## Q2 2026 INVESTOR PRESENTATION

NYSE:CTOS

August 2026

# SAFE HARBOR

This presentation includes certain financial measures that have not been prepared in a manner that complies with generally accepted accounting principles in the United States (“GAAP”), including, without limitation, Adjusted Gross Profit, Adjusted Gross Margin, EBITDA, Consolidated Adjusted EBITDA, Levered Free Cash Flow and Net Leverage Ratio (collectively, the “non-GAAP financial measures”). These non-GAAP financial measures may exclude items that are significant in understanding and assessing the Company’s financial results. Therefore, these measures should not be considered in isolation or as an alternative to measures of financial performance in accordance with GAAP. Management believes that these non-GAAP financial measures provide meaningful information to investors because they provide insight into how effectively we operate our business. You should be aware that these non-GAAP financial measures may not be comparable to similarly titled measures used by other companies. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures can be found in the appendix of this presentation.

This presentation includes market data and other statistical information from third-party sources. Although CTOS believes these third-party sources are reliable as of their respective dates, CTOS has not independently verified the accuracy or completeness of this information.

## Forward-Looking Statements

This presentation includes “forward-looking statements” within the meaning of the “safe harbor” provisions of the United States Private Securities Litigation Reform Act of 1995, as amended, and within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, that are based on certain assumptions that management has made in light of its experience in the industry, as well as the Company’s perceptions of historical trends, current conditions, expected future developments and other factors the Company believes are appropriate in these circumstances. When used in this presentation, the words “estimates,” “projected,” “expects,” “anticipates,” “forecasts,” “suggests,” “plans,” “targets,” “intends,” “believes,” “seeks,” “may,” “will,” “should,” “future,” “propose,” “could,” “would,” and variations of these words or similar expressions (or the negative versions of such words or expressions) are intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance, conditions or results, and involve a number of known and unknown risks, uncertainties, assumptions and other important factors, many of which are outside management’s control, that could cause actual results or outcomes to differ materially from those discussed in this presentation. Important factors, among others, that may affect actual results or outcomes include: increases in labor costs, changes in U.S. trade policy, including tariffs, our inability to obtain raw materials, component parts and/or finished goods in a timely and cost-effective manner, and our inability to manage our rental equipment in an effective manner; competition in the equipment dealership and rental industries; our sales order backlog may not be indicative of the level of our future revenues; increases in unionization rate in our workforce; our inability to attract and retain key personnel, including our management and skilled technicians; material disruptions to our operation and manufacturing locations as a result of public health concerns, equipment failures, natural disasters, work stoppages, power outages or other reasons; any further increase in the cost of new equipment that we purchase for use in our rental fleet or for sale as inventory, aging or obsolescence of our existing equipment, and the fluctuations of market value thereof; disruptions in our supply chain; our business may be impacted by government spending; we may experience losses in excess of our recorded reserves for receivables; uncertainty relating to macroeconomic conditions, unfavorable conditions in the capital and credit markets and our customers’ inability to obtain additional capital as required; increases in price of fuel or freight; regulatory, technological advancement, or other changes in our core end-markets may affect our customers’ spending; our strategic initiatives including acquisitions and divestitures may not be successful and may divert our management’s attention away from operations and could create general customer uncertainty; the interest of our majority stockholder, which may not be consistent with the other stockholders; volatility of our common stock market price; our significant indebtedness, which may adversely affect our financial position, limit our available cash and our access to additional capital, prevent us from growing our business and increase our risk of default; our inability to generate cash, which could lead to a default; significant operating and financial restrictions imposed by our debt agreements; changes in interest rates, which could increase our debt service obligations on the variable rate indebtedness and decrease our net income and cash flows; disruptions or security compromises affecting our information technology systems or those of our critical services providers could adversely affect our operating results by subjecting us to liability, and limiting our ability to effectively monitor and control our operations, adjust to changing market conditions, or implement strategic initiatives; we are subject to complex laws and regulations, including environmental and safety regulations that can adversely affect cost, manner or feasibility of doing business; we are subject to a series of risks related to climate change; and increased attention to, and evolving expectations for, sustainability and environmental, social and governance initiatives. For a more complete description of these and other possible risks and uncertainties, please refer to the Company’s Annual Report on Form 10-K for the year ended December 31, 2025, and its subsequent reports filed with the Securities and Exchange Commission. All forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by the foregoing cautionary statements.

| HIGH-GROWTH END MARKETS                                                                                                                                                                                                                                                                                                         | NEW SEGMENT REPORTING                                                                                                                                                                                                                 | RECORD Q2 FINANCIAL PERFORMANCE                                                                                          |

# SECOND QUARTER HIGHLIGHTS

Record quarterly revenue and 25% Adj. EBITDA YoY growth driven by strong core T&D end-markets and continued momentum across both segments

**Revenue**  
**\$563 Million**  
Record quarter

**Adjusted Gross Profit<sup>1</sup>**  
**+16%**  
Q2 2026 vs. Q2 2025

**Adjusted EBITDA<sup>1</sup>**  
**+25%**  
Q2 2026 vs. Q2 2025

**OEC on Rent**  
**+13%**  
Q2 2026 vs. Q2 2025

## Record quarterly revenue

- Record quarterly revenue of \$563 million drove Adjusted EBITDA of \$117 million (+25% YoY)
- Adjusted gross profit of \$181 million, +16% YoY
- SER segment external revenue +20% YoY, driven by sustained performance in core T&D market; rental revenue +20% YoY
- STEM segment external revenue +5% YoY, driven by record quarterly equipment sales

## Continued rental momentum in Q2

- Fleet utilization averaged 81.6% in Q2, +400 bps YoY
- Average OEC on rent of \$1.37 billion increased by +\$158 million, or 13%, YoY
- OEC on rent yield of 39.4% increased by 80 basis points YoY and 50 basis points QoQ

## Improving outlook for 2026

- Sales order backlog of \$322 million, which has grown to over \$340 million so far in Q3 on solid order flow
- Raising full-year consolidated revenue and Adjusted EBITDA outlooks to reflect strong H1'26 & continued momentum
- Net leverage declined to 3.85x; remain on track to be meaningfully below 4.0x by year-end 2026, with 3.0x target in 2027

