BASIS OF PRESENTATION

AXIS Capital Holdings Limited's ("AXIS Capital" or the "Company") underwriting operations are organized around its global underwriting platforms, AXIS Insurance and AXIS Re. The Company has determined that it has two reportable segments, insurance and reinsurance.

DEFINITIONS AND PRESENTATION

- All financial information contained herein is unaudited, except for the consolidated balance sheet at December 31, 2021 and consolidated statements of operations for the years ended December 31, 2021 and December 31, 2020.
- Amounts may not reconcile due to rounding differences.
- Unless otherwise noted, all data is in thousands, except for ratio information.
- NM Not meaningful is defined as a variance greater than +/- 100%; NA Not applicable

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements within the meaning of section 27A of the Securities Act of 1933 and section 21E of the Securities Exchange Act of 1934. All statements, other than statements of historical facts included in this document, including statements regarding our estimates, beliefs, expectations, intentions, strategies or projections are forward-looking statements. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the United States ("U.S.") federal securities laws. In some cases, these statements can be identified by the use of forward-looking words such as "may", "should", "could", "anticipate", "estimate", "expect", "plan", "believe", "predict", "potential", "intend" or similar expressions. These forward-looking statements are not historical facts, and are based on current expectations, estimates and projections, and various assumptions, many of which, by their nature, are inherently uncertain and beyond management's control.

Forward-looking statements contained in this document may include, but are not limited to, information regarding our estimates for catastrophes and other weather-related losses including losses related to the COVID-19 pandemic, measurements of potential losses in the fair market value of our investment portfolio and derivative contracts, our expectations regarding the performance of our business, our financial results, our liquidity and capital resources, the outcome of our strategic initiatives including our exit from property reinsurance business, our expectations regarding pricing, other market conditions and economic conditions including inflation, our growth prospects, and valuations of the potential impact of movements in interest rates, credit spreads, equity securities' prices, and foreign currency exchange rates.

Forward-looking statements only reflect our expectations and are not guarantees of performance. These statements involve risks, uncertainties and assumptions. Accordingly, there are or will be important factors that could cause actual events or results to differ materially from those indicated in such statements. We believe that these factors include, but are not limited to, the following:

- the adverse impact of the ongoing COVID-19 pandemic on our business, results of operations, financial condition, and liquidity;
- the cyclical nature of the insurance and reinsurance business leading to periods with excess underwriting capacity and unfavorable premium rates;
- the occurrence and magnitude of natural and man-made disasters;
- the impact of global climate change on our business, including the possibility that we do not adequately assess or reserve for the increased frequency and severity of natural catastrophes;
- · losses from war including losses related to the Russian invasion of Ukraine, terrorism and political unrest, or other unanticipated losses;
- · actual claims exceeding loss reserves;
- general economic, capital and credit market conditions, including fluctuations in interest rates, credit spreads, equity securities' prices, and/or foreign currency exchange rates;
- · the adverse impact of inflation;
- · the failure of any of the loss limitation methods we employ;
- · the effects of emerging claims, coverage and regulatory issues, including uncertainty related to coverage definitions, limits, terms and conditions;
- the inability to purchase reinsurance or collect amounts due to us from reinsurance we have purchased;
- · the loss of business provided to us by major brokers;
- · breaches by third parties in our program business of their obligations to us;
- difficulties with technology and/or data security;
- the failure of our policyholders or intermediaries to pay premiums;
- · the failure of our cedants to adequately evaluate risks;
- the inability to obtain additional capital on favorable terms, or at all;
- the loss of one or more of our key executives;
- a decline in our ratings with rating agencies;
- · changes in accounting policies or practices;
- · the use of industry models and changes to these models;

- changes in governmental regulations and potential government intervention in our industry;
- inadvertent failure to comply with certain laws and regulations relating to sanctions and foreign corrupt practices;
- changes in the political environment of certain countries in which we operate or underwrite business including the United Kingdom's withdrawal from the European Union;
- · changes in tax laws; and
- other factors including but not limited to those described under Item 1A, 'Risk Factors' in our most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC"), as those factors may be updated from time to time in our periodic and other filings with the SEC, which are accessible on the SEC's website at www.sec.gov. Readers are urged to carefully consider all such factors as the COVID-19 pandemic may have the effect of heightening many of the other risks and uncertainties described.

