

Mannatech Korea Introduces the Most Advanced Ginseng Supplement in the World

2017-07-23

SEOUL, Korea--(BUSINESS WIRE)--Jul. 23, 2017-- **Mannatech®**, **Incorporated** (NASDAQ: MTEX), a global health and wellness company committed to transforming lives to make a better world, has launched GinMAX™ tablets in its Korea market. GinMAX is a powerful, dual-layer ginseng product that is the first of its kind.

This unique dual-layer tablet is created with the world's first fermented white Panax ginseng and is combined with a potent fermented red Panax ginseng, making GinMAX the most advanced ginseng supplement in the world. The white ginseng fermentation process is designed to be better absorbed for increased efficiency, while the fermented red ginseng metabolizes later. In short, it can work faster and last longer than other ginseng products.*

As one of the world's most powerful herbs, ginseng has been used for thousands of years to address many aspects of human health, including fatigue and focus. Now, Mannatech technology captures bioactive ingredients in ginseng through a leading-edge fermentation process to bring a revolutionary and potent ginseng experience with GinMAX.

"GinMAX tablets can help you fight off fatigue naturally while helping with energy, focus and memory*," said Dr. Steve Nugent, Mannatech's Senior Global Wellness Director and Chairman of Mannatech's Global Scientific Advisory Board. "This revolutionary ginseng combination is an innovation of Eastern traditions mixed with Western science. GinMAX can give you mental focus that's unrivaled by other ginseng products. This isn't just to help you tackle the day, it can help you take on the week."*