**Raising Full-Year Revenue Range to \$2.1B – \$2.2B and  
Full-Year Adjusted EBITDA Outlook Range to \$437.5M – \$455M**

# COMPANY OVERVIEW

# INVESTMENT HIGHLIGHTS

|   |                                                                                                                                                                                                                                          |
|---|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | <b>Scaled, Differentiated Platform</b> National scale and ability to manage full equipment lifecycle results in both lower costs and higher equipment resale values, driving exceptional unit economics                                  |
| 2 | <b>Large, Growing, Resilient End Markets</b> Participation in high growth end markets with long-term secular growth drivers; outsized exposure to Transmission & Distribution (“T&D”) (60% of total revenue, 76% of SER segment revenue) |
| 3 | <b>Mission-Critical Applications</b> Fleet of specialty equipment and vehicles are essential assets to large projects with high cost of failure/downtime across T&D, Infrastructure, Telecom, Rail and more                              |
| 4 | <b>Recurring &amp; Visible Revenue Mix</b> Strategic and recurring customer relationships and high-margin rental business provide durable cash flow, earnings visibility and meaningful wallet share opportunities                       |
| 5 | <b>Meaningful Operating Leverage</b> Internal production and customization capabilities provide scale benefits, pricing strength, synergies, and a structural cost advantage to drive meaningful margin expansion                        |
| 6 | <b>Cash Flow Inflection</b> Recent investment cycle now driving improved conversion as fleet now among youngest in the industry (~3 years) and maintenance capex moderates                                                               |
| 7 | <b>Disciplined Capital Allocation</b> Clear capital allocation priorities centered around continued leverage reduction, fleet optimization, investment in growth markets and driving superior shareholder returns                        |

**OUR PURPOSE:**  
Power the people who  
strengthen our nation's  
infrastructure

# CUSTOM TRUCK ONE SOURCE AT A GLANCE

Leading National Provider of Specialty Equipment Serving the T&D and Infrastructure End Markets

## END MARKET & BUSINESS MIX

- (1) As of, or for the twelve-month period ended, June 30, 2026.
- (2) Excludes third-party service locations. As of August 3, 2026.
- (3) Consolidated Revenue excludes intersegment sales, but the segment revenue figures include intersegment sales. 2025 periods for segment data calculated on a recast basis to reflect the current margin treatment of intersegment sales. Please refer to the supplemental information in the Appendix for the calculation of these figures.
- (4) Consolidated Adjusted EBITDA is a non-GAAP measure. Please refer to the supplemental information provided in the Appendix for reconciliations to the most comparable GAAP measure.
- (5) Consolidated Adjusted EBITDA includes the impact of eliminations from intersegment sales while the segment total Adjusted EBITDA figures exclude this impact.
- (6) OEC represents the original equipment cost exclusive of the effect of purchase accounting adjustments applied to rental equipment acquired in business combinations and any rental equipment held for sale.
- (7) Infrastructure includes Infrastructure, Waste, Rail, Telecom and Other.
- (8) Specialty includes Rail, Telecom, and Other.

# EXECUTING FROM AN ADVANTAGED POSITION

Highly compelling operating model driven by  
unique market position and scope of capabilities

# DELIVERING MISSION-CRITICAL ASSETS FOR ESSENTIAL MARKETS

Reliable custom equipment for essential jobs with high cost of failure and downtime

| Transmission & Distribution                                                                                     |                                                                                   | Infrastructure                                                                                                                                   |                                                                                                         |                                                                                                     |                                                                                     |

# T&D SPENDING UNDERPINNED BY MULTIPLE DEMAND DRIVERS

Strong transmission & distribution capex growth driven by durable and diverse megatrends

| Load Growth                                                                                  |                                                                                                          |                                                                                                                               | Aging Grid Infrastructure                                                                                               |                                                                                                         |
|----------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| AI and Data Center Expansion                                                                 | Electrification                                                                                          | Manufacturing Reshoring                                                                                                       | Aging Grid                                                                                                              | Storm Resiliency                                                                                        |
|              |                        |                                            |                                      |                      |
| AI workloads and cloud migration are driving higher compute intensity and power requirements | Growing power demand from data centers and digital infrastructure is accelerating power grid investments | Tariffs, geopolitical risk and supply-chain disruptions are accelerating reshoring; helped by federal incentives (CHIPS, IRA) | Aging grid assets well past their intended useful life is driving elevated replacement and maintenance spend            | More frequent and severe weather events are forcing utilities to increase investment in grid resilience |
| <b>+23%</b><br>2025-2030 U.S.<br>Data Center Power<br>Demand CAGR                            | <b>+17%</b><br>2025-2030 U.S.<br>Transmission Specialty<br>Truck Rental Market CAGR                      | <b>~\$450 billion</b><br>Planned investment by U.S.<br>companies to support onshoring<br>of critical manufacturing            | <b>50-60 years</b><br>10-20 years beyond 40-year<br>useful life of transformers<br>installed during peak build<br>cycle | <b>+18%</b><br>CAGR of extreme<br>weather events<br>since 2019                                          |

Market growth further supported by rising rental penetration and increased T&D outsourcing due to project cost management, access to specialized equipment, heightened demand/extended lead times and labor shortages

Source: Third-Party Market Research

# SUBSTANTIAL MULTI-YEAR T&D INVESTMENT REQUIRED

Forecasted load growth and required grid modernization expected to drive significant T&D investment wave

Projected U.S. Data Center Power Demand  
(‘000s TWh)

Recent inflection in power demand is largely driven by data centers and AI, as it accounts for ~72% of incremental power demand growth from 2025-2030

Five-Year Nationwide Load Growth Forecast  
(2029 Summer Peak Demand Growth, GW)

In just two years, the 5-year load growth forecast increased by 5x; this follows a period of essentially zero growth in the prior decade

U.S. IOU Electric T&D Capex  
(\$ millions)

Total T&D spending among U.S. Investor-Owned Utilities projected to grow at an 8.4% CAGR through 2029; Transmission to grow at 15%+ CAGR

Outsourcing Trends Expected to Drive T&D Contractor Equipment Rental Market Growth of ~13% CAGR Over the Next Five Years

