BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

Note 1—Basis of Presentation

These unaudited interim condensed consolidated financial statements include the accounts of Byline Bancorp, Inc., a Delaware corporation (the “Company,” “Byline,” “we,” “us,” “our”), a bank holding company whose principal activity is the ownership and management of its Illinois state chartered subsidiary bank, Byline Bank (the “Bank”), based in Chicago, Illinois.

These unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X as promulgated by the Securities and Exchange Commission (“SEC”). In preparing these financial statements, the Company has evaluated events and transactions subsequent to March 31, 2024 for potential recognition or disclosure. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position and results of operations for the periods presented have been included. Certain information in footnote disclosures normally included in financial statements prepared in accordance with GAAP has been condensed or omitted pursuant to the rules and regulations of the SEC and the accounting standards for interim financial statements. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Consolidated Financial Statements for the years ended December 31, 2023 and 2022.

The Company has one reportable segment. The Company’s chief operating decision makers evaluate the operations of the Company using consolidated information for purposes of allocating resources and assessing performance. Therefore, segments disclosures are currently not required.

In accordance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 855, “Subsequent Events,” the Company’s management has evaluated subsequent events for potential recognition or disclosure through the date of the issuance of these condensed consolidated financial statements. No subsequent events were identified that would have required a change to the condensed consolidated financial statements or disclosure in the notes to the condensed consolidated financial statements.

Note 2—Accounting Pronouncements Recently Adopted or Issued

The following reflect recent accounting pronouncements that have been adopted or are pending adoption by the Company.

Adopted Accounting Pronouncements

Fair Value Measurement (Topic 820) - In June 2022, the FASB issued ASU No. 2022-03, Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions. The guidance in the ASU clarifies that a contractual restriction on the sale of an equity security is not considered part of the unit of account on the equity security and, therefore, is not considered in measuring fair value. The ASU also requires additional disclosures about the restriction. The amendments in this update are effective for fiscal years beginning after December 15, 2023, and interim periods within those fiscal years. The Company evaluated the accounting and disclosure requirements of this update and they did not have a material effect on the consolidated financial statements.

Issued Accounting Pronouncements Pending Adoption

Business Combinations (Topic 805) - In August 2023, the FASB issued ASU 2023-05, Business Combinations—Joint Venture (JV) Formations: Recognition and Initial Measurement. The guidance requires newly-formed JVs to apply a new basis of accounting to all of its contributed net assets, which results in the JV initially measuring its contributed net assets under ASC 805-20, Business Combinations. The new guidance would be applied prospectively and is effective for all newly-formed joint venture entities with a formation date on or after January 1, 2025, with early adoption permitted. The Company is evaluating the accounting and disclosure requirements of this update and the impact of adopting the new guidance on the consolidated financial statements.

Segment Reporting – Improvements to Reportable Segment Disclosures (Topic 280) – In November 2023, the FASB issued ASU 2023-07 to enhance disclosures about significant segment expenses for public entities reporting segment information under Topic 280. It requires that a public entity disclose, on an annual and interim basis, significant expense categories for each reportable segment. Significant expense categories are derived from expenses that are 1) regularly reported to an entity’s chief operating decision-maker (“CODM”), and 2) included in a segment’s reported measure of profit or loss. The disclosures should include an amount for “other segment items,” reflecting the difference between 1) segment revenue less significant segment expenses, and 2) the reportable segment’s profit or loss measures. It requires that a public entity disclose the title and position of the CODM and how the CODM uses the reported measure of profit or loss to assess segment

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

performance and to allocate resources. Further it clarifies that entities with a single reportable segment must disclose both new and existing segment reporting requirements. The amendments are effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Entities must adopt the guidance on a retrospective basis. The Company is evaluating the internal control and disclosure requirements of this update and the impact of adopting the new guidance on the consolidated financial statements.

Income Taxes – Improvements to Income Tax Disclosures (Topic 740) –In December 2023, the FASB issued ASU 2023-09 to provide additional transparency into an entity's income tax disclosures primarily related to the rate reconciliation and income taxes paid information. The standard requires that public business entities disclose, on an annual basis, specific categories in the rate reconciliation and additional information for reconciling items meeting a certain quantitative threshold. The amendments also require that entities disclose on an annual basis: 1) income taxes paid (net of refunds received) disaggregated by federal (national), state, and foreign taxes and 2) the income taxes paid (net of refunds received) disaggregated by individual jurisdictions exceeding 5% of total income taxes paid (net of refunds received). The amendments are effective for public business entities for annual periods beginning after December 15, 2024. The Company is evaluating the accounting and disclosure requirements of this update and the impact of adopting the new guidance on the consolidated financial statements.

Note 3—Acquisition of a Business

On July 1, 2023, the Company acquired all of the outstanding common stock of Inland Bancorp, Inc. ("Inland") and its subsidiaries pursuant to an Agreement and Plan of Merger, dated as of November 30, 2022 (the "Merger Agreement"). Inland was merged with and into Byline. As a result of the merger, Inland's wholly owned subsidiary bank, Inland Bank and Trust, was merged with and into Byline Bank, with Byline Bank as the surviving bank. The acquisition improves the Company's footprint in the Chicagoland market, diversifies its commercial banking business, and strengthens the core deposit base.

In a related but separate transaction, on March 31, 2023, Byline entered into a side letter agreement with the majority shareholder of Inland in which Byline agreed to purchase 2,408,992 shares of Inland common stock. The purchase price was calculated based on the terms of the Merger Agreement. The transaction was completed on June 30, 2023, which resulted in the payment of cash in the amount of \$9.9 million.

At the effective time of the merger (the "Effective Time"), each share of Inland's common stock was converted into the right to receive: (1) 0.19 shares of Byline's common stock, par value \$0.01 per share, and (2) a cash payment in the amount of \$0.68 per share, with cash paid in lieu of any fractional shares. The per share cash consideration was based on the total \$21.2 million divided by the outstanding shares of Inland common stock. Based on the closing price of shares of the Company's common stock of \$18.09, as reported by the New York Stock Exchange, and 5,932,323 shares of common stock issued with respect to the outstanding shares of Inland common stock, the stock consideration was valued at \$107.3 million. Options to acquire 288,200 shares of Inland common stock that were outstanding at the Effective Time were canceled, at the option holders' election, in exchange for a cash payment in accordance with the Merger Agreement of \$424,000, to be paid after the closing date. In addition, the 2,408,992 shares of Inland common stock purchased on June 30, 2023 were canceled as of the effective time of the transaction. The value of the total merger consideration at closing was \$138.9 million. Stock issuance costs were \$299,000.

The transaction resulted in goodwill of \$33.4 million, which is nondeductible for tax purposes, as this acquisition was a nontaxable transaction. Goodwill represents the premium paid over the fair value of the net tangible and intangible assets acquired and reflects related synergies expected from the combined operations.

Merger-related expenses, including acquisition advisory expenses of \$256,000, core system conversion expenses of \$199,000, salaries and employee benefits of \$18,000, and other non-interest expenses of \$16,000 related to the Inland acquisition, are reflected in non-interest expense on the Consolidated Statements of Operations for the three months ended March 31, 2023.

The acquisition of Inland was accounted for using the acquisition method of accounting in accordance with ASC Topic 805. Assets acquired, liabilities assumed, and consideration exchanged were recorded at their respective acquisition date fair values. Determining the fair value of assets and liabilities involves significant judgment regarding methods and assumptions used to calculate estimated fair values. Fair values are preliminary and subject to refinement for up to one year after the closing date of the acquisition as additional information regarding the closing date fair values become available.

The following table presents the fair value and gross contractual amounts receivable of acquired non-credit-deteriorated loans from the Inland acquisition, and their respective expected contractual cash flows as of the acquisition date:

Fair value	\$ 582,831
Gross contractual amounts receivable	699,918
Estimate of contractual cash flows not expected to be collected ⁽¹⁾	4,239
Estimate of contractual cash flows expected to be collected	695,679

(1) Includes interest payments not expected to be collected due to loan prepayments as well as principal and interest payments not expected to be collected due to customer default.

The following table provides the unaudited pro forma information for the results of operations for the three months ended March 31, 2023, as if the acquisition had occurred on January 1, 2023. The pro forma results combine the historical results of Inland into the Company's Consolidated Statements of Operations, including the impact of certain acquisition accounting adjustments, which includes loan discount accretion, intangible assets amortization, deposit premium accretion, fixed assets amortization, and borrowing discount amortization. The pro forma results have been prepared for comparative purposes only and are not necessarily indicative of the results that would have been obtained had the acquisition actually occurred on January 1, 2023. No assumptions have been applied to the pro forma results of operations regarding possible revenue enhancements, provision for credit losses, expense efficiencies or asset dispositions. Recognized acquisition-related expenses and other adjustments related to the timing of expenses, are included in net income in the following table:

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

	For the Three Months Ended March 31, 2023	
Total revenues (net interest income and non-interest income)	\$	107,807
Net income	\$	22,153
Earnings per share—basic	\$	0.52
Earnings per share—diluted	\$	0.51

Revenues and earnings of the acquired company since the acquisition date have not been disclosed as it is not practicable as Inland was merged into the Company and separate financial information is not readily available.

Note 4—Securities

The following tables summarize the amortized cost and fair values of securities available-for-sale and securities held-to-maturity as of the dates shown and the corresponding amounts of gross unrealized gains and losses:

Certain securities have fair values less than amortized cost and, therefore, contain unrealized losses. The Company evaluated the securities which had unrealized losses for potential credit losses and determined there were none. There were 319 securities available-for-sale with unrealized losses at March 31, 2024. There was one security held-to-maturity with unrealized losses at March 31, 2024. There was no allowance for credit losses for held-to-maturity debt securities at March 31, 2024 or December 31, 2023. The evaluation for potential credit losses is based upon factors such as the creditworthiness of the issuers/guarantors, the underlying collateral, if applicable, and the continuing payment performance of the securities.

Management measures expected credit losses on held-to-maturity debt securities on a collective basis by major security types. The Company's held-to-maturity portfolio contains municipal bonds that are typically rated by major rating agencies as 'Aa' or better. The Company uses industry historical credit loss information adjusted for current conditions to establish an allowance for credit losses. Accrued interest receivable on securities available-for-sale and held-to-maturity totaled \$4.9 million and \$4.5 million at March 31, 2024 and December 31, 2023, respectively, and are excluded from the estimate of credit losses.

The Company anticipates full recovery of amortized cost with respect to these securities by maturity. The Company does not intend to sell these securities and it is not more likely than not that the Company will be required to sell them before recovery of their amortized cost basis, which may be at maturity.

There were no proceeds from sales of securities available-for-sale, nor associated gains and losses on sales and calls of securities, for the three months ended March 31, 2024 and 2023, respectively.

Securities posted and pledged as collateral were \$659.9 million and \$464.5 million at March 31, 2024 and December 31, 2023. At March 31, 2024 and December 31, 2023, of those pledged, the carrying amounts of securities pledged as collateral for public fund deposits were \$388.6 million and \$390.3 million, respectively, and for customer repurchase agreements of \$50.2 million and \$47.8 million, respectively. At March 31, 2024, there were \$194.3 million of securities pledged to the Federal Reserve Bank ("FRB"). At December 31, 2023 no securities were pledged to the FRB. At March 31, 2024 and December 31, 2023, there were no securities pledged for advances from the Federal Home Loan Bank. Other securities were pledged for letters of credit and for purposes required or permitted by law. At March 31, 2024 and December 31, 2023, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholders' equity.

Total loans and leases consist of originated loans and leases, purchased credit deteriorated ("PCD") and acquired non-credit-deteriorated loans and leases. At March 31, 2024 and December 31, 2023, total loans and leases included the guaranteed amount of U.S. government guaranteed loans of \$101.0 million and \$93.3 million, respectively. At March 31, 2024 and December 31, 2023, the discount on the unguaranteed portion of U.S. government guaranteed loans was \$25.9 million and \$26.2 million, respectively, which are included in total loans and leases. At March 31, 2024 and December 31, 2023, installment and other loans included overdraft deposits of \$1.2 million and \$754,000, respectively, which were reclassified as loans. At March 31, 2024 and December 31, 2023, loans and leases and loans held for sale pledged as security for borrowings were \$2.1 billion and \$2.2 billion, respectively. Accrued interest on loans and leases were \$37.8 million and \$38.9 million as of March 31, 2024 and December 31, 2023, respectively, and are included in the accrued interest receivable and other assets line item on the Condensed Consolidated Statement of Financial Condition.

The minimum annual lease payments for lease financing receivables as of March 31, 2024 are summarized as follows:

	Minimum Lease Payments
2024	\$ 164,051
2025	202,138
2026	154,408
2027	96,119
2028	43,021
Thereafter	6,603
Total	<u>\$ 666,340</u>

Originated loans and leases represent originations excluding loans initially acquired in a business combination. However, once an acquired loan reaches its maturity date, and is re-underwritten and renewed, it is internally classified as an originated loan. PCD loans are those acquired from a business combination with evidence of credit quality deterioration and are accounted for under ASC Topic 326. Acquired non-credit-deteriorated loans and leases represent loans and leases acquired with an outstanding balance from a business combination without more than insignificant evidence of credit quality deterioration and are accounted for under ASC Topic 310-20. The following tables summarize the balances for each respective loan and lease category as of March 31, 2024 and December 31, 2023:

	Originated	Purchased Credit Deteriorated	Acquired Non-Credit- Deteriorated	Total
March 31, 2024				
Commercial real estate	\$ 1,879,149	\$ 117,460	\$ 271,720	\$ 2,268,329

Installment and other	179	166	170	156
Lease financing receivables	427	426	628	627
Total acquired non-credit-deteriorated loans and leases	<u>\$ 696,214</u>	<u>\$ 676,127</u>	<u>\$ 723,692</u>	<u>\$ 692,028</u>

The Company hedges interest rates on certain loans using interest rate swaps through which the Company pays variable amounts and receives fixed amounts. Refer to Note 16—Derivative Instruments and Hedging Activities for additional discussion.

Allowance for Credit Losses

Loans and leases considered for inclusion in the allowance for credit losses include acquired non-credit-deteriorated loans and leases, purchased credit deteriorated loans, and originated loans and leases.

The Bank's credit risk rating methodology assigns risk ratings from 1 to 10, where a higher rating represents higher risk. Risk ratings for all loans of \$1.0 million or more are reviewed annually. The risk rating categories are described by the following groupings:

Pass—1-4, risk levels of borrowers and guarantors that offer a minimal to an acceptable level of risk.

Watch—5, credit exposure that presents higher than average risk and warrants greater than routine attention.

Special Mention—6, potential weaknesses that if left uncorrected may result in deterioration of the repayment prospects.

Substandard Accrual—7, weaknesses in cash flow and collateral coverage resulting in a distinct possibility of losses if not corrected. Used in limited cases, where the borrower is current on payments and an agreed plan for credit remediation.

Substandard Non-Accrual—8, well-defined weakness or weaknesses in cash flow and collateral coverage resulting in the distinct possibility of losses if not corrected.

Doubtful—9, weaknesses inherent in substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

Loss—10, is considered uncollectible and of such little value that its continuance as a realizable asset is not warranted.

Revolving loans that are converted to term loans are treated as new originations and are presented by year of origination. Generally, existing term loans that are re-underwritten are reflected in the table in the year of renewal.

The following tables summarize the risk rating categories of the loans and leases considered for inclusion in the allowance for credit losses - loans and leases calculation, as of March 31, 2024 and December 31, 2023:

	Term loans amortized cost by origination year						Revolving	Total

Total non-accrual loans without an allowance included \$1.6 million of commercial real estate loans, \$3.6 million of residential real estate loans, and \$2.3 million of commercial and industrial loans, as of December 31, 2023. The Company recognized \$970,000 of interest income on non-accrual loans and leases for the three months ended March 31, 2023.

The following table summarize the balance and activity within the allowance for credit losses - loans and leases, the components of the allowance for credit losses - loans and leases by loans and leases individually and collectively evaluated for impairment, and corresponding loan and lease balances by type for the three months ended March 31, 2024 are as follows:

March 31, 2024	Commercial Real Estate	Residential Real Estate	Construction, Land Development, and Other Land	Commercial and Industrial	Installment and Other	Lease Financing Receivables	Total

Collectively evaluated for impairment	18,436	2,679	2,300	37,331	25	7,676	68,447
Total allowance for credit losses - loans and leases	<u>\$ 24,738</u>	<u>\$ 2,679</u>	<u>\$ 3,498</u>	<u>\$ 51,849</u>	<u>\$ 25</u>	<u>\$ 7,676</u>	<u>\$ 90,465</u>
Loans and leases ending balance:							
Individually evaluated for impairment	\$ 31,622	\$ —	\$ 5,541	\$ 34,245	\$ —	\$ —	\$ 71,408
Collectively evaluated for impairment	1,897,762	499,336	441,567	2,049,560	1,822	553,877	5,443,924
Total loans and leases	<u>\$ 1,929,384</u>	<u>\$ 499,336</u>	<u>\$ 447,108</u>	<u>\$ 2,083,805</u>	<u>\$ 1,822</u>	<u>\$ 553,877</u>	<u>\$ 5,515,332</u>

The Company increased the allowance for credit losses - loans and leases by \$680,000 and \$8.5 million for the three months ended March 31, 2024 and 2023, respectively. For loans individually evaluated for impairment, the Company decreased allowance for credit losses - loans and leases by \$5.6 million for the three months ended March 31, 2024, and increased the allowance for loans individually evaluated by \$6.7 million for the three months ended March 31, 2023. For loans and leases collectively evaluated for impairment, the Company increased the allowance by \$6.2 million and \$1.9 million for the three months ended March 31, 2024 and 2023, respectively. The change in allowance for credit losses - loans and leases collectively evaluated for impairment was mainly due to changes in expected losses driven by macro-economic factors, as well as growth in the loan and lease portfolio and through acquisition.

There were no borrowers receiving loan modifications during the three months ended March 31, 2024. The following table presents loans with modified terms as of March 31, 2023:

March 31, 2023	Payment Delay	Term Modification	Combination Term Modification and Interest Rate Reduction	Total Modified by Class	% of Class of Loans and Leases
Commercial and industrial	\$ 9,405	\$ 40,420	\$ 395	\$ 50,220	2.4%
Total modified loans	<u>\$ 9,405</u>	<u>\$ 40,420</u>	<u>\$ 395</u>	<u>\$ 50,220</u>	0.9%

Loans reflected as having a payment delay included a general adjustment in loan terms similar to those of pass-rated credits. Loans having term modifications included extension of term as a result of a new borrower structure and other miscellaneous term adjustments. Loans having a combination of term modification and interest rate reduction reflect a longer amortization period and a reduced weighted average contractual rate from 8.85% to 7.01%.

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

The following table presents the amortized cost basis of loans that had a payment default as of March 31, 2024 and were modified in the twelve months prior to default.