We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

BASIS OF PRESENTATION

BUSINESS DESCRIPTIONS

INSURANCE SEGMENT

Our insurance segment offers specialty insurance products to a variety of niche markets on a worldwide basis. The following are the lines of business in our insurance segment:

Property: provides physical loss or damage, business interruption and machinery breakdown cover for virtually all types of property, including commercial buildings, residential premises, construction projects and onshore renewable energy installations. This line of business includes primary and excess risks, some of which are catastrophe-exposed.

Marine: provides cover for traditional marine classes, including offshore energy, renewable offshore energy, cargo, liability, recreational marine, fine art, specie, and hull war. Offshore energy coverage includes physical damage, business interruption, operator's extra expense and liability coverage for all aspects of offshore upstream energy, from exploration and construction through the operation and distribution phases.

Terrorism: provides cover for physical damage and business interruption of an insured following an act of terrorism and includes kidnap and ransom, and crisis management insurance.

Aviation: provides hull and liability, and specific war cover primarily for passenger airlines but also for cargo operations, general aviation operations, airports, aviation authorities, security firms and product manufacturers.

Credit and Political Risk: provides credit and political risk insurance products for banks, commodity traders, corporations and multilateral and export credit agencies. Cover is provided for a range of risks including sovereign and corporate credit default, political violence, currency inconvertibility and non-transfer, expropriation, aircraft non-repossession and contract frustration due to political events.

Professional Lines: provides directors' and officers' liability, errors and omissions liability, employment practices liability, fiduciary liability, crime, professional indemnity, cyber and privacy insurance, medical malpractice and other financial insurance related covers for public and private commercial enterprises, financial institutions, not-for-profit organizations and other professional service providers. This business is predominantly written on a claims-made basis.

Liability: primarily targets primary and low to mid-level excess and umbrella commercial liability risks in the U.S. wholesale markets in addition to primary and excess of loss employers, public, and products liability business predominately in the U.K. Target industry sectors include construction, manufacturing, transportation and trucking, and other services.

Accident and Health: includes accidental death, travel insurance, specialty health products for employer and affinity groups, and pet insurance.

BASIS OF PRESENTATION

BUSINESS DESCRIPTIONS (CONTINUED)

REINSURANCE SEGMENT

Our reinsurance segment provides treaty reinsurance to insurance companies on a worldwide basis. The following are the lines of business in our reinsurance segment:

Catastrophe: provides protection for most catastrophic losses that are covered in the underlying insurance policies written by our cedants. The underlying policies principally cover property-related exposures but other exposures including workers compensation and personal accident are also covered. The principal perils covered by policies in this portfolio include hurricane and windstorm, earthquake, flood, tornado, hail and fire. In some instances, terrorism may be a covered peril or the only peril. This business is written on a proportional and an excess of loss basis.

Property: provides protection for property damage and related losses resulting from natural and man-made perils that are covered in the underlying personal and commercial lines insurance policies written by our cedants. The predominant exposure is to property damage but other risks, including business interruption and other non-property losses, may also be covered when arising from a covered peril. The most significant perils covered by policies in this portfolio include windstorm, tornado and earthquake, but other perils such as freezes, riots, floods, industrial explosions, fires, hail and a number of other loss events are also included. This business is written on a proportional and excess of loss basis.

Credit and Surety: provides reinsurance of trade credit insurance products and includes proportional and excess of loss structures. The underlying insurance indemnifies sellers of goods and services in the event of a payment default by the buyer of those goods and services. Surety reinsurance provides protection for losses arising from a broad array of surety bonds issued by insurers to satisfy regulatory demands or contract obligations in a variety of jurisdictions around the world. Mortgage reinsurance is provided to mortgage guaranty insurers and U.S. government-sponsored entities for losses related to credit risk transfer into the private sector.

