Safe Harbor Statement

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This presentation contains forward-looking statements within the meaning of section 27A of the Securities Act of 1933 and section 21E of the Securities Exchange Act of 1934. All statements, other than statements of historical facts included in this presentation, including statements regarding our estimates, beliefs, expectations, intentions, strategies or projections are forward-looking statements. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the United States ("U.S.") federal securities laws. In some cases, these statements can be identified by the use of forward-looking words such as "may", "should", "could", "anticipate", "estimate", "expect", "plan", "believe", "predict", "potential", "intend" or similar expressions. These forward-looking statements are not historical facts, and are based on current expectations, estimates and projections, and various assumptions, many of which, by their nature, are inherently uncertain and beyond management's control.

Forward-looking statements contained in this presentation may include, but are not limited to, information regarding our estimates for catastrophes and other weather-related losses including losses related to the COVID-19 pandemic, measurements of potential losses in the fair market value of our investment portfolio and derivative contracts, our expectations regarding the performance of our business, our financial results, our liquidity and capital resources, the outcome of our strategic initiatives, our expectations regarding pricing and other market conditions, our growth prospects, and valuations of the potential impact of movements in interest rates, credit spreads, equity securities' prices and foreign currency rates.

Forward-looking statements only reflect our expectations and are not guarantees of performance. These statements involve risks, uncertainties and assumptions. Accordingly, there are or will be important factors that could cause actual events or results to differ materially from those indicated in such statements. We believe that these factors include, but are not limited to, the following

- the adverse impact of the ongoing COVID-19 pandemic on our business, results of operations, financial condition and liquidity;
- the cyclical nature of the insurance and reinsurance business leading to periods with excess underwriting capacity and unfavorable premium rates;
- the occurrence and magnitude of natural and man-made disasters;
- the impact of global climate change on our business, including the possibility that we do not adequately assess or reserve for the increased frequency and severity of natural catastrophes;
- losses from war, terrorism and political unrest or other unanticipated losses;
- actual claims exceeding loss reserves;
- general economic, capital and credit market conditions, including fluctuations in interest rates, credit spreads, equity securities' prices and/or foreign currency values;
- the failure of any of the loss limitation methods we employ;
- the effects of emerging claims, coverage and regulatory issues, including uncertainty related to coverage definitions, limits, terms and conditions;
- the inability to purchase reinsurance or ceded amounts due to us from reinsurance we have purchased;
- the loss of business provided to us by major brokers;
- breaches by third parties in our program business of their obligations to us;
- difficulties with technology and/or data security;
- the failure of our policyholders or intermediaries to pay premiums;
- the failure of our cedants to adequately evaluate risks;
- the inability to obtain additional capital on favorable terms, or at all;
- the loss of one or more of our key executives;
- a decline in our ratings with rating agencies;
- changes in accounting policies or practices;
- the use of industry models and changes to these models;
- changes in governmental regulations and potential government intervention in our industry;
- inadvertent failure to comply with certain laws and regulations relating to sanctions and foreign corrupt practices;
- changes in the political environment of certain countries in which we operate or underwrite business including the United Kingdom's withdrawal from the European Union;
- changes in tax laws; and
- other factors including but not limited to those described under Item 1A, 'Risk Factors' in our most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC"), as those factors may be updated from time to time in our periodic and other filings with the SEC, which are accessible on the SEC's website at www.sec.gov. Readers are urged to carefully consider all such factors as the COVID-19 pandemic may have the effect of heightening many of the other risks and uncertainties described.

We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

AXIS Responds to the Pandemic

Throughout the global COVID-19 pandemic, we have: (i) been committed to the health, safety and wellness of our employees, (ii) focused on sustaining excellent service to our clients and distribution partners and (iii) supported our communities through philanthropic giving.

These actions have included:

CLIENTS & PARTNERS

- Maintaining our excellent service standards in a virtual working environment
- Launching a virtual broker lounge, giving our brokers convenient, direct access to our underwriters via video, instant messaging or one-click calling

EMPLOYEES

- Transitioning seamlessly to a virtual workplace environment and suspending all nonessential business travel, with limited or no business interruption
- Providing employees with regular live updates delivered by our Chief Executive Officer
- Furnishing employees with a work-from-home office and technology stipend
- Developing educational tools and materials focused on the health and well-being of our employees, including remote working best practices, leadership of virtual teams and managing stress while working from home
- Adding half-day well-being days and allowing flexibility with paid time off and sick leave policies for employees directly impacted by COVID-19
- Continuous monitoring of health information and shelter-in-place orders to assess the reopening of offices