March 31, 2024	Payment Delay	Term Modification	Combination Term Modification and Interest Rate Reduction	Total Modified by Class	% of Class of Loans and Leases
Commercial real estate	\$ —	\$ 2,842	\$ —	\$ 2,842	0.13%
Commercial and industrial	43	—	353	396	0.02%
Total loans and leases	<u>\$ 43</u>	<u>\$ 2,842</u>	<u>\$ 353</u>	<u>\$ 3,238</u>	0.05%

As of December 31, 2023, the amortized cost of commercial and industrial loans that had a payment default and were modified in the twelve months prior to default was \$406,000, which represented 0.02% of outstanding commercial and industrial loans.

Modified loans are either collectively assessed based on portfolio risk segment and risk rating or individually assessed for loans exceeding \$500,000. Upon the Company's determination that a modified loan has subsequently been deemed uncollectible, the loan (or a portion of the loan) is written off. Therefore, the amortized cost basis of the loan is reduced by the uncollectible amount and the allowance for credit losses is adjusted by the same amount.

The following table presents the amortized cost basis of collateral-dependent loans and leases, which are individually evaluated to determine expected credit losses as of March 31, 2024 and December 31, 2023:

March 31, 2024	Commercial Construction	Non-owner Occupied Commercial	Owner-Occupied Commercial	Multi-Family	Single Family Residence (1st Lien)	Single Family Residence (2nd Lien)	Business Assets	Total
Commercial real estate	\$ —	\$ 11,590	\$ 29,188	\$ —	\$ —	\$ —	\$ —	\$ 40,778
Residential real estate	—	—	—	2,792	1,866	—	—	4,658
Commercial and industrial	—	—	—	—	—	—	39,889	39,889
Total	<u>\$ —</u>	<u>\$ 11,590</u>	<u>\$ 29,188</u>	<u>\$ 2,792</u>	<u>\$ 1,866</u>	<u>\$ —</u>	<u>\$ 39,889</u>	<u>\$ 85,325</u>

December 31, 2023	Commercial Construction	Non-owner Occupied Commercial	Owner-Occupied Commercial	Multi-Family	Single Family Residence (1st Lien)	Single Family Residence (2nd Lien)	Business Assets	Total
Commercial real estate	\$ —	\$ 28,767	\$ 35,572	\$ —	\$ —	\$ —	\$ —	\$ 64,339

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

Note 6—Servicing Assets

Activity for servicing assets and the related changes in fair value for the three months ended March 31, 2024 and 2023 was as follows:

	Three Months Ended March 31,	
	2024	2023
Beginning balance	\$ 19,844	\$ 19,172
Additions, net	1,851	1,116
Changes in fair value	(703)	656
Ending balance	<u>\$ 20,992</u>	<u>\$ 20,944</u>

Loans serviced for others are not included in the Condensed Consolidated Statements of Financial Condition. The unpaid principal balances of these loans serviced for others as of March 31, 2024 and December 31, 2023 were as follows:

	March 31, 2024	December 31, 2023
Loan portfolios serviced for:		
SBA guaranteed loans	\$ 1,524,421	\$ 1,530,401
USDA guaranteed loans	207,701	197,942
Total	<u>\$ 1,732,122</u>	<u>\$ 1,728,343</u>

Loan servicing revenue totaled \$3.4 million for each of the three months ended March 31, 2024 and 2023.

Loan servicing asset revaluation, which represents the changes in fair value of servicing assets, resulted in a downward valuation adjustment of \$703,000 and an upward valuation of \$656,000 for the three months ended March 31, 2024 and 2023, respectively.

The fair value of servicing rights is highly sensitive to changes in underlying assumptions. Changes in secondary market premiums and prepayment speed assumptions have the most significant impact on the fair value of servicing rights. Generally, as interest rates rise on variable rate loans, loan prepayments increase due to an increase in refinance activity, which may result in a decrease in the fair value of servicing assets. Measurement of fair value is limited to the conditions existing and the assumptions used as of a particular point in time, and those assumptions may change over time. Refer to Note 15—Fair Value Measurement for further details.

Note 7—Other Real Estate Owned

Other real estate owned ("OREO") is included in accrued interest receivable and other assets in the Company's Condensed Consolidated Statements of Financial Condition. The following table presents the change in OREO for the three months ended March 31, 2024 and 2023:

	Three Months Ended March 31,	
	2024	2023
Beginning balance	\$ 1,200	\$ 4,717
Net additions to OREO	5	55
Proceeds from sales of OREO	(402)	(764)
Gains (losses) on sales of OREO	(18)	35
Valuation adjustments	—	(331)
Ending balance	<u>\$ 785</u>	<u>\$ 3,712</u>

At March 31, 2024, and December 31, 2023, the balance of real estate owned did not include any foreclosed residential real estate properties recorded as a result of obtaining physical possession of the property.

At March 31, 2024, and December 31, 2023, there was a \$27,000 of consumer mortgage loan secured by residential real estate properties in foreclosure.

There were no internally financed sales of OREO for the three months ended March 31, 2024 or 2023.

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

Note 8—Leases

The Company enters into leases in the normal course of business primarily for its banking facilities and branches. The Company's operating leases have varying maturity dates through year end 2036, some of which include renewal or termination options to extend the lease. In addition, the Company leases or subleases real estate to third parties. The Company includes lease extension and termination options in the lease term if, after considering relevant economic factors, it is reasonably certain the Company will exercise the option. In addition, the Company has elected to account for any non-lease components in its real estate leases as part of the associated lease component. The Company has also elected not to recognize leases with original lease terms of 12 months or less ("short-term leases") on the Company's Condensed Consolidated Statements of Financial Condition.

Leases are classified at the lease commencement date. Lease expense for operating leases and short-term leases is recognized on a straight-line basis over the lease term. Right-of-use assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term.

The following table summarizes the amount and balance sheet line item for our operating lease right-of-use asset and liability as of the periods indicated:

	Balance Sheet Line Item	March 31, 2024	December 31, 2023
Operating lease right-of-use asset	Accrued interest receivable and other assets	\$ 10,352	\$ 12,474
Operating lease liability	Accrued interest payable and other liabilities	12,205	14,268

The Company uses its incremental borrowing rate at lease commencement to calculate the present value of lease payments when the rate implicit in a lease is not known. The Company's incremental borrowing rate is based on the Federal Home Loan Bank regular advance rate, adjusted for the lease term and other factors. At March 31, 2024, the weighted average discount rate of operating leases was 2.75% and the weighted average remaining life of operating leases was 5.0 years, compared to 2.90% and 6.1 years as of December 31, 2023.

The following table presents components of total lease costs included as a component of occupancy expense on the Condensed Consolidated Statements of Operations for the following periods:

	Three Months Ended March 31,	
	2024	2023
Operating lease cost	\$ 727	\$ 623
Short-term lease cost	87	69
Variable lease cost	423	412
Less: Sublease income	(130)	(156)
Total lease cost, net	<u>\$ 1,107</u>	<u>\$ 948</u>

Operating cash flows paid for operating lease amounts included in the measure of lease liabilities were \$953,000 and \$855,000 for the three months ended March 31, 2024 and 2023, respectively.

The Company recorded \$422,000 and \$313,000 of right-of-use lease assets in exchange for operating lease liabilities for the three months ended March 31, 2024 and 2023, respectively.

During the quarter ended March 31, 2024, the Company recorded \$194,000 of impairment related to two branch facilities to be closed at the end of the second quarter of 2024. Impairments were recognized on operating lease right-of-use assets and are reflected in other non-interest expense.

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

The future minimum lease payments for operating leases, subsequent to March 31, 2024, as recorded on the Condensed Consolidated Statements of Financial Condition, are summarized as follows:

	Operating Lease Commitments
2024	\$ 2,906
2025	3,266
2026	2,359
2027	1,313
2028	986
Thereafter	2,529
Total undiscounted lease payments	13,359
Less: Imputed interest	(1,154)
Net lease liabilities	<u>\$ 12,205</u>

The total amount of minimum rentals to be received in the future on these subleases is approximately \$1.0 million, and the leases have contractual lives extending through 2028. In addition to the above required lease payments, the Company has contractual obligations related primarily to information technology contracts and other maintenance contracts.

Note 9—Goodwill, Core Deposit Intangible and Other Intangible Assets

The following tables summarize the changes in the Company's goodwill, core deposit intangible assets, and customer relationship intangible assets for the three months ended March 31, 2024 and 2023:

	For the Three Months Ended March 31,					
	2024			2023		
	Goodwill	Core Deposit Intangible	Customer Relationship Intangible	Goodwill	Core Deposit Intangible	Customer Relationship Intangible

Amortization	—	(1,278)	(67)	—	(1,388)	(67)
Ending balance	<u>\$ 181,705</u>	<u>\$ 19,115</u>	<u>\$ 1,313</u>	<u>\$ 148,353</u>	<u>\$ 7,498</u>	<u>\$ 1,581</u>
Accumulated amortization	N/A	\$ 53,601	\$ 1,903	N/A	\$ 47,968	\$ 1,635
Weighted average remaining amortization period	N/A	8.1 Years	4.9 Years	N/A	4.5 Years	5.9 Years

The following table presents the estimated amortization expense for core deposit intangible and customer relationship intangible assets remaining at March 31, 2024:

	Estimated Amortization
2024	\$ 4,035
2025	4,473
2026	3,566
2027	2,676
2028	2,101
Thereafter	3,577
Total	<u>\$ 20,428</u>

Note 10—Income Taxes

The Company uses an estimated annual effective tax rate method in computing its interim tax provision. This effective tax rate is based on forecasted annual pre-tax income, permanent tax differences and statutory tax rates.

The effective tax rate for the three months ended March 31, 2024 and 2023 was 25.0% and 25.7%, respectively. The Company recorded discrete income tax benefit of \$501,000 and \$134,000 related to the exercise of stock options and vesting of restricted shares for the three months ended March 31, 2024 and 2023, respectively.

Net deferred tax assets increased to \$53.0 million at March 31, 2024 compared to \$50.1 million at December 31, 2023, primarily as a result of the change in unrealized losses on available-for-sale securities.

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

Note 11—Deposits

The composition of deposits was as follows as of March 31, 2024 and December 31, 2023:

	March 31, 2024	December 31, 2023
Non-interest-bearing demand deposits	\$ 1,851,727	\$ 1,905,876
Interest-bearing checking accounts	687,142	577,609
Money market demand accounts	2,263,819	2,266,030
Other savings	524,890	542,532
Time deposits (below \$250,000)	1,594,290	1,520,082
Time deposits (\$250,000 and above)	428,334	364,870
Total deposits	<u>\$ 7,350,202</u>	<u>\$ 7,176,999</u>

There were \$436.3 million and \$480.0 million of brokered deposits included in time deposits below \$250,000 at March 31, 2024 and December 31, 2023, respectively.

At March 31, 2024, the scheduled maturities of time deposits were:

	Scheduled Maturities
2024	\$ 1,653,993
2025	354,598
2026	8,126
2027	4,689
2028	1,092
Thereafter	126
Total	<u>\$ 2,022,624</u>

The Company hedges interest rates on certain money market accounts using interest rate swaps through which the Company receives variable amounts and pays fixed amounts. Refer to Note 16—Derivative Instruments and Hedging Activities for additional discussion.

Note 12—Other Borrowings

The following is a summary of the Company's other borrowings as of the dates presented:

	March 31, 2024	December 31, 2023
Federal Home Loan Bank advances	\$ 470,000	\$ 325,000
Bank Term Funding Program	200,000	—
Securities sold under agreements to repurchase	34,506	40,607
Term Loan	16,667	18,333
Line of credit	—	11,250
Total	<u>\$ 721,173</u>	<u>\$ 395,190</u>

Byline Bank has the capacity to borrow funds from the discount window of the Federal Reserve System. As of March 31, 2024 and December 31, 2023, there were no outstanding advances under the Federal Reserve Bank discount window line. The Company pledges loans and leases as collateral for the FRB discount window borrowing. Refer to Note 5—Loan and Lease Receivables and Allowance for Credit Losses for additional discussion.

On January 17, 2024, the Company entered into a Letter Agreement with the Federal Reserve Bank of Chicago that allows the Bank to access the Bank Term Funding Program ("BTFP"). On January 22, 2024, the Company opened an advance of \$200.0 million from the FRB as part of the BTFP. Under the terms of the BTFP, the Bank pledges securities to FBR Chicago as collateral for available advances. The advance carries a fixed interest rate of 4.91%, and matures on January 22, 2025. Advances under the BTFP are prepayable at any time without a prepayment penalty.

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

At March 31, 2024, fixed-rate Federal Home Loan Bank ("FHLB") advances totaled \$220.0 million, with an interest rate of 5.45% and matured in April 2024. Total variable rate advances were \$250.0 million at March 31, 2024, with an interest rate of 5.49% that may reset daily and a maturity date of June 2024. Advances from the FHLB are collateralized by residential real estate loans, commercial real estate loans, and securities. The Bank's maximum borrowing capacity is limited to 35% of total assets. Required investment in FHLB stock is \$4.50 for every \$100 in advances thereafter.

Securities sold under agreements to repurchase represent a demand deposit product offered to customers that sweep balances in excess of the FDIC insurance limit into overnight repurchase agreements. The Company pledges securities as collateral for the repurchase agreements. Refer to Note 4—Securities for additional discussion.

On October 13, 2016, the Company entered into a \$30.0 million revolving credit agreement with a correspondent bank. Through subsequent amendments, the revolving credit agreement was reduced to \$15.0 million. The amended revolving line of credit bears interest at either the Secured Overnight Financing Rate ("SOFR") plus 205 basis points or Prime Rate minus 75 basis points, not to be less than 2.00%, based on the Company's election, which is required to be communicated at least three business days prior to the commencement of an interest period. If the Company fails to provide timely notification, the interest rate will be Prime Rate minus 75 basis points. On May 26, 2023, the Company amended the agreement with the lender, which provides for: i) the renewal of the revolving line-of-credit facility of up to \$15.0 million, extending its maturity date to May 26, 2024; and ii) a new term loan facility in the principal amount of up to \$20.0 million with a maturity date of May 26, 2026, each subject to the existing Negative Pledge Agreement dated October 11, 2018, as amended.

At March 31, 2024, the variable term loan had an interest rate of 7.62% and an outstanding balance of \$16.7 million. At December 31, 2023, the variable term loan had an interest rate of 7.64% and an outstanding balance of \$18.3 million. At March 31, 2024, the line of credit had a no outstanding balance. At December 31, 2023, the line of credit had a \$11.3 million outstanding balance and an interest rate of 7.39%

The following table presents short-term credit lines available for use as of the dates presented:

	March 31, 2024	December 31, 2023
Federal Home Loan Bank line	\$ 2,614,959	\$ 2,781,747
Federal Reserve Bank of Chicago discount window line	841,104	866,490
Available federal funds lines	135,000	123,750
Bank Term Funding Program	27,715	—

The Company hedges interest rates on borrowed funds using interest rate swaps through which the Company receives variable amounts and pays fixed amounts. Refer to Note 16—Derivative Instruments and Hedging Activities for additional discussion.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

Note 13—Subordinated Notes and Junior Subordinated Debentures

In 2020, the Company issued \$75.0 million in fixed-to-floating subordinated notes that mature on July 1, 2030. The subordinated notes bear a fixed interest rate of 6.00% until July 1, 2025 and a floating interest rate equal to a benchmark rate, which is expected to be the three-month SOFR, plus 588 basis points thereafter until maturity. The transaction resulted in debt issuance costs of approximately \$1.7 million that is being amortized over 10 years.

As of March 31, 2024, the net liability outstanding of the subordinated notes was \$73.9 million. The Company may, at its option, redeem the notes, in whole or in part, on a semi-annual basis beginning on July 1, 2025, subject to obtaining the prior approval of the Federal Reserve to the extent such approval is then required. The subordinated notes qualify as Tier 2 capital for regulatory capital purposes.

At March 31, 2024 and December 31, 2023, the Company's junior subordinated debentures by issuance were as follows:

Name of Trust	Stated Maturity	Aggregate Principal Amount		Contractual Rate March 31, 2024	Interest Rate Spread ⁽¹⁾
		March 31, 2024	December 31, 2023		
Metropolitan Statutory Trust I	March 17, 2034	\$ 35,000	\$ 35,000	8.38%	SOFR + spread adjustment + 2.79%
First Evanston Bancorp Trust I	March 15, 2035	10,000	10,000	7.37%	SOFR + spread adjustment + 1.78%
AmeriMark Capital Trust I	April 23, 2034	5,000	5,000	8.33%	SOFR + spread adjustment + 2.75%
Inland Bancorp Trust II	September 15, 2035	10,000	10,000	7.19%	SOFR + spread adjustment + 1.60%
Inland Bancorp Trust III	December 15, 2036	10,000	10,000	7.24%	SOFR + spread adjustment + 1.65%
Inland Bancorp Trust IV	June 6, 2037	7,000	7,000	7.21%	SOFR + spread adjustment + 1.62%
Inland Bancorp Trust V	September 15, 2037	10,000	10,000	7.01%	SOFR + spread adjustment + 1.42%
Total liability, at par		87,000	87,000		
Discount		(16,433)	(16,548)		
Total liability, at carrying value		\$ 70,567	\$ 70,452		

(1) SOFR is three month SOFR and the spread adjustment is 0.26161%

In 2004, the Company's predecessor, Metropolitan Bank Group, Inc., issued \$35.0 million floating rate junior subordinated debentures to Metropolitan Statutory Trust I, which was formed for the issuance of trust preferred securities. Beginning on September 14, 2023, the interest rate reset to the three-month SOFR plus a tenor spread adjustment of 0.26161% plus 2.79% (8.38% and 8.43% at March 31, 2024 and December 31, 2023, respectively). Interest is paid on a quarterly basis. The Company has the right to redeem the debentures, in whole or in part, on any interest payment date on or after March 2009.

As part of the First Evanston acquisition, the Company assumed the obligations to First Evanston Bancorp Trust I of \$10.0 million in principal amount, which was formed for the issuance of trust preferred securities. Beginning on September 15, 2023, the interest rate reset to the three-month SOFR plus a tenor spread adjustment of 0.26161% plus 1.78% (7.37% and 7.43% at March 31, 2024 and December 31, 2023, respectively), which is in effect until the debentures mature in 2035. Interest is paid on a quarterly basis. The Company has the right to redeem the debentures, in whole or in part, on any interest payment date on or after March 2010. The Company has the option to defer interest payments on the debentures from time to time for a period not to exceed five consecutive years.

As part of the Inland acquisition, the Company assumed the obligations to several trust preferred securities. Refer to Note 3—Acquisition of a Business for further details. Interest rates are calculated as the three-month SOFR plus a tenor spread adjustment of 0.26161% plus negotiated additional basis points. Refer to table above for contractual rates and interest rate spread calculation. Interest is paid on a quarterly basis.

