# Burford Capital Announces Further Investments And Reports on Business Progress

***Burford Group Announces Expanded Team; Jonathan Molot Appointed Chief Investment Officer***

Burford Capital Limited ("Burford" or "the Company"), the commercial dispute investor, today is pleased to report on its progress during its first quarter of existence.

Investment Update

Burford has now closed five investments with total capital commitments in excess of $15 million, two of which were previously described in our announcement dated 23 November 2009 and the other three of which are described below.

- Burford has closed a $5 million investment originated from a major US law firm in connection with a pending corporate litigation matter involving alleged breach of contract and fiduciary duty. In the event of recovery, the structure of the investment provides for the upfront and priority repayment of Burford's entire commitment plus 33% of any settlement before judgment or 40% of any judgment if the matter does not settle before judgment. Factual discovery in this matter is largely complete. Although the current trial date in June 2010 is not definite, the matter is expected to be resolved within a 12-18 month period and is a further investment for Burford's short duration portfolio.

- Burford has also closed two investments in international arbitration matters, both of which are already pending before arbitral tribunals. Burford expects to commit approximately $6 million in total between the two investments if both remain outstanding through adjudication, and Burford is entitled to between 40% and 50% of any recovery depending on the amount. If not resolved beforehand, one matter would be expected to have its merits hearing in the second half of 2010 and the other in mid-2011. Following a merits hearing it can take a number of months for an arbitral tribunal to release a decision. Both of these matters are for Burford's core investment portfolio.

Investment Pipeline

Burford continues to see strong interest in its investment proposition from law firms, corporations and others. As expected, the major US law firms are a significant source of potential investments for the Company. Burford Group Limited ("Burford Group"), the Company's Investment Adviser, has informed Burford that it has a substantial and growing pipeline of investment opportunities that it is reviewing and on which it is performing diligence. As expected, Burford Group rejects many more potential investments than it recommends to the Company for investment, and also as expected, larger investment opportunities take longer to review and assess than do investments for Burford's short duration portfolio.