Professional Lines: provides protection for directors' and officers' liability, employment practices liability, medical malpractice, professional indemnity, environmental liability, cyber, and miscellaneous errors and omissions insurance risks. The underlying business is predominantly written on a claims-made basis. This business is written on a proportional and excess of loss basis.

Motor: provides protection to insurers for motor liability and property damage losses arising out of any one occurrence. A loss occurrence can involve one or many claimants where the ceding insurer aggregates the claims from the occurrence. Traditional proportional and non-proportional reinsurance as well as structured solutions are offered.

Liability: provides protection to insurers of admitted casualty business, excess and surplus lines casualty business and specialty casualty programs. The primary focus of the underlying business is general liability, workers' compensation, auto liability, and excess casualty.

Engineering: provides protection for all types of construction risks and risks associated with erection, testing and commissioning of machinery and plants during the construction stage. This line of business also includes cover for losses arising from operational failures of machinery, plant and equipment, and electronic equipment as well as business interruption. The Company exited this line of business in 2020.

Agriculture: provides protection for risks associated with the production of food and fiber on a global basis for primary insurance companies writing multi-peril crop insurance, crop hail, and named peril covers, as well as custom risk transfer mechanisms for agricultural dependent industries with exposures to crop yield and/or price deviations. This business is written on a proportional and aggregate stop loss reinsurance basis.

Marine and Aviation: includes specialty marine classes such as cargo, hull, pleasure craft, marine liability, inland marine and offshore energy. The principal perils covered by policies in this portfolio include physical loss, damage and/or liability arising from natural perils of the seas or land, man-made events including fire and explosion, stranding/sinking/salvage, pollution, shipowners and maritime employers liability. This business is written on a non-proportional and proportional basis. Aviation provides cover for airline, aerospace and general aviation exposures. This business is written on a proportional and non-proportional basis.

Accident and Health: includes personal accident, specialty health, accidental death, travel, life and disability reinsurance products which are offered on a proportional and catastrophic or per life excess of loss basis.

[[]a] Operating income (loss), operating income (loss) per diluted common share, annualized operating return on average common equity ("operating ROACE") and tangible book value per diluted common share are non-GAAP financial measures as defined by Regulation G. The reconciliations to the most comparable GAAP financial measures, net income (loss) available (attributable) to common shareholders, earnings (loss) per diluted common share, annualized return on average common equity ("ROACE") and book value per diluted common share, respectively, and a discussion of the rationale for the presentation of these items are provided later in this document.

[[]b] Annualized ROACE is calculated by dividing annualized net income (loss) available (attributable) to common shareholders for the period by the average common shareholders' equity determined using the common shareholders' equity balances at the beginning and end of the period.

[[]c] Annualized operating ROACE is calculated by dividing annualized operating income (loss) for the period by the average common shareholders' equity determined using the common shareholders' equity balances at the beginning and end of the period.

[[]d] Operating income (loss) per diluted common share is calculated by dividing operating income (loss) for the period by weighted average diluted common shares outstanding.

[[]e] Underwriting-related general and administrative expenses and corporate expenses are included in the general and administrative expense ratio.

[[]f] Total cash and invested assets represents the total cash and cash equivalents, fixed maturities, equity securities, mortgage loans, other investments, equity method investments, short-term investments, accrued interest receivable and net receivable (payable) for investments sold (purchased).

[[]a] Total managed premiums represents gross premiums written of \$2.1 billion and \$1.9 billion for the three months ended June 30, 2022 and 2021, respectively, and \$4.7 billion and \$4.5 billion for the six months ended June 30, 2022 and 2021, respectively, and includes premiums written by the insurance and reinsurance segments on behalf of strategic capital partners and other reinsurers. Premiums ceded to strategic capital partners and other reinsurers by AXIS Insurance and AXIS Re are presented above.

[[]b] Fee income from strategic capital partners represents service fees and reimbursement of expenses from strategic capital partners.

