

Q1'27 Quarterly Results

June 3, 2026

Safe Harbor and Other Information

This presentation and associated commentary contain forward-looking statements regarding Veeva’s expected future performance and, in particular, includes guidance, provided as of June 3, 2026, about Veeva’s expected future financial results. Estimating guidance accurately for future periods is difficult. It involves assumptions and internal estimates that may prove to be incorrect and is based on plans that may change. Hence, there is a significant risk that actual results could differ materially from the guidance we have provided in this presentation and associated commentary and we have no obligation to update such guidance. There are also numerous risks that have the potential to negatively impact our financial performance, including issues related to the performance, availability, security, or privacy of our products, competitive factors, customer decisions and priorities, developments that impact the life sciences industry (including regulatory, funding, or policy changes), general macroeconomic and geopolitical events (including changes in trade policy or practices, inflationary pressures, currency exchange fluctuations, changes in interest rates, and geopolitical conflicts), and issues that impact our ability to hire, retain and adequately compensate talented employees. We have summarized what we believe are the principal risks to our business in a section titled “Summary of Risk Factors” on pages 13 and 14 in our filing on Form 10-K for the period ended January 31, 2026 which you can find [here](#). Additional details on the risks and uncertainties that may impact our business can be found in the same filing on Form 10-K and in our subsequent SEC filings, which you can access at [sec.gov](https://www.sec.gov). We recommend that you familiarize yourself with these risks and uncertainties before making an investment decision.

Statement Regarding Use of Non-GAAP Financial Measures

We provide the following non-GAAP measures, which we define as financial information that has not been prepared in accordance with generally accepted accounting principles in the United States, or GAAP: Non-GAAP gross margin, non-GAAP operating income and margin, non-GAAP net income, non-GAAP net income per share, and non-GAAP operating cash flow. In addition to our GAAP measures, we use these non-GAAP financial measures internally for budgeting and resource allocation purposes and in analyzing our financial results. We believe that excluding stock-based compensation expense, amortization of purchased intangibles, non-recurring litigation settlement-related charges, income tax effects of the same, and Excess Tax Benefit (Deficiency) (as defined in the Appendix) provides information that is helpful in understanding our operating results, evaluating our future prospects, comparing our financial results across accounting periods, and comparing our financial results to our peers, many of which provide similar non-GAAP financial measures.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. We encourage our investors and others to review our financial information in its entirety, not to rely on any single financial measure to evaluate our business, and to view our non-GAAP financial measures in conjunction with the most directly comparable GAAP financial measures. A reconciliation of GAAP to non-GAAP financial measures has been provided in the Appendix.

Total Revenue – Annual

Y/Y Growth¹

	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027 Guidance ²
Subscription	26%	17%	10%	20%	17%	~ 14%
Services	28%	15%	9%	0%	11%	~ 14%
Total	26%	16%	10%	16%	16%	~ 14%

Fiscal Year Ending January 31

Components of revenue may not sum to total revenue due to rounding

¹ Normalizing for the estimated impact of standardizing termination for convenience (TFC) rights in FY 2024, subscription revenue growth would have been about 15% in FY 2024 and FY 2025, and total revenue growth would have been about 14% and 12% in FY 2024 and FY 2025, respectively

² Guidance issued on June 3, 2026. Our FY 2027 revenue guidance assumes foreign currency exchange rates stay near current levels, which reflects an FX tailwind of approximately \$23 million compared to FY 2026. FY 2027 growth reflects the high-end of our guidance range.

Total Revenue – Quarterly

Y/Y Growth

Subscription	19%	17%	17%	16%	15%	~ 14%
Services	7%	13%	9%	14%	23%	~ 16%
Total	17%	17%	16%	16%	16%	~ 15%

Fiscal Year Ending January 31

Components of revenue may not sum to total revenue due to rounding

¹Guidance issued on June 3, 2026. Our Q2'27 revenue guidance assumes foreign currency exchange rates stay near current levels, which reflects an FX tailwind of approximately \$6 million compared to Q2'26. Q2'27 growth reflects the high-end of our guidance range.

Non-GAAP Operating Income – Annual

Fiscal Year Ending January 31

A reconciliation of GAAP to non-GAAP measures is set forth in the Appendix

¹ Normalizing for the estimated impact of standardizing termination for convenience (TFC) rights in FY 2024, FY 2024 non-GAAP operating margin would have been about 38%

² Guidance issued on June 3, 2026. Our FY 2027 guidance assumes foreign currency exchange rates stay near current levels, which reflects an immaterial impact to non-GAAP operating income compared to FY 2026.

