

## EnerSys Wins at DCR Excellence Awards: Recognised for Innovation in Data Center Solutions

May 15, 2025

ZUG, Switzerland--(BUSINESS WIRE)--May 15, 2025-- [EnerSys](#) (NYSE: ENS), a global leader in stored energy solutions for industrial applications, celebrated a standout performance at the **Data Centre Review Excellence Awards 2025**, winning in the following category:

- **Data Centre Backup Power Solution of the Year**

The prestigious awards ceremony took place on **Wednesday, May 14** at the iconic **Oxo Tower on London's South Bank**. EnerSys representatives were in attendance to proudly accept the honours.

Judged by a panel of industry experts, the DCR Excellence Awards highlight the most impactful innovations across the data center sector. EnerSys' wins reflect its continued commitment to advancing modern, sustainable, and resilient data center solutions.

### Powering the Future of the Data Center

The global data center landscape is transforming rapidly, accelerated by the rise of AI and increasing demands for sustainability, performance, and uptime. EnerSys is helping operators meet these challenges with a portfolio designed to future-proof operations:

1. **Smarter:** The **EnVision™ Connect system monitor** enables real-time visibility of critical battery parameters, enhancing operational control.
2. **Cleaner:** Our energy storage solutions help data centers align with evolving energy efficiency targets and European regulatory requirements.
3. **More Reliable:** The latest **DataSafe® Thin Plate Pure Lead (TPPL) batteries** deliver robust protection against costly downtime.

Michael Sagar, Director of Marketing – Energy Systems, commented:

*"Receiving this prestigious award in the category of Data Centre Backup Power Solution of the Year, confirms that EnerSys is a leader in the data center sector. This win goes beyond product innovation, it reflects our commitment to helping data centers thrive in an increasingly complex environment."*

**EnerSys remains committed to driving innovation and shaping the future of the global data center industry.** We look forward to building on this momentum and reconnecting with industry peers at the DCR Excellence Awards 2026.

### About EnerSys

EnerSys is a global leader in stored energy solutions for industrial applications and designs, manufactures, and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. The company goes to market through four lines of business: Energy Systems, Motive Power, Specialty and New Ventures. Energy Systems, which combine power conversion, power distribution, energy storage, and enclosures, are used in the telecommunication, broadband and utility industries, uninterruptible power supplies, and numerous applications requiring stored energy solutions. Motive power batteries and chargers are utilized in electric forklift trucks and other industrial electric powered vehicles. Specialty batteries are used in aerospace and defense applications, portable power solutions for soldiers in the field, large over-the-road trucks, premium automotive, medical and security systems applications. New Ventures provides energy storage and management systems for various applications including demand charge reduction, utility back-up power, and dynamic fast charging for electric vehicles. EnerSys also provides aftermarket and customer support services to its customers in over 100 countries through its sales and manufacturing locations around the world.