The Trusts are not consolidated with the Company. Accordingly, the Company reports the subordinated debentures held by the Trusts as liabilities. The Company owns all of the common securities of each trust. The junior subordinated debentures qualify, and are treated as, Tier 1 regulatory capital of the Company subject to regulatory limitations. The trust preferred securities issued by each trust rank equally with the common securities in right of payment, except that if an event of default under the indenture governing the notes has occurred and is continuing, the preferred securities will rank senior to the common securities in right of payment.

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

Note 14—Commitments and Contingent Liabilities

Legal contingencies—In the ordinary course of business, the Company and Bank have various outstanding commitments and contingent liabilities that are not recognized in the accompanying consolidated financial statements. In addition, the Company may be a defendant in certain claims and legal actions arising in the ordinary course of business. In the opinion of management, after consultation with legal counsel, the ultimate disposition of these matters is currently not expected to have a material adverse effect on the Company's Consolidated Financial Statements.

Operating lease commitments—Refer to Note 8—Leases for discussion of operating lease commitments.

Commitments to extend credit—The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the Condensed Consolidated Statements of Financial Condition. The contractual or notional amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The Company's exposure to credit loss in the event of non-performance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the contractual or notional amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for funded instruments. The Company does not anticipate any material losses as a result of the commitments and letters of credit.

The following table summarizes the contract or notional amount of outstanding loan and lease commitments at March 31, 2024 and December 31, 2023:

	March 31, 2024			December 31, 2023		
	Fixed Rate	Variable Rate	Total	Fixed Rate	Variable Rate	Total
Commitments to extend credit	\$ 258,617	\$ 1,954,869	\$ 2,213,486	\$ 269,325	\$ 2,013,819	\$ 2,283,144
Letters of credit	640	65,808	66,448	612	67,443	68,055
Total	<u>\$ 259,257</u>	<u>\$ 2,020,677</u>	<u>\$ 2,279,934</u>	<u>\$ 269,937</u>	<u>\$ 2,081,262</u>	<u>\$ 2,351,199</u>

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the counterparty. Collateral is primarily obtained in the form of commercial and residential real estate (including income producing commercial properties).

Letters of credit are conditional commitments issued by the Company to guarantee to a third-party the performance of a customer. Those guarantees are primarily issued to support public and private borrowing arrangements, bond financing and similar transactions. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers.

Commitments to make loans are generally made for periods of 90 days or less. The fixed rate loan commitments have interest rates ranging from 1.00% to 15.00% and maturities up to 2052. Variable rate loan commitments have interest rates ranging from 4.00% to 18.50% and maturities up to 2053.

Note 15—Fair Value Measurement

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. In addition, the Company has the ability to obtain fair values for markets that are not accessible.

These types of inputs create the following fair value hierarchy:

Level 1—Quoted prices in active markets for identical assets or liabilities.

Level 2—Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

Level 3—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the asset or liability. Unobservable inputs are used to measure fair value to the extent that observable inputs are not available. The Company's own data used to develop unobservable inputs may be adjusted for market considerations when reasonably available.

The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to assets and liabilities.

The Company used the following methods and significant assumptions to estimate fair value for certain assets measured and carried at fair value on a recurring basis:

Securities available-for-sale—The Company obtains fair value measurements from an independent pricing service. Management reviews the procedures used by the third party, including significant inputs used in the fair value calculations. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions, among other things. When market quotes are not readily accessible or available, alternative approaches are utilized, such as matrix or model pricing.

The Company's methodology for pricing non-rated bonds focuses on three distinct inputs: equivalent rating, yield and other pricing terms. To determine the rating for a given non-rated municipal bond, the Company references a publicly issued bond by the same issuer if available as well as other additional key metrics to support the credit worthiness. Typically, pricing for these types of bonds would require a higher yield than a similar rated bond from the same issuer. A reduction in price is applied to the rating obtained from the comparable bond, as the Company believes if liquidated, a non-rated bond would be valued less than a similar bond with a verifiable rating. The reduction applied by the Company is one notch lower (i.e. a "AA" rating for a comparable bond would be reduced to "AA-" for the Company's valuation). In 2024 and 2023, all of the ratings derived by the Company were "BBB-" or better with and without comparable bond proxies. All of the ratings of non-Agency backed bonds derived by the Company were investment grade. The fair value measurement of municipal bonds is sensitive to the rating input, as a higher rating typically results in an increased valuation. The remaining pricing inputs used in the bond valuation are observable. Based on the rating determined, the Company obtains a corresponding current market yield curve available to market participants. Other terms including coupon, maturity date, redemption price, number of coupon payments per year, and accrual method are obtained from the individual bond term sheets.

Equity and other securities—The Company utilizes the same fair value measurement methodology for equity and other securities as detailed in the securities available-sale portfolio above.

Servicing assets—Fair value is based on a loan-by-loan basis taking into consideration the original term to maturity, the current age of the loan and the remaining term to maturity. The valuation methodology utilized for the servicing assets begins with generating estimated future cash flows for each servicing asset, based on their unique characteristics and market-based assumptions for prepayment speeds and costs to service. The present value of the future cash flows are then calculated utilizing market-based discount rate assumptions.

Derivative instruments—Interest rate derivatives are valued by a third party, using models that primarily use market observable inputs, such as yield curves, and are validated by comparison with valuations provided by the respective counterparties. Derivative financial instruments are included in accrued interest receivable and other assets, and accrued interest payable and other liabilities in the Condensed Consolidated Statements of Financial Condition.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

The following table presents additional information about financial assets measured at fair value on recurring basis for which the Company used significant unobservable inputs (Level 3):

	Three Months Ended March 31,			
	2024	2023	2024	2023
	Investment Securities		Servicing Assets	
Balance, beginning of period	\$ 281	\$ 666	\$ 19,844	\$ 19,172
Additions, net	—	—	1,851	1,116
Change in fair value	4	(36)	(703)	656
Balance, end of period	<u>\$ 285</u>	<u>\$ 630</u>	<u>\$ 20,992</u>	<u>\$ 20,944</u>

The Company did not have any transfers to or from Level 3 of the fair value hierarchy during the three months ended March 31, 2024 and 2023.

The following table presents additional information about the unobservable inputs used in the fair value measurements on recurring basis that were categorized within Level 3 of the fair value hierarchy as of March 31, 2024:

Financial Instruments	Valuation Technique	Unobservable Inputs	Range of Inputs	Weighted Average Range	Impact to Valuation from an Increased or Higher Input Value
Single issuer trust preferred	Discounted cash flow	Discount rate	7.9%	7.9%	Decrease
Servicing assets	Discounted cash flow	Prepayment speeds	0.0% - 38.9%	15.6%	Decrease
		Discount rate	0.0% - 52.8%	10.6%	Decrease
		Expected weighted average loan life	0.0 - 9.6 Years	3.7 Years	Increase

The Company used the following methods and significant assumptions to estimate fair value for certain assets measured and carried at fair value on a non-recurring basis:

Individually Evaluated Loans—The Company individually evaluates loans that do not share similar risk characteristics, including non-accrual loans. Specific allowance for credit losses is measured based on a discounted cash flow of ongoing operations, discounted at the loan's original effective interest rate, or a calculation of the fair value of the underlying collateral less estimated selling costs. Valuations of individually assessed loans that are collateral dependent are supported by third party appraisals in accordance with the Bank's credit policy. Accordingly, individually evaluated loans are classified as Level 3.

Assets held for sale—Assets held for sale consist of former branch locations and real estate previously purchased for expansion. Assets are considered held for sale when management has approved to sell the assets following a branch closure or other events. The properties are being actively marketed and transferred to assets held for sale based on the lower of carrying value or its fair value, less estimated costs to sell. The Company records assets held for sale on the Condensed Consolidated Statements of Financial Condition within accrued interest receivable and other assets.

Other real estate owned—Certain assets held within other real estate owned represent real estate or other collateral that has been adjusted to its estimated fair value, less cost to sell, as a result of transferring from the loan portfolio at the time of foreclosure or repossession and based on management's periodic impairment evaluation. From time to time, non-recurring fair value adjustments to other real estate owned are recorded to reflect partial write-downs based on an observable market price or current appraised value of property.

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

Adjustments to fair value based on such non-recurring transactions generally result from the application of lower-of-cost-or-market accounting or write-downs of individual assets due to impairment. The following tables summarize the Company's assets that were measured at fair value on a non-recurring basis, as of March 31, 2024 and December 31, 2023:

March 31, 2024	Fair Value	Fair Value Measurements Using			
		Level 1	Level 2	Level 3	
Non-recurring					
Individually evaluated loans					
Commercial real estate	\$ 31,873	\$ —	\$ —	\$ 31,873	
Residential real estate	4,658	—	—	4,658	
Commercial and industrial	27,117	—	—	27,117	
Assets held for sale	3,722	—	—	3,722	
Other real estate owned	785	—	—	785	

December 31, 2023	Fair Value	Fair Value Measurements Using		
		Level 1	Level 2	Level 3
Non-recurring				
Individually evaluated loans				
Commercial real estate	\$ 51,978	\$ —	\$ —	\$ 51,978
Residential real estate	3,593	—	—	3,593
Construction, land development, and other land	813	—	—	813
Commercial and industrial	29,869	—	—	29,869
Assets held for sale	4,484	—	—	4,484
Other real estate owned	1,200	—	—	1,200

The following methods and assumptions were used by the Company in estimating fair values of other assets and liabilities for disclosure purposes:

Cash and cash equivalents and interest bearing deposits with other banks—For these short-term instruments, the carrying amount is a reasonable estimate of fair value.

Securities held-to-maturity—The Company obtains fair value measurements from an independent pricing service. Management reviews the procedures used by the third party, including significant inputs used in the fair value calculations. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions, among other things. When market quotes are not readily accessible or available, alternative approaches are utilized, such as matrix or model pricing.

Restricted stock—The fair value has been determined to approximate cost.

Loans held for sale—The fair value of loans held for sale are based on quoted market prices, where available, and determined by discounted estimated cash flows using interest rates approximating the Company's current origination rates for similar loans adjusted to reflect the inherent credit risk.

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

Loan and lease receivables, net—For certain variable rate loans that reprice frequently and with no significant changes in credit risk, fair value is estimated at carrying value. The fair value of other types of loans is estimated using an exit price notion. It is estimated by discounting future cash flows, using current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities.

Deposits—The fair value of demand deposits, savings accounts, and certain money market deposits is the amount payable on demand at the reporting date. The fair value of fixed-maturity certificates of deposit is estimated by discounting future cash flows, using rates currently offered for deposits of similar remaining maturities.

Federal Home Loan Bank advances—The fair value of FHLB advances is estimated by discounting the agreements based on maturities using rates currently offered for FHLB advances of similar remaining maturities adjusted for prepayment penalties that would be incurred if the borrowings were paid off on the measurement date.

Securities sold under agreements to repurchase—The carrying amount approximates fair value due to maturities of less than ninety days.

Term Loan—The carrying amount approximates fair value given the variable interest rate and repricing of interest.

Bank Term Funding Program—The carrying amount approximates fair value given the short-term nature of the instrument.

Line of credit—The carrying amount approximates fair value given the variable interest rate and repricing of interest.

Subordinated notes—The fair value is based on available market prices.

Junior subordinated debentures—The fair value of junior subordinated debentures, in the form of trust preferred securities, is determined using rates currently available to the Company for debt with similar terms and remaining maturities.

Accrued interest receivable and payable—The carrying amount approximates fair value.

Commitments to extend credit and letters of credit—The fair values of these off-balance sheet commitments to extend credit and commercial and letters of credit are not considered practicable to estimate because of the lack of quoted market prices and the inability to estimate fair value without incurring excessive costs.

The estimated fair values of financial instruments not carried at fair value and levels within the fair value hierarchy are as follows:

	Fair Value Hierarchy Level	March 31, 2024		December 31, 2023		
		Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value	
Financial assets						
Cash and due from banks	1	\$ 58,640	\$ 58,640	\$ 60,431	\$ 60,431

Note 16—Derivative Instruments and Hedge Activities

As required by ASC 815, the Company records all derivatives on the Condensed Consolidated Statements of Financial Condition at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. The Company records derivative assets and derivative liabilities on the Condensed Consolidated Statements of Financial Condition within accrued interest receivable and other assets and accrued interest payable and other liabilities, respectively. The following tables present the fair value of the Company's derivative financial instruments and classification on the Condensed Consolidated Statements of Financial Condition as of March 31, 2024 and December 31, 2023:

	March 31, 2024			December 31, 2023		
	Notional Amount	Fair Value		Notional Amount	Fair Value	
		Other Assets	Other Liabilities		Other Assets	Other Liabilities
Derivatives designated as hedging instruments						
Interest rate swaps designated as cash flow hedges	\$ 650,000	\$ 37,976	\$ (582)	\$ 650,000	\$ 37,475	\$ —
Derivatives not designated as hedging instruments						
Other interest rate derivatives	691,612	22,124	(21,949)	706,126	19,447	(19,345)
Other credit derivatives	3,545	3	—	3,602	1	—
Total derivatives	<u>\$ 1,345,157</u>	<u>\$ 60,103</u>	<u>\$ (22,531)</u>	<u>\$ 1,359,728</u>	<u>\$ 56,923</u>	<u>\$ (19,345)</u>

As of the effective time of the transaction reported in Note 3—Acquisition of a Business, Byline acquired and assumed two types of derivative instruments. Interest rate swap agreements previously designated as cash flow hedges of certain junior subordinated debentures issued to capital trusts had notional amounts of \$42.0 million and had a fair value of \$3.5 million included in accrued interest receivable and other assets. In July 2023, the Company terminated the interest rate swap agreements that resulted in a net gain of \$6,000. Other interest rate swap agreements not designated as hedging instruments had notional amounts of \$67.7 million and fair values of \$6.2 million reported in accrued interest receivable and other assets and accrued interest payable and other liabilities.

Interest rate swaps designated as cash flow hedges—Cash flow hedges of interest payments associated with certain financial instruments had notional amounts totaling \$650.0 million as of March 31, 2024 and December 31, 2023, respectively. The Company assesses the effectiveness of each hedging relationship by comparing the changes in fair value of the derivatives hedging instrument with the fair value of the designated hedged transactions. As of March 31, 2024, the cash flow hedges aggregating \$650.0 million in notional amounts are comprised of \$450.0 million pay-fixed interest rate swaps associated with certain deposits and other borrowings, and \$200.0 million receive-fixed interest rate swaps associated with certain variable rate loans.

As of March 31, 2024, pay-fixed interest rate swaps are comprised of six effective hedges. Receive-fixed interest rate swaps totaling \$200.0 million are comprised of three effective hedges totaling \$150.0 million, and one \$50.0 million forward-starting swaps that is effective in August of 2024.

For derivatives designated and that qualify as cash flow hedges of interest rate risk, the unrealized gain or loss on the derivatives is recorded in accumulated other comprehensive income (loss) and subsequently reclassified into interest income or expense in the same period during which the hedged transaction affects earnings. Amounts reported in accumulated other comprehensive income (loss) related to derivatives will be reclassified to interest income or expense as interest payments are made on the hedged instruments. Interest recorded on these swap transactions included \$4.8 million and \$2.0 million of interest income recorded during the three months ended March 31, 2024, and 2023, respectively, and is reported as a component of interest expense on deposits and other borrowings. As of March 31, 2024, the Company estimates \$16.9 million of the net unrealized gain to be reclassified as a net decrease to interest expense during the next twelve months.

Accumulated other comprehensive income also includes the amortization of the remaining balance related to terminated interest rate swaps designated as cash flow hedges, which are over the original life of the cash flow hedge. In March 2023, the Company terminated interest rate swaps designated as cash flow hedges totaling \$100.0 million, of which \$50.0 million became effective in May 2023 and \$50.0 million became effective in June 2023. The transaction resulted in a gain of \$4.2 million, net of tax, which was the clean value at termination date and began amortizing as a decrease to interest expense on the effective dates. The remaining unamortized balance was \$3.5 million and \$3.7 million as of March 31, 2024 and December 31, 2023, respectively.

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

The following table reflects the cash flow hedges as of March 31, 2024:

Notional amounts	\$ 650,000
Derivative assets fair value	37,976
Derivative liabilities fair value	582
Weighted average remaining maturity	2.7 Years

Receive rates are determined at the time the swaps become effective. As of March 31, 2024, the weighted average pay rates of the six effective pay-fixed hedges for \$450.0 million were 1.04% and the weighted average receive rates were 5.32%. As of March 31, 2024, the weighted average pay rates of the receive-fixed interest rate swaps of \$150.0 million were 8.50% and the weighted average receive rates were 7.31%.

The following table reflects the net gains (losses) recorded in accumulated other comprehensive income (loss) and the Condensed Consolidated Statements of Operations relating to the cash flow derivative instruments for the three months ended:

	March 31, 2024			March 31, 2023		
	Amount of Gain Recognized in AOCI	Amount of Net Gain Reclassified from AOCI to Income as an Increase to Net Interest Income	Amount of Gain (Loss) Recognized in Other Non-Interest Income	Amount of Gain Recognized in OCI	Amount of Gain Reclassified from OCI to Income as a Decrease to Interest Expense	Amount of Gain (Loss) Recognized in Other Non-Interest Income
Interest rate swaps	\$ 4,531	\$ 4,836	\$ —	\$ 194	\$ 1,956	\$ —

Derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to interest rate movements and other identified risks but do not meet the strict hedge accounting requirements and/or the Company has not elected to apply hedge accounting. Changes in the fair value of derivatives not designated in hedging relationships are recorded directly in earnings.

Other interest rate derivatives—The total combined notional amount was \$691.6 million as of March 31, 2024 with maturities ranging from August 2024 to March 2033. The fair values of the interest rate derivative agreements are reflected in other assets and other liabilities with corresponding gains or losses reflected in non-interest income. During the three months ended March 31, 2024 and 2023, there were \$4,000 and \$472,000 of net transaction fees, included in other non-interest income, related to these derivative instruments.

These instruments are inherently subject to market risk and credit risk. Market risk is associated with changes in interest rates and credit risk relates to the Company's risk of loss when the counterparty to a derivative contract fails to perform according to the terms of the agreement. Market and credit risks are managed and monitored as part of the Company's overall asset-liability management process. The credit risk related to derivatives entered into with certain qualified borrowers is managed through the Company's loan underwriting process. The Company's loan underwriting process also approves the Bank's swap counterparty used to mirror the borrowers' swap. The Company has a bilateral agreement with each swap counterparty that provides that fluctuations in derivative values are to be fully collateralized with either cash or securities.