Source: Third-Party Market Research, Grid Strategies, Power Insights

# CYCLICAL & SECULAR TAILWINDS REDEFINING INFRASTRUCTURE NEEDS

Aging infrastructure replacement cycle and new required spend supported by federal funding (IIJA, IRA, CHIPS Act)

Average Age of Infrastructure Exceeds Average Life Expectancy (Years)

A large installed base of U.S. infrastructure is reaching the end of its life cycle, driving replacement to maintain safety and reliability

Top Construction Projects by Value and Location (2022 – 2024; Bubble Size Indicates Size of Investment)

Manufacturing reshoring is accelerating and will require substantial investment in surrounding infrastructure

U.S. Non-Power Infrastructure Capex (\$ millions)

Stable and growing capex on critical infrastructure projects expected to support >5% CAGR through this decade

Total non-power infrastructure spending is projected to grow at a 5.4% CAGR to \$377 billion by 2029

Source: Third-Party Market Research, U.S. Army Corps of Engineers and the American Society of Civil Engineers (Aging Infrastructure), Construction Dive (Manufacturing Nearshoring)

# DIVERSE, HIGHLY LOYAL CUSTOMER BASE

Serving 8,000+ blue chip customers across T&D, Infrastructure/Telecom, and Rail end markets

**8,000+**

Customers served

**<4%**

Maximum revenue from  
any single customer

**24%**

Revenue contribution from  
top 15 customers

**~20 Years**

Average tenure with top  
customers

**National**

Industry-leading footprint  
and equipment breadth

Note: Metrics are as of and for the year ended 12/31/25, unless otherwise noted.

# NATIONAL BRANCH NETWORK

National footprint provides flexibility in managing the rental fleet and superior customer service for rental and sales customers

**41 locations in the U.S. and Canada,** including new locations in *Portland, OR* (June 2025) and *Orlando, FL* (October 2025)

Highlights our **continued confidence in the strength of the rental markets** and **reinforces our commitment to our growth strategy**

**SER: More than 300 technicians** located across our branches; with opportunities to **invest in Pacific NW, Northern California, NY/NJ Metro, Carolinas**

**STEM: Regional production centers; adding capacity in Casa Grande, AZ and Kansas City, MO**

# REPORTING SEGMENTS

Simplified reporting structure better reflects operational decision making and capital allocation strategy

(1) Please see the Appendix for definitions of certain of the Key Performance Indicators and Measures.

# SPECIALTY EQUIPMENT RENTALS (SER)

Durable rental model: high-utilization fleet + recurring revenue + high margin = strong, predictable Adj. EBITDA generation

| T&D Sector Expertise                                                                   | Fleet Age                                                     | Strong Utilization                                                                                                            | Attractive Contract Duration                                                                                                             | Best-in-Class Service                                                                                                            |
|----------------------------------------------------------------------------------------|---------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| <b>76%</b><br>Revenue from T&D Customers                                               | <b>~3</b><br>Years                                            | <b>81.6%</b><br>Avg. fleet utilization for Q2 2026                                                                            | <b>12-13 Months</b><br>Average contract duration                                                                                         | <b>300+</b><br>Rental Service Technicians                                                                                        |
| Serving T&D contractors and IOUs across distribution, transmission and substation work | We believe we have one of the youngest fleets in the industry | High time utilization due to strategic focus on in-demand assets, proven fleet management strategy and rapid service response | Average contract duration of 12-13 months provides strong forward revenue visibility and reduces re-pricing risk across the rental fleet | In-house team services equipment at a lower rate than external providers, while a young fleet requires less repair & maintenance |

(2) Figures are shown as a percentage of total recast SER and STEM revenue, including the impact of intersegment sales, and before any consolidating eliminations.

(3) Figures are shown on a recast basis. Please refer to the supplemental information in the Appendix for the calculation of these figures.

(4) Represents revenue growth for the sales to external customers (e.g., excluding the impact of intersegment sales) for the YTD period.

# SERVING THE CORE OF THE NORTH AMERICAN SPECIALTY TRUCK MARKET

Complementary business segments lend broad capabilities across the full value chain, creating a stronger unified company

# FINANCIAL OVERVIEW

# KEY FINANCIAL STRATEGIES & PRIORITIES

- Two best-in-class segments
  - STEM: Grow revenue and drive higher margins
  - SER: Grow specialty rental and optimize fleet
- Cash flow conversion as a core operating discipline
  - Continued reduction of inventory months on hand toward <6 months and substantially lower net rental fleet investment in 2026
- Disciplined capital allocation with clear path to deleveraging
- Balance sheet strength supports growth strategy
  - SER accounts for >70% of Adj. EBITDA before eliminations

# HISTORICAL FINANCIAL PERFORMANCE

Proven ability to profitably grow during challenging macroeconomic backdrop

(\$ millions, except where indicated)

## Total Revenue<sup>1</sup> (\$M)

**7.3% Revenue CAGR** (FY'21 – LTM Q2'26)

## Adjusted Gross Profit<sup>1,2</sup> (\$M) and Adjusted Gross Margin (%)

**8.3% Adj. Gross Profit CAGR** (FY'21 – LTM Q2'26)

## Adjusted EBITDA<sup>1,2</sup> (\$M) & Adjusted EBITDA Margin (%)

**5.9% Adjusted EBITDA CAGR** (FY'21 – LTM Q2'26)

(1) LTM figures are for the twelve-month period ended June 30, 2026.

(2) Adjusted Gross Profit and Consolidated Adjusted EBITDA are non-GAAP measures. 2021 figures are pro forma and also include addbacks of special charges related to leasing receivables and inventory reserves taken in connection with the CTOS/Nesco business combination in the second quarter of 2021. Please refer to the supplemental information provided in the Appendix for reconciliations to the most comparable GAAP measures.

