

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2022

OR

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File Number 001-33458

TERADATA CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

75-3236470
(I.R.S. Employer
Identification No.)

17095 Via Del Campo
San Diego, California 92127
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: (866) 548-8348

Securities registered pursuant to Section 12(b) of the Act:

Title of each class:	Trading Symbol	Name of Each Exchange on which Registered:
Common Stock, \$0.01 par value	TDC	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒
Non-accelerated filer ☐

Accelerated filer ☐
Smaller reporting company ☐
Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

At July 29, 2022, the registrant had approximately 102.8 million shares of common stock outstanding.

See Notes to Condensed Consolidated Financial Statements (Unaudited).

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Basis of Presentation

These statements have been prepared pursuant to the rules and regulations of the United States Securities and Exchange Commission ("SEC") and, in accordance with those rules and regulations, do not include all information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). In the opinion of management, the condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary to fairly state the results of operations, financial position and cash flows of Teradata Corporation ("Teradata" or the "Company") for the interim periods presented herein. The year-end 2021 condensed consolidated balance sheet data was derived from audited financial statements but does not include all disclosures required by GAAP. The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make use of estimates and assumptions that affect the reported amounts and disclosures. Actual results may vary from these estimates.

These condensed consolidated interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in Teradata's most recent Annual Report on Form 10-K for the fiscal year ended December 31, 2021 (the "2021 Annual Report"). The results of operations for any interim period are not necessarily indicative of the results of operations to be expected for the full year.

2. New Accounting Pronouncements

Reference Rate Reform. In March 2020, the Financial Accounting Standards Board ("FASB") issued new guidance to provide relief to companies that will be impacted by the expected change in benchmark interest rates, as participating banks will no longer be required to submit London Interbank Offered Rate ("LIBOR") quotes by the U.K. Financial Conduct Authority. The new guidance allows companies to, provided the only change to existing contracts are a change to an approved benchmark interest rate, account for modifications as a continuance of the existing contract without additional analysis. For new and existing contracts, companies may elect to apply the amendments as of March 12, 2020 through December 31, 2022. The Company has evaluated this new guidance and concluded it will not have a material impact on our consolidated financial statements or related disclosures.

3. Revenue from Contracts with Customers

Disaggregation of Revenue from Contracts with Customers

The following table presents a disaggregation of revenue:

in millions	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
Americas				
Recurring	\$ 215	\$ 233	\$ 461	\$ 451
Perpetual software licenses, hardware and other	3	4	15	11
Consulting services	31	37	63	75
Total Americas	249	274	539	537
EMEA				
Recurring	75	86	164	187
Perpetual software licenses, hardware and other	3	7	14	20
Consulting services	25	35	54	68
Total EMEA	103	128	232	275
APJ				
Recurring	55	57	106	110
Perpetual software licenses, hardware and other	2	6	5	9
Consulting services	21	26	44	51
Total APJ	78	89	155	170
Total Revenue	\$ 430	\$ 491	\$ 926	\$ 982

Rental revenue, which is included in recurring revenue in the above table, was as follows:

in millions	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
Rental revenue*	\$ 45	\$ 48	\$ 95	\$ 87

*Rental revenue includes hardware maintenance.

Contract Balances

The timing of revenue recognition, billings and cash collections results in billed accounts receivable, contract assets, and customer advances and deposits (deferred revenue or contract liabilities) on the condensed consolidated balance sheet. Accounts receivable include amounts due from customers that are unconditional. Contract assets relate to the Company's rights to consideration for goods delivered or services completed and recognized as revenue but billing and the right to receive payment is conditional upon the completion of other performance obligations. Contract assets are included in other current assets on the balance sheet and are transferred to accounts receivable when the rights become unconditional. Deferred revenue consists of advance payments and billings in excess of revenue recognized. Deferred revenue is classified as either current or noncurrent based on the timing of when the Company expects to recognize revenue. These assets and liabilities are reported on a contract-by-contract basis at the end of each reporting period.

The following table provides information about receivables, contract assets and deferred revenue from contracts with customers:

in millions	As of	
	June 30, 2022	December 31, 2021
Accounts receivable, net	266	\$ 336
Contract assets	15	10
Current deferred revenue	530	552
Long-term deferred revenue	11	27

Revenue recognized during the six months ended June 30, 2022 from amounts included in deferred revenue at the beginning of the period was \$346 million.

