

Henry Schein Medical Featured Innovative Solutions and Support for Non-Acute Care Providers at AHRMM 2025 Conference and Expo

2025-08-11

Company Highlighted Supply Chain Technologies and Sponsored Volunteer Kit-Building Event Benefitting Ronald McDonald House Charities

MELVILLE, N.Y. – August 11, 2025 – Henry Schein Medical, the U.S. medical business of Henry Schein, Inc. (Nasdaq: HSIC), showcased its range of resources, solutions, and support tailored for health care systems at the [AHRMM](#) (Association for Health Care Resource & Materials Management) Conference and Expo in Denver, Colorado. During the event, the Company also sponsored the AHRMM community service project, where volunteers assembled “welcome kits” for families staying at the Denver Ronald McDonald House.

From August 3-6, 2025, the Henry Schein Medical team was onsite at booth #1010 discussing how the Company supports the evolving needs of non-acute care providers within integrated delivery networks (IDNs). Attendees learned how Henry Schein streamlines procurement, enhances supply chain efficiency, manages costs, and improves visibility across the non-acute continuum of care.

This year’s booth spotlighted two key solutions that address critical challenges in today’s health care landscape. [Rimidi](#), an integrated chronic care management platform, analyzes real-time data from electronic health records and connected devices to support proactive, personalized care. Rimidi helps clinicians identify at-risk patients, streamline decision-making, and improve outcomes across the care continuum. Also featured was [HealthFirst’s Auto-Replenishment service](#), which automates inventory tracking and emergency medication replacement. By helping reduce the risk of expired or missing medications, it enhances operational efficiency and assists health care teams in providing timely, high-quality patient care.

“At Henry Schein Medical, our focus is on empowering health systems to elevate care delivery across their entire network, especially in non-acute settings,” said **Tara Piperis, Executive Director, Health Systems and National Accounts, at Henry Schein Medical**. “We’re committed to helping IDNs standardize processes, gain actionable insights, and help improve outcomes by aligning innovative solutions with strategic goals.”

In addition to showcasing its supply chain solutions, [Henry Schein Cares](#), the Company’s global corporate citizenship program, sponsored a [kit assembly](#), together with the Colorado Chapter of AHRMM, on Monday, August 4. Participants helped assemble “welcome kits” filled with toothbrushes, toothpaste, mouthwash, and other personal care essentials for families with children facing serious medical illnesses. Intended to help provide hope, comfort, and care to individuals who need it the most, the kits will be distributed to families at the Denver Ronald McDonald House. Throughout 2025, Henry Schein has supported kit-building events worldwide in support of [Ronald McDonald House Charities](#), building over 22,500 kits so far.

Since 1932, the Company has supported non-acute settings, and its team of non-acute care consultants provide expertise and advice to help IDNs deliver on their priorities. [Click here](#) to learn more about how Henry Schein Medical supports IDNs.