# Q2 2026 CONSOLIDATED OPERATING PERFORMANCE

Strong growth driven by improved rental fundamentals, strong demand across core markets led by T&D

(\$ millions, except where indicated; sum of individual items may not equal total amounts due to rounding)

**Revenue: \$563M**

**+10% vs Q2'25**

## Record Quarterly Revenue

Driven by momentum in core T&D markets and strong execution across both segments

**Adjusted Gross Profit<sup>1</sup>: \$181M**

**+16% vs Q2'25**

## Adjusted Gross Profit Expansion

Stronger operational performance, improved rental fundamentals, and significant KPI improvement

**Adjusted EBITDA<sup>1</sup>: \$117M**

**+25% vs Q2'25**

## 25% Adjusted EBITDA Growth YoY

Reflective of strong rental performance and new equipment sales

(1) Adjusted Gross Profit and Adjusted EBITDA are non-GAAP measures. Refer to the supplemental information provided in the Appendix for reconciliations to the most comparable GAAP measures.

# SPECIALTY EQUIPMENT RENTALS (SER)

Q2 2026 rental revenue +20% YoY driven by rising OEC on Rent and utilization

(\$ millions, except where indicated; sum of individual items may not equal total amounts due to rounding)

Revenue: \$221M  
+\$19M/+9% YoY

**Strong Rental Revenue Growth**

Broad-based growth led by Rental +20% and Equipment Sales +30%, demonstrating strong end market demand and fleet utilization across core verticals

Segment Adjusted EBITDA: \$117M  
+\$24M/+26% YoY

**26% Adjusted EBITDA Growth YoY**

Operating leverage on revenue growth combined with disciplined SG&A management drove EBITDA expansion

# SER KEY PERFORMANCE INDICATORS

Q2 2026 improved average utilization and OEC on Rent, driven by continued momentum in T&D end markets

(\$ millions, except where indicated)

Avg. OEC on Rent: \$1,366M  
+\$158M vs Q2'25

Avg. Utilization: 81.6%  
+400bps vs Q2'25

On Rent Yield: 39.4%  
+80bps vs Q2'25

**Utilization 81.6%:** Increased 400 basis points compared to the prior year; mid-70% to mid-80% range across most of fleet and end markets

**OEC on Rent +\$158M YoY:** fleet deployment gains driven by T&D end market strength

**On Rent Yield 39.4%:** Increased 80 basis points compared to the prior year and 50 basis points sequentially; in line with expected high-30% to low-40% range with continued opportunity for rate improvement as transmission mix grows

**2026 Momentum Intact:** Year-over-year growth in rental KPIs continued in Q2'26, with activity remaining strong so far in Q3'26, as averages remain higher than a year ago

# SPECIALTY TRUCK EQUIPMENT & MANUFACTURING (STEM)

Q2 2026 revenue increase driven by third-party revenue growth, with new equipment sales setting a quarterly record

(\$ millions, except where indicated; sum of individual items may not equal total amounts due to rounding)

Revenue: \$438M  
+\$12M/+3% YoY

## Third-Party Revenue Growth

Revenue growth was driven by a YoY increase in third-party revenue of 5%, with new equipment sales at an all-time quarterly high

Segment Adj. EBITDA: \$37M  
+\$13M/+55% YoY

## Strong YoY Growth

Reflects growth in third-party revenue but also is impacted by reported 2025 intersegment sales not reflecting any gross margin

Backlog: \$322M  
Down in Q2 on record deliveries

## Backlog Building in Q3

Backlog has grown to over \$340M so far in Q3 on solid order flow within core end-markets and strong year-over-year quoting activity

# CAPITAL INVESTMENT & ALLOCATION

Focused on organic investment, debt reduction, and fleet management to drive levered free cash flow and shareholder returns

(\$ millions, except where indicated)

## Growth Capex<sup>1</sup> & Net Rental Capex<sup>2</sup>

- Elevated period of capital investment in fleet now behind us – average unit age now ~3 years, among lowest in the industry
- Expect reduced maintenance capex in 2026 which should also support improved levered free cash flow
- Expect to continue to reduce inventory in 2026 and to focus levered free cash flow on debt reduction

## Net Leverage Ratio<sup>3</sup>

- Remain committed to achieving net leverage meaningfully below 4x by year-end 2026
- Targeting 3x net leverage in 2027

(1) Growth Capex is defined as fleet additions in excess of maintenance and replacement requirements, resulting in a net increase in earning assets and revenue capacity.

(2) Net Rental Capex is defined as total capital expenditures for the rental fleet less cash proceeds from the sale of vehicles from the rental fleet.

(3) Net Leverage Ratio is a non-GAAP performance measure used by management and we believe it provides useful information to investors because it is an important measure to evaluate our debt levels and progress toward leverage targets, which is consistent with the manner our lenders and management use this measure. We define Net Leverage Ratio as current maturities and long-term debt and finance lease obligations, net of cash and cash equivalents, divided by Consolidated Adjusted EBITDA for the previous twelve-month period. Please refer to the supplemental information provided in the Appendix for a calculation of these figures.

# DEBT STRUCTURE & LIQUIDITY

(\$ millions, except where indicated; sum of individual items may not equal total amounts due to rounding)

**84%+ of Outstanding Debt is Covered by \$1.41B Total OLV<sup>1</sup> of Rental Fleet**

**Strong Available Liquidity and No Significant Maturities Until 2029**

Fixed 57% / Floating 43%

Debt maturities

(1) Total Orderly Liquidation Value as of December 31, 2025, effective date as per third-party appraisal.

- Substantial OLV of the rental fleet provides significant coverage of our outstanding debt
  - Rental fleet OLV<sup>1</sup> ↑\$187M since the end of 2023
- Total Available Liquidity: \$482M
  - \$240M of combined ABL availability + cash
  - Ability to upsize the ABL Facility by more than \$240M based on suppressed availability
  - Total available liquidity has averaged over \$485M over the last two years