Transaction Price Allocated to Unsatisfied Obligations

The following table includes estimated revenue expected to be recognized in the future related to the Company's unsatisfied (or partially satisfied) obligations at June 30, 2022:

in millions	Total at June 30, 2022	Year 1	Year 2 and Thereafter
Remaining unsatisfied obligations	\$ 2,087	\$ 1,373	\$ 714

The amounts above represent the price of firm orders for which work has not been performed or goods have not been delivered and exclude unexercised contract options outside the stated contractual term that do not represent material rights to the customer. Although the Company believes that the contract value in the above table is firm, approximately \$1,243 million of the amount is under contracts that are subject to customer-only general cancellation for convenience terms that the Company is contractually obligated to perform unless the customer notifies us of cancellation. The Company expects to recognize revenue of approximately \$449 million in the next year from contracts that are non-cancelable. The Company believes the inclusion of this information is important to understanding the obligations that the Company is contractually required to perform and provides useful information regarding remaining obligations related to these executed contracts.

4. Contract Costs

The Company capitalizes sales commissions and other contract costs that are incremental direct costs of obtaining customer contracts if the expected amortization period of the asset is greater than one year. These costs are recorded in capitalized contract costs, net on the Company's balance sheet. The capitalized amounts are calculated based on the annual recurring revenue and contract value for individual multi-term contracts. The judgments made in determining the amount of costs incurred include whether the commissions are in fact incremental and would not have occurred absent the customer contract. Costs to obtain a contract are amortized as selling, general and administrative expenses on a straight-line basis over the expected period of benefit, which is typically around four years. These costs are periodically reviewed for impairment. The following table identifies the activity relating to capitalized contract costs:

in millions	December 31, 2021	Capitalized	Amortization	June 30, 2022
Capitalized contract costs	\$ 111	\$ 15	\$ (31)	\$ 95

in millions	December 31, 2020	Capitalized	Amortization	June 30, 2021
Capitalized contract costs	\$ 98	\$ 20	\$ (21)	\$ 97

5. Supplemental Financial Information

In millions	As of	
	June 30, 2022	December 31, 2021
Inventories		
Finished goods	\$ 11	\$ 17
Service parts	6	9
Total inventories	<u>\$ 17</u>	<u>\$ 26</u>
Deferred revenue		
Deferred revenue, current	\$ 530	\$ 552
Long-term deferred revenue	11	27
Total deferred revenue	<u>\$ 541</u>	<u>\$ 579</u>

6. Income Taxes

Income tax provisions for interim periods are based on estimated annual income tax rates, adjusted to reflect the effects of any significant infrequent or unusual items which are required to be discretely recognized within the current interim period. The Company expects that a majority of its foreign earnings will be repatriated back to the United States ("U.S."). As a result, the effective tax rates in the periods presented are largely based upon the forecasted pre-tax earnings mix and allocation of certain expenses in various taxing jurisdictions where the Company conducts its business.

The effective tax rate is as follows:

In millions	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
Effective tax rate	972.0 %	25.4 %	41.8 %	26.0 %

For the three months ended June 30, 2022, the Company recorded \$4 million of net discrete tax expense, a majority of which related to the recording of a valuation allowance against the current tax receivable and deferred tax asset balance that is not expected to be realized as a result of the discontinuation of the Company's business in Russia in the first quarter of 2022. As a result of this tax expense, the Company's effective tax rate for the quarter was 972%.

For the six months ended June 30, 2022, the Company recorded \$1 million of net discrete tax benefits, a majority of which related to the excess tax benefit derived from \$6 million of stock compensation vesting, offset by \$5 million of discrete tax expense associated with valuation allowances against the current tax receivable and deferred tax asset balance that is not expected to be realized as a result of the discontinuation of the Company's business in Russia in the first quarter of 2022.

For the three months ended June 30, 2021, the Company had no material discrete tax adjustments.

For the six months ended June 30, 2021, the Company recorded \$4 million of discrete tax benefit, a majority of which related to the excess tax benefit derived from stock compensation vesting.

The Company estimates its annual effective tax rate for 2022 to be approximately 40%, which takes into consideration, among other things, the forecasted earnings mix by jurisdiction and the impact of discrete tax items to be recognized in 2022. Under U.S. tax law, U.S. shareholders are subject to a tax on global intangible low-taxed income ("GILTI") earned by certain foreign subsidiaries. The Company has elected to provide for the tax expense related to GILTI in the year in which the tax is incurred. Effective on January 1, 2022, the U.S. tax law changed and now requires R&D expenses to be capitalized and amortized for tax purposes under Internal Revenue Code Section 174; as a result of this law change, the Company is currently forecasting approximately \$9 million of tax expense related to GILTI in our marginal effective tax rate for 2022. Should Congress enact proposed legislation to defer the

implementation of R&D capitalization rules retroactively by the end of the year, the Company's GILTI tax and overall effective tax rate for 2022 would be significantly reduced.

