NEWS RELEASE

# Statement from Pfizer Chairman and CEO Albert Bourla on Testing Positive for COVID-19

9/24/2022

NEW YORK, September 24, 2022 – Pfizer Inc. (NYSE: PFE) – I wanted to let you know that I have tested positive for COVID. I'm feeling well and symptom free. I've not had the new bivalent booster yet, as I was following CDC guidelines to wait three months since my previous COVID case which was back in mid-August. While we've made great progress, the virus is still with us.
