-office system (BOS) platforms, which help transportation agencies modernize tolling infrastructure, streamline operations, improve transaction processing and enhance customer service.

"Agencies are managing more transactions, more data, and higher customer expectations, and they need tools that turn all of it into clear, timely decisions," said Quarterhill CEO Chuck Myers. "Our focus is on applying automation and analytics where they make the biggest difference: capturing accurate data, reducing manual review, and giving customers faster answers. IBTTA provides a valuable opportunity to demonstrate our solutions, meet with our clients and partners and explore how we can support their priorities in the years ahead."

Quarterhill featured solutions include:

- **Quarterhill Roadside:** An intelligent roadside platform that brings together vehicle detection, transaction processing, operational management and performance analytics. The platform helps agencies accurately capture and process tolling data, manage roadside operations, monitor system performance and protect revenue. Its modular architecture enables integration with back-office systems, agency infrastructure and field devices through APIs and standard interfaces.
- **Quarterhill BOS:** A back-office platform designed to simplify toll transaction processing, reduce manual workloads and improve customer service. By applying AI to targeted tasks within defined workflows, the platform keeps agencies in control of how transactions and exceptions are

managed. AI-assisted image review automatically processes high-confidence cases, prioritizes those requiring human reviewer and supports traceable decisions. A voice and chat assistant, guided by agency policies and escalation paths, carries customer context through to human representatives, and plain-language access to operational data helps agencies make more informed decisions.

Attendees are invited to visit booth 503 for live demonstrations and to meet Quarterhill's transportation technology experts. The Company will also host meetings with agencies, clients, partners, and other industry stakeholders to discuss operational priorities, upcoming projects and opportunities for collaboration.

To schedule a meeting, email info@quarterhill.com.

About Quarterhill

Quarterhill is a global leader in the Intelligent Transportation System (ITS) industry, advancing mobility through smart infrastructure solutions that reduce congestion, improve roadway safety, and create more sustainable travel. Each year, Quarterhill's platforms process billions of transactions, perform compliance and safety inspections on millions of commercial vehicles, and enable transportation agencies worldwide to optimize thousands of lanes of traffic to improve travel for everyone. Leveraging advanced artificial intelligence and machine learning technologies, Quarterhill's platform delivers automation and predictive insight to help agencies manage transportation networks more efficiently. By working in close partnership with governments, communities, and industry leaders, Quarterhill is building today's connected roadways while shaping the next generation of intelligent, resilient mobility. Quarterhill is listed on the TSX under the symbol QTRH and on the OTCQX Best Market under the symbol QTRHF. For more information, please visit: www.quarterhill.com.

Forward-looking Information

This news release contains forward-looking information and forward-looking statements within the meaning of applicable Canadian securities laws (collectively, "forward-looking statements"). Such forward-looking statements relate to future events, conditions or future financial performance of Quarterhill based on future economic conditions and courses of action. All statements other than statements of historical fact may be forward-looking statements. Such forward-looking statements are often, but not always, identified by the use of any words such as "seek", "anticipate", "budget", "plan", "goal", "expect" and similar expressions.

Forward-looking statements involve known and unknown risks, assumptions, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Material risk factors that could cause actual results to differ materially from the forward-looking statements contained in this news release include, among others, demand for Quarterhill's products and services; general economic and market conditions; competition; risks relating to technological advances and cyber-security; and other risks set forth in the Company's most recent annual information form available on SEDAR+ at www.sedarplus.ca. The Company believes the expectations reflected in the forward-looking statements are reasonable, but no assurance can be

given that these expectations will prove to be correct and such forward-looking statements included in this news release should not be unduly relied upon. Material factors and assumptions used to develop the forward-looking statements contained in this news release include, among others: Quarterhill's ability to execute on its business plan; demand for Quarterhill's products and services; operating assumptions; and financial projections and cost estimates. Quarterhill has no intention, and undertakes no obligation, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
