"Our strong results in the quarter and the year reflect our continued outstanding execution and expanding position as a trusted partner to the industry," said CFO Brent Bowman. "We are set up for another year of high growth and strong profitability and are tracking ahead of our 2025 targets."

Recent Highlights:

- Customer Success and Product Excellence Drive Industry Leadership — Veeva finished the year with 1,205 customers, up a record 212 from the year prior. Veeva Commercial Solutions grew a record 81 customers to 653, and Veeva R&D Solutions also added a record 196 customers for a total of 860(2)(3). Subscription revenue retention was 119% for the year(3), reflecting continued growth with existing customers.
- Establishing Clinical Leadership — The life sciences industry is increasingly turning to Veeva for its innovative products and digital trials vision. More than 450 customers now use at least one Veeva Vault Clinical solution, up a record 100 from the year prior(3). A growing number of top 20 pharmas are standardizing on Veeva clinical solutions with 16 using Veeva Vault eTMF, seven using Vault CTMS, and two using Veeva Vault CDMS(3).

- Expanding Opportunity and Product Portfolio in Quality — It was an important year for Veeva Vault Quality as it expands to modernize quality end-to-end, including innovations in the critical area of laboratory information management (LIMS). Strong momentum continued as quality added more than 100 new customers in the year, another record, and more than 200 customers now have both Veeva Vault QualityDocs and Veeva Vault QMS(3).
- Veeva Link Becoming a Powerful Data Platform — Veeva Link expanded its real-time customer intelligence products to more than 20 therapeutic areas in the year. Link customer count nearly doubled in the year and four top 20 pharmas have selected Link enterprise wide across all therapeutic areas to drive more informed, high value interactions with key people(3).

Financial Outlook:

Veeva is providing guidance for its fiscal first quarter ending April 30, 2022 as follows:

- Total revenues between \$494 and \$496 million.
- Non-GAAP operating income between \$187 and \$189 million(5).
- Non-GAAP fully diluted net income per share between \$0.91 and \$0.92(5).

Veeva is providing guidance for its fiscal year ending January 31, 2023 as follows:

- Total revenues between \$2,160 and \$2,170 million.
- Non-GAAP operating income of about \$825 million(5).
- Non-GAAP fully diluted net income per share of approximately \$4.02(5).

(1) This press release uses non-GAAP financial metrics that are adjusted for the impact of various GAAP items. See the section titled "Non-GAAP Financial Measures" and the tables entitled "Reconciliation of GAAP to Non-GAAP Financial Measures" below for details.

(2) The combined customer counts for Commercial Solutions and R&D Solutions exceed the total customer count in each year because some customers subscribe to products in both areas. Veeva Commercial Solutions consist of our cloud software, data, and analytics products built specifically to more efficiently and effectively commercialize our customers' products. Veeva R&D Solutions consist of our clinical, quality, regulatory, and safety products.

(3) Customer count totals are presented net of customer attrition during the period.

(4) We calculate our annual subscription services revenue retention rate for a particular fiscal year by dividing (i) annualized subscription revenue as of the last day of that fiscal year from those customers that were also customers as of the last day of the prior fiscal year by (ii) the annualized subscription revenue from all customers as of the last day of the prior fiscal year. Annualized subscription revenue is calculated by multiplying the daily subscription revenue recognized on the last day of the fiscal year by 365. This calculation includes the impact on our revenues from customer non-renewals, deployments of additional users or decreases in users, deployments of additional solutions or discontinued use of solutions by our customers, and price changes for our solutions.

(5) Veeva is not able, at this time, to provide GAAP targets for operating income and fully diluted net income per share for the first fiscal quarter ending April 30, 2022 or fiscal year ending January 31, 2023 because of the difficulty of estimating certain items excluded from non-GAAP operating income and non-GAAP fully diluted net income per share that cannot be reasonably predicted, such as charges related to stock-based compensation expense. The effect of these excluded items may be significant.

About Veeva Systems

Veeva uses its ir.veeva.com website as a means of disclosing material non-public information, announcing

upcoming investor conferences, and for complying with its disclosure obligations under Regulation FD. Accordingly, you should monitor our investor relations website in addition to following our press releases, SEC filings, and public conference calls and webcasts.