# REVISED 2026 OUTLOOK

|                                             | 2025 Actual | 2026 Outlook <sup>1</sup> | YoY          | Commentary                                                                                                                                                                                                                                               |
|---------------------------------------------|-------------|---------------------------|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Total Revenue</b>                        | \$1.944B    | \$2.1B – \$2.2B           | +8% to +13%  | Raised guidance from \$2.005B – \$2.12B                                                                                                                                                                                                                  |
| SER Revenue <sup>(2)</sup>                  | \$810M      | \$850M – \$875M           | +5% to +8%   | OEC on rent, utilization and margin all performing ahead of expectations; T&D demand at record levels, further growth supported by vocational market; raised guidance from \$835M – \$870M                                                               |
| STEM Revenue <sup>(2)</sup>                 | \$1.656B    | \$1.63B – \$1.70B         | -2% to +3%   | Continued strong order flow, particularly from local and regional customers; third-party revenue projected to grow +3-10% in 2026, with lower overall sales impacted solely by expected lower YoY sales to SER; raised guidance from \$1.580B – \$1.655B |
| <b>Adjusted EBITDA<sup>(3)</sup></b>        | \$384M      | \$437.5M – \$455M         | +14% to +19% | Raised guidance from \$415M – \$440M                                                                                                                                                                                                                     |
| <b>Net OEC</b>                              | \$1.637B    | –                         | +MSD%        |                                                                                                                                                                                                                                                          |
| <b>Gross Rental Capex</b>                   | \$457M      | \$360M – \$390M           | --           |                                                                                                                                                                                                                                                          |
| <b>Net Rental Capex</b>                     | \$251M      | \$170M – \$200M           | --           | Inventory months on hand is expected to continue trending toward the targeted level of below six months; raised guidance from \$150M – \$170M                                                                                                            |

| <b>Net Leverage<sup>(3)</sup></b>           | 4.31x       | <4.0x                     | --           | Expect to be meaningfully below 4x during 2026, achieve 3x net leverage target in fiscal 2027                                                                                                                                                            |

(1) We are unable to present a quantitative reconciliation of our forward-looking Adjusted EBITDA, Levered Free Cash Flow, and Net Leverage Ratio for the year ending December 31, 2026 and future periods to their respective most directly comparable GAAP financial measure due to the high variability and difficulty in predicting certain items that affect such GAAP measures including, but not limited to, customer buyout requests on rentals with rental purchase options and income tax expense. Adjusted EBITDA, Levered Free Cash Flow, and Net Leverage Ratio should not be used to predict their respective most directly comparable GAAP measure as the differences between the respective measures are variable and unpredictable.

(2) Effective January 1, 2026, the Company realigned its reportable segments from three segments (ERS, TES and APS) to two segments: SER and STEM. Historical period results have been recast to conform to the current segment alignment. Please refer to the Appendix of this document for the calculation of the respective figures.

(3) Consolidated Adjusted EBITDA, Levered Free Cash Flow and Net Leverage Ratio are non-GAAP measures. Please refer to the Appendix of this document for definitions of each and for reconciliations to the most comparable GAAP measures.

# APPENDIX

# GLOSSARY – KEY PERFORMANCE INDICATORS AND MEASURES

- **Ending OEC** — Ending Original Equipment Cost (“OEC”) is the original equipment cost of units at the end of the measurement period. OEC represents the original equipment cost and excludes the effect of adjustments to rental equipment fleet acquired in business combinations. OEC is the basis for calculating certain of the measures set forth below. Additionally, the pricing of our rental contracts and equipment sales prices for our equipment is based upon OEC, and we measure a rate of return from our rentals and sales using OEC. OEC is a widely used industry metric to compare fleet dollar value independent of depreciation.
- **Average OEC on Rent** — Average OEC on Rent is calculated as the weighted-average OEC on rent during the stated period.
- **Fleet Utilization** — Fleet Utilization is defined as the total number of days the rental equipment was rented during a specified period of time divided by the total number of days available during the same period and weighted based on OEC. Utilization is a measure of fleet efficiency expressed as a percentage of time the fleet is on rent and is considered to be an important indicator of the revenue generating capacity of the fleet.
- **OEC On Rent Yield** — OEC On Rent Yield (“ORY”) is a measure of return realized by our rental fleet during a period. ORY is calculated as rental revenue (excluding freight recovery and ancillary fees) during the stated period divided by the average OEC on rent for the same period. For periods less than 12 months, ORY is adjusted to an annualized basis.
- **Sales Order Backlog** — Sales Order Backlog consists of purchase orders received for customized and stock equipment. Sales order backlog should not be considered an accurate measure of future net sales.

# GLOSSARY – FINANCIAL MEASURES

- **Adjusted Gross Profit** — Adjusted Gross Profit is defined as Gross Profit excluding depreciation of rental equipment and is a financial performance measure that we use to monitor our results from operations. We believe the exclusion of depreciation expense of the rental fleet provides a meaningful measure of financial performance because it provides useful information relating to profitability that reflects ongoing and direct operating expenses, such as freight costs and fleet maintenance costs, related to our rental fleet. Although management evaluates and presents this non-GAAP measure for the reasons described herein, please be aware that this non-GAAP measure has limitations and should not be considered in isolation or as a substitute for revenue, gross profit or any other comparable operating measure prescribed by GAAP. In addition, we may calculate and/or present this non-GAAP financial measure differently than measures with the same or similar names that other companies report, and as a result, the non-GAAP measure we report may not be comparable to those reported by others.
- **Consolidated Adjusted EBITDA** — Consolidated Adjusted EBITDA is defined as net income (loss), as adjusted for provision for income taxes, interest expense, net (excluding interest on floorplan financing), depreciation of rental equipment and non-rental depreciation and amortization, and further adjusted for the impact of the fair value mark-up of acquired rental fleet, business acquisition and merger-related costs, including integration, the impact of accounting for certain of our rental contracts with customers that are accounted for under GAAP as sales-type lease and stock compensation expense. This non-GAAP measure is subject to certain limitations.

# GLOSSARY – FINANCIAL MEASURES

- **Segment Adjusted EBITDA** — Segment Adjusted EBITDA is defined as segment operating income or loss before depreciation and amortization, further excluding the effects of purchase accounting adjustments and the impact of sales-type lease accounting for certain leases containing rental purchase options (or “RPOs”).
- **Levered Free Cash Flow** – Net cash provided by operating activities, less cash flow for investing activities, excluding acquisitions, plus acquisition of inventory through floor plan payables – non-trade less repayment of floor plan payables – non-trade, both of which are included in cash flow from financing activities in our Consolidated Statements of Cash Flows. This non-GAAP measure is subject to certain limitations.
- **Net Leverage Ratio** – Net leverage ratio is a non-GAAP performance measure used by management and we believe it provides useful information to investors because it is an important measure to evaluate our debt levels and progress toward leverage targets, which is consistent with the manner our lenders and management use this measure. We define net leverage ratio as net debt divided by Consolidated Adjusted EBITDA for the previous twelve-month period (“last twelve months,” or “LTM”).

