About Crinetics Pharmaceuticals

Crinetics Pharmaceuticals is a clinical stage pharmaceutical company focused on the discovery, development, and commercialization of novel therapeutics for rare endocrine diseases and endocrine-related tumors. The company's lead product candidate, CRN00808, is an oral nonpeptide somatostatin agonist for the treatment of acromegaly, an

orphan disease affecting more than 25,000 people in the United States. The company is also developing other oral nonpeptide somatostatin agonists for neuroendocrine tumors and hyperinsulinism, as well as an oral nonpeptide ACTH antagonist for the treatment of Cushing's disease. Crinetics was founded by a team of scientists with a track record of endocrine drug discovery and development. For more information, please visit [www.crinetics.com](http://www.crinetics.com).