Forward-looking Statements

This release contains forward-looking statements regarding Veeva's expected future performance and, in particular, includes quotations of management and guidance provided as of March 2, 2022 about Veeva's expected future financial results. Estimating guidance accurately for future periods is difficult. It involves assumptions and internal estimates that may prove to be incorrect and is based on plans that may change. Hence, there is a significant risk that actual results could differ materially from the guidance we have provided in this release and we have no obligation to update such guidance. There are also numerous risks that have the potential to negatively impact our financial performance, including as a result of competitive factors, customer decisions and priorities, events that impact the life sciences industry, issues related to the security or performance of our products, the pandemic, issues that impact our ability to hire, retain and adequately compensate talented employees, and general macroeconomic and geo-political events (including impacts related to events in Ukraine). We have summarized on one page what we believe are the principal risks to our business in a section titled "Summary of Risk Factors" on page 39 in our filing on Form 10-Q for the period ended October 31, 2021, which you can find [here](#). Additional details on the risks and uncertainties that may impact our business can be found in the same filing on Form 10-Q and in our subsequent SEC filings, which you can access at sec.gov. We recommend that you familiarize yourself with these risks and uncertainties before making an investment decision.

Non-GAAP Financial Measures

In Veeva's public disclosures, Veeva has provided non-GAAP measures, which it defines as financial information that has not been prepared in accordance with generally accepted accounting principles in the United States, or GAAP. In addition to its GAAP measures, Veeva uses these non-GAAP financial measures internally for budgeting and resource allocation purposes and in analyzing its financial results. For the reasons set forth below, Veeva believes that excluding the following items provides information that is helpful in understanding its operating results, evaluating its future prospects, comparing its financial results across accounting periods, and comparing its financial results to its peers, many of which provide similar non-GAAP financial measures.

- Stock-based compensation expenses. Veeva excludes stock-based compensation expenses primarily because they are non-cash expenses that Veeva excludes from its internal management reporting processes. Veeva's management also finds it useful to exclude these expenses when they assess the appropriate level of various operating expenses and resource allocations when budgeting, planning and forecasting future periods. Moreover, because of varying available valuation methodologies, subjective assumptions and the variety of award types that companies can use under FASB ASC Topic 718, Veeva believes excluding stock-based compensation expenses allows investors to make meaningful comparisons between our recurring core business operating results and those of other companies.

- Amortization of purchased intangibles. Veeva incurs amortization expense for purchased intangible assets in connection with acquisitions of certain businesses and technologies. Amortization of intangible assets is a non-cash expense and is inconsistent in amount and frequency because it is significantly affected by the timing, size of acquisitions and the inherent subjective nature of purchase price allocations. Because these costs have already been incurred and cannot be recovered, and are non-cash expenses, Veeva excludes these expenses for its internal management reporting processes. Veeva's management also finds it useful to exclude these charges when assessing the appropriate level of various operating expenses and resource allocations when budgeting, planning and forecasting future periods. Investors should note that the use of intangible assets contributed to Veeva's revenues earned during the periods presented and will contribute to Veeva's future period revenues as well.
- Income tax effects on the difference between GAAP and non-GAAP costs and expenses. The income tax effects that are excluded relate to the imputed tax impact on the difference between GAAP and non-GAAP costs and expenses due to stock-based compensation and purchased intangibles for GAAP and non-GAAP measures.

There are limitations to using non-GAAP financial measures because non-GAAP financial measures are not prepared in accordance with GAAP and may be different from non-GAAP financial measures provided by other companies. The non-GAAP financial measures are limited in value because they exclude certain items that may have a material impact upon our reported financial results. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by Veeva's management about which items are adjusted to calculate its non-GAAP financial measures. Veeva compensates for these limitations by analyzing current and future results on a GAAP basis as well as a non-GAAP basis and also by providing GAAP measures in its public disclosures.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Veeva encourages its investors and others to review its financial information in its entirety, not to rely on any single financial measure to evaluate its business, and to view its non-GAAP financial measures in conjunction with the most directly comparable GAAP financial measures. A reconciliation of GAAP to the non-GAAP financial measures has been provided in the tables below.

The following tables reconcile the specific items excluded from GAAP metrics in the calculation of non-GAAP metrics for the periods shown below:
