

Mannatech Introduces Most Powerful Ambrotose® Formula Ever

2018-04-28

FLOWER MOUND, Texas--(BUSINESS WIRE)--Apr. 28, 2018-- **Mannatech, Incorporated (NASDAQ: MTEX)**, a global health and wellness company, has unveiled the most powerful Ambrotose® product ever, its new nutritional supplement, Ambrotose LIFE™ powder, at its annual MannaFest convention.

Leveraging advancements in scientific and ingredient research, Mannatech has improved the Ambrotose formula by adding in new clinically-tested ingredients to boost its immune, cognitive, mood and gastrointestinal benefits*. Additionally, Ambrotose LIFE has more Manapol® powder than in any other product and double the Manapol powder of its top-selling product, Advanced Ambrotose™. Mannatech's Manapol contains the highest concentration of acemannan found anywhere. Acemannan is a potent polysaccharide found in the inner gel of the aloe vera leaf. It is what gives aloe its ability to support cell-to-cell communication in the body.

"For more than 20 years, Ambrotose has been recognized as one of the most powerful nutritional supplements in the world. One that can boost your immune system, improve cognitive functions and support gastrointestinal health,*" said Mannatech's Chief Operating and Marketing Officer, Joel Bikman, from the stage at MannaFest 2018. "We've sold more than \$3 billion worth of Ambrotose during that time, but we're just getting started. We believe Ambrotose LIFE will do more for your health than any other combination of products ever developed."

"Our core Ambrotose powder technologies have been fully validated by 10 different third-party clinical studies," said Dr. Steve Nugent, Senior Global Wellness Director at Mannatech. "The natural ingredients in Ambrotose LIFE powder provide important compounds called Glyconutrients, or glycans. Glycans are part of the glycoproteins on the exterior of your body's cells. They help the glycoproteins facilitate faster, better and more complete cell-to-cell communication, helping your cells get precisely what they need so that they, and you, can be at your healthiest.*"

"We created the original Ambrotose powder more than 20 years ago, and now we've taken it to new heights," said Mannatech CEO, Al Bala. "Ambrotose LIFE is the ultimate supplement for maximizing your life at any age. If you only use one supplement for your health, Ambrotose LIFE is the one to take!"

Bikman also explained that those who commit to taking new Ambrotose LIFE for 90 days are guaranteed to feel a positive difference in their health, or Mannatech will gladly give them their money back.

Ambrotose LIFE will be available in two different forms: Unflavored powder in a canister and a citrus-flavored powder available in convenient, single-serving slimsticks. Ambrotose LIFE will first be available in North America on June 1, 2018, and then made available to Mannatech's independent sales associates in other parts of the world.