The following table reflects other interest rate derivatives as of March 31, 2024:

Notional amounts	\$ 691,612
Derivative assets fair value	22,124
Derivative liabilities fair value	21,949
Weighted average pay rates	4.29%
Weighted average receive rates	6.16%
Weighted average remaining maturity	4.4 Years

Other derivatives—The Company has entered into risk participation agreements with counterparty banks to assume a portion of the credit risk related to borrower transactions. As of March 31, 2024 and December 31, 2023, for each period, the total notional amount of risk participated in was \$1.2 million and the notional amount of risk participated out was \$2.3 million and \$2.4 million, respectively. The credit risk related to these other derivatives is managed through the Company's loan underwriting process. Additionally, the Company enters into foreign currency contracts to manage foreign exchange risk associated with certain customer foreign currency transactions. These transactions were not material to the consolidated financial statements as of March 31, 2024 and December 31, 2023. The fair values of the credit derivatives is reflected in

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

accrued interest receivable and other assets and accrued interest payable and other liabilities with corresponding gains or losses reflected in non-interest income or other comprehensive income.

The Company has agreements with its derivative counterparties that contain a cross-default provision under which if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations. The Company also has agreements with certain derivative counterparties that contain a provision where if the Company fails to maintain its status as a well or adequately capitalized institution, then the counterparty could terminate the derivative positions and the Company would be required to settle its obligations resulted in a net asset position.

The following table reflects amounts included in non-interest income in the Condensed Consolidated Statements of Operations relating to derivative instruments that are not designated in a hedging relationship for the three months ended March 31, 2024 and 2023:

	Three Months Ended March 31,	
	2024	2023
Other interest rate derivatives	\$ (73)	\$ (308)
Other credit derivatives	—	—
Total	<u>\$ (73)</u>	<u>\$ (308)</u>

The Company records interest rate derivatives subject to master netting agreements at their gross value and does not offset derivative asset and liabilities on the Condensed Consolidated Statements of Financial Condition. The table below summarizes the Company's interest rate derivatives and offsetting positions as of the periods indicated:

	March 31, 2024		December 31, 2023	
	Derivative Assets Fair Value	Derivative Liabilities Fair Value	Derivative Assets Fair Value	Derivative Liabilities Fair Value
Gross amounts recognized	\$ 60,103	\$ (22,531)	\$ 56,923	\$ (19,345)
Less: Amounts offset in the Condensed Consolidated Statements of Financial Condition	—	—	—	—
Net amount presented in the Condensed Consolidated Statements of Financial Condition	<u>\$ 60,103</u>	<u>\$ (22,531)</u>	<u>\$ 56,923</u>	<u>\$ (19,345)</u>
Gross amounts not offset in the Condensed Consolidated Statements of Financial Condition				
Offsetting derivative positions	(880)	880	(925)	925
Collateral posted	(57,900)	—	(54,930)	—
Net credit exposure	<u>\$ 1,323</u>	<u>\$ (21,651)</u>	<u>\$ 1,068</u>	<u>\$ (18,420)</u>

As of March 31, 2024, the fair value of derivatives in a net liability position, which includes accrued interest but excludes any adjustment for nonperformance risk, related to these agreements was \$22.5 million. If the Company had breached any of these provisions at March 31, 2024, it could have been required to settle its obligations under the agreements at their termination value less offsetting positions of \$880,000. For purposes of this disclosure, the amount of posted collateral by the Company and counterparties is limited to the amount offsetting the derivative asset and derivative liability.

Note 17 – Share-Based Compensation

In June 2017, the Company's Board of Directors adopted, and the Company's stockholder approved, the 2017 Omnibus Incentive Compensation Plan (the "Omnibus Plan"). The Omnibus Plan provides for the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalent rights and other equity-based, equity-related or cash-based awards. A total of 2,600,000 shares of our common stock have been reserved for issuance under the Omnibus Plan. As of March 31, 2024, there were 826,874 shares available for future grants under the Omnibus Plan.

The Company primarily grants time-based restricted share awards that vest over a one to four year period, subject to continued employment. The Company also grants performance-based restricted share awards. The number of shares which may be earned under the award is dependent upon the Company's return on average assets, weighted equally over a three-year period and measured against a peer group consisting of publicly-traded bank holding companies. Results will be measured cumulatively at the end of the three years. Any earned shares will vest on the third anniversary of the grant date.

During 2024, the Company granted 347,492 shares of restricted common stock, par value \$0.01 per share. Of this total, 268,595 restricted shares will vest ratably over three years on each anniversary of the grant date and 12,861 restricted

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

shares will cliff vest on the third anniversary of the grant date, all subject to continued employment. In addition, 66,036 performance-based restricted shares were included in the 2024 grant. The number of performance-based shares which may be earned under the award is dependent upon the Company's total stockholder return and return on average assets, weighted equally, over a three-year period ending December 31, 2026, measured against the KBW Regional Bank Index. Results will be measured cumulatively at the end of the three years and any earned shares will vest on the third anniversary of the grant date.

The following table discloses the changes in restricted shares for the three months ended March 31, 2024:

	Omnibus Plan	
	Number of Shares	Weighted Average Grant Date Fair Value
Beginning balance, January 1, 2024	627,271	\$ 24.24
Granted	347,492	20.89
Incremental performance shares issued and vested	13,632	
Vested	(228,195)	22.66
Forfeited	(6,505)	25.88
Ending balance outstanding at March 31, 2024	<u>753,695</u>	<u>\$ 23.07</u>

A total of 228,195 restricted shares vested during the three months ended March 31, 2024. A total of 238,638 restricted shares vested during the year ended December 31, 2023. The fair value of restricted shares that vested during the three months ended March 31, 2024 was \$4.8 million. The fair value of restricted shares that vested during the year ended December 31, 2023 was \$5.7 million.

The Company recognizes share-based compensation based on the estimated fair value of the restricted stock at the grant date. Share-based compensation expense is included in non-interest expense in the Condensed Consolidated Statements of Operations. The fair value of the total stock return performance-based awards granted in 2024 and 2023 were calculated based on a Monte Carlo simulation, using the following assumptions:

	Performance Based Grants	
	2024	2023
Risk-free interest rate	4.47%	4.42%
Expected term (years)	2.85 years	2.85 years
Expected stock price volatility	29.28% - 33.68%	38.11% - 39.80%
Weighted average grant date fair value	\$ 20.18	\$ 25.20

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

The following table summarizes restricted stock compensation expense for the three months ended March 31, 2024 and 2023:

	Three Months Ended March 31,	
	2024	2023
Total share-based compensation - restricted stock	\$ 1,846	\$ 1,510
Income tax benefit	511	406
Unrecognized compensation expense	14,880	14,416
Weighted average remaining amortization period	2.3 Years	2.5 years

The fair value of the unvested restricted stock awards at March 31, 2024 was \$16.4 million.

In October 2014, the Company adopted the Byline Bancorp, Inc. Equity Incentive Plan (“BYB Plan”). The maximum number of shares available for grants under this plan was 2,476,122 shares. The Company granted 1,846,968 options to purchase shares under this plan. In June 2017, the Board of Directors terminated the BYB Plan and no future grants can be made under this plan. Options to purchase a total of 554,070 shares remain outstanding under the BYB Plan at March 31, 2024.

The types of stock options granted under the BYB Plan were Time Options and Performance Options. The exercise price of each option is equal to the fair value of the stock as of the date of grant. These option awards have vesting periods ranging from one to five years and have 10-year contractual terms. Stock volatility was computed as the average of the volatilities of peer group companies. All outstanding stock options were fully vested and exercisable at March 31, 2024.

The fair values of the stock options were determined using the Black-Scholes-Merton model for Time Options and a Monte Carlo simulation model for Performance Options.

The following table discloses the activity in shares subject to options and the weighted average exercise prices, in actual dollars, for the three months ended March 31, 2024:

	BYB Plan			Weighted Average Remaining Contractual Term (in Years)
	Number of Shares	Weighted Average Exercise Price	Intrinsic Value	
Beginning balance, January 1, 2024	768,564	\$ 11.31	\$ 9,413	1.5
Exercised	(214,494)	11.18	2,587	
Expired	—			
Ending balance outstanding at March 31, 2024	<u>554,070</u>	\$ 11.36	\$ 5,738	1.2
Exercisable at March 31, 2024	<u>554,070</u>	\$ 11.36	\$ 5,738	1.2

A total of 214,494 stock options were exercised during the three months ended March 31, 2024. The exercise was cashless and had a related tax benefit of \$690,000 for the three months ended March 31, 2024. No stock options were exercised during the year ended December 31, 2023. No stock options vested during the three months ended March 31, 2024 or the year ended December 31, 2023. No stock option compensation expense was recognized for the three months ended March 31, 2024 or the year ended December 31, 2023.

Note 18—Earnings per Share

A reconciliation of the numerators and denominators for earnings per common share computations is presented below. Incremental shares represent outstanding stock options for which the exercise price is less than the average market price of the Company’s common stock during the periods presented. Options to purchase 657,205 and 930,852 shares of common stock were outstanding as of March 31, 2024 and 2023, respectively. There were 753,695 and 693,104 restricted stock awards outstanding at March 31, 2024 and 2023, respectively. For the three months ended March 31, 2024 and 2023, no stock options outstanding were excluded from the calculation of diluted earnings per common share.

BYLINE BANCORP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Table dollars in thousands, except share and per share data) (Unaudited)

The following represent the calculation of basic and diluted earnings per share for the periods presented:

	Three Months Ended March 31,	
	2024	2023
Net income	\$ 30,440	\$ 23,945
Weighted-average common stock outstanding:		
Weighted-average common stock outstanding (basic)	43,258,087	36,955,085
Incremental shares	469,257	584,827
Weighted-average common stock outstanding (dilutive)	43,727,344	37,539,912
Basic earnings per common share	\$ 0.70	\$ 0.65
Diluted earnings per common share	\$ 0.70	\$ 0.64

Note 19—Stockholders' Equity

A summary of the Company's preferred and common stock at March 31, 2024 and December 31, 2023 is as follows:

	March 31, 2024	December 31, 2023
Preferred stock		
Par value	\$ 0.01	\$ 0.01
Shares authorized	25,000,000	25,000,000
Shares issued	—	—
Shares outstanding	—	—
Common stock, voting		
Par value	\$ 0.01	\$ 0.01
Shares authorized	150,000,000	150,000,000
Shares issued	45,946,804	45,714,241
Shares outstanding	44,108,387	43,764,056
Treasury shares	1,838,417	1,950,185

On December 12, 2022, we announced that our Board of Directors approved a stock repurchase program authorizing the purchase of up to an aggregate of 1,250,000 shares of our outstanding common stock. The program was in effect from January 1, 2023 until December 31, 2023. No shares were repurchased under this program.

On December 6, 2023, we announced that our Board of Directors approved a new stock repurchase program authorizing the purchase of up to an aggregate of 1,250,000 shares of the Company's outstanding common stock. The program is in effect from January 1, 2024 until December 31, 2024, unless terminated earlier. The shares may, at the discretion of management, be repurchased from time to time in open market purchases as market conditions warrant or in privately negotiated transactions. The Company is not obligated to purchase any shares under the program, and the program may be discontinued at any time. The actual timing, number and share price of shares purchased under the repurchase program will be determined by the Company at its discretion and will depend on a number of factors, including the market price of the Company's stock, general market and economic conditions and applicable legal requirements. The shares authorized to be repurchased represented approximately 2.9% of the Company's outstanding common stock at December 31, 2023.

We did not purchase any shares under either stock repurchase program during the three months ended March 31, 2024 or 2023.

Repurchased shares are recorded as treasury shares on the trade date using the treasury stock method, and the cash paid is recorded as treasury stock. Treasury stock acquired is recorded at cost and is carried as a reduction of stockholders' equity in the Condensed Consolidated Statements of Financial Condition.

For each of the three months ended March 31, 2024 and 2023, cash dividends were declared and paid to stockholders of record of our common stock of \$0.09 per share.

On April 23, 2024, our Board of Directors declared a cash dividend of \$0.09 per share payable on May 21, 2024 to stockholders of record of our common stock as of May 7, 2024.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following is a discussion and analysis of Byline Bancorp, Inc.'s financial condition and results of operations and should be read in conjunction with our Unaudited Interim Condensed Consolidated Financial Statements and notes thereto included elsewhere in this report. The words "the Company," "we," "Byline," "management," "our" and "us" refer to Byline Bancorp, Inc. and its consolidated subsidiaries, unless we indicate otherwise. In addition to historical information, this discussion contains forward looking statements that involve risks, uncertainties and assumptions that could cause actual results to differ materially from management's expectations. Factors that could cause such differences are discussed in the sections entitled "Special Note Regarding Forward Looking Statements" and "Risk Factors". Byline assumes no obligation to update any of these forward looking statements.

Forward-Looking Statements

Statements contained in this report and in other documents we file with or furnish to the Securities and Exchange Commission ("SEC") that are not historical facts may constitute "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Any statements about our expectations, beliefs, plans, strategies, predictions, forecasts, objectives or assumptions of future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as "anticipates," "believes," "expects," "can," "could," "may," "predicts," "potential," "opportunity," "should," "will," "estimate," "plans," "projects," "continuing," "ongoing," "expects," "seeks," "intends" and similar words or phrases. Accordingly, these statements involve estimates, known and unknown risks, assumptions and uncertainties that could cause actual strategies, actions or results to differ materially from those expressed in such statements, and are not guarantees of future results or other events or performance. Because forward-looking statements are necessarily only estimates of future strategies, actions or results, based on management's current expectations, assumptions and estimates on the date hereof, and there can be no assurance that actual strategies, actions or results will not differ materially from expectations, readers are cautioned not to place undue reliance on such statements.

Our ability to predict results or the actual effects of future plans, strategies or events is inherently uncertain. Factors which could cause actual results or conditions to differ materially from those reflected in forward-looking statements include:

- uncertainty regarding domestic, foreign, and geopolitical developments and the United States and global economic outlook that may impact market conditions or affect demand for certain banking products and services, and the impact on our customers, which could impair the ability of our borrowers to repay outstanding loans and leases, impair collateral values and further increase our allowance for credit losses - loans and leases, as well as result in possible asset impairment charges;
- unforeseen credit quality problems or changing economic conditions that could result in charge-offs greater than we have anticipated in our allowance for credit losses - loans and leases or changes in the value of our investments;
- commercial real estate market conditions in the Chicago metropolitan area and southern Wisconsin;
- deterioration in the financial condition of our borrowers resulting in significant increases in our loan and lease losses and provisions for those losses and other related adverse impacts to our results of operations and financial condition;
- estimates of fair value estimates of certain of our assets and liabilities, which could change in value significantly from period to period;
- competitive pressures in the financial services industry in our market areas relating to both pricing and loan and lease structures, which may impact our growth rate;
- demand for loan products and deposit flows;
- unanticipated developments in pending or prospective loan and/or lease transactions or greater-than-expected paydowns or payoffs of existing loans and leases;
- inaccurate information and assumptions in our analytical and forecasting models used to manage our balance sheet;
- unanticipated changes in monetary policies of the Federal Reserve or significant adjustments in the pace of, or market expectations for, future interest rate changes;
- availability of sufficient and cost-effective sources of liquidity, funding, and capital as and when needed;
- our ability to attract, retain or the loss of key personnel or an inability to recruit appropriate talent cost-effectively;
- adverse effects on our information technology systems resulting from failures, human error or cyberattack, including the potential impact of disruptions or security breaches at our third-party service providers, any of which could result in an information or security breach, the disclosure or misuse of confidential or proprietary information, significant legal and financial losses and reputational harm;
- greater-than-anticipated costs to support the growth of our business, including investments in new lines of business, products and services, or technology, process improvements or other infrastructure enhancements, or greater-than-anticipated compliance or regulatory costs and burdens;

- the impact of possible future acquisitions, if any, including the costs and burdens of integration efforts;
- the ability of the Company to receive dividends from Byline Bank;
- legislative or regulatory changes, particularly changes in regulation of financial services companies and/or the products and services offered by financial services companies;
- changes in Small Business Administration (“SBA”) and U.S. Department of Agriculture (“USDA”) U.S. government guaranteed lending rules, regulations, loan and lease products and funding limits, including specifically the SBA Section 7(a) program, as well as changes in SBA or USDA standard operating procedures or changes to the status of Byline Bank as an SBA Preferred Lender;
- changes in accounting principles, policies and guidelines applicable to bank holding companies and banking generally;
- the impact of a possible change in the federal or state income tax rates on our deferred tax assets and provision for income tax expense;
- our ability to implement our growth strategy, including via acquisitions;
- the possibility that any of the anticipated benefits of acquisitions will not be realized or will not be realized within the expected time period;
- the risk that the integration of acquisition operations will be materially delayed or will be more costly or difficult than expected;
- the effect of mergers on customer relationships and operating results; and
- other risks detailed from time to time in filings we make with the SEC.

These risks and uncertainties should be considered in evaluating any forward-looking statements, and undue reliance should not be placed on such statements. Forward looking statements speak only as of the date they are made. You should also consider the risks, assumptions and uncertainties set forth in the “Risk Factors” section in our Annual Report on Form 10-K for the year ended December 31, 2023 that was filed with the SEC on March 4, 2024, as well as those set forth in the reports we file with the SEC. We assume no obligation to update any of these statements in light of new information, future events or otherwise unless required under the federal securities laws.

Overview

Our Business

We are a bank holding company headquartered in Chicago, Illinois, and conduct all our business activities through our subsidiary, Byline Bank, a full service commercial bank, and Byline Bank’s subsidiaries. Through Byline Bank, we offer a broad range of banking products and services to small and medium sized businesses, commercial real estate and financial sponsors and to consumers who generally live or work near our branches. We also offer online account opening to consumer and business customers through our website and provide trust and wealth management services to our customers. In addition to our traditional commercial banking business, we provide small ticket equipment leasing solutions through Byline Financial Group, a wholly-owned subsidiary of Byline Bank, headquartered in Bannockburn, Illinois, with sales offices in Illinois, and sales representatives in Illinois, Michigan, New Jersey, and New York. We participate in U.S. government guaranteed lending programs and originate U.S. government guaranteed loans. Byline Bank is a leading originator of SBA loans and was the second most active 7(a) and 504 lender in Illinois for the quarter ended March 31, 2024.

Our results of operations depend substantially on net interest income, which is the difference between interest income on interest-earning assets, consisting primarily of interest income on loans and lease receivables, including accretion income on loans, investment securities and other short-term investments, and interest expense on interest-bearing liabilities, consisting primarily of deposits and borrowings. Our results of operations are also dependent upon our generation of non-interest income, consisting primarily of income from fees and service charges on deposits, loan servicing revenue, wealth management and trust income, ATM and interchange fees, and net gains on sales of investment securities and loans. Other factors contributing to our results of operations include our provision for credit losses, provision for income taxes, and non-interest expenses, such as salaries and employee benefits, occupancy and equipment expenses, and other miscellaneous operating costs.