7. Derivative Instruments and Hedging Activities

As a portion of Teradata's operations is conducted outside the U.S. and in currencies other than the U.S. dollar, the Company is exposed to potential gains and losses from changes in foreign currency exchange rates. In an attempt to mitigate the impact of currency fluctuations, the Company uses foreign exchange forward contracts to hedge transactional exposures resulting predominantly from foreign currency denominated inter-company receivables and payables. The forward contracts are designated as fair value hedges of specified foreign currency denominated inter-company receivables and payables and generally mature in three months or less. The fair values of foreign exchange contracts are based on market spot and forward exchange rates and represent estimates of possible value that may not be realized in the future. Across its portfolio of contracts, Teradata has both long and short positions relative to the U.S. dollar. As a result, Teradata's net exposure is less than the total contract notional amount of the Company's foreign exchange forward contracts.

Gains and losses from foreign exchange forward contracts are fully recognized each period and reported along with the offsetting gain or loss of the related hedged item, either in cost of revenues, operating expenses or in other income (expense), depending on the nature of the related hedged item.

During June 2022, Teradata entered into a cross-currency swap designated as a net investment hedge, to hedge the Euro currency exposure of its net investment in certain foreign subsidiaries. This agreement is a contract to exchange fixed-rate payments in one currency for fixed-rate payments in another currency. Changes in the fair value of this swap are recorded in Accumulated Other Comprehensive Loss in the same manner as foreign currency translation adjustments. In assessing the effectiveness of this hedge, the Company used a method based on changes in spot rates to measure the impact of the foreign currency exchange rate fluctuations on both its foreign subsidiary net investment and the related swap.

The cross-currency swap contract has an expiration date of June 29, 2026. At maturity of the cross-currency swap contract, the Company will deliver the notional amount of €143 million and will receive \$150 million from the counterparty. The Company will receive monthly interest payments from the counterparty based on a fixed interest rate until maturity of the agreements.

In June 2022, Teradata refinanced its long-term debt and its associated interest rate swap, which were due to mature in June 2023. As a result, Teradata terminated its five-year London Interbank Offered Rate ("Libor") interest rate swap that had a \$500 million initial notional amount to hedge the floating interest rate of its Libor term loan. On June 28, 2022, Teradata executed a five-year Secured Overnight Financing Rate ("SOFR") interest rate swap with an initial notional amount of \$450 million. The Company uses interest rate swaps to manage interest rate risks on future interest payments caused by interest rate changes on its variable rate term loan. The notional amount of the hedge steps down according to the amortization schedule of the term loan. The notional amount of the hedge was \$450 million as of June 30, 2022.

The Company performed an initial effectiveness assessment on the interest rate swap and the net investment hedge foreign currency swap, and the hedges were determined to be effective. The hedges are being evaluated qualitatively on a quarterly basis for effectiveness. Changes in fair value are recorded in Accumulated Other Comprehensive Loss and periodic settlements of the swap will be recorded in interest expense along with the interest on amounts outstanding under the term loan.

The following table identifies the contract notional amount of the Company's derivative financial instruments:

In millions	As of	
	June 30, 2022	December 31, 2021
Contract notional amount of foreign exchange forward contracts	\$ 112	\$ 110
Net contract notional amount of foreign exchange forward contracts	\$ 56	\$ 41
Contract notional amount of foreign currency exchange (net investment hedge)	\$ 150	\$ —
Contract notional amount of interest rate swap	\$ 450	\$ 413

All derivatives are recognized in the condensed consolidated balance sheets at their fair value. The notional amounts represent agreed-upon amounts on which calculations of dollars to be exchanged are based and are an indication of the extent of Teradata's involvement in such instruments. These notional amounts do not represent amounts exchanged by the parties and, therefore, are not a measure of the instruments. Refer to Note 9 for disclosures related to the fair value of all derivative assets and liabilities.

The Company does not hold or issue derivative financial instruments for trading purposes, nor does it hold or issue leveraged derivative instruments. By using derivative financial instruments to hedge exposures to changes in foreign exchange and interest rates, the Company exposes itself to credit risk. The Company manages exposure to counterparty credit risk by entering into derivative financial instruments with highly rated institutions that can be expected to fully perform under the terms of the applicable contracts.