# ADJUSTED EBITDA RECONCILIATION — Q1 2025 – Q2 2026

(\$ millions, except where indicated; sum of individual items may not equal total amounts due to rounding)

|                                                    | Q1 25   | Q2 25   | Q3 25  | Q4 25 | Q1 26  | Q2 26 |
|----------------------------------------------------|---------|---------|--------|-------|--------|-------|
| Net income (loss)                                  | \$ (18) | \$ (28) | \$ (6) | 21    | \$ (4) | 10    |
| Interest expense                                   | 26      | 26      | 26     | 26    | 25     | 27    |
| Income tax expense (benefit)                       | (8)     | 17      | (1)    | (6)   | 0      | (1)   |
| Depreciation and amortization                      | 63      | 66      | 67     | 69    | 68     | 69    |
| EBITDA                                             | 63      | 82      | 87     | 110   | 89     | 105   |
| Adjustments:                                       |         |         |        |       |        |       |
| Non-cash purchase accounting impact <sup>(1)</sup> | 4       | 4       | 3      | 4     | 3      | 3     |
| Transaction and other costs <sup>(2)</sup>         | 4       | 5       | 3      | 4     | 4      | 6     |
| Sales-type lease adjustment <sup>(3)</sup>         | 1       | 0       | 0      | (0)   | 1      | (0)   |
| Share-based payments <sup>(4)</sup>                | 2       | 2       | 2      | 2     | 1      | 3     |
| Adjusted EBITDA                                    | \$ 73   | \$ 93   | \$ 96  | 121   | \$ 98  | 117   |

Adjusted EBITDA is defined as net income (loss), as adjusted for provision for income taxes, interest expense, net (excluding interest on floorplan financing), depreciation of rental equipment and non-rental depreciation and amortization, and further adjusted for the impact of the fair value mark-up of acquired rental fleet, business acquisition and merger-related costs, including integration, the impact of accounting for certain of our rental contracts with customers that are accounted for under GAAP as sales-type lease and stock compensation expense. This non-GAAP measure is subject to certain limitations.

- (1) Represents the non-cash impact of purchase accounting, net of accumulated depreciation, on the cost of equipment and inventory sold. The equipment and inventory acquired received a purchase accounting step-up in basis, which is a non-cash adjustment to the equipment cost pursuant to our ABL Credit Agreement and Indenture.
- (2) Represents transaction and other costs related to acquisitions of businesses; costs associated with closed operations; costs associated with restructuring and business optimization activities (inclusive of systems establishment costs); employee retention and/or severance costs; costs related to start-up/pre-openings and openings of locations; reconfiguration or consolidation of facilities or equipment conversion costs. These adjustments are presented as adjustments to net income (loss) pursuant to our ABL Credit Agreement and Indenture.
- (3) Represents the impact of sales-type lease accounting for certain leases containing rental purchase options (or "RPOs"), as the application of sales-type lease accounting is not deemed to be representative of the ongoing cash flows of the underlying rental contracts. The adjustments are made pursuant to our ABL Credit Agreement and Indenture.
- (4) Represents non-cash share-based compensation expense associated with the issuance of restricted stock units.

# ADJUSTED EBITDA RECONCILIATION — 2021 – 2025

(\$ millions, except where indicated; sum of individual items may not equal total amounts due to rounding)

|                                                                             | 2021      | 2022   | 2023   | 2024    | 2025   |

| Adjusted EBITDA                                                             | 323       | 393    | 427    | 340     | 384    |
| Special charges related to leasing receivables and inventory <sup>(7)</sup> | 10        | —      | —      | —       | —      |
| Adjusted EBITDA, including special items                                    | \$ 333    | \$ 393 | \$ 427 | \$ 340  | \$ 384 |

Adjusted EBITDA is defined as net income (loss), as adjusted for provision for income taxes, interest expense, net (excluding interest on floorplan financing), depreciation of rental equipment and non-rental depreciation and amortization, and further adjusted for the impact of the fair value mark-up of acquired rental fleet, business acquisition and merger-related costs, including integration, the impact of accounting for certain of our rental contracts with customers that are accounted for under GAAP as sales-type lease and stock compensation expense. This non-GAAP measure is subject to certain limitations.

- (1) Represents the non-cash impact of purchase accounting, net of accumulated depreciation, on the cost of equipment and inventory sold. The equipment and inventory acquired received a purchase accounting step-up in basis, which is a non-cash adjustment to the equipment cost pursuant to our ABL Credit Agreement and Indenture.
- (2) Represents transaction and other costs related to acquisitions of businesses; costs associated with closed operations; costs associated with restructuring and business optimization activities (inclusive of systems establishment costs); employee retention and/or severance costs; costs related to start-up/pre-openings and openings of locations; reconfiguration or consolidation of facilities or equipment conversion costs. These adjustments are presented as adjustments to net income (loss) pursuant to our ABL Credit Agreement and Indenture.
- (3) Represents the impact of sales-type lease accounting for certain leases containing rental purchase options (or "RPOs"), as the application of sales-type lease accounting is not deemed to be representative of the ongoing cash flows of the underlying rental contracts. The adjustments are made pursuant to our ABL Credit Agreement and Indenture.
- (4) During Q4 2024, the Company closed on a sale leaseback transaction with an unrelated third party. The Company sold 8 properties with a combined net book value of \$29.0 million for gross proceeds of \$53.8 million, which was reduced by transaction costs and other fees of \$1.3 million, for net cash proceeds of approximately \$52.5 million. Additionally, \$3.2 million from the proceeds were used to repay a note payable. The Company recognized a gain of \$23.5 million on this transaction.
- (5) Represents non-cash share-based compensation expense associated with the issuance of restricted stock units.
- (6) Represents the charge to earnings for our interest rate collar and the change in fair value of the liability for warrants.
- (7) Special charges related to leasing receivables and inventory reserves taken in connection with the CTOS/Nesco business combination in the second quarter of 2021.

| Loss on extinguishment of debt <sup>(3)</sup>                               | 62       | —         |
| Sales-type lease adjustment <sup>(4)</sup>                                  | 7        | 8         |
| Share-based payments <sup>(5)</sup>                                         | 17       | 18        |
| Change in fair value of derivative and warrants <sup>(6)</sup>              | 6        | 6         |
| Adjusted EBITDA                                                             | 278      | 323       |
| Special charges related to leasing receivables and inventory <sup>(7)</sup> | —        | 10        |
| Adjusted EBITDA, including special items                                    | \$ 278   | \$ 333    |

Adjusted EBITDA is defined as net income (loss), as adjusted for provision for income taxes, interest expense, net (excluding interest on floorplan financing), depreciation of rental equipment and non-rental depreciation and amortization, and further adjusted for the impact of the fair value mark-up of acquired rental fleet, business acquisition and merger-related costs, including integration, the impact of accounting for certain of our rental contracts with customers that are accounted for under GAAP as sales-type lease and stock compensation expense. This non-GAAP measure is subject to certain limitations.