We reported consolidated net income of \$30.4 million, or \$0.70 per basic and diluted common share, for the three months ended March 31, 2024, compared to net income of \$23.9 million, or \$0.65 per basic and \$0.64 per diluted common share, for the three months ended March 31, 2023, an increase of \$6.5 million. The increase in net income was attributable to a \$9.8 million increase in net interest income. The increase in net interest income during the three months ended March 31, 2024 was primarily driven by higher yields on loans and leases, and organic growth in the loan and lease portfolio, as well as from the Inland acquisition.

Dividends declared on common shares were \$3.9 million and \$3.4 million for the three months ended March 31, 2024 and 2023, respectively. Dividends paid on common shares were \$3.9 million and \$3.3 million for the three months ended March 31, 2024 and 2023, respectively.

Our results of operations for the three months ended March 31, 2024 and 2023 yielded an annual return on average assets of 1.36% and 1.32% and a return on average stockholders’ equity of 12.26% and 12.38% respectively.

As of March 31, 2024, we had consolidated total assets of \$9.4 billion, total gross loans and leases outstanding of \$6.8 billion, total deposits of \$7.4 billion, and total stockholders' equity of \$1.0 billion.

Inland Bancorp, Inc. Acquisition

On July 1, 2023, we completed our acquisition of Inland Bancorp, Inc., ("Inland") under the terms of a definitive merger agreement. As a result of the merger, Inland's wholly owned bank subsidiary, Inland Bank and Trust, was merged with and into Byline Bank. Refer to Note 3—Acquisition of a Business of our Unaudited Interim Condensed Financial Statements as of March 31, 2024, which is included in this report, for additional information.

Critical Accounting Policies and Significant Estimates

Our accounting and reporting policies conform to accounting principles generally accepted in the United States of America ("GAAP") and to general practices within the Banking industry. To prepare financial statements and interim financial statements in conformity with GAAP, management makes estimates, assumptions and judgments based on available information. These estimates, assumptions and judgments affect the amounts reported in the financial statements and accompanying notes, which are based on information available as of the date of the financial statements. As this information changes, actual results could differ from the estimates, assumptions and judgments reflected in the financial statements. In particular, management has identified several accounting policies that, due to the estimates, assumptions and judgments inherent in those policies, are critical in understanding our financial statements.

These critical accounting policies and estimates include (i) determination of the allowance for credit losses, (ii) the valuation of intangible assets such as goodwill, and assessment of impairment, (iii) fair value estimations, and (iv) the determination and assessment of impairment for other intangible assets.

The following is a discussion of the critical accounting policies and significant estimates that require us to make complex and subjective judgments. Additional information about these policies can be found in Note 1 of our audited Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2023, that we filed with the SEC on March 4, 2024.

Allowance for credit losses

The allowance for credit losses ("ACL") represents management's estimate of current expected credit losses over the life of a financial asset carried at amortized cost at an appropriate level based upon management's evaluation of the adequacy of collectively and individually evaluated loss reserves.

The ACL is maintained at a level that management believes is appropriate to provide for current expected credit losses as of the dates of the Consolidated Statements of Financial Condition, and we have established methodologies for the determination of its adequacy. The methodologies are set forth in a formal policy and take into consideration relevant available information, from internal and external sources, relating to past events, current conditions, and reasonable and supportable forecasts. We increase our ACL by recording provisions for current expected credit losses against our income and decrease by charge-offs, net of recoveries.

The evaluation is inherently subjective, as it requires estimates that are susceptible to significant revision as more information becomes available. While management uses available information to recognize losses on loans and leases, changes in economic or other conditions may necessitate revision of the estimate in future periods.

For each portfolio, management estimates expected credit losses over the life of each loan and lease utilizing lifetime or cumulative loss rate methodology. The lifetime loss rates are estimated by analyzing a combination of internal and external data related to historical performance of each loan and lease pool over a complete economic cycle. Loss rates are based on historical averages for each loan and lease pool, adjusted to reflect the impact of a forward-looking forecast of certain macroeconomic variables, primarily unemployment rates, which management considers to be both reasonable and supportable. Various economic scenarios are considered and weighted to arrive at the forecast that most reflects management's expectation of future conditions. After a one-year forecast period, a one-year reversion period adjusts loss experience to the historical average on a straight-line basis.

Management also considers qualitative risk factor adjustments that are intended to capture internal and external trends not reflected in historical loss history. Each risk factor is assigned an allowance level based on management's judgment as to the expected impact of each risk factor on each loan and lease portfolio and is monitored quarterly. All loans and leases of \$500,000 or greater with an internal risk rating of substandard or below, or on nonaccrual status are individually evaluated for impairment on a quarterly basis.

The Company also maintains an allowance for credit losses on off-balance sheet credit exposures for unfunded loan commitments. The estimate includes consideration of the likelihood that funding will occur and an estimate of expected credit losses on commitments expected to be funded over its estimated life based on management's consideration of past events, current conditions, and reasonable and supportable economic forecasts. Management tracks the level and trends in unused commitments and takes into consideration the same factors as those considered for purposes of the allowance for credit losses on outstanding loans.

Goodwill

Goodwill. Goodwill represents the excess of the purchase consideration over the fair value of net assets acquired in connection with our recapitalization and acquisitions using the acquisition method of accounting. Goodwill is not amortized but is periodically evaluated for impairment under the provisions of ASC Topic 350, Intangibles—Goodwill and Other ("ASC 350").

Impairment testing is performed using either a qualitative or quantitative approach at the reporting unit level. Our goodwill is allocated to Byline Bank, which is our only applicable reporting unit for the purposes of testing goodwill for impairment. We have selected

November 30 as the date to perform the annual goodwill impairment test. Additionally, we perform a goodwill impairment evaluation on an interim basis when events or circumstances indicate impairment potentially exists.

Other intangible assets

Other intangible assets primarily consist of core deposit intangible assets and customer relationship intangible. In valuing intangible assets, we consider variables such as servicing costs, attrition rates and market discount rates. Intangible assets are reviewed annually, or more frequently when events or changes in circumstances occur that indicate that their carrying values may not be recoverable. If the recoverable amount of the intangible asset is determined to be less than its carrying value, we would then measure the amount of impairment based on an estimate of the fair value at that time. We also evaluate whether the events or circumstances have occurred that warrant a revision to the remaining useful lives of intangible assets. In cases where a revision is deemed appropriate, the remaining carrying amounts of the intangible assets are amortized over the revised remaining useful life. Core deposit intangibles are currently amortized over an approximate ten-year period and customer intangibles are amortized over a twelve-year period.

Fair value of Financial Instruments

ASC Topic 820, Fair Value Measurement defines fair value as the price that would be received to sell a financial asset or paid to transfer a financial liability in an orderly transaction between market participants at the measurement date.

The degree of management judgment involved in determining the fair value of assets and liabilities is dependent upon the availability of quoted market prices or observable market parameters. For financial instruments that trade actively and have quoted market prices or observable market parameters, there is minimal subjectivity involved in measuring fair value. When observable market prices and parameters are not available, management judgment is necessary to estimate fair value. In addition, changes in market conditions may reduce the availability of quoted prices or observable data. For example, reduced liquidity in the capital markets or changes in secondary market activities could result in observable market inputs becoming unavailable. Therefore, when market data is not available, we would use valuation techniques requiring more management judgment to estimate the appropriate fair value measurement.

See Note 15 of our Unaudited Interim Condensed Consolidated Financial Statements as of March 31, 2024, included in this report, for a complete discussion of our use of fair value of financial assets and liabilities and their related measurement practices.

Recently Issued Accounting Pronouncements

Refer to Note 2 of our Unaudited Interim Condensed Consolidated Financial Statements as of March 31, 2024, which is included in this report, for a description of recent accounting pronouncements, including the effective dates of adoption and anticipated effects on our results of operations and financial condition.

Primary Factors Used to Evaluate Our Business

As a financial institution, we manage and evaluate various aspects of both our results of operations and our financial condition. We evaluate the levels and trends of the line items included in our consolidated financial statements as well as various financial ratios that are commonly used in our industry. We analyze these ratios and financial trends against our own historical performance, our budgeted performance, and the final condition and performance of comparable financial institutions in our region. Comparison of our financial performance against other financial institutions is impacted by the accounting for acquired non-credit-deteriorated and purchased credit deteriorated loans.

Results of Operations

Overview

Our results of operations depend substantially on net interest income, which is the difference between interest income on interest-earning assets, consisting primarily of interest income on loans and lease receivables, including accretion income on loans, investment securities and other short-term investments, and interest expense on interest-bearing liabilities, consisting primarily of deposits and borrowings. Our results of operations are also dependent upon our generation of non-interest income, consisting primarily of income from fees and service charges on deposits, loan servicing revenue, wealth management and trust income, ATM and interchange fees, and net gains on sales of investment securities and loans. Other factors contributing to our results of operations include our provisions for credit losses, provision for income taxes, and non-interest expenses, such as salaries and employee benefits, occupancy and equipment expenses, and other miscellaneous operating costs.

Total capital ratio	13.66%	13.19%

(1) Represents a non-GAAP financial measure. See "Reconciliations of non-GAAP Financial Measures" for a reconciliation of our non-GAAP measures to the most directly comparable GAAP financial measure.

(2) Represents non-interest expense less amortization of intangible assets divided by net interest income and non-interest income.

(3) Calculation excludes impairment charges on assets held for sale and ROU assets, and merger-related expenses.

(4) Interest income and rates include the effects of a tax equivalent adjustment to adjust tax-exempt investment income on tax-exempt investment securities to a fully taxable basis, assuming a federal income tax rate of 21%.

We reported consolidated net income of \$30.4 million for the three months ended March 31, 2024 compared to net income of \$23.9 million for the three months ended March 31, 2023, an increase of \$6.5 million. The increase in net income was primarily attributable to a \$9.8 million increase in net interest income and a decrease in the provision for credit losses of \$3.2 million, offset by an increase in non-interest expense of \$5.0 million. Net income available to common stockholders was \$0.70 per basic and per diluted common share, for the three months ended March 31, 2024 compared to \$0.65 per basic and \$0.64 per diluted common share, for the three months ended March 31, 2023.

The increase in net interest income during the three months ended March 31, 2024 was mainly a result of higher yields on loans and leases, organic growth in the loan and lease portfolio, as well as from the Inland acquisition.. The decrease in provision for credit losses was due to a smaller allocation for individually assessed loans. The increase in non-interest expense was primarily due to increases in salaries and employee benefits mainly due to headcount.

Our annualized return on average assets was 1.36% for the three months ended March 31, 2024 compared to 1.32% for the three months ended March 31, 2023. Our annualized return on average stockholders' equity was 12.26% for the three months ended March 31, 2024 compared to 12.38% for the three months ended March 31, 2023. Our efficiency ratio was 51.94% for the three months ended March 31, 2024 compared to 52.10% for the three months ended March 31, 2023.

Net Interest Income

Net interest income, representing interest income less interest expense, is a significant contributor to our revenues and earnings. We generate interest income from interest and dividends on interest-earning assets, which include loans, leases and investment securities we own. We incur interest expense from interest paid on interest-bearing liabilities, which include interest-bearing deposits, subordinated debt, Federal Home Loan Bank advances, junior subordinated debentures and other borrowings. To evaluate net interest income, we measure and monitor (i) yields on our loans and other interest-earning assets, (ii) the costs of our deposits and other funding sources, (iii) our net interest spread, and (iv) our net interest margin. Net interest spread is the difference between rates earned on interest-earning assets and rates paid on interest-bearing liabilities. Net interest margin is calculated as the annualized net interest income divided by average interest-earning assets. Because non-interest-bearing sources of funds, such as non-interest-bearing deposits and stockholders' equity, also fund interest-earning assets, net interest margin includes the benefit of these non-interest-bearing sources.

We also recognize income from the accretable discounts associated with the purchase of interest-earning assets. Because of our recapitalization and acquisitions, we derive a portion of our interest income from the accretable discounts on purchased credit deteriorated and acquired non-credit-deteriorated loans. The accretion is generally recognized over the life of the loan and is impacted by changes in expected cash flows on the loan. This accretion will continue to have an impact on our net interest income as long as loans acquired with a discount at acquisition represent a meaningful portion of our interest-earning assets. As of March 31, 2024, purchased credit deteriorated loans accounted for under ASC Topic 326 represented 3.0% of our total loan and lease portfolio compared to 3.4% at December 31, 2023.

Changes in the market interest rates we earn on interest-earning assets or pay on interest-bearing liabilities, as well as the volume and types of interest-earning assets, interest-bearing and non-interest-bearing liabilities, are usually the largest drivers of periodic changes in net interest spread, net interest margin and net interest income. In addition, our interest income includes the accretion of the discounts on our acquired loans, which will also affect our net interest spread, net interest margin and net interest income.

The following tables present, for the periods indicated, information about (i) average balances, the total dollar amount of interest income from interest-earning assets and the resultant average yields; (ii) average balances, the total dollar amount of interest expense on interest-bearing liabilities and the resultant average rates; (iii) net interest income; (iv) the interest rate spread; and (v) the net interest margin. Yields have been calculated on a pre-tax basis (dollars in thousands).

Net interest margin ⁽⁴⁾			4.00%			4.38%
Net loan accretion impact on margin		\$ 4,284	0.20%		\$ 729	0.04%

- (1) Loan and lease balances are net of deferred origination fees and costs and initial direct costs. Non-accrual loans and leases are included in total loan and lease balances.
- (2) Interest income and rates include the effects of a tax equivalent adjustment to adjust tax-exempt investment income on tax-exempt investment securities to a fully taxable basis, assuming a federal income tax rate of 21%.
- (3) Represents the average rate earned on interest-earning assets minus the average rate paid on interest-bearing liabilities.
- (4) Represents net interest income (annualized) divided by total average interest-earning assets.
- (5) Average balances are average daily balances.

Increases and decreases in interest income and interest expense result from changes in average balances (volume) of interest-earning assets and interest-bearing liabilities, as well as changes in average interest rates. The following table sets forth the effects of changing rates and volumes on our net interest income during the periods shown. Information is provided with respect to (i) effects on interest income attributable to changes in volume (changes in volume multiplied by prior rate) and (ii) effects on interest income attributable to changes in rate (changes in rate multiplied by prior volume). Changes applicable to both volume and rate have been allocated to volume. Yields have been calculated on a pre-tax basis. The table below is a summary of increases and decreases in interest income and interest expense resulting from changes in average balances (volume) and changes in average interest rates (dollars in thousands):

Three Months Ended March 31, 2024 Compared to Three Months Ended March 31, 2023			
	Increase (Decrease) Due to		Total
	Volume	Rate	
Interest income			
Cash and cash equivalents	\$ 2,731	\$ 655	\$ 3,386
Loans and leases ⁽¹⁾	22,995	8,454	31,449
Taxable securities	1,044	2,347	3,391
Tax-exempt securities	61	57	118
Total interest income	\$ 26,831	\$ 11,513	\$ 38,344
Interest expense			
Deposits			
Interest checking	\$ (35)	\$ (30)	\$ (65)
Money market accounts	6,867	5,065	11,932
Savings	(30)	—	(30)
Time deposits	12,228	5,599	17,827
Total interest-bearing deposits	19,030	10,634	29,664
Other borrowings	(757)	(1,271)	(2,028)
Federal funds purchased	1	(37)	(36)
Subordinated notes and debentures	708	188	896
Total borrowings	(48)	(1,120)	(1,168)
Total interest expense	\$ 18,982	\$ 9,514	\$ 28,496
Net interest income, fully taxable equivalent	\$ 7,849	\$ 1,999	\$ 9,848

(1) Includes loans and leases on non-accrual status.

Net interest income for the three months ended March 31, 2024 was \$85.5 million compared to \$75.7 million during the same period in 2023, an increase of \$9.8 million, or 13.0%. Interest income increased \$38.3 million for the three months ended March 31, 2024 compared to the same period in 2023 primarily a result of growth in the loan and lease portfolio, including acquired loans, and higher yields on interest earning assets. Interest expense increased by \$28.5 million for the three months ended March 31, 2024 compared to the same period in 2023 mostly due growth of the deposit portfolio, including assumed deposits, change in deposit mix, and higher rates paid on interest-bearing deposits.

The net interest margin for the three months ended March 31, 2024 was 4.00%, a decrease of 38 basis points compared to 4.38% for the three months ended March 31, 2023. The decrease was primarily attributable to the rising rate environment.

Net loan accretion income was \$4.3 million for the three months ended March 31, 2024 compared to \$729,000 for the three months ended March 31, 2023, an increase of \$3.6 million due to loans acquired in the Inland acquisition. Total net loan accretion on acquired loans contributed 20 basis points to the net interest margin for the three months ended March 31, 2024 compared to four basis points for the three months ended March 31, 2023. We expected loan accretion income to decline and projected accretion income as of March 31, 2024 is summarized as follows:

	Estimated Projected Accretion ⁽¹⁾⁽²⁾
Remainder of 2024	\$ 6,530
2025	6,126
2026	4,469
2027	2,808
2028	1,599
Thereafter	13,766
Total	\$ 35,298

(1) Estimated projected accretion excludes contractual interest income on acquired loans and leases.

(2) Projections are undated quarterly, assume no prepayments, and are subject to change.

Provision for Credit Losses

The provision for credit losses reflects the amount required to maintain the ACL at an appropriate level based upon management's evaluation of collectively and individually evaluated loss reserves. The provision for credit losses represents a charge to earnings necessary to establish an allowance for credit losses that, in management's evaluation, is appropriate to provide coverage for current expected credit losses in the loan and lease portfolio. The ACL is increased by the provision for credit losses and is decreased by charge-offs, net of recoveries on prior charge-offs.

The provision for credit losses was \$6.6 million for the three months ended March 31, 2024, compared to \$9.8 million for the three months ended March 31, 2023, a decrease of \$3.2 million and is comprised of a provision for credit losses - loans and leases and a provision for credit losses - unfunded commitments. Provision for credit losses - loans and leases was \$6.9 million for the three months ended March 31, 2024, compared to \$9.7 million for the three months ended March 31, 2023, a decrease of \$2.8 million. The decrease in provision for credit losses - loans and leases was driven by lower allocation to individually assessed loans. The provision for credit losses - unfunded commitments was a recapture of \$248,000 and a provision of \$113,000 for the three months ended March 31, 2024 and 2023, respectively.