NET PROBABLE MAXIMUM LOSSES TO CERTAIN PEAK INDUSTRY CATASTROPHE EXPOSURES - AS OF JULY 1, 2022

Estimated Net Exposures (millions of U.S. dollars)

| | | | | (millions of | U.S. dollars) | | |
|---------------------------|----------------|-----------------------------|--|------------------------------|--|------------------------------|--|
| Territory | Peril | 50 Year Return Period | % of Common Shareholders' Equity | 100 Year Return Period | % of Common Shareholders' Equity | 250 Year Return Period | % of Common Shareholders' Equity |
| Single zone, single event | | | | | | | |
| Southeast | U.S. Hurricane | \$ 122 | 2.9 % | \$ 144 | 3.5 % | \$ 184 | 4.4 % |
| Northeast | U.S. Hurricane | 26 | 0.6 % | 68 | 1.6 % | 149 | 3.6 % |
| Mid-Atlantic | U.S. Hurricane | 53 | 1.3 % | 119 | 2.9 % | 191 | 4.6 % |
| Gulf of Mexico | U.S. Hurricane | 114 | 2.7 % | 142 | 3.4 % | 184 | 4.4 % |
| Europe | Windstorm | 83 | 2.0 % | 104 | 2.5 % | 150 | 3.6 % |
| Japan | Windstorm | 32 | 0.8 % | 78 | 1.9 % | 104 | 2.5 % |
| Japan | Earthquake | 58 | 1.4 % | 115 | 2.8 % | 185 | 4.5 % |
| California | Earthquake | 121 | 2.9 % | 179 | 4.3 % | 265 | 6.4 % |

The table above shows our net Probable Maximum Loss ("PML") to a single natural peril catastrophe event within certain defined single zones which correspond to peak industry catastrophe exposures at July 1, 2022. The return period refers to the frequency with which losses of a given amount or greater are expected to occur. A zone is a geographic area in which the insurance risks are considered to be correlated to a single catastrophic event. Estimated losses from a modeled event are grouped into a single zone, as shown above, based on where the majority of the total estimated industry loss is expected to occur.

As indicated in the table above, our modeled single occurrence 1-in-100 year return period PML for a Southeast U.S. hurricane, net of reinsurance, is approximately \$0.1 billion. According to our modeling, there is a one percent chance that on an annual basis, losses incurred from a Southeast U.S. hurricane event could be in excess of \$0.1 billion. Conversely, there is a 99% chance that on an annual basis, the loss from a Southeast U.S. hurricane will fall below \$0.1 billion.

We have developed our PML estimates by combining judgment and experience with the outputs from the catastrophe model, commercially available from AIR Worldwide. Additionally, we have included our estimate of non-modeled perils and other factors which we believe provides us with a more complete view of catastrophe risk.

Our PML estimates are based on assumptions that are inherently subject to significant uncertainties and contingencies. These uncertainties and contingencies can affect actual losses and could cause actual losses to differ materially from those expressed above. We aim to reduce the potential for model error in a number of ways, the most important of which is by ensuring that management's judgment supplements the model outputs. Models are continuously validated at the line of business and at a group level by our catastrophe model validation team. These validation procedures include sensitivity testing of models to understand their key variables and, where possible, back testing the model outputs to actual results.

Estimated net losses from peak zone catastrophes may change from period to period as a result of several factors, which include but are not limited to, updates to vendor catastrophe models, changes to internal modeling, underwriting portfolios, reinsurance purchasing strategy and foreign currency exchange rates.

EARNINGS PER COMMON SHARE INFORMATION - AS REPORTED, U.S. GAAP

[[]a] Tax expense (benefit) of \$(19,598) and \$7,491 for the three months ended June 30, 2022 and 2021, respectively, and (\$32,912) and \$8,975 for the six months ended June 30, 2022 and 2021 respectively. Tax impact is estimated by applying the statutory rates of applicable jurisdictions, after consideration of other relevant factors including the ability to utilize capital losses.

[[]b] Tax expense (benefit) of \$12,132 and (\$1,403) for the three months ended June 30, 2022 and 2021, respectively and \$24,948 and (\$1,193) for the six months ended June 30, 2022 and 2021 respectively. Tax impact is estimated by applying the statutory rates of applicable jurisdictions, after consideration of other relevant factors including the tax status of specific foreign exchange transactions.

