

Glaukos Technologies Featured in Numerous Scientific Abstracts at the 2021 European Society of Cataract and Refractive Surgeons Annual Meeting

2021-10-07

SAN CLEMENTE, Calif.--(BUSINESS WIRE)-- Glaukos Corporation (NYSE: GKOS), an ophthalmic medical technology and pharmaceutical company focused on novel therapies for the treatment of glaucoma, corneal disorders and retinal diseases, announced today that its technologies will be featured in various scientific programming at the European Society of Cataract and Refractive Surgeons (ESCRS) Annual Meeting, being held October 8-11, 2021, in Amsterdam, Netherlands.

Key Glaucoma Presentations:

Papers

- **Fadi Haddad, MD** – The Effect of Trabecular Micro-Bypass Stent Implantation Combined with Cataract Surgery Using Hydrophilic versus Hydrophobic Intra-Ocular Lenses on Intra-Ocular Pressure in Patients with Glaucoma: Real-Life One-Year Follow-Up
- **Fritz H. Hengerer, MD** – Five-Year Outcomes of Trabecular Micro-Bypass Stents (*iStent inject*[®]) Implanted with or without Cataract Surgery
- **Lotte Scheres, MD** – Minimally-Invasive Glaucoma Surgery with Three Generations of Trabecular Micro-Bypass Implants in Combination with Cataract Surgery for Glaucoma: One-Year Results

Posters

- **Ahmed Alhabash, MD** – Longitudinal Outcomes of Second-Generation Trabecular Micro-Bypass Stent Implantation (*iStent inject*) with Cataract Surgery in a Saudi Glaucoma Population
- **Alfredo Borgia, MD** – Surgical Outcomes of Combined Trabecular Micro-Bypass Stent (*iStent*[®]) Implantation with Cataract Surgery
- **Bárbara González-Ferrer, MD** – Treatment Optimization with *iStent inject* in the Setting of Cataract Surgery in Patients with Mild to Severe Glaucoma and Cataract
- **Karsten Klabe, MD** – Minimally-Invasive Glaucoma Surgery: Five-Year Results with *iStent inject* in Combination with Cataract Surgery
- **Lin Lu, MD** – Real-World NHS Experience with Second-Generation Trabecular Micro-Bypass Stents (*iStent inject*)

- **Florian Rufer, MD** – IOP Reduction After Repeated *iStent inject W* Implantation Following Previously Successful *iStent inject* Implantation: Six-Month Follow-Up

Key Corneal Health Presentations:

Papers

- **Anders Behndig, MD** – Individualized Topography-Guided Cross-Linking for Keratoconus – Comparison of Epi-on in High Oxygen to Epi-off in Room Air Protocols
- **Joao Chaves, MD** – Customized Corneal Cross-Linking for Keratoconus – Clinical and Morphological Results
- **Li Lim, MD** – Corneal Stromal Demarcation Line and Safety of Transepithelial Corneal Cross-Linking with Supplemental Oxygen in Keratoconus
- **Samuel Arba Mosquera, PhD** – Reduction of Corneal Epithelial Hyperplasia after Customized Corneal Wavefront-Guided LASIK Combined with Accelerated Cross-Linking (LASIK Xtra) for Low, Moderate and High Myopic Corrections
- **Emmanuel Neves, MD** – The Effect of Topography-Guided Corneal Cross-Linking on the Curvature of the Posterior Corneal Surface
- **Achilleas Rasoglou, MD** – Comparison of Tomographic Outcomes After Topography-Guided Photorefractive Keratectomy with Accelerated Cross-Linking versus Accelerated Cross-Linking Alone in Patients with Keratoconus
- **Miguel Rechichi, MD** – Eight-Year Results of Accelerated Epi-off Corneal Cross-Linking in Patients with Progressive Keratoconus