- (1) Represents the non-cash impact of purchase accounting, net of accumulated depreciation, on the cost of equipment and inventory sold. The equipment and inventory acquired received a purchase accounting step-up in basis, which is a non-cash adjustment to the equipment cost pursuant to our ABL Credit Agreement and Indenture.
- (2) Represents transaction and other costs related to acquisitions of businesses; costs associated with closed operations; costs associated with restructuring and business optimization activities (inclusive of systems establishment costs); employee retention and/or severance costs; costs related to start-up/pre-openings and openings of locations; reconfiguration or consolidation of facilities or equipment conversion costs. These adjustments are presented as adjustments to net income (loss) pursuant to our ABL Credit Agreement and Indenture.
- (3) Loss on extinguishment of debt represents a special charge, which is not expected to recur. Such charges are adjustments pursuant to our credit agreement.
- (4) Represents the impact of sales-type lease accounting for certain leases containing rental purchase options (or "RPOs"), as the application of sales-type lease accounting is not deemed to be representative of the ongoing cash flows of the underlying rental contracts. The adjustments are made pursuant to our ABL Credit Agreement and Indenture.
- (5) Represents non-cash share-based compensation expense associated with the issuance of restricted stock units.
- (6) Represents the charge to earnings for our interest rate collar and the change in fair value of the liability for warrants.
- (7) Special charges related to leasing receivables and inventory reserves taken in connection with the CTOS/Nesco business combination in the second quarter of 2021.

| Gross profit - GAAP                    | \$ 86  | \$ 103 | \$ 101 | \$ 123 | \$ 103 | \$ 124 |

Adjusted Gross Profit is defined as Gross Profit excluding depreciation of rental equipment and is a financial performance measure that we use to monitor our results from operations. We believe the exclusion of depreciation expense of the rental fleet provides a meaningful measure of financial performance because it provides useful information relating to profitability that reflects ongoing and direct operating expenses, such as freight costs and fleet maintenance costs, related to our rental fleet. Although management evaluates and presents this non-GAAP measure for the reasons described herein, please be aware that this non-GAAP measure has limitations and should not be considered in isolation or as a substitute for revenue, gross profit or any other comparable operating measure prescribed by GAAP. In addition, we may calculate and/or present this non-GAAP financial measure differently than measures with the same or similar names that other companies report, and as a result, the non-GAAP measure we report may not be comparable to those reported by others.

Adjusted Gross Profit is defined as Gross Profit excluding depreciation of rental equipment and is a financial performance measure that we use to monitor our results from operations. We believe the exclusion of depreciation expense of the rental fleet provides a meaningful measure of financial performance because it provides useful information relating to profitability that reflects ongoing and direct operating expenses, such as freight costs and fleet maintenance costs, related to our rental fleet. Although management evaluates and presents this non-GAAP measure for the reasons described herein, please be aware that this non-GAAP measure has limitations and should not be considered in isolation or as a substitute for revenue, gross profit or any other comparable operating measure prescribed by GAAP. In addition, we may calculate and/or present this non-GAAP financial measure differently than measures with the same or similar names that other companies report, and as a result, the non-GAAP measure we report may not be comparable to those reported by others.

**SER Segment Adjusted EBITDA** is defined as segment operating income or loss before depreciation and amortization, further excluding the effects of purchase accounting adjustments and the impact of sales-type lease accounting for certain leases containing rental purchase options (or "RPOs").

- (1) Specifically identifiable lease revenue receivables not deemed probable of collection are recorded as a reduction of rental revenue. This is classified as a segment expense for Segment Adjusted EBITDA reviewed by the chief operating decision maker.
- (2) Impact of sales-type lease accounting for certain leases containing RPOs: this impact is excluded from the measure of Adjusted EBITDA utilized by our CODM to allocate resources and to assess the performance of our segments as we believe continuing to reflect the transactions as an operating lease better reflects the economics of the transactions given our large portfolio of rental contracts.
- (3) Cost of rental revenue, excluding depreciation, reflects repairs and maintenance costs of rental equipment, parts costs, labor and other overheads related to maintaining the rental fleet, and freight associated with the shipping of rental equipment, further excluding depreciation.
- (4) Cost of equipment sales, net of purchase accounting, sales-type leases and depreciation, reflects production and inventory costs associated with new units sold, labor and other overheads related to production, and freight associated with the shipping and receiving of equipment. Cost of equipment sales also includes the net book value of rental units sold. These costs are net of (i) the impact of purchase accounting step-up in basis on equipment and inventory acquired ("non-cash purchase accounting impact") and (ii) the impact of sales-type lease accounting for certain leases containing RPOs, further excluding depreciation.
- (5) Cost of parts and services sales, excluding depreciation, reflects inventory costs associated with parts costs and freight associated with the shipping and receiving of parts, further excluding depreciation.

**STEM Segment Adjusted EBITDA** is defined as segment operating income or loss before depreciation and amortization, further excluding the effects of purchase accounting adjustments.