[[]c] Tax expense (benefit) of (\$1,699) for the three and six months ended June 30, 2022. Tax impact is estimated by applying the statutory rates of applicable jurisdictions.

[[]d] Tax expense (benefit) of \$nil for the three and six months ended June 30, 2022 and 2021, respectively. Tax impact is estimated by applying the statutory rates of applicable jurisdictions.

RATIONALE FOR THE USE OF NON-GAAP FINANCIAL MEASURES

We present our results of operations in a way we believe will be meaningful and useful to investors, analysts, rating agencies and others who use our financial information to evaluate our performance. Some of the measurements we use are considered non-GAAP financial measures under SEC rules and regulations. In this document, we present underwriting-related general and administrative expenses, consolidated underwriting income (loss), operating income (loss) (in total and on a per share basis), annualized operating return on average common equity ("operating ROACE"), tangible book value per diluted common share which are non-GAAP financial measures as defined in SEC Regulation G. We believe that these non-GAAP financial measures, which may be defined and calculated differently by other companies, help explain and enhance the understanding of our results of operations. However, these measures should not be viewed as a substitute for those determined in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

<u>Underwriting-Related General and Administrative Expenses</u>

Underwriting-related general and administrative expenses include those general and administrative expenses that are incremental and/or directly attributable to our underwriting operations. While this measure is presented in the 'Segment Information' note to our Consolidated Financial Statements, it is considered a non-GAAP financial measure when presented elsewhere on a consolidated basis.

Corporate expenses include holding company costs necessary to support our worldwide insurance and reinsurance operations and costs associated with operating as a publicly-traded company. As these costs are not incremental and/or directly attributable to our underwriting operations, these costs are excluded from underwriting-related general and administrative expenses, and therefore, consolidated underwriting income (loss). General and administrative expenses, the most comparable GAAP financial measure to underwriting-related general and administrative expenses, also includes corporate expenses.

The reconciliation of underwriting-related general and administrative expenses to general and administrative expenses, the most comparable GAAP financial measure, is presented in the 'Consolidated Statements of Operations' section of this document.

Consolidated Underwriting Income (Loss)

Consolidated underwriting income (loss) is a pre-tax measure of underwriting profitability that takes into account net premiums earned and other insurance related income (loss) as revenues and net losses and loss expenses, acquisition costs and underwriting-related general and administrative expenses as expenses. While this measure is presented in the 'Segment Information' note to our Consolidated Financial Statements, it is considered a non-GAAP financial measure when presented elsewhere on a consolidated basis.

We evaluate our underwriting results separately from the performance of our investment portfolio. As a result, we believe it is appropriate to exclude net investment income and net investment gains (losses) from our underwriting profitability measure.

Foreign exchange losses (gains) in our consolidated statements of operations primarily relate to the impact of foreign exchange rate movements on our net insurance-related liabilities. However, we manage our investment portfolio in such a way that unrealized and realized foreign exchange losses (gains) on our investment portfolio generally offset a large portion of the foreign exchange losses (gains) arising from our underwriting portfolio. As a result, we believe that foreign exchange losses (gains) in our consolidated statements of operations in isolation are not a meaningful contributor to our underwriting performance, therefore, foreign exchange losses (gains) are excluded from consolidated underwriting income (loss).

Interest expense and financing costs primarily relate to interest payable on our debt. As these expenses are not incremental and/or directly attributable to our underwriting operations, these expenses are excluded from underwriting-related general and administrative expenses, and therefore, consolidated underwriting income (loss).

Reorganization expenses relate to our exit from property reinsurance business, part of an overall approach to reduce our exposure to volatile catastrophe risk, in the second quarter of 2022. Reorganization expenses are primarily driven by business decisions, the nature and timing of which are not related to the underwriting process, therefore, these expenses are excluded from consolidated underwriting income (loss).

Amortization of intangible assets including value of business acquired ("VOBA") arose from business decisions, the nature and timing of which are not related to the underwriting process, therefore, these expenses are excluded from consolidated underwriting income (loss).