8. Commitments and Contingencies

Legal Proceedings. In the ordinary course of business, the Company is subject to proceedings, lawsuits, governmental investigations, claims and other matters, including those that relate to the environment, health and safety, employee benefits, export compliance, intellectual property, tax matters and other regulatory compliance and general matters. It is not currently a party to any litigation, nor is it aware of any pending or threatened litigation against it that the Company believes would materially affect its business, operating results, financial condition or cash flows, other than the following.

On June 19, 2018, the Company and certain of its subsidiaries filed a lawsuit (the "TD-SAP 1" suit) in the U.S. District Court for the Northern District of California against SAP SE, SAP America, Inc., and SAP Labs, LLC (collectively, "SAP"). In the TD-SAP 1 lawsuit, the Company alleged, among other things, that SAP misappropriated certain of the Company's trade secrets within the Company's enterprise data analytics and warehousing products and used such trade secrets to help develop, improve, introduce, and sell one or more competing products. The Company further alleged that SAP employed anticompetitive practices using its substantial market position in the enterprise resource planning applications market to pressure the Company's customers and prospective customers to use one or more of SAP's competing products and reduce or eliminate customers' and prospective customers' use of the Company's offerings. The Company sought an injunction barring SAP's alleged conduct, monetary damages, and other available legal and equitable relief. In July 2019, SAP filed patent infringement counterclaims against the Company based on five of SAP's U.S. patents. On August 31, 2020, the Company filed a second lawsuit against SAP (the "TD-SAP 2" suit) in the U.S. District Court for the Northern District of California, in which the Company alleged infringement by SAP of four of the Company's U.S. patents. On February 16, 2021, SAP filed additional patent infringement counterclaims against the Company in response. On the same day, SAP also filed a lawsuit in Germany (the "TD-SAP 3" suit) for infringement of a single German patent. In November 2021, the district court dismissed the Company's antitrust claims and most of its trade secret claims in the TD-SAP 1 suit. In December 2021, the Company appealed that decision to the U.S. Court of Appeals for the Federal Circuit in Washington, D.C. In the meantime, the Company and SAP have entered into a partial settlement agreement that has resulted in full dismissal of all claims and counterclaims in the TD-SAP 2 suit in California and the TD-SAP 3 suit in Germany as well as a stay of all claims and counterclaims remaining in the TD-SAP 1 suit pending resolution of the Company's appeal. Currently, it is not possible to determine the likelihood of a loss or a reasonably estimated range of loss, if any, pertaining to any of SAP's remaining patent counterclaims in the TD-SAP 1 lawsuit.

Other Contingencies. The Company provides its customers with certain indemnification rights. In general, the Company agrees to indemnify the customer if a third party asserts patent or other infringement on the part of the

customer for its use of the Company's offerings. The Company has indemnification obligations under its charter and bylaws to its officers and directors, and has entered into indemnification agreements with the officers and directors of its subsidiaries. From time to time, the Company also enters into agreements in connection with its acquisition and divestiture activities that include indemnification obligations by the Company. The fair value of these indemnification obligations is typically not readily determinable due to the conditional nature of the Company's potential obligations and the specific facts and circumstances involved with each particular agreement. As such, the Company has generally not recorded a liability in connection with these indemnification arrangements. Historically, payments made by the Company under these types of agreements have not had a material effect on the Company's consolidated financial condition, results of operations or cash flows.

Concentrations of Risk. The Company is potentially subject to concentrations of credit risk on accounts receivable and financial instruments such as hedging instruments, and cash and cash equivalents. Credit risk includes the risk of nonperformance by counterparties. The maximum potential loss may exceed the amount recognized on the balance sheet. Exposure to credit risk is managed through credit approvals, credit limits, selecting major international financial institutions (as counterparties to hedging transactions) and monitoring procedures. Teradata's business often involves large transactions with customers, and if one or more of those customers were to default in its obligations under applicable contractual arrangements, the Company could be exposed to potentially significant losses. However, management believes that the reserves for potential losses were adequate at June 30, 2022 and December 31, 2021.

The Company is also potentially subject to concentrations of supplier risk. Our hardware components are assembled exclusively by Flex Ltd. ("Flex"). Flex procures a wide variety of components used in the manufacturing process on behalf of the Company. Although many of these components are available from multiple sources, Teradata utilizes preferred supplier relationships to provide more consistent and optimal quality, cost and delivery. Typically, these preferred suppliers maintain alternative processes and/or facilities to ensure continuity of supply. Given the Company's strategy to outsource its manufacturing activities to Flex and to source certain components from single suppliers, a disruption in production at Flex or at a supplier could impact the timing of customer shipments and/or Teradata's operating results. In addition, a significant change in the forecasts to any of these preferred suppliers could result in purchase obligations for components that may be in excess of demand.