Posters

- **Rashid Alsaïdi, MD** – Outcome of Customized Corneal Collagen Cross-Linking (CuRV) for Keratoconus Patients in Oman: 24-Month Results
- **Simone Alex Bagaglia, MD** – Long-Term Results of Accelerated 9mW Corneal Cross-Linking for Early Progressive Keratoconus: The Siena Eye-Cross Study 2 in Pediatric Patients
- **Farideh Doroodgar, MD** – Combination of Small Incision Lenticule Extraction with Prophylactic Accelerated Cross-Linking (ReLEx SMILE Xtra) in Patients with Thin Cornea: Three-Year Follow-Up
- **Siddharth Duggal, MD** – Comparative Evaluation of the Corneal Densitometry and Objective Scatter Index Changes Following SMILE XTRA versus SMILE
- **Alaa Eldanasoury, MD** – Clinical Results of Accelerated Corneal Cross-Linking in a Saudi Population: One-Year Results
- **Sara Geada, MD** – Progressive Keratoconus Treatment Using Partial Topography-Guided PRK Combined with Customized Corneal Cross-Linking
- **Zuzana Halasova, MD** – Customized Corneal Cross-Linking for Keratoconus Treatment
- **Nanji Lu, MD** – The Demarcation Line and Biomechanics After Combining Different Corneal Cross-Linking Protocols with Laser in Situ Keratomileusis and Transepithelial Photorefractive Keratectomy

Instructional Courses

- “Customized Cross-Linking” on Saturday, October 9, 2021, at 9:45 a.m. – 11:15 a.m. CEST in Hall 13
- “Expanding Applications of Corneal Cross-Linking and Early Detection of Keratoconus” on Monday, October 11, 2021, at 9:45 a.m. – 11:15 a.m. CEST in Hall 11

Additionally, Glaukos is sponsoring two educational symposiums in conjunction with ESCRS onsite:

- “Preserve Your Patients’ Quality of Life with *iStent injectW*” on Saturday, October 9, 2021, at 11:45 a.m. - 12:30 p.m. CEST in Hall 10
- “Transforming the Standard of Care for Keratoconus with iLink™ V” on Sunday, October 10, 2021, at 11:45 a.m. - 12:30 p.m. CEST in Hall 10

Abstracts, full session details, registration and more information can be found at www.es CRS.org/.

Glaukos will also be exhibiting on the showroom floor throughout ESCRS at booth #A23.

The ESCRS annual meeting is among the largest global gatherings of anterior segment physicians, medical personnel and industry executives in the ophthalmic industry. All educational content of the ESCRS annual meeting is planned by its program committee, and ESCRS does not endorse, promote, approve or recommend the use of any products, devices or services.

About Glaukos

Glaukos (www.glaukos.com) is an ophthalmic medical technology and pharmaceutical company focused on novel therapies for the treatment of glaucoma, corneal disorders and retinal diseases. The company pioneered Micro-Invasive Glaucoma Surgery, or MIGS, to revolutionize the traditional glaucoma treatment and management paradigm. Glaukos launched the *iStent*, its first MIGS device, in the United States in 2012, its next-generation *iStent inject* device in the United States in 2018, and most recently, the *iStent inject W* device in 2020. In corneal health, Glaukos’ proprietary suite of single-use, bio-activated pharmaceuticals are designed to strengthen, stabilize and reshape the cornea through a process called corneal collagen cross-linking to treat corneal ectatic disorders and correct refractive conditions. Glaukos is leveraging its platform technology to build a comprehensive and proprietary portfolio of micro-scale surgical and pharmaceutical therapies in glaucoma, corneal health and retinal disease.

Forward-Looking Statements

All statements other than statements of historical facts included in this press release that address activities, events or developments that we expect, believe or anticipate will or may occur in the future are forward-looking statements. Although we believe that we have a reasonable basis for forward-looking statements contained herein, we caution you that they are based on current expectations about future events affecting us and are subject to risks, uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control, that may cause our actual results to differ materially from those expressed or implied by forward-looking statements in this press release. These potential risks and uncertainties include, without limitation, the timing and extent to which obtain regulatory approval for investigational products, our ability to successfully commercialize such products, the ability to obtain and maintain adequate financial coverage and reimbursement for our products, and the continued efficacy and safety profile of our products as might be suggested in the presentations at the ESCRS meeting. These and other risks, uncertainties and factors related to Glaukos, and our business are described in detail under the caption “Risk Factors” and elsewhere in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2021, which was filed with the Securities and Exchange Commission

(SEC) on August 5, 2021. Our filings with the Securities and Exchange Commission are available in the Investor Section of our website at www.glaukos.com or at www.sec.gov. In addition, information about the risks and benefits of our products is available on our website at www.glaukos.com. All forward-looking statements included in this press release are expressly qualified in their entirety by the foregoing cautionary statements. You are cautioned not to place undue reliance on the forward-looking statements in this press release, which speak only as of the date hereof. We do not undertake any obligation to update, amend or clarify these forward-looking statements whether as a result of new information, future events or otherwise, except as may be required under applicable securities law.