Non-Interest Income

The following table presents the major components of non-interest income for the three months ended March 31, 2024 and 2023, respectively (dollars in thousands):

	Three Months Ended March 31,		QTD 2024 Compared to 2023	
	2024	2023	\$ Change	% Change
Fees and service charges on deposits	\$ 2,427	\$ 2,120	\$ 307	14.5%
Loan servicing revenue	3,364	3,380	(16)	(0.5)%
Loan servicing asset revaluation	(703)	656	(1,359)	(207.2)%
ATM and interchange fees	1,075	1,063	12	1.1%
Change in fair value of equity securities, net	392	350	42	11.9%
Net gains on sales of loans	5,533	5,148	385	7.5%
Wealth management and trust income	1,157	924	233	25.2%
Other non-interest income	2,228	1,504	724	48.1%
Total non-interest income	<u>\$ 15,473</u>	<u>\$ 15,145</u>	<u>\$ 328</u>	2.2%

Fees and service charges on deposits represent amounts charged to customers for banking services, such as fees on deposit accounts, and include, but are not limited to, maintenance fees, insufficient fund fees, overdraft protection fees, wire transfer fees, and other charges. Fees and service charges on deposits were \$2.4 million and \$2.1 million for the three months ended March 31, 2024 and 2023, respectively. The increases is primarily due to increases in deposit balances.

While portions of the loans that we originate are sold and generate gains on sale revenue, servicing rights for the majority of loans that we sell are retained by us. In exchange for continuing to service loans that have been sold, we receive servicing revenue from a portion of the interest cash flow of the loan. We generated \$3.4 million in loan servicing revenue on the sold portion of the U.S. government guaranteed loans for the three months ended March 31, 2024 and 2023. At March 31, 2024 and 2023, the outstanding balance of guaranteed loans serviced was \$1.7 billion.

Loan servicing asset revaluation represents net changes in the fair value of our servicing assets. Loan servicing asset revaluation had a downward adjustment of \$703,000 and an upward adjustment \$656,000 for the three months ended March 31, 2024 and 2023, respectively, a change of \$1.4 million. Changes in the revaluation were mainly due to higher prepayment speeds and a lower average life.

Net gains on sales of loans were \$5.5 million for the three months ended March 31, 2024 compared to \$5.1 million for the three months ended March 31, 2023, an increase of \$385,000, or 7.5%, driven mainly by higher premiums. We sold \$72.5 million of U.S. government guaranteed loans during the three months ended March 31, 2024 compared to \$72.2 million during the three months ended March 31, 2023.

Wealth management and trust income represents fees charged to customers for investment, trust, or wealth management services and are primarily determined by total assets under administration. Wealth management and trust income was \$1.2 million for the three months ended March 31, 2024 compared to \$924,000 for the three months ended March 31, 2023, an increase of \$233,000 or 25.2%. Assets under administration were \$654.1 million and \$573.7 million as of March 31, 2024 and 2023, respectively. Assets under administration decreased \$116.4 million or 15.1% from \$770.5 million as of December 31, 2023, due to the loss of accounts.

Other non-interest income was \$2.2 million for the three months ended March 31, 2024 compared to \$1.5 million for the three months ended March 31, 2023, an increase of \$724,000 or 48.1%. The increase was primarily driven by net gains on sales of leased equipment and income associated with bank owned life insurance.

Non-Interest Expense

The following table presents the major components of non-interest expense for the three months ended March 31, 2024 and 2023, respectively (dollars in thousands):

	Three Months Ended March 31,		QTD 2024 Compared to 2023	
	2024	2023	\$ Change	% Change
Salaries and employee benefits	\$ 33,953	\$ 30,394	\$ 3,559	11.7%
Occupancy and equipment expense, net	5,284	4,444	840	18.9%
Impairment charge on assets held for sale	—	20	(20)	(100.0)%
Loan and lease related expenses	685	963	(278)	(28.8)%
Legal, audit and other professional fees	2,719	3,114	(395)	(12.7)%
Data processing	4,145	3,783	362	9.6%
Net gain recognized on other real estate owned and other related expenses	(98)	(103)	5	(4.9)%
Other intangible assets amortization expense	1,345	1,455	(110)	(7.6)%
Other non-interest expense	5,776	4,730	1,046	22.1%
Total non-interest expense	<u>\$ 53,809</u>	<u>\$ 48,800</u>	<u>\$ 5,009</u>	10.3%

Salaries and employee benefits, the single largest component of our non-interest expense, totaled \$34.0 million for the three months ended March 31, 2024 compared to \$30.4 million for the three months ended March 31, 2023, an increase of \$3.6 million, or 11.7%. The increases were primarily a result of increased headcount as a result of our acquisition of Inland. Our staffing increased from 971 full-time equivalent employees as of March 31, 2023 to 1,064 as of March 31, 2024.

Occupancy and equipment expense, net was \$5.3 million for the three months ended March 31, 2024 compared to \$4.4 million for the three months ended March 31, 2023, an increase of \$840,000 or 18.9%. The increase is primarily due to branches acquired as a result of the Inland acquisition.

Loan and lease related expenses were \$685,000 for the three months ended March 31, 2024 compared to \$963,000 for the three months ended March 31, 2023, a decrease of \$278,000, or 28.8%. The decrease was primarily driven by lower government guaranteed expenses.

Legal, audit, and other professional fees were \$2.7 million for the three months ended March 31, 2024 compared to \$3.1 million for the three months ended March 31, 2023, a decrease of \$395,000, or 12.7%. The decrease was principally driven by merger-related expenses incurred during the first quarter of 2023.

Data processing was \$4.1 million for the three months ended March 31, 2024, compared to \$3.8 million for the three months ended March 31, 2023, an increase of \$362,000 or 9.6%. The increases were driven by increased software licensing and IT infrastructure expenses.

Other non-interest expense was \$5.8 million for the three months ended March 31, 2024 compared to \$4.7 million for the three months ended March 31, 2023, an increase of \$1.0 million or 22.1%. These increase was primarily due \$1.3 million in charges taken for planned branch consolidations that will occur during the second quarter of 2024, which is inclusive of impairment on right-of-use assets.

Our efficiency ratio was 51.94% for the three months ended March 31, 2024 compared to 52.10% for the three months ended March 31, 2023. The change in our efficiency ratio for the three months ended March 31, 2024 was driven by net interest income growth. Our adjusted efficiency ratio was 51.75% for the three months ended March 31, 2024 compared to 51.54% for the three months ended March 31, 2023.

Please refer to the “Reconciliation of Non-GAAP Financial Measures” for a reconciliation of our non-GAAP measures to the most directly comparable GAAP financial measure.

Income Taxes

Our provision for income taxes for the three months ended March 31, 2024 totaled \$10.1 million compared to \$8.3 million for the three months ended March 31, 2023, an increase of \$1.8 million, or 22.0%. The increase in income tax expense was principally due to an increase in net income before provision for income taxes. Our effective tax rate was 25.0% for the three months ended March 31, 2024 and 25.7% for the three months ended March 31, 2023.

We expect our effective tax rate for 2024 to be approximately 25-27%.

Financial Condition

Condensed Consolidated Statements of Financial Condition Analysis

Our total assets increased by \$528.5 million, or 6.0%, to \$9.4 billion at March 31, 2024 compared to \$8.9 billion at December 31, 2023. The increase in total assets was primarily due to an increase in cash and cash equivalents of \$410.7 million, inclusive of \$200.0 million in short term investments, an increase of \$93.9 million in loans and leases, or 1.4%, from \$6.7 billion at December 31, 2023 to \$6.8 billion at March 31, 2024. Our originated loan and lease portfolio increased by \$133.4 million and our purchased credit deteriorated loans and acquired non-credit-deteriorated loans and leases portfolio decreased by \$39.5 million. The increase in our originated portfolio was primarily attributed to growth in the commercial and industrial portfolio. The decrease in our purchased credit deteriorated loans and acquired non-credit-deteriorated loans and leases portfolio was attributed to decreases in commercial and residential real estate resulting from resolutions and charge-offs.

Total liabilities increased by \$509.6 million, or 6.5%, to \$8.4 billion at March 31, 2024 compared to \$7.9 billion at December 31, 2023. Total deposits increased by \$173.2 million, or 2.4%, driven by growth in time deposits and money market accounts, offset by a decrease in non-interest bearing deposits. Other borrowings increased by \$326.0 million, or 82.5%, mainly due to advances under the Bank Term Funding Program of \$200.0 million and increased FHLB advances.

Investment Portfolio

Our investment securities portfolio consists of securities classified as available-for-sale and held-to-maturity. There were no securities classified as trading in our investment portfolio as of March 31, 2024 or December 31, 2023. All available-for sale securities are carried at fair value and may be used for liquidity purposes should management consider it to be in our best interest. Securities available-for-sale consist primarily of residential mortgage-backed securities, commercial mortgage-backed securities and U.S. government agencies securities.

Securities available-for-sale increased by \$36.7 million, or 2.7%, from \$1.3 billion at December 31, 2023 to \$1.4 billion at March 31, 2024. The increase was mainly attributed to purchases of securities, net of maturities, calls, and repayments.

At March 31, 2024, our held-to-maturity securities portfolio consists of obligations of states, municipalities and political subdivisions. We carry these securities at amortized cost. Securities held-to-maturity were \$1.2 million at March 31, 2024, and at December 31, 2023, respectively.

The following table summarizes the fair value of the available-for-sale and held-to-maturity securities portfolio as of the dates presented (dollars in thousands):

	March 31, 2024		December 31, 2023	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Available-for-sale				
U.S. Treasury Notes	\$ 87,147	\$ 86,112	\$ 116,398	\$ 115,434
U.S. Government agencies	155,659	138,054	147,062	130,695
Obligations of states, municipalities, and political subdivisions	86,160	81,709	86,022	82,275
Residential mortgage-backed securities				
Agency	825,180	726,587	786,970	695,803
Non-agency	136,561	113,709	122,359	100,260
Commercial mortgage-backed securities				
Agency	197,171	163,546	181,452	147,204
Corporate securities	40,667	36,752	40,681	36,171
Asset-backed securities	33,882	32,678	35,857	34,638
Total available-for-sale	<u>\$ 1,562,427</u>	<u>\$ 1,379,147</u>	<u>\$ 1,516,801</u>	<u>\$ 1,342,480</u>
Held-to-maturity				
Obligations of states, municipalities, and political subdivisions	\$ 1,156	\$ 1,149	\$ 1,157	\$ 1,149
Total held-to-maturity	<u>\$ 1,156</u>	<u>\$ 1,149</u>	<u>\$ 1,157</u>	<u>\$ 1,149</u>

Certain securities have fair values less than amortized cost and, therefore, contain unrealized losses. At March 31, 2024, we evaluated the securities that had an unrealized loss for credit losses and determined there were none. There were 320 investment securities with unrealized losses at March 31, 2024. We anticipate full recovery of amortized cost with respect to these securities by maturity, or sooner in the event of a more favorable market interest rate environment. We do not intend to sell these securities and it is not more likely than not that we will be required to sell them before recovery of their amortized cost basis, which may be at maturity.

The following table (dollars in thousands) set forth certain information regarding contractual maturities and the weighted average yields of our investment securities as of March 31, 2024. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties.

	Maturity as of March 31, 2024							
	Due in One Year or Less		Due from One to Five Years		Due from Five to Ten Years		Due after Ten Years	
	Amortized Cost	Weighted Average Yield ⁽¹⁾	Amortized Cost	Weighted Average Yield ⁽¹⁾	Amortized Cost	Weighted Average Yield ⁽¹⁾	Amortized Cost	Weighted Average Yield ⁽¹⁾

(1) The weighted average yields are based on amortized cost.

Total non-taxable securities classified as obligations of states, municipalities and political subdivisions were \$54.0 million at March 31, 2024, a decrease of \$1.7 million from December 31, 2023.

There were no holdings of securities of any one issuer, other than U.S. government-sponsored entities and agencies, with total outstanding balances greater than 10% of our stockholders' equity as of March 31, 2024 or December 31, 2023.

Restricted Stock

As a member of the Federal Home Loan Bank system, Byline Bank is required to maintain an investment in the capital stock of the FHLB. No market exists for this stock, and it has no quoted market value. The stock is redeemable at par by the FHLB and is, therefore, carried at cost. In addition, Byline Bank owns stock of Bankers' Bank that was acquired as part of a bank acquisition. The stock is redeemable at par and carried at cost. As of March 31, 2024 and December 31, 2023, we held \$22.8 million and \$16.3 million, respectively, in FHLB and Bankers' Bank stock. We evaluate impairment of our investment in FHLB and Bankers' Bank based on the ultimate recoverability of the par value rather than by recognizing temporary declines in value. We did not identify any indicators of impairment of FHLB and Bankers' Bank stock as of March 31, 2024 and December 31, 2023.

Loan and Lease Portfolio

Lending-related income is the most important component of our net interest income and is the main driver of the results of our operations. Total loans and leases at March 31, 2024 and December 31, 2023 were \$6.8 billion and \$6.7 billion, respectively, an increase of \$93.9 million, or 1.4%. Originated loans and leases were \$5.9 billion at March 31, 2024, an increase of \$133.4 million, or 2.3%, compared to \$5.8 billion at December 31, 2023. Purchased credit deteriorated loans and acquired non-credit-deteriorated loans and leases were \$877.8 million at March 31, 2024, a decrease of \$39.5 million, or 4.3%, compared to \$917.3 million at December 31, 2023. The increase in our originated portfolio was primarily attributed to organic loan and lease growth, and renewals of acquired loans and leases that are now reflected with originated loans. The decrease in the purchased credit deteriorated and acquired non-credit-deteriorated loan and lease portfolio was driven by renewals of acquired loans and leases as well as resolutions and charge-offs.

We strive to maintain a relatively diversified loan portfolio to help reduce the risk inherent in concentration in certain types of collateral. Loans, excluding leases, are typically made to real estate, manufacturing, wholesale, retail and service businesses for working capital needs, business expansions and operations. As of March 31, 2024, the loan portfolio included \$424.3 million of unguaranteed 7(a) SBA and USDA loans with exposure to the following top three industries: 17.3% retail trade, 13.2% accommodation and food services, and 11.4% manufacturing. The following table shows our allocation of originated, purchase credit deteriorated and acquired non-credit-deteriorated loans and leases as of the dates presented (dollars in thousands):

	March 31, 2024		December 31, 2023	
	Amount	% of Total	Amount	% of Total
Originated loans and leases				
Commercial real estate	\$ 1,879,149	27.7%	\$ 1,907,029	28.5%
Residential real estate	488,887	7.2%	465,133	7.0%
Construction, land development, and other land	416,996	6.2%	415,162	6.2%

Loans collateralized by real estate comprised 52.1% and 53.4% of the loan and lease portfolio at March 31, 2024 and December 31, 2023, respectively. Commercial real estate loans comprised the largest portion of the real estate loan portfolio as of March 31, 2024 and December 31, 2023 and totaled \$2.3 billion, or 64.3% of real estate loans and 33.5% of the total loan and lease portfolio at March 31, 2024. At December 31, 2023, commercial real estate loans totaled \$2.3 billion and comprised 65.1% of real estate loans and 34.7% of the total loan and lease portfolio. Purchased credit deteriorated commercial real estate loans decreased from \$137.8 million as of December 31, 2023 to \$117.5 million as of March 31, 2024, a decrease of \$20.3 million, or 14.8%. At March 31, 2024 and December 31, 2023, commercial real estate loans, including both owner-occupied and non-owner occupied, as a percentage of total capital were 279.7% and 299.6%, respectively. Non-owner occupied commercial real estate loans were \$1.0 billion, or 86.8% and 95.9% of total capital, at March 31, 2024 and December 31, 2023, respectively.

Residential real estate loans totaled \$733.0 million at March 31, 2024 compared to \$719.5 million at December 31, 2023, an increase of \$13.5 million, or 1.9%. The residential real estate loan portfolio comprised 20.8% and 20.2% of real estate loans as of March 31, 2024 and December 31, 2023, respectively, and 10.8% of total loans and leases at March 31, 2024 and December 31, 2023. Purchased credit deteriorated and acquired non-credit-deteriorated residential real estate loans decreased from \$254.4 million at December 31, 2023 to \$244.1 million at March 31, 2024, a decrease of \$10.3 million, or 4.0%. Multifamily real estate loans were \$421.3 million and \$399.3 million, or 36.5% and 36.8% of total capital, at March 31, 2024 and December 31, 2023, respectively.

Construction, land development, and other land loans totaled \$529.0 million at March 31, 2024 compared to \$526.8 million at December 31, 2023, an increase of \$2.1 million, or 0.4%. The construction, land development and other land loan portfolio comprised 15.0% and 14.8% of real estate loans at March 31, 2024 and December 31, 2023, respectively, and 7.9% of the total loan and lease portfolio at March 31, 2024 and December 31, 2023. The construction, land development and other land loan portfolio was 45.8% and 48.3% of total capital, at March 31, 2024 and December 31, 2023, respectively.

Our exposure to non-owner occupied commercial real estate office space as of March 31, 2024 was \$205.5 million, or 3.0% of our total loan and lease portfolio.

Commercial and industrial loans totaled \$2.6 billion at March 31, 2024 and \$2.4 billion at December 31, 2023, an increase of \$104.2 million, or 4.3%. The commercial and industrial loan portfolio comprised 37.7% and 36.6% of the total loan and lease portfolio at March 31, 2024 and December 31, 2023, respectively.

Lease financing receivables comprised 10.2% and 10.0% of the loan and lease portfolio at March 31, 2024 and December 31, 2023, respectively. Total lease financing receivables were \$692.0 million and \$665.9 million at March 31, 2024 and December 31, 2023, respectively, an increase of \$26.2 million, or 3.9%.

Loan and Lease Portfolio Maturities and Interest Rate Sensitivity

The following table shows our loan and lease portfolio by scheduled maturity at March 31, 2024 (dollars in thousands):

	Due in One Year or Less		Due after One Year Through Five Years		Due after Five Years Through Fifteen Years		Due after Fifteen Years

At March 31, 2024, 47.5% of the loan and lease portfolio bears interest at fixed rates and 52.5% at floating rates. The expected life of our loan portfolio will differ from contractual maturities because borrowers may have the right to curtail or prepay their loans with or without penalties. Because a portion of the portfolio is accounted for under ASC 326, the carrying value is significantly affected by estimates and it is impracticable to allocate scheduled payments for those loans based on those estimates. Consequently, the tables presented include information limited to contractual maturities of the underlying loans.

Allowance for Credit Losses - Loans and Leases

The ACL is determined by us on a quarterly basis, although we are engaged in monitoring the appropriate level of the allowance on a more frequent basis. The ACL reflects management's estimate of current expected credit losses inherent in the loan and lease portfolios. The computation includes elements of judgment and high levels of subjectivity.

Factors considered by us include, but are not limited to, actual loss experience, peer loss experience, changes in size and risk profile of the portfolio, identification of individual problem loan and lease situations that may affect a borrower's ability to repay, application of a

reasonable and supportable forecast, and evaluation of the prevailing economic conditions. Changes in conditions may necessitate revision of the estimate in future periods.

We assess the ACL based on three categories: (i) originated loans and leases, (ii) acquired non-credit-deteriorated loans and leases, and (iii) purchased credit deteriorated loans.

