NEWS RELEASE

NETSCOUT and Bouygues Telecom Collaborate for the Expansion of New VoLTE Services in France

2017-06-28

WESTFORD, Mass.--(BUSINESS WIRE)--Jun. 28, 2017-- **NETSCOUT SYSTEMS, INC.**, (NASDAQ: NTCT), a leading provider of business assurance, a powerful combination of service assurance, cybersecurity, and business intelligence solutions, today announced its collaboration with Bouygues Telecom on their IP network transformation and the expansion of their Voice-over-LTE (VoLTE) quality management solution supporting the demand and growth around voice, data and video services in France.

The NETSCOUT voice management solution consists of intelligent and non-disruptive system with troubleshooting and Key Performance Indicator (KPI) reporting capabilities. Through NETSCOUT's platform, the Bouygues network operations team can proactively take action to troubleshoot and pinpoint service issues before they impact subscribers.

"With this VoLTE technology expansion, Bouygues Telecom can quickly identify the root cause of service performance issues and irregular behavior throughout its network as well as reduce business risk, improve service performance, and optimize capacity utilization," said Jean-Christophe Reversat, network operation director, Bouygues Telecom.

"NETSCOUT is pleased to expand the voice quality management solution at Bouygues Telecom helping them to provide the best quality of HD voice and video calls over LTE," said John Downing, executive vice president of worldwide sales at NETSCOUT.

About NETSCOUT

Safe Harbor

Forward-looking statements in this release are made pursuant to the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934 and other federal securities laws. Investors are cautioned that statements in this press release, which are not strictly historical statements, including without limitation, the statements related to the benefits of NETSCOUT's voice management solution, constitute forward-looking statements which involve risks and uncertainties. Actual results could differ materially from the forward-looking statements due to known and unknown risk, uncertainties, assumptions and other factors. Such factors include slowdowns or downturns in economic conditions generally and in the market for advanced network and service assurance solutions specifically; the volatile foreign exchange environment; the Company's relationships with strategic partners and resellers; dependence upon broad-based acceptance of the Company's network performance management solutions; the presence of competitors with greater financial resources than ours and their strategic response to our products; our ability to retain key executives and employees; and lower than expected demand for the Company's products and services. For a more detailed description of the risk factors associated with the Company, please refer to the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2017, which is on file with the Securities and Exchange Commission. NETSCOUT assumes no obligation to update any forward-looking information contained in this press release or with respect to the announcements described herein.
