

NEWS RELEASE

CRINETICS PHARMACEUTICALS TO HOST R&D DAY ON JUNE 26, 2025

2025-06-16

SAN DIEGO – June 16, 2025 – **Crinetics Pharmaceuticals, Inc.** (Nasdaq: CRNX), today announced that it will host an in-person and virtual R&D Day in New York on Thursday, June 26, 2025, from 9:00 AM to 12:00 PM ET.

The event will provide an update including data on Crinetics' early-stage pipeline assets, next steps, and portfolio strategy to drive long-term value. Key topics will include:

- NETs and beyond – NDC platform with CRN09682
- Graves' disease and thyroid eye disease (TED) – TSH antagonist
- Autosomal polycystic kidney disease (ADPKD) – SST3 agonist

A live question-and-answer session will follow the formal presentations. To register, [click here](#).

About Crinetics Pharmaceuticals

Crinetics Pharmaceuticals is a clinical stage pharmaceutical company focused on the discovery, development, and commercialization of novel therapeutics for endocrine diseases and endocrine-related tumors. Crinetics' lead development candidate, paltusotine, is the first investigational once-daily, oral, selective somatostatin receptor type 2 (SST2) nonpeptide agonist that is in clinical development for acromegaly and carcinoid syndrome associated with neuroendocrine tumors. Atumelnant is currently in development for congenital adrenal hyperplasia and ACTH-dependent Cushing's syndrome. All of the company's drug candidates are orally delivered, small molecule, new chemical entities resulting from in-house drug discovery efforts, including additional discovery programs addressing a variety of endocrine conditions such as hyperparathyroidism, polycystic kidney disease, Graves' disease (including thyroid eye disease), diabetes, obesity and GPCR-targeted oncology indications.