Non-GAAP Operating Income – Quarterly

Fiscal Year Ending January 31

A reconciliation of GAAP to non-GAAP measures is set forth in the Appendix

¹Guidance issued on June 3, 2026. Our Q2'27 guidance assumes foreign currency exchange rates stay near current levels, which reflects an immaterial impact to non-GAAP operating income compared to Q2'26.

Normalized Billings – Annual

Fiscal Year Ending January 31

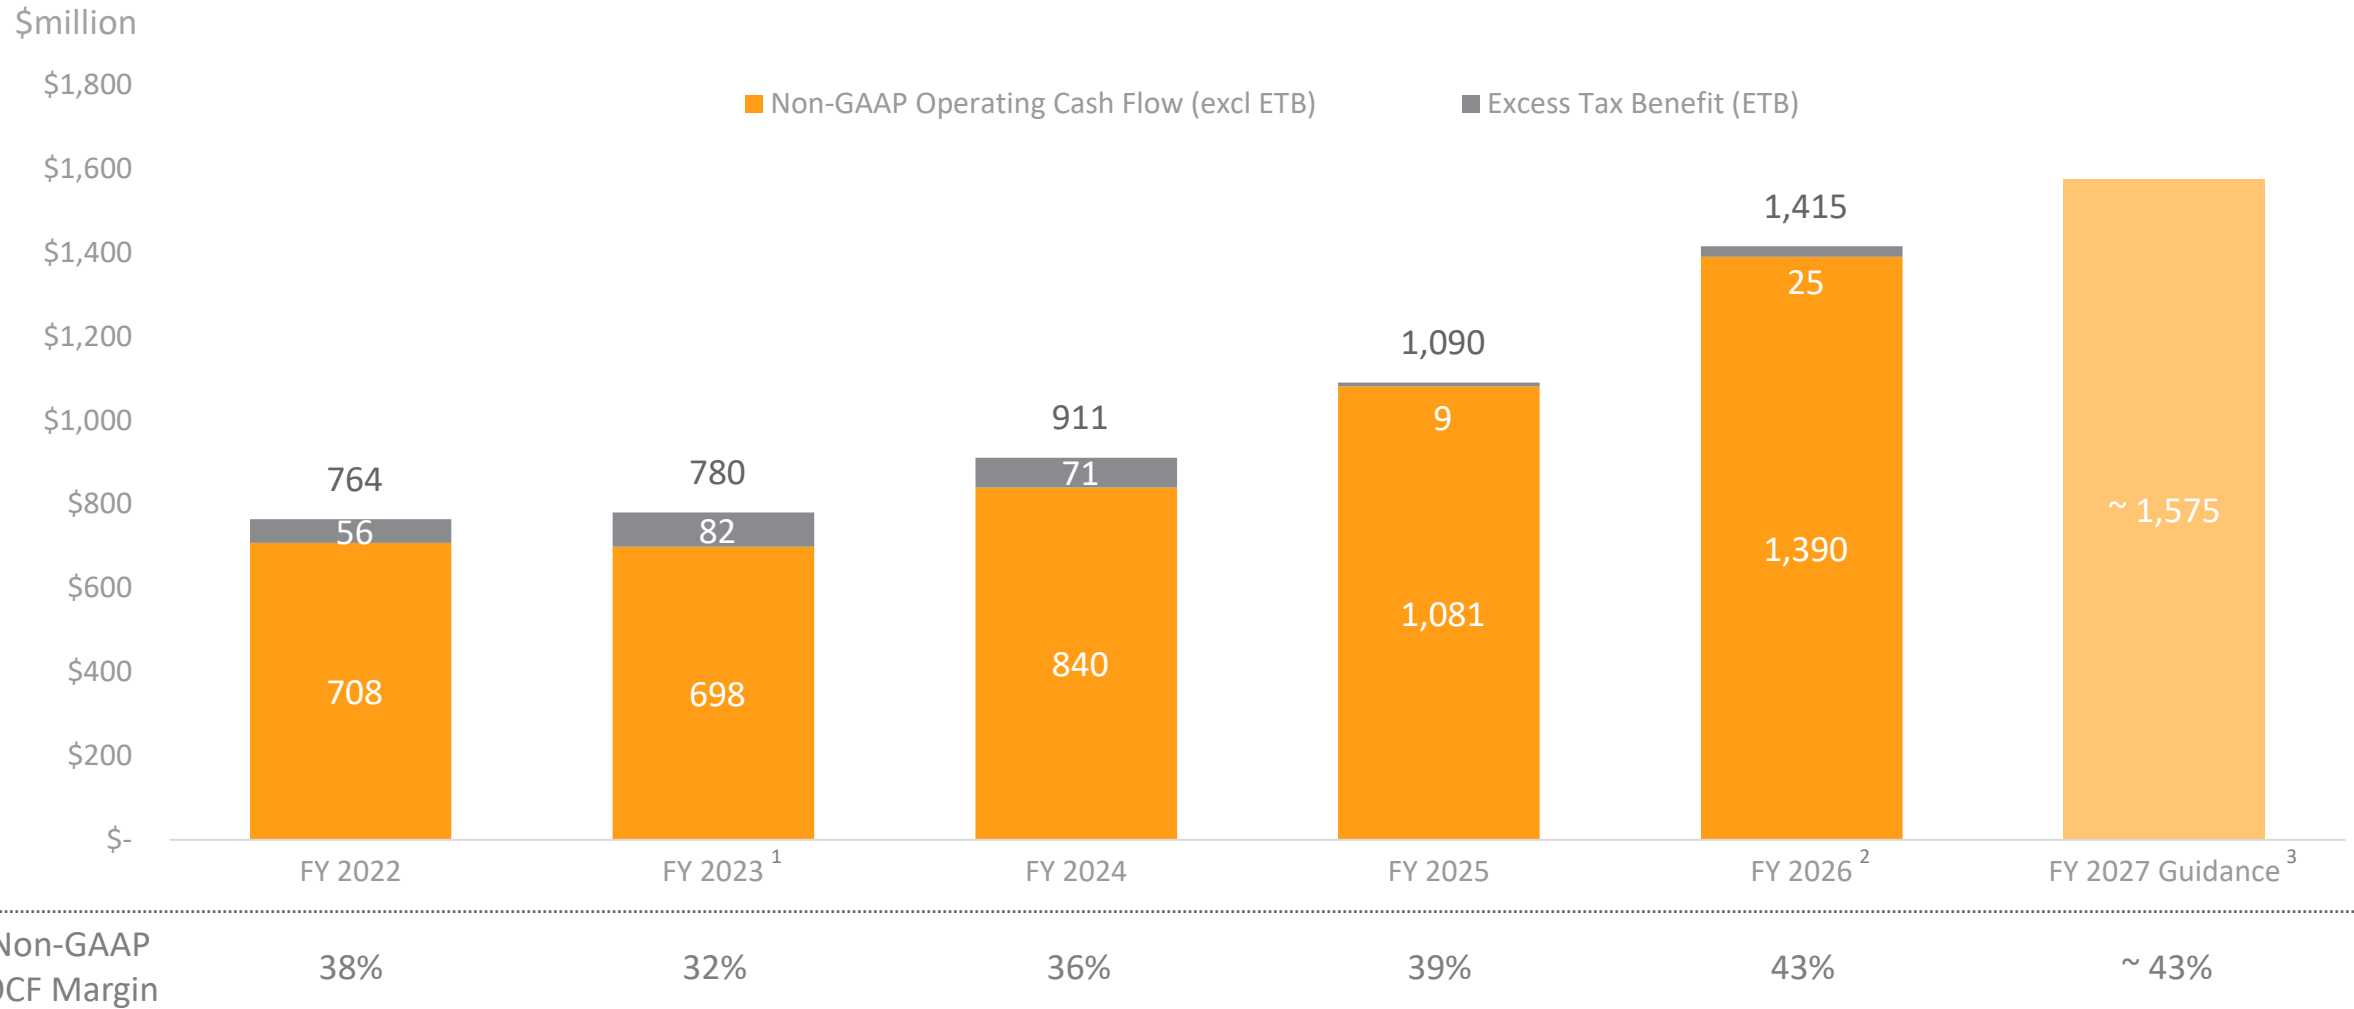

Normalized Billings is defined in the Appendix

¹Guidance issued on June 3, 2026. Our FY 2027 normalized billings guidance assumes foreign currency exchange rates stay near current levels, which reflects an immaterial impact to normalized billings compared to FY 2026. Our FY 2027 normalized billings guidance is expected to be about \$30 million below calculated billings (as defined in the Appendix) due to billing term changes in customer renewals or delayed renewals that have closed and billed after the period end.