COMMUNITIES

- Committing \$1 million to support COVID-19 relief efforts in 2020, with a portion dedicated to supporting underserved communities disproportionately impacted by the pandemic

GOVERNANCE

- Active oversight from our Board of Directors during the pandemic, with regular updates from management on the pandemic's impact on our financial performance, claims, reserves, employees, operations, areas of risk, and cybersecurity

AXIS: A Profitable Growth Engine

- **Margin Improvement:** Major repositioning of the portfolio over the past 3 years should continue to drive improvements in underlying results

- **Attractive Market Position:** Over 85% of AXIS' insurance portfolio is in the markets seeing strong rate improvements including E&S Property, E&S Casualty, Lloyd's, Professional Lines as well as in a number of Reinsurance lines

- **Pricing Momentum:** Double-digit growth in core insurance lines of business supported by strong rate increases across virtually every line of business which is expected to continue through 2021; Reinsurance pricing gained some momentum during the January/April renewal seasons, and we look for continued improvement through the remainder of 2021

- **Attractive Valuation:** Global platform with improving profitability trading at attractive levels with a 3.0% dividend yield¹

(1) Market data for dividend yield as of 5/12/21

Pricing Momentum Continues into 2021

Insurance:

- **Rates continue to be increase in the double digits**
- Average rate increases of ~15% for full-year 2020 and continued to rise at similar levels in 1Q21
- Rate increases seen in almost every line of business and achieving double-digit rate increases in numerous lines of business. AXIS plans to grow a number of these lines such as Excess Casualty, Renewable Energy, A&H and Marine
- Cyber² rates up ~20% with further firming expected

Reinsurance:

- **Pricing up 11% in 1Q21 modestly higher than the pace seen in FY2020**
- At 4/1/21 average renewal rate increases were up 5-10% varying modestly by line of business
- The high frequency of storms in the US in 2H20 coupled with the Texas storms in 1Q21 should further support firmer pricing, terms and conditions as the mid-year renewals approach

Pricing momentum expected to continue through 2021 and possibly further

- Pricing up in almost every line of business with many lines seeing strong double-digit increases
- Industry issues such as low interest rates, lower levels of favorable development, social inflation and the COVID-19 pandemic should drive further pricing improvements into 2021 and possibly further

Cumulative Insurance Rate Improvements

(1) Cumulative written rate indexed at 1Q21

(2) Cyber business is reported within Professional Lines and contributes ~\$300 million of GPW per annum

Accelerating Profitable Insurance Growth

Price firming in the insurance market continues to accelerate in virtually every line of business which should drive future growth

Profitable Growth Accelerating

- Growing core lines of business where rates are adequate, and AXIS has the underwriting expertise, market relevance, and platform to drive sustainable profitable growth
- Growth in lines such as Excess Casualty, Renewable Energy, A&H and Marine continue to provide strong double-digit ROE opportunities
- Property, Professional Liability and Excess Casualty lines continue to see strong double-digit rate increases

Tactical & Disciplined Underwriting

- Underwriting leverage is up over 40% over the past 5 years as the portfolio becomes more capital efficient
- Exited over \$470 million of underperforming lines and invested in more attractive markets

(1) Exited Lines includes those insurance lines of business that AXIS exited or placed into run-off in 2019, as well as those insurance lines of business that Novae exited or placed into run-off in the fourth quarter of 2016 and in the first quarter of 2017. AXIS exited insurance lines include Energy Onshore, Healthcare, U.S. Property, Risk Management Property, Management Liability Solutions, Marine Hull, Crisis Management, and certain MGA programs. Novae discontinued insurance lines include financial institutions, professional indemnity, international liability, international direct and facultative property.

Strategic Distribution Benefits

Accessing high quality business through the best distribution channels provides for margin improvement

FY2020 Insurance Segment: Strategic Distribution

Accelerating Profitable Growth

- The specialty/wholesale channel is where AXIS has been accelerating growth the most and makes up ~40% of total premium volume year-to-date. This channel has been providing the strongest rate increases year-to-date
- The reduction in the “other” channel has already driven improvement in acquisition costs

Profitable Reinsurance Growth: Where it Matters

AXIS has been focused on profitable growth where risk selection and rate adequacy drive sound underwriting decisions

Reinsurance rates are expected to continue firming as mid-year renewals approach

Reinsurance GPW Growth Q1 2021 vs Q1 2020

Executing the Strategy

AXIS has positioned itself to excel in the current firming P&C market and the underwriting performance is producing tangible results

Group Ex-Cat AY Combined Ratio

Margin Improvement from Multiple Sources

- Disciplined underwriting has driven consistent improvement in the loss ratio
- Strategic distribution management has reduced acquisition costs
- A strong focus on expenses has led to improved G&A ratios

(1) Ex-PGAAP Ex-Cat AY Combined Ratio is a non-GAAP financial measure as defined in Regulation G. Further information regarding ex-PGAAP data including a reconciliation to the most comparable GAAP financial measure is available in Appendix I.