Total ACL was \$102.4 million at March 31, 2024 compared to \$101.7 million at December 31, 2023, an increase of \$680,000, or 0.7%. The increase was primarily due to an increase in qualitative adjustments and growth in the loan and lease portfolio, offset by charge-offs on on individually evaluated loans.. Total ACL to total loans and leases held for investment, net before ACL, was 1.51% and 1.52% of total loans and leases at March 31, 2024 and December 31, 2023, respectively. As of March 31, 2024, approximately \$30.1 million of the ACL was allocated to unguaranteed portion of SBA 7(a) and USDA loans.

The following tables present an analysis of the allowance credit losses - loans and leases for the periods presented (dollars in thousands):

Non-Performing Assets

Non-performing loans and leases include loans and leases 90 days past due and still accruing and loans and leases accounted for on a non-accrual basis. Non-performing assets consist of non-performing loans and leases plus other real estate owned. Non-performing assets at March 31, 2024 and December 31, 2023 totaled \$68.7 million and \$65.3 million, with the increase driven mainly by increases to non-accrual loans and leases. The U.S. government guaranteed portion of non-performing loans totaled \$7.1 million at March 31, 2024 and \$4.2 million at December 31, 2023.

Total OREO decreased from \$1.2 million at December 31, 2023 to \$785,000 at March 31, 2024. The \$415,000 decrease in OREO resulted from sales.

The following table sets forth the amounts of non-performing loans and leases, non-performing assets, and OREO at the dates indicated (dollars in thousands):

	March 31, 2024	December 31, 2023
Non-performing assets:		
Non-accrual loans and leases ⁽¹⁾⁽²⁾	\$ 67,899	\$ 64,107
Past due loans and leases 90 days or more and still accruing interest	—	—
Total non-performing loans and leases	67,899	64,107
Other real estate owned	785	1,200
Total non-performing assets	<u>\$ 68,684</u>	<u>\$ 65,307</u>
Total non-performing loans and leases as a percentage of total loans and leases	1.00%	0.96%
Total non-accrual loans and leases as a percentage of total loans and leases	1.00%	0.96%
Total non-performing assets as a percentage of total assets	0.73%	0.74%
Allowance for credit losses - loans and leases, as a percentage of non-performing loans and leases	150.76%	158.62%
Allowance for credit losses - loans and leases, as a percentage of non-accrual loans and leases	150.76%	158.62%
Non-performing assets guaranteed by U.S. government:		
Non-accrual loans guaranteed	\$ 7,138	\$ 4,154
Past due loans 90 days or more and still accruing interest guaranteed	—	—
Total non-performing loans guaranteed	<u>\$ 7,138</u>	<u>\$ 4,154</u>
Total non-performing loans and leases not guaranteed as a percentage of total loans and leases	0.90%	0.90%
Total non-accrual loans and leases not guaranteed as a percentage of total loans and leases	0.90%	0.62%
Total non-performing assets not guaranteed as a percentage of total assets	0.65%	0.69%

(1) Includes \$8,000 and \$406,000 of non-accrual loan modifications at March 31, 2024 and December 31, 2023, respectively.

(2) For the three months ended March 31, 2024 and 2023, \$1.6 million and \$975,000 in interest income would have been recorded had non-accrual loans been current.

Deposits

Our loan and lease growth is funded primarily through core deposits. We gather deposits primarily through each of our 47 branch locations in the Chicago metropolitan area and one branch in Wauwatosa, Wisconsin. Through our branch network, online, mobile and direct banking channels, we offer a variety of deposit products including demand deposit accounts, interest-bearing products, savings accounts, and certificates of deposit. We offer competitive online, mobile, and direct banking channels. Small businesses are a significant source of low cost deposits as they value convenience, flexibility, and access to local decision makers that are responsive to their needs.

Total deposits at March 31, 2024 were \$7.4 billion, representing an increase of \$173.2 million, or 2.4%, compared to \$7.2 billion at December 31, 2023, driven by an increase in time deposits and money market demand accounts. Non-interest-bearing deposits were \$1.9 billion, or 25.2% of total deposits, at March 31, 2024, a decrease of \$54.1 million, or 2.8%, compared to \$1.9 billion at December 31, 2023, or 26.6% of total deposits. Core deposits were 85.7% and 87.0% of total deposits at March 31, 2024 and December 31, 2023, respectively.

The following table shows the average balance amounts and the average contractual rates paid on our deposits for the periods indicated (dollars in thousands):

	For Three Months Ended March 31, 2024		For Three Months Ended March 31, 2023

Time deposits (\$100,000 and above)	1,010,267	4.72%	437,331	2.24%
Total	<u>\$ 7,226,321</u>	2.56%	<u>\$ 5,728,297</u>	1.15%

Our average cost of deposits was 2.56% during the three months ended March 31, 2024, compared to 1.15% for the three months ended March 31, 2023. This increase was principally attributed to higher rates on interest-bearing deposits as a result of the rising interest rate environment, an increase in interest bearing deposits and corresponding decrease in non-interest bearing deposits both related to deposit flows and the impact of the Inland acquisition. The ratio of our average non-interest bearing deposits to total average deposits was 25.9% during the three months ended March 31, 2024, compared to 36.3% during the three months ended March 31, 2023. We had \$436.3 million in brokered time deposits at March 31, 2024 and \$480.0 million at December 31, 2023, which represented 5.9% and 6.7% of total deposits, respectively. The decrease in brokered deposits was due to increases in other sources of funding. Our loan and lease to deposit ratio was 92.54% at March 31, 2024 compared to 93.39% at December 31, 2023.

The following table shows time deposits and other time deposits of \$250,000 or more by time remaining until maturity as of March 31, 2024 (dollars in thousands):

	Less than \$250,000	\$250,000 or Greater	Total	Uninsured Portion
Three months or less	\$ 396,340	\$ 103,894	\$ 500,234	\$ 36,144
Over three months through six months	574,975	164,784	739,759	53,284
Over six months through 12 months	518,783	135,457	654,240	50,957
Over 12 months	104,192	24,199	128,391	8,949
Total	<u>\$ 1,594,290</u>	<u>\$ 428,334</u>	<u>\$ 2,022,624</u>	<u>\$ 149,334</u>

Total estimated uninsured deposits, were \$2.1 billion and \$1.9 billion as of March 31, 2024 and December 31, 2023.

Short Term and Long Term Borrowings

In addition to deposits, we also utilize FHLB advances as a supplementary funding source to finance our operations. The Bank's advances from the FHLB are collateralized by commercial, residential and multi-family real estate loans and securities. At March 31, 2024 and December 31, 2023, we had an available borrowing capacity from the FHLB of \$2.6 billion and \$2.8 billion, respectively, subject to the availability of collateral. At March 31, 2024, the Company had \$470.0 million of FHLB advances outstanding with a maturities ranging from April 2024 to June 2024. The company also had a \$200.0 million advance taken as part of the Bank Term Funding Program ("BTFP") and a \$16.7 million term loan outstanding maturing in May 2026.

On January 17, 2024, the Company entered into a Letter Agreement with the Federal Reserve Bank ("FRB") of Chicago that allows the Bank to access the BTFP. On January 22, 2024, the Company opened an advance of \$200.0 million from the FRB as part of the BTFP. Under the terms of the BTFP, the bank pledges securities to FBR Chicago as collateral for available advances. The advance carries a fixed interest rate of 4.91%, and matures on January 22, 2025. Advances under the BTFP are prepayable at any time without a prepayment penalty.

The Company has the capacity to borrow funds from the discount window of the Federal Reserve System. There were no borrowings outstanding under the Federal Reserve Bank discount window line as of March 31, 2024 and December 31, 2023. The Company pledges loans as collateral for any borrowings under the Federal Reserve Bank discount window.

The following table sets forth certain information regarding our short-term borrowings at the dates and for the periods indicated (dollars in thousands):

	Three Months Ended March 31,	
	2024	2023
Federal Reserve Bank discount window borrowing:		
Average balance outstanding	\$ —	\$ —
Maximum outstanding at any month-end period during the year	—	—
Balance outstanding at end of period	—	—
Weighted average interest rate during period	N/A	N/A
Weighted average interest rate at end of period	N/A	N/A
Federal Home Loan Bank advances:		
Average balance outstanding	\$ 259,176	\$ 551,501
Maximum outstanding at any month-end period during the year	470,000	625,000
Balance outstanding at end of period	470,000	625,000
Weighted average interest rate during period	1.92%	4.25%
Weighted average interest rate at end of period	5.47%	4.91%
Federal funds purchased:		
Average balance outstanding	\$ —	\$ 2,778
Maximum outstanding at any month-end period during the year	—	—
Balance outstanding at end of period	—	—
Weighted average interest rate during period	N/A	5.30%
Weighted average interest rate at end of period	N/A	N/A
Bank Term Funding Program:		
Average balance outstanding	\$ 153,846	\$ —
Maximum outstanding at any month-end period during the year	200,000	—
Balance outstanding at end of period	200,000	—
Weighted average interest rate during period	4.92%	N/A
Weighted average interest rate at end of period	4.91%	N/A
Term Loan:		
Average balance outstanding	\$ 16,685	\$ —
Maximum outstanding at any month-end period during the year	16,667	—
Balance outstanding at end of period	16,667	—
Weighted average interest rate during period	7.77%	N/A
Weighted average interest rate at end of period	7.62%	N/A
Revolving Line of Credit:		
Average balance outstanding	\$ 5,316	\$ —
Maximum outstanding at any month-end period during the year	7,500	—
Balance outstanding at end of period	—	—
Weighted average interest rate during period	8.33%	N/A
Weighted average interest rate at end of period	N/A	N/A

Customer Repurchase Agreements (Sweeps)

Securities sold under agreements to repurchase represent a demand deposit product offered to customers that sweep balances in excess of the FDIC insurance limit into overnight repurchase agreements. We pledge securities as collateral for the repurchase agreements. Securities sold under agreements to repurchase decreased by \$6.1 million, from \$40.6 million at December 31, 2023 to \$34.5 million at March 31, 2024.

Liquidity

We manage liquidity based upon factors that include the amount of core deposits as a percentage of total deposits, the level of diversification of our funding sources, the amount of non-deposit funding used to fund assets, the availability of unused funding sources, off-balance sheet obligations, the availability of assets to be readily converted into cash without undue loss, the amount of cash and liquid securities we hold and the re-pricing characteristics and maturities of our assets when compared to the re-pricing characteristics of our liabilities, the ability to securitize and sell certain pools of assets and other factors.

Our liquidity needs are primarily met by cash and investment securities positions, growth in deposits, cash flow from amortizing loan portfolios, and borrowings from the FHLB. For additional information regarding our operating, investing, and financing cash flows, see Consolidated Statements of Cash Flows in our Unaudited Interim Condensed Consolidated Financial Statements included elsewhere in this report.

As of March 31, 2024, Byline Bank had maximum advance potential from the FHLB of \$3.1 billion and \$868.8 million from the FRB. As of March 31, 2024, Byline Bank had open FHLB advances of \$470.0 million and open letters of credit of \$13.5 million. Based on collateral and securities pledged, our available aggregate borrowing capacity at March 31, 2024 was \$1.4 billion. In addition, Byline Bank had uncommitted federal funds lines available of \$135.0 million available at March 31, 2024.

As of December 31, 2023, Byline Bank had maximum borrowing capacity from the FHLB of \$3.1 billion and \$866.5 million from the FRB. As of December 31, 2023, Byline Bank had open advances of \$325.0 million and open letters of credit of \$19.7 million. Based on collateral and securities pledged, our available aggregate borrowing capacity at December 31, 2023 was \$1.6 billion. In addition, Byline Bank had an uncommitted federal funds line available of \$135.0 million available at December 31, 2023.

On October 13, 2016, the Company entered into a \$30.0 million revolving credit agreement with a correspondent bank. Through subsequent amendments, the revolving credit agreement was reduced to \$15.0 million. The amended revolving line of credit bears interest at either SOFR plus 205 basis points or Prime Rate minus 75 basis points, not to be less than 2.00%, based on the Company's election, which is required to be communicated at least three business days prior to the commencement of an interest period. If the Company fails to provide timely notification, the interest rate will be Prime Rate minus 75 basis points. On May 26, 2023, the Company amended the agreement with the lender, which provides for: i) the renewal of the revolving line-of-credit facility of up to \$15.0 million, extending its maturity date to May 26, 2024; and ii) a new term loan facility in the principal amount of up to \$20.0 million with a maturity date of May 26, 2026, each subject to the existing Negative Pledge Agreement dated October 11, 2018, as amended.

At March 31, 2024, the variable term loan had an interest rate of 7.62% and an outstanding balance of \$16.7 million. At December 31, 2023, the variable term loan had an interest rate of 7.64% and an outstanding balance of \$18.3 million. At March 31, 2024, the line of credit had a no outstanding balance. At December 31, 2023, the line of credit had a \$11.3 million outstanding balance and an interest rate of 7.39%.

There are regulatory limitations that affect the ability of Byline Bank to pay dividends to the Company. See Note 21 of our Consolidated Financial Statements, included in our Annual Report on Form 10-K for the year ended December 31, 2023 for additional information. Management believes that such limitations will not impact our ability to meet our ongoing short-term cash obligations.

We expect that our cash and liquidity resources will be generated by the operations of Byline Bank, which we expect to be sufficient to satisfy our liquidity and capital requirements for at least the next twelve months.

Capital Resources

Stockholders' equity at March 31, 2024 was \$1.0 billion compared to \$990.2 million at December 31, 2023, an increase of \$18.9 million, or 1.9%. The increase was primarily driven by an increase in retained earnings, offset by an increase in accumulated other comprehensive loss during the three months ended March 31, 2024, reflecting the unrealized losses in our available-for-sale securities portfolio of \$136.8 million compared to \$130.2 million as of December 31, 2023.

The Company and Byline Bank are subject to various regulatory capital requirements administered by federal banking regulators. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by federal banking regulators that, if undertaken, could have a direct material effect on our financial statements.

Under applicable bank regulatory capital requirements, each of the Company and Byline Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. Byline Bank must also meet certain specific capital guidelines under the prompt corrective action framework. The capital amounts and classification are subject to qualitative judgments by the federal banking regulators about components, risk weightings and other factors. Quantitative measures established by regulation to ensure capital adequacy require the Company and Byline Bank to maintain minimum

amounts and ratios of CET1 capital, Tier 1 capital and total capital to risk-weighted assets and of Tier 1 capital to average consolidated assets, (referred to as the “leverage ratio”), as defined under these capital requirements.

As of March 31, 2024, Byline Bank exceeded all applicable regulatory capital requirements and was considered “well-capitalized.” There have been no conditions or events since March 31, 2024 that management believes have changed Byline Bank’s classifications.

The regulatory capital ratios for the Company and Byline Bank to meet the minimum capital adequacy standards and for Byline Bank to be considered well capitalized under the prompt corrective action framework and the Company’s and Byline Bank’s actual capital amounts and ratios are set forth in the following tables as of the periods indicated (dollars in thousands):

	Actual		Minimum Capital Required		Required to be Considered Well Capitalized	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
March 31, 2024						
Total capital to risk weighted assets:						
Company	\$ 1,153,483	13.66%	\$ 675,398	8.00%	N/A	N/A
Bank	1,113,131	13.22%	673,490	8.00%	\$ 841,862	10.00%
Tier 1 capital to risk weighted assets:						
Company	\$ 981,085	11.62%	\$ 506,548	6.00%	N/A	N/A
Bank	1,015,732	12.07%	505,117	6.00%	\$ 673,490	8.00%
Common Equity Tier 1 (CET1) to risk weighted assets:						
Company	\$ 894,085	10.59%	\$ 379,911	4.50%	N/A	N/A
Bank	1,015,732	12.07%	378,838	4.50%	\$ 547,210	6.50%
Tier 1 capital to average assets:						
Company	\$ 981,085	10.91%	\$ 359,579	4.00%	N/A	N/A
Bank	1,015,732	11.31%	359,280	4.00%	\$ 449,100	5.00%
December 31, 2023						
Total capital to risk weighted assets:						
Company	\$ 1,123,568	13.38%	\$ 671,576	8.00%	N/A	N/A
Bank	1,085,915	12.97%	669,904	8.00%	\$ 837,380	10.00%
Tier 1 capital to risk weighted assets:						
Company	\$ 956,027	11.39%	\$ 503,682	6.00%	N/A	N/A
Bank	993,375	11.86%	502,428	6.00%	\$ 669,904	8.00%
Common Equity Tier 1 (CET1) to risk weighted assets:						
Company	\$ 869,027	10.35%	\$ 377,762	4.50%	N/A	N/A
Bank	993,375	11.86%	376,821	4.50%	\$ 544,297	6.50%
Tier 1 capital to average assets:						
Company	\$ 956,027	10.86%	\$ 352,089	4.00%	N/A	N/A
Bank	993,375	11.30%	351,735	4.00%	\$ 439,669	5.00%

The ratios above reflect the Company’s election to opt into the regulators’ joint CECL transition provision, which allows the Company to phase in the capital impact of the adoption of CECL over the next three years beginning January 1, 2022. Accordingly, capital ratios as of March 31, 2024 reflect 75% of the CECL impact and December 31, 2023 reflect 50% of the CECL impact.

The Company and Byline Bank must maintain a capital conservation buffer consisting of CET1 capital greater than 2.5% of risk-weighted assets above the required minimum risk-based capital levels in order to avoid limitations on paying dividends, repurchasing shares, and paying discretionary bonuses. The conservation buffers for the Company and Byline Bank exceed the minimum capital requirement as of March 31, 2024.

Provisions of state and federal banking regulations may limit, by statute, the amount of dividends that may be paid to the Company by Byline Bank without prior approval of Byline Bank’s regulatory agencies. The Company is economically dependent on the cash dividends received from Byline Bank. These dividends represent the primary cash flow from operating activities used to service obligations. For the three months ended March 31, 2024 the Company received \$11.5 million in cash dividends from Byline Bank, in order to pay the required interest on its outstanding subordinated note, junior subordinated debentures in connection with its trust preferred securities interest, principal and interest payments related to its term note and revolving line of credit, and to fund other Company-related activities. For the year ended December 31, 2023, the Company received \$35.0 million in cash dividends from Byline Bank, in order to pay the required interest on its outstanding subordinated note and junior subordinated debentures in connection with its trust preferred securities interest, principal and interest on its term loan and revolving line of credit, and to fund other Company-related activities.

On December 12, 2022, we announced that our Board of Directors approved a stock repurchase program authorizing the purchase of up to an aggregate of 1,250,000 shares of our outstanding common stock. The program was in effect from January 1, 2023 until December 31, 2023. No shares were repurchased under this program.