- (1) Cost of equipment sales, net of purchase accounting and depreciation: reflects production and inventory costs associated with new units sold, labor and other overheads related to production, and freight associated with the shipping and receiving of equipment. Cost of equipment sales also includes the net book value of rental units sold. These costs are net of the impact of purchase accounting step-up in basis on equipment and inventory acquired ("non-cash purchase accounting impact") further excluding depreciation.
- (2) Cost of parts and services sales, excluding depreciation: reflects inventory costs associated with parts costs and freight associated with the shipping and receiving of parts, further excluding depreciation.

| <b>Adjusted EBITDA:</b>                                |          |          |          |          |          |          |          |          |
| Adjusted EBITDA (Current Year to Date Period)          | \$ 238   | \$ 340   | \$ 73    | \$ 167   | \$ 263   | \$ 384   | \$ 98    | \$ 215   |
| Add: Adjusted EBITDA (Prior Fiscal Year)               | 427      | 427      | 340      | 340      | 340      | 340      | 384      | 384      |
| Less: Adjusted EBITDA (Prior Year to Date Period)      | (309)    | (427)    | (77)     | (157)    | (238)    | (340)    | (73)     | (167)    |
| LTM Adjusted EBITDA                                    | \$ 356   | \$ 340   | \$ 336   | \$ 349   | \$ 365   | \$ 384   | \$ 408   | \$ 431   |
| Net Leverage Ratio                                     | 4.44     | 4.55     | 4.80     | 4.66     | 4.53     | 4.31     | 4.02     | 3.85     |

**Net Leverage Ratio** is defined as current maturities and long-term debt and finance lease obligations, net of cash and cash equivalents ("net debt") divided by Consolidated Adjusted EBITDA for the previous twelve-month period ("last twelve months," or "LTM").

# LEVERED FREE CASH FLOW CALCULATION

(\$ millions, except where indicated; sum of individual items may not equal total amounts due to rounding)

|                                                                  | YTD Q1 25 | YTD Q2 25 | YTD Q3 25 | YTD Q4 25 | YTD Q1 26 | YTD Q2 26 |
|------------------------------------------------------------------|-----------|-----------|-----------|-----------|-----------|-----------|
| Net cash flow from operating activities                          | \$ 56     | \$ 181    | \$ 263    | \$ 310    | \$ 24     | 68        |
| Acquisition of inventory through floor plan payables - non-trade | 125       | 238       | 364       | 482       | 136       | 263       |
| Repayment of floor plan payables - non-trade                     | (146)     | (327)     | (468)     | (587)     | (85)      | (232)     |
| Purchases of rental equipment                                    | (112)     | (225)     | (349)     | (457)     | (97)      | (192)     |
| Proceeds from sales and disposals of rental equipment            | 45        | 94        | 139       | 206       | 48        | 107       |
| Purchase of non-rental property and cloud computing arrangements | (4)       | (8)       | (24)      | (32)      | (10)      | (22)      |
| Levered Free Cash Flow                                           | \$ (36)   | \$ (47)   | \$ (75)   | \$ (77)   | \$ 15     | (7)       |

**Levered Free Cash Flow** is defined as net cash provided by operating activities, less cash flow for investing activities, excluding acquisitions, plus acquisition of inventory through floor plan payables – non-trade less repayment of floor plan payables – non-trade, both of which are included in cash flow from financing activities in our Consolidated Statements of Cash Flows.

# SEGMENT RECAST FINANCIALS — BASIS OF PRESENTATION

The “as reported” amounts presented on the following pages were derived from our previously issued quarterly and annual financial information as reported in our quarterly earnings press releases, Quarterly Reports on Form 10-Q and Annual Reports on Form 10-K for the applicable periods.

The recast amounts reflect a recast of our historical financial information for illustrative purposes only, as if our current two-segment reporting structure and related intersegment accounting framework had been in effect for the periods presented. These supplemental financial data are unaudited and do not represent a restatement of previously issued financial statements or previously filed periodic reports.

# STEM Q1 AND Q2 2025 RECAST FINANCIALS

As a result of an internal error in how intersegment sales between STEM and SER were accounted for in our previous investor presentation regarding our business re-segmentation, we have made corrections to those financial presentations for those two quarters, which are presented on the following pages.

The corrections only impact the distribution of Segment Adjusted EBITDA between Q1 and Q2 2025 and does not impact full-year STEM Segment Adjusted EBITDA or the consolidated financial results for those quarters.

| Segment Adjusted EBITDA                                                                     | \$ 117          | \$ (6)                     | \$ 111          |

(1) Includes adjustments to reflect the historical mark-up on used equipment sales added to the rental fleet prior to January 1, 2026.

(2) Specifically identifiable lease revenue receivables not deemed probable of collection are recorded as a reduction of rental revenue. This is classified as a segment expense for Segment Adjusted EBITDA reviewed by the chief operating decision maker.

(3) Impact of sales-type lease accounting for certain leases containing RPOs: this impact is excluded from the measure of Adjusted EBITDA utilized by our CODM to allocate resources and to assess the performance of our segments as we believe continuing to reflect the transactions as an operating lease better reflects the economics of the transactions given our large portfolio of rental contracts.

(4) Excludes the non-cash impact of purchase accounting, impact of sales-type lease accounting for certain leases containing RPOs, further excluding depreciation.

| Segment Adjusted EBITDA                                                                     | \$ 89  | \$ 111 |

(1) Includes adjustments to reflect the historical mark-up on used equipment sales added to the rental fleet prior to January 1, 2026.

(2) Excludes the non-cash impact of purchase accounting. The equipment acquired received a purchase accounting step-up in basis, which is a non-cash adjustment to the equipment cost pursuant to our ABL Credit Agreement and Indenture.

(3) Excludes the impact of sales-type lease accounting for certain leases containing RPOs, as the application of sales-type lease accounting is not deemed to be representative of the ongoing cash flows of the underlying rental contracts. The adjustments are made pursuant to our ABL Credit Agreement and Indenture.

(1) Includes adjustments to reflect the historical mark-up on used equipment sales added to the rental fleet prior to January 1, 2026.

(2) Excludes the non-cash impact of purchase accounting. The equipment acquired received a purchase accounting step-up in basis, which is a non-cash adjustment to the equipment cost pursuant to our ABL Credit Agreement and Indenture.

(3) Excludes the impact of sales-type lease accounting for certain leases containing RPOs, as the application of sales-type lease accounting is not deemed to be representative of the ongoing cash flows of the underlying rental contracts. The adjustments are made pursuant to our ABL Credit Agreement and Indenture.