Group: Underwriting Actions Drive Improving Performance

Group Ex-Cat AY Loss Ratio

Loss ratio improvement driven by:

- Enhanced pricing, improved terms/conditions and lower limits drive improved loss ratios coupled with greater stability
- Portfolio construction coupled with improved mix of business

Note: Ex-Cat loss ratio of 57.7 points for FY 2020 compared to the Ex-Cat loss ratio of 63.7 points for FY 2017 equates to 6 point improvement during that timeframe

Insurance Segment: Underlying Loss Ratio Improvement

Portfolio Changes Driving Improving Loss Ratios:

- **9.0 points of underlying loss ratio improvement since YE 2017 due to:**
 - Strong pricing momentum, while maintaining disciplined loss picks in all lines
 - Portfolio repositioning leading to improved underlying profitability
- **Opportunities for further loss ratio improvements include:**
 - Reduction of impact from exited lines of business; now de minimis
 - Enhanced portfolio construction

(1) Exited Lines includes those insurance lines of business that AXIS exited or placed into run-off in 2019, as well as those insurance lines of business that Novae exited or placed into run-off in the fourth quarter of 2016 and in the first quarter of 2017. AXIS exited insurance lines include Energy Onshore, Healthcare, U.S. Property, Risk Management Property, Management Liability Solutions, Marine Hull, Crisis Management, and certain MGA programs. Novae discontinued insurance lines include financial institutions, professional indemnity, international liability, international direct and facultative property.

Reinsurance Segment: Underlying Loss Ratio Improvement

Reinsurance Ex-Cat AY Loss Ratio

Portfolio Changes Driving Improving Loss Ratios:

- **7.0 points of underlying margin improvement since YE 2017 due to:**
 - Pricing momentum continued through the 4/1/2021 renewals with continued underwriting improvements
 - The elevated frequency of storms in the US during 2H20 and the Texas storms in 1Q21 should support further improvements in pricing at the mid-year renewals
 - Disciplined underwriting and portfolio management driving improvements
- **Opportunities for further loss ratio improvements include:**
 - Improved business mix coupled with pricing firming at an accelerating pace
 - Continue to leverage third party capital

Continuing Operational Improvements

Focused Expense Management:

- Modest compensation/headcount increases lead to slightly higher G&A dollars in 1Q21
 - Headcount increases were primarily hiring additional underwriting talent
- Tactically managing 2021 expenses lower due to the economic uncertainties presented by the pandemic¹
- Achieved operational and integration savings initiative ahead of targeted timeframe
- Leveraging data and technology to deliver increased operating efficiency over time

(1) Temporary expense reductions based on the specific impacts of the COVID-19 pandemic on our business

Interest Rates Remain a Headwind to Investment Income

- 1Q21 investment income was aided by strong returns from alternative assets, but the headwind from low interest rates is still a factor
- The current book yield is ~2.1% and the new money yield is ~1.5%¹
- AXIS maintains a conservative investment portfolio with a duration of ~3.3 years
- AXIS will continue to focus on improving underwriting margins and maintaining its disciplined investment approach
- Low interest rates remain a key reason that pricing momentum should continue through 2021

(1) Book yield and new money yield as of 3/31/21

Achieving Significant Progress Across the Platform

In the past five years, AXIS has implemented significant change to its platform and portfolios

Key Drivers of Recent Progress		Improvement Targets ³ vs. FY20
GPW Growth ¹	- Sustained pricing improvements - Strong positions in E&S, Lloyd's, specialty markets - Disciplined underwriting remains key	Well positioned for profitable growth in all our key markets where risks are adequately priced
<u>Ex-Cat AY Loss Ratio Improvement¹</u> Group: 6.0 points Insurance: 6.2 points Reinsurance: 5.0 points	- Sustained pricing improvements - Stronger terms/conditions; lower limits; reduced PMLs - Exited lines² + portfolio construction	Improve 2-3 Points
Cat Loss Ratio ⁵ : 9.5 points in FY2020	- Reduced Insurance property book - Lowered limits in cat exposed lines - Reduced PMLs across the loss curve - Achieving double-digit rate increases	Improve 2-3 Points
Acquisition Ratio: 21.3% in FY2020	- Reducing cover holder business - Adjusting broker commissions	Improve 1 Point
G&A Expense Ratio: 13.2% in FY2020	\$100 million cost savings target achieved - Additional \$50 million⁴ of costs saved in 2020 - Right sized expenses in face of the pandemic	Expect mid-13s run-rate by 2022