On December 6, 2023, we announced that our Board of Directors approved a new stock repurchase program authorizing the purchase of up to an aggregate of 1,250,000 shares of the Company's outstanding common stock. The program will be effect from January 1, 2024 until December 31, 2024, unless terminated earlier. The shares may, at the discretion of management, be repurchased from time to time in open market purchases as market conditions warrant or in privately negotiated transactions. The Company is not obligated to purchase any shares under the program, and the program may be discontinued at any time. The actual timing, number and share price of shares purchased under the repurchase program will be determined by the Company at its discretion and will depend on a number of factors, including the market price of the Company's stock, general market and economic conditions and applicable legal requirements. The shares authorized to be repurchased represented approximately 2.9% of the Company's outstanding common stock at December 31, 2023. No shares were repurchased under this program during the three months ended March 31, 2024.

On April 23, 2024, our Board of Directors declared a cash dividend of \$0.09 per share payable on May 21, 2024 to stockholders of record of our common stock as of May 7, 2024.

Off-Balance Sheet Items and Other Financing Arrangements

We are a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of our customers. These financial instruments include commitments to extend credit, commercial letters of credit and standby letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the Condensed Consolidated Statements of Financial Condition. The contractual or notional amounts of those instruments reflect the extent of involvement we have in particular classes of financial instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. We evaluate each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by Byline Bank upon extension of credit, is based on management's credit evaluation of the counterparty. Collateral is primarily obtained in the form of commercial and residential real estate (including income producing commercial properties).

Letters of credit are conditional commitments issued by Byline Bank to guarantee the performance of a customer to a third-party. Those guarantees are primarily issued to support public and private borrowing arrangements, bond financing and similar transactions. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers.

Commitments to make loans are generally made for periods of 90 days or less. The fixed rate loan commitments have interest rates ranging from 1.00% to 15.00% and maturities up to 2052. Variable rate loan commitments have interest rates ranging from 4.00% to 18.00% and maturities up to 2053.

Our exposure to credit loss in the event of non-performance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual or notional amount of those instruments. We use the same credit policies in making commitments and conditional obligations as for funded instruments. We do not anticipate any material losses as a result of the commitments and standby letters of credit.

We enter into interest rate swaps that are used to manage differences in the amount, timing, and duration of our known or expected cash receipts and its known or expected cash payments principally related to certain variable rate loans, money market accounts and variable rate borrowings. We also enter into interest rate swaps with certain qualified borrowers to facilitate the borrowers' risk management strategies and concurrently entered into mirror-image derivatives with a third party counterparty.

We recognize derivative financial instruments at fair value regardless of the purpose or intent for holding the instrument. We record derivative assets and derivative liabilities on the Condensed Consolidated Statements of Financial Condition within accrued interest receivable and other assets, and accrued interest payable and other liabilities, respectively. Because the derivative assets and liabilities recorded on the balance sheet at March 31, 2024 do not represent the amounts that may ultimately be paid under these contracts, these assets and liabilities are listed in the table below (dollars in thousands):

	March 31, 2024		
	Notional	Fair Value	
		Asset	Liability
Interest rate swaps designated as cash flow hedges	\$ 650,000	\$ 37,976	\$ (582)
Other interest rate derivatives	691,612	22,124	(21,949)
Other credit derivatives	3,545	3	—

See Note 16 of our Unaudited Interim Condensed Consolidated Financial Statements as of March 31, 2024, included in this report, and Note 21 of our Consolidated Financial Statements, included in our Annual Report on Form 10-K for the year ended December 31, 2023 for additional information on derivatives.

GAAP Reconciliation and Management Explanation of Non-GAAP Financial Measures

Some of the financial measures included in our “Selected Financial Data” are not measures of financial performance in accordance with GAAP. Our management uses the non-GAAP financial measures set forth below in its analysis of our performance:

- “Adjusted net income” and “adjusted diluted earnings per share” exclude certain significant items, which include impairment charges on assets held for sale and right-of-use assets, and merger-related expenses, adjusted for applicable income tax. Management believes the significant items are not indicative of or useful to measure the Company’s operating performance on an ongoing basis.
- “Net interest income, fully taxable-equivalent” and “net interest margin, fully taxable-equivalent” are adjusted to reflect tax-exempt interest income on an equivalent before-tax basis using tax rates effective as of the end of the period. Management believes the metric provides useful comparable information to investors and that these measures may be useful for peer comparison.
- “Total revenue” is the combination of net interest income and non-interest income. Management believes the metric is an important measure of the Company’s operating performance on an ongoing basis.
- “Adjusted non-interest expense” is non-interest expense excluding certain significant items, which include impairment charges on assets held for sale and right-of-use assets, and merger-related expenses.
- “Adjusted efficiency ratio” is adjusted non-interest expense less amortization of intangible assets divided by net interest income and non-interest income. Management believes the metric is an important measure of the Company’s operating performance on an ongoing basis.
- “Adjusted non-interest expense to average assets” is adjusted non-interest expense divided by average assets. Management believes the metric is an important measure of the Company’s operating performance on an ongoing basis.
- “Adjusted return on average stockholders’ equity” is adjusted net income divided by average stockholders’ equity. Management believes the metric is an important measure of the Company’s operating performance on an ongoing basis.
- “Adjusted return on average assets” is adjusted net income divided by average assets. Management believes the metric is an important measure of the Company’s operating performance on an ongoing basis.
- “Non-interest income to total revenues” is non-interest income divided by net interest income plus non-interest income. Management believes that it is standard practice in the industry to present non-interest income as a percentage of total revenue. Accordingly, management believes providing these measures may be useful for peer comparison.
- “Pre-tax pre-provision net income” is pre-tax income plus the provision for credit losses. Management believes this metric demonstrates income excluding the tax provision or benefit and the provision for credit losses, and enables investors and others to assess the Company’s ability to generate capital to cover credit losses through a credit cycle.
- “Adjusted pre-tax pre-provision net income” is pre-tax pre-provision net income excluding certain significant items, which include impairment charges on assets held for sale and right-of-use assets, and merger-related expenses. Management believes the metric is an important measure of the Company’s operating performance on an ongoing basis.
- “Pre-tax pre-provision return on average assets” is pre-tax income plus the provision for credit losses, divided by average assets. Management believes this ratio demonstrates profitability excluding the tax provision or benefit and excludes the provision for credit losses. “Adjusted pre-tax pre-provision return on average assets” excludes certain significant items, which include impairment charges on assets held for sale and right-of-use assets, and merger-related expenses.
- “Tangible common equity” is defined as total stockholders’ equity reduced by preferred stock and goodwill and other intangible assets. Management does not consider servicing assets as an intangible asset for purposes of this calculation.
- “Tangible assets” is defined as total assets reduced by goodwill and other intangible assets. Management does not consider servicing assets as an intangible asset for purposes of this calculation.

- “Tangible book value per common share” is calculated as tangible common equity, which is stockholders’ equity reduced by preferred stock and goodwill and other intangible assets, divided by total shares of common stock outstanding. Management believes this metric is important due to the relative changes in the book value per share exclusive of changes in intangible assets.
- “Tangible common equity to tangible assets” is calculated as tangible common equity divided by tangible assets, which is total assets reduced by goodwill and other intangible assets. Management believes this metric is important to investors and analysts interested in relative changes in the ratio of total stockholders’ equity to total assets, each exclusive of changes in intangible assets.
- “Tangible net income available to common stockholders” is net income available to common stockholders excluding after-tax intangible asset amortization.
- “Adjusted tangible net income available to common stockholders” is tangible net income available to common stockholders excluding certain significant items. Management believes the metric is an important measure of the Company’s operating performance on an ongoing basis.
- “Return on average tangible common stockholders’ equity” is tangible net income available to common stockholders divided by average tangible common stockholders’ equity. Management believes the metric is an important measure of the Company’s operating performance on an ongoing basis.
- “Adjusted return on average tangible common stockholders’ equity” is adjusted tangible net income available to common stockholders divided by average tangible common stockholders’ equity. Management believes the metric is an important measure of the Company’s operating performance on an ongoing basis.

We believe that these non-GAAP financial measures provide useful information to its management and investors that is supplementary to our financial condition, results of operations and cash flows computed in accordance with GAAP; however, we acknowledge that our non-GAAP financial measures have a number of limitations. As such, you should not view these disclosures as a substitute for results determined in accordance with GAAP financial measures that we and other companies use. Management also uses these measures for peer comparison.

Reconciliations of Non-GAAP Financial Measures

	As of or For the Three Months Ended March 31,	
	2024	2023
<i>(dollars in thousands, except per share data)</i>		
Net income and earnings per share excluding significant items		
Reported Net Income	\$ 30,440	\$ 23,945
Significant items:		
Impairment charges on assets held for sale and ROU asset	194	20
Merger-related expense	—	489
Tax benefit	(52)	(56)
Adjusted Net Income	<u>\$ 30,582</u>	<u>\$ 24,398</u>
Reported Diluted Earnings per Share	\$ 0.70	\$ 0.64
Significant items:

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our primary market risk is interest rate risk, which is defined as the risk of loss of net interest income or net interest margin because of changes in interest rates.

We seek to measure and manage the potential impact of interest rate risk. Interest rate risk occurs when interest-earning assets and interest-bearing liabilities mature or re-price at different times, on a different basis or in unequal amounts. Interest rate risk also arises when our assets, liabilities and off-balance sheet contracts each respond differently to changes in interest rates, including as a result of explicit and implicit provisions in agreements related to such assets and liabilities and in off-balance sheet contracts that alter the applicable interest rate and cash flow characteristics as interest rates change.

We are also exposed to interest rate risk through the retained portion of the U.S. government guaranteed loans we make and the related servicing rights. Our U.S. government guaranteed loan portfolio is comprised primarily of SBA 7(a) loans, virtually all of which are quarterly or monthly adjustable with the prime rate. The SBA portfolio reacts differently in a rising rate environment than our other non-guaranteed portfolios. Generally, when interest rates rise, the prepayments in the SBA portfolio tend to increase.

Our management of interest rate risk is overseen by our Board of Directors and management asset liability committees based on a risk management infrastructure approved by our Board of Directors that outline reporting and measurement requirements. Our risk management infrastructure also requires a periodic review of all key assumptions used, such as identifying appropriate interest rate scenarios, setting loan prepayment rates based on historical analysis, non-interest-bearing and interest-bearing demand deposit lives based on historical analysis and the targeted investment term of capital. The committees closely monitor our interest sensitivity exposure, asset and liability allocation decisions, liquidity and capital positions, and local and national economic conditions and attempts to structure the loan and investment portfolios and funding sources to maximize earnings within acceptable risk tolerances.

We manage the interest rate risk associated with our interest-bearing liabilities by managing the interest rates and tenors associated with our borrowings from the FHLB, and deposits from our customers that we rely on for funding. We manage the interest rate risk associated with our interest-earning assets by managing the interest rates and tenors associated with our investment and loan portfolios, from time to time purchasing and selling investment securities.

We utilize interest rate derivatives to hedge our interest rate exposure on commercial loans when it meets our customers' and Byline Bank's needs. As of March 31, 2024, we had a notional amount of \$1.3 billion of interest rate derivatives outstanding that includes customer swaps and those on Byline Bank's balance sheet. The overall effectiveness of our hedging strategies is subject to market conditions, the quality of our execution, the accuracy of our valuation assumptions, the associated counterparty credit risk and changes in interest rates.

We do not engage in speculative trading activities relating to interest rates, foreign exchange rates, commodity prices, equities or credit.

Evaluation of Interest Rate Risk

We evaluate interest rate risk through the use of two different models: net interest income ("NII") simulations and economic value of equity ("EVE") simulations. The simulations provide an estimate of the impact of changes in interest rates on equity and net interest income based on a variety of assumptions. Changes in assumptions may significantly alter the results of our simulations.

We use an NII simulation model to measure and evaluate potential changes in our net interest income. We run various hypothetical interest rate scenarios at least quarterly and compare these results against a scenario with no changes in interest rates. Our NII simulation model incorporates various assumptions, which we believe are reasonable but which may have a significant impact on results such as: (1) asset prepayment speed assumptions, (2) predefined credit spreads for both investment securities and loans, (3) re-pricing characteristics for market-rate-sensitive instruments on and off balance sheet, and (4) the effect of interest rate limitations in our assets, such as floors and caps. Because of limitations inherent in any approach used to measure interest rate risk, simulation results are not intended as a forecast of the actual effect of a change in market interest rates on our results but rather as a means to better plan and execute appropriate asset-liability management strategies and manage our interest rate risk.

We use an EVE simulation to analyze the Company's long-term view of interest rate risk as it analyzes the Company's future cash flows. EVE is defined as the present value of the Company's assets, less the present value of its liabilities, adjusted for off-balance sheet items, with the results showing a theoretical change in the economic value of stockholders' equity as interest rates change. Our EVE simulation model incorporates various assumptions, which we believe are reasonable but which may have a significant impact on results such as: (1) asset prepayment speed assumptions, (2) deposit decay rate assumptions, (3) predefined credit spreads for both investment securities and loans (4) re-pricing characteristics for market-rate-sensitive instruments on and off balance sheet, (5) amortization schedule, and (6) discount rates associated with the products on balance sheet.

Potential changes to our net interest income and economic value of equity in hypothetical rising and declining interest rate scenarios calculated as of March 31, 2024 are presented below.

Basis Point Change in Interest Rates	Estimated Increase/Decrease in Net Interest Income		Estimated Percentage Change in EVE
	Year ending December 31		As of
	2024	2025	December 31, 2023
+300	13.2%	14.7%	(13.4)%
+200	8.8%	9.7%	(9.1)%
+100	4.4%	4.9%	(4.6)%
-100	(2.1)%	(2.8)%	5.0%
-200	(5.3)%	(7.2)%	8.9%
-300	(8.2)%	(10.9)%	11.4%

For the dynamic balance sheet and rate shift scenarios, we assume a balance sheet that reflects management's growth outlook and interest rates follow a forward yield curve. The shocks are defined as gradual shifts up and down it by 1/12th of the total change in rates each month for 12 months. For dynamic balance sheet and rate shifts, a gradual shift downward of 100 basis points would result in a 1.4% decrease to net interest income, and a gradual shift upwards of 100 and 200 basis points would result in 2.3% and 4.5% increases to net interest income, respectively, over the next 12 months.

The Bank's aggregate interest rate risk exposure is monitored and managed based on the economic outlook and under guidance of board-approved policy limits. The results of the simulations are hypothetical, and a variety of factors might cause actual results to differ substantially from what is depicted including the timing, magnitude, frequency of interest rate changes, changes in market conditions, depositor behavior changes, and management strategies.

Item 4. Controls and Procedures.

The Company's management, including our Chief Executive Officer and our Chief Financial Officer, have evaluated the effectiveness of our "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")), as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that, as of March 31, 2024, the Company's disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and is accumulated and communicated to the Company's management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting during the quarter ended March 31, 2024, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

The design of any system of controls and procedures is based in part upon certain assumptions about the likelihood of future events. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

PART II-OTHER INFORMATION

Item 1. Legal Proceedings.

We operate in a highly regulated environment. From time to time we are a party to various litigation matters incidental to the conduct of our business. We are not presently party to any legal proceedings the resolution of which we believe would have a material adverse effect on our business, prospects, financial condition, liquidity, results of operation, cash flows or capital levels.

Item 1A. Risk Factors.

There have been no material changes to the risk factors previously disclosed in the “Risk Factors” section included in our Form 10-K for our fiscal year ended December 31, 2023 that was filed with the SEC on March 4, 2024.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On December 6, 2023, we announced that our Board of Directors approved a new stock repurchase program authorizing the purchase of up to an aggregate of 1,250,000 shares of our outstanding common stock. The program is in effect from January 1, 2024 until December 31, 2024 unless terminated earlier. The shares may, at the discretion of management, be repurchased from time to time in open market purchases as market conditions warrant or in privately negotiated transactions. We are not obligated to purchase any shares under the program, and the program may be discontinued at any time. The actual timing, number and share price of shares purchased under the repurchase program will be determined by us at our discretion and will depend on a number of factors, including the market price of our stock, general market and economic conditions and applicable legal requirements.

The table below includes information regarding purchases of our common stock during the quarter ended March 31, 2024. We did not purchase any shares of our common stock during the first quarter of 2024 under our stock repurchase program.

Issuer Purchases of Equity Securities				
	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of a Publicly Announced Plan or Program	Maximum Number of Shares that May Yet Be Purchased Under the Plan or Program
January 1 - January 31, 2024	146,308	\$ 23.24	—	1,250,000
February 1 - February 29, 2024	78,075	21.02	—	1,250,000
March 1 - March 31, 2024	399	20.67	—	1,250,000
Total	<u>224,782</u>	<u>\$ 22.46</u>	<u>—</u>	

- (1) All shares acquired during the three months ended March 31, 2024 were acquired pursuant to the Company’s 2017 Omnibus Incentive Compensation Plan. Under the terms of the compensation plan, we can accept previously owned shares of common stock to be surrendered to satisfy the exercise price of stock options, the settlement of restricted stock awards and tax withholding obligations upon vesting and/or exercise.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.

EXHIBIT	
Number	Description
3.1	<u>Amended and Restated Certificate of Incorporation (filed as Exhibit 3.1 to the Company’s Registration Statement on Form S-1, as amended (File No. 333-218362) filed on June 19, 2017 and incorporated herein by reference)</u>
3.2	<u>Amended and Restated Bylaws (filed as Exhibit 3.2 to the Company’s Registration Statement on Form S-1, as amended (File No. 333-218362) filed on June 19, 2017 and incorporated herein by reference)</u>
4.1	<i>Certain instruments defining the rights of holders of long-term debt securities of the registrant and its subsidiaries are omitted pursuant to Item 601(b)(4)(iii) of Regulation S-K. The registrant hereby undertakes to furnish to the SEC, upon request, copies of any such instruments.</i>
31.1	<u>Certification of the Chief Executive Officer Pursuant to Rules 13a-14(a) and 15d-14(a) of the Securities Exchange Act of 1934, and Section 302 of the Sarbanes-Oxley Act of 2002</u>
31.2	<u>Certification of the Chief Financial Officer Pursuant to Rules 13a-14(a) and 15d-14(a) of the Securities Exchange Act of 1934, and Section 302 of the Sarbanes-Oxley Act of 2002</u>
32.1 ^(a)	<u>Certification of Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002</u>
101	Financial information from the Company’s Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2024, formatted in Inline XBRL interactive data files pursuant to Rule 405 of Regulation S-T: (i) Condensed Consolidated Statements of Condition; (ii) Condensed Consolidated Statements of Operations; (iii) Condensed Consolidated Statements of Comprehensive Income (Loss); (iv) Condensed Consolidated Statements of Changes in Stockholders’ Equity; (v) Condensed Consolidated Statements of Cash Flows; and (vi) Notes to Condensed Consolidated Financial Statements
104	Cover Page Interactive Data File – the cover page XBRL tags are embedded with the Inline XBRL document.
(a)	This exhibit shall not be deemed “filed” for purposes of Section 18 of the Exchange Act, or otherwise subject to the liability of that section, and shall not be deemed to be incorporated by reference into any filing under the Securities Act or the Exchange Act.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