²Normalized billings growth reflects the current period normalized billings amount as compared to the year ago calculated billings amount.

Operating Cash Flow – Annual

Fiscal Year Ending January 31

A reconciliation of GAAP to non-GAAP measures is set forth in the Appendix

¹ From FY 2023 to FY 2025, non-GAAP operating cash flow included the impact of tax legislation that required capitalization of certain R&D expenses. This included an approximately \$100 million headwind in FY 2023 compared to FY 2022.

² Starting in FY 2026, non-GAAP operating cash flow included the impact of tax legislation that allows for the immediate deduction of certain domestic R&D expenses. This included an approximately \$145 million tailwind in FY 2026 compared to FY 2025.

³ Guidance issued on June 3, 2026. Non-GAAP guidance excludes any potential impact of the Excess Tax Benefit (Deficiency) (as defined in the Appendix).

FY 2027 Guidance

	Guidance
Total Revenue	\$3,635-3,645 million
Subscription Revenue	~\$3,060 million
Commercial Subscription Revenue	~\$1,395 million
R&D and Quality Subscription Revenue	~\$1,665 million
Services Revenue	\$575-585 million
Non-GAAP Operating Income	~\$1,610 million
Non-GAAP Fully Diluted Net Income per Share	~\$9.05
Normalized Billings	~\$3,825 million
Non-GAAP Operating Cash Flow	~\$1,575 million

Guidance issued on June 3, 2026. Our FY 2027 guidance assumes foreign currency exchange rates stay near current levels, which reflects an FX tailwind of approximately \$23 million to total revenue and an immaterial impact to non-GAAP operating income and normalized billings compared to FY 2026. FY 2027 normalized billings is expected to be about \$30 million below calculated billings due to billing term changes in customer renewals or delayed renewals that have closed and billed after the period end. We are not able, at this time, to provide GAAP targets for operating income and fully diluted net income per share for the fiscal year ending January 31, 2027 because of the difficulty of estimating certain items excluded from non-GAAP operating income and non-GAAP fully diluted net income per share that cannot be reasonably predicted, such as charges related to stock-based compensation expense. Non-GAAP operating cash flow excludes any potential impact of Excess Tax Benefit (Deficiency). We do not guide to GAAP operating cash flow because of the difficulty of estimating the potential impact of Excess Tax Benefit (Deficiency) (as defined in the Appendix), due to the nature of equity compensation activity and related stock-based compensation expense. The effect of any of these excluded items may be significant.

Q2'27 Guidance

	Guidance
Total Revenue	\$902-905 million
Subscription Revenue	~\$754 million
Services Revenue	\$148-151 million
Non-GAAP Operating Income	\$392-395 million
Non-GAAP Fully Diluted Net Income per Share	\$2.21-2.22

Guidance issued on June 3, 2026. Our Q2'27 guidance assumes foreign exchange rates stay near current levels, which reflects an FX tailwind of approximately \$6 million to total revenue and an immaterial impact to non-GAAP operating income compared to Q2'26. We are not able, at this time, to provide GAAP targets for operating income and fully diluted net income per share for the second quarter ending July 31, 2026 because of the difficulty of estimating certain items excluded from non-GAAP operating income and non-GAAP fully diluted net income per share that cannot be reasonably predicted, such as charges related to stock-based compensation expense. The effect of these excluded items may be significant.

Appendix

Definitions

- Excess Tax Benefit (Deficiency) – The realized tax benefit (deficiency) related to employee equity compensation, including the vesting of restricted stock units and the exercising and selling of stock options.
- Calculated Billings – Revenue for the period plus the change in deferred revenue from the immediately preceding period minus the change in unbilled accounts receivable from the immediately preceding period.
- Normalized Billings – Reflects Calculated Billings, adjusted for the impact of (i) term changes in our customer renewals, such as changes to renewal date (for example, changing the renewal date of multiple products to be coterminous) or changes to billing frequency (for example, changing from annual to quarterly billings), and (ii) delayed renewals that have closed and billed after the period end.