Targeting a Low-90s Combined Ratio to Drive Attractive ROEs

- (1) Progress shown between year-end 2017 and year-end 2020
- (2) Exited Lines includes those insurance lines of business that AXIS exited or placed into run-off in 2019, as well as those insurance lines of business that Novae exited or placed into run-off in the fourth quarter of 2016 and in the first quarter of 2017. AXIS exited insurance lines include Energy Onshore, Healthcare, U.S. Property, Risk Management Property, Management Liability Solutions, Marine Hull and War, Crisis Management, and certain MGA programs. Novae discontinued insurance lines include financial institutions, professional indemnity, international liability, international direct and facultative property. Novae discontinued reinsurance lines include motor reinsurance, general liability reinsurance, and international facultative property.
- (3) Improvement Targets do not take into account unusual or infrequently occurring events
- (4) Temporary expense reductions based on the specific impacts of the COVID-19 pandemic on our business
- (5) Reported cat loss ratio of 17.7 points less COVID-19 impact of 8.2 points equates to 9.5 points

Furthering Our Commitment to ESG and Corporate Citizenship

AXIS has long been a values-based organization and since 2018, we have been scaling our ESG and Corporate Citizenship program, overseen by the Corporate Governance and Nominating Committee

ENVIRONMENT

Enhancing practices to help ensure a more sustainable future

- Formed internal environmental working group, overseen by Chief Risk Officer, to augment existing climate risk working group
- Amended existing policy to limit thermal coal/oil sands underwriting and investment with additional limitations addressing the Arctic National Wildlife Refuge
- Developing second report aligned to Sustainability Accounting Standards Board principles

DIVERSITY, EQUITY & INCLUSION

Accelerating our initiatives in 2021 through multi-pronged efforts

- Disclosed employee demographics: global gender and U.S. race
- Recognized in Bloomberg Gender Equality Index
- Launched Employee Resource Groups (ERGs)
- Implementing 5-point 2021 DE&I plan; key action areas - internal education, diverse recruitment, career development, goals/metrics and advocacy

PHILANTHROPY

Supporting charitable causes that align with our values

- Continued Global Corporate Philanthropy Partnerships with Adara, IMC, Partners in Health & Doctors Without Borders
- Continued to work with local philanthropy committees to organize virtual volunteering events and contribute to local organizations

ADVOCACY

Using our position to advance issues that align with our values

- Sponsored and publicized research on U.S. hurricane risk in partnership with AIR and scholars from Brookings
- Member of UN-backed Insurance Development Forum; Participant - Steering Committee, Sovereign & Humanitarian Solutions Working Group
- Raised external awareness on DE&I topics via panel participation and press interviews

We are dynamic.

We are intellectually curious – continuously learning, adapting, and improving. We are bold, innovative, and take ownership of our future.

Conclusion

AXIS is a leading specialty insurer and global reinsurer

Strong franchise with superior position in chosen specialty markets that are exhibiting the most attractive opportunities

Pace of underwriting margin improvement should continue given ongoing portfolio improvements and acceleration in pricing

Enhanced use of reinsurance, retro and third-party capital driving better risk adjusted returns with lower volatility

Building a stronger, more profitable and more stable underwriter of specialty risks

Amortization of VOBA and intangible assets	16,601	37,939	184,531

Note: On October 2, 2017, we acquired Novae Group plc ("Novae"). At the acquisition date, we identified value of business acquired ("VOBA") which represents the present value of the expected underwriting profit within policies that were in-force at the closing date of the transaction. In addition, the allocation of the acquisition price to the assets acquired and liabilities assumed based on estimated fair values at the acquisition date, resulted in the write-off of the deferred acquisition cost asset on Novae's balance sheet at the acquisition date as the value of policies in-force on that date are considered within VOBA. Consequently, underwriting income (loss) for the periods shown above included the recognition of premiums attributable to Novae's balance sheet at the acquisition date without the recognition of the associated acquisition costs. We believe the presentation of Ex-PGAAP current accident year combined ratio excluding catastrophe and weather-related losses enables investors and other users of our financial information to analyze the performance of our business.
