Fast Triage with nGeniusONE Platform

**Click here to register**

11, March 2015, 12 p.m. GMT
Solving Microsoft Lync Service Issues:

Fast Triage with nGeniusONE Platform

**Click here to register**

WHO: Ray Krug, Solutions Engineer, NetScout Systems: Krug brings more than 20 years' experience in the IT industry, developing product strategy as well as technical sales positioning to enterprises and the public sector customers for IT and UC operations. Find out more about Krug on **LinkedIn**.

WHY: NetScout's European UC webinars explore key challenges faced by voice and networking teams that are responsible for delivering UC services and demonstrates how **NetScout's nGeniusONE platform** can rapidly triage problems and ensure the delivery of high quality UC services. The focus of the three webinars will be on how to rapidly triage complex UC problems related to IP Telephony, SIP Trunking, Microsoft Lync and Cisco Jabber. In addition, NetScout will share ways to simplify performance management of complex, multi-vendor UC environments, improve both performance and speed of new UC service project rollouts and minimize expensive, customer-impacting service outages for new and existing UC services.

## About NetScout Systems, Inc.

NetScout Systems, Inc. (NASDAQ:NTCT) is a market leader in application and network performance management solutions that enable enterprise and service provider organizations to assure the quality of the user experience for business and mobile services. NetScout's technology helps these organizations manage service delivery and identify emerging performance problems, helping to quickly resolve issues that cause business disruptions or negatively impact users of information technology.