We believe that the presentation of underwriting-related general and administrative expenses and consolidated underwriting income (loss) provides investors with an enhanced understanding of our results of operations, by highlighting the underlying pre-tax profitability of our underwriting activities. The reconciliation of consolidated underwriting income (loss) to net income (loss), the most comparable GAAP financial measure, is presented in the 'Consolidated Statements of Operations' section of this document.

Operating Income (Loss)

Operating income (loss) represents after-tax operational results exclusive of net investment gains (losses), foreign exchange losses (gains), reorganization expenses, and interest in income (loss) of equity method investments.

Although the investment of premiums to generate income and investment gains (losses) is an integral part of our operations, the determination to realize investment gains (losses) is independent of the underwriting process and is heavily influenced by the availability of market opportunities. Furthermore, many users believe that the timing of the realization of investment gains (losses) is somewhat opportunistic for many companies.

Foreign exchange losses (gains) in our consolidated statements of operations primarily relate to the impact of foreign exchange rate movements on net insurance-related liabilities. In addition, we recognize unrealized foreign exchange losses (gains) on our equity securities and foreign exchange losses (gains) realized on the sale of our available for sale investments and equity securities in net investment gains (losses). We recognize unrealized foreign exchange losses (gains) on our available for sale investments in other comprehensive income (loss). These unrealized foreign exchange losses (gains) generally offset a large portion of the foreign exchange losses (gains) reported in net income (loss), thereby minimizing the impact of foreign exchange rate movements on total shareholders' equity. As a result, we believe that foreign exchange losses (gains) in our consolidated statements of operations in isolation are not a meaningful contributor to the performance of our business, therefore, foreign exchange losses (gains) are excluded from operating income (loss).

Reorganization expenses relate to the exit of our property reinsurance business, part of an overall approach to reduce our exposure to volatile catastrophe risk, in the second quarter of 2022. Reorganization expenses are primarily driven by business decisions, the nature and timing of which are not related to the underwriting process, therefore, these expenses are excluded from operating income (loss).

Interest in income (loss) of equity method investments is primarily driven by business decisions, the nature and timing of which are not related to the underwriting process, therefore, this income (loss) is excluded from operating income (loss).

Certain users of our financial statements evaluate performance exclusive of after-tax net investment gains (losses), foreign exchange losses (gains), reorganization expenses, and interest in income (loss) of equity method investments to understand the profitability of recurring sources of income.

We believe that showing net income (loss) available (attributable) to common shareholders exclusive of after-tax net investment gains (losses), foreign exchange losses (gains), reorganization expenses, and interest in income (loss) of equity method investments reflects the underlying fundamentals of our business. In addition, we believe that this presentation enables investors and other users of our financial information to analyze performance in a manner similar to how our management analyzes the underlying business performance. We also believe this measure follows industry practice and, therefore, facilitates comparison of our performance with our peer group. We believe that equity analysts and certain rating agencies that follow us, and the insurance industry as a whole, generally exclude these items from their analyses for the same reasons. The reconciliation of operating income (loss) to net income (loss) available (attributable) to common shareholders, the most comparable GAAP financial measure, is presented in the 'Non-GAAP Financial Measures Reconciliation' section of this document.

We also present operating income (loss) per diluted common share and annualized operating ROACE, which are derived from the operating income (loss) measure and are reconciled to the most comparable GAAP financial measures, earnings (loss) per diluted common share and annualized return on average common equity ("ROACE"), respectively, in the 'Non-GAAP Financial Measures Reconciliation' section of this document.

Tangible Book Value per Diluted Common Share

Tangible book value represents common shareholders' equity exclusive of after-tax goodwill and intangible assets. We present tangible book value per diluted common share calculated under the treasury stock method. We believe that this measure, in combination with book value per diluted common share, is useful in assessing value generated for our common shareholders. A reconciliation of tangible book value per diluted common share to book value per diluted common share, the most comparable GAAP financial measure, is presented in the 'Tangible Book Value per Diluted Common Share' section of this document.
