

NEWS RELEASE

EnerSys to Host 2026 Investor Day

2026-03-26

READING, Pa.--(BUSINESS WIRE)-- **EnerSys** (NYSE: ENS), a global leader in stored energy solutions for industrial applications, will host an Investor Day in New York City at the New York Stock Exchange on Thursday, June 11, 2026. Shawn O'Connell, President and CEO, Andrea Funk, Executive Vice President and CFO, and other members of the executive management team will present a detailed overview of the Company's EnerGize strategic framework, technology roadmap, and growth opportunities. The event will include formal presentations and Q&A sessions followed by a luncheon with senior leadership and a product showcase.

Due to space limitations, the number of in-person participants is limited and advanced registration is required. Please reach out to Investor Relations if interested in attending in person.

Registration for the virtual webcast is available at <https://enersys-2026-investor-day-webcast.open-exchange.net/registration>. Presentations are expected to begin at 8:30 am ET and conclude at approximately 11:45 am ET.

A live broadcast as well as a replay of the event can be accessed through the Events and Presentations page of the Investor Relations section of the company's website at <https://investor.enersys.com/events-presentations>.

About EnerSys

EnerSys is a global leader in stored energy solutions for industrial applications and designs, manufactures, and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. The company goes to market

through four lines of business: Energy Systems, Motive Power, Specialty and New Ventures. Energy Systems, which combine power conversion, power distribution, energy storage, and enclosures, are used in the telecommunication, broadband and utility industries, uninterruptible power supplies, and numerous applications requiring stored energy solutions. Motive power batteries and chargers are utilized in electric forklift trucks and other industrial electric powered vehicles. Specialty batteries are used in aerospace and defense applications, portable power solutions for soldiers in the field, large over-the-road trucks, premium automotive, medical and security systems applications. New Ventures provides energy storage and management systems for various applications including demand charge reduction, utility back-up power, and dynamic fast charging for electric vehicles. EnerSys also provides aftermarket and customer support services to its customers in over 100 countries through its sales and manufacturing locations around the world.