9. Fair Value Measurements

Fair value measurements are established utilizing a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets for identical assets or liabilities; Level 2, defined as significant other observable inputs, such as quoted prices in active markets for similar assets or liabilities, or quoted prices in less-active markets for identical assets; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The Company's assets and liabilities measured at fair value on a recurring basis include money market funds, interest rate swaps, foreign currency swaps and foreign currency exchange contracts. A portion of the Company's excess cash reserves are held in money market funds which generate interest income based on the prevailing market rates. Money market funds are included in cash and cash equivalents in the Company's balance sheet. Money market fund holdings are measured at fair value using quoted market prices and are classified within Level 1 of the valuation hierarchy.

When deemed appropriate, the Company minimizes its exposure to changes in foreign currency exchange rates through the use of derivative financial instruments, specifically, foreign exchange forward contracts. Additionally, in June 2022, Teradata executed a five-year interest rate swap with a \$450 million initial notional amount in order to hedge the variable interest rate on its term loan and a four-year cross-currency swap with initial notional amounts of €143 million/\$150 million, as a net investment hedge to hedge the Euro currency exposure of our net investment in certain foreign subsidiaries. The fair value of these contracts and swaps are measured at the end of each interim reporting period using observable inputs other than quoted prices, specifically market spot and forward exchange rates. As such, these derivative instruments are classified within Level 2 of the valuation hierarchy. Fair value of unrealized gains for open contracts are recorded in other assets and the fair value of unrealized losses are recorded

in other liabilities in the Company's balance sheet. The fair value of foreign exchange forward contract assets and liabilities at June 30, 2022 and December 31, 2021 was not material. Realized gains and losses from the Company's fair value and net investment hedges net of corresponding gains or losses on the underlying exposures were immaterial for the three and six months ended June 30, 2022 and 2021.

The Company's other assets and liabilities measured at fair value on a recurring basis and subject to fair value disclosure requirements at June 30, 2022 and December 31, 2021 were as follows:

		Fair Value Measurements at Reporting Date Using			
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
In millions	Total				
Assets					
Money market funds at June 30, 2022	\$ 230	\$ 230	\$ —	\$ —	
Money market funds at December 31, 2021	\$ 148	\$ 148	\$ —	\$ —	
Liabilities					
Interest rate swap at June 30, 2022	\$ 7	\$ —	\$ 7	\$ —	
Interest rate swap at December 31, 2021	\$ 12	\$ —	\$ 12	\$ —	
Foreign currency swap at June 30, 2022	\$ 1	\$ —	1	\$ —	

10. Debt

On June 28, 2022, the Company entered into a Credit Agreement that provides for (i) a five-year unsecured term loan in an aggregate principal amount of \$500 million (the "Term Loan"), and (ii) a five-year unsecured revolving credit facility in an aggregate principal amount of up to \$400 million, including a \$50 million sublimit for the issuance of standby letters of credit and a \$50 million sublimit for swingline loans (the "Revolving Facility" and, collectively with the Term Loan, the "Credit Facility"). The Credit Facility replaces the Company's prior revolving credit agreement in the maximum principal of \$400 million and its prior term loan agreement in the initial principal amount of \$500 million, both of which were entered into in 2018 (the "Prior Agreements"). In connection with the execution of the Credit Facility, the \$400 million term loan outstanding under the Prior Agreements was repaid in full.

All outstanding borrowings pursuant to the Revolving Facility are due and payable on June 28, 2027, however, the maturity date of the Revolving Facility may be extended by agreement of the parties for up to two additional one-year periods. The Term Loan is payable in quarterly installments, which commence on June 30, 2024, with 1.25% of the initial principal amount due on each of the first twelve payment dates, with all remaining principal due on June 28, 2027. Under the terms of the Credit Facility, Teradata from time to time and subject to certain conditions may increase the lending commitments under the Credit Facility in an aggregate principal amount up to an additional \$450 million, to the extent that existing or new lenders agree to provide such additional commitments. The outstanding principal amount of the Credit Facility bears interest at a floating rate based upon, at Teradata's option, a negotiated base rate or an adjusted term SOFR rate, plus in each case, a margin based on the Company's leverage ratio.

The Credit Facility is unsecured but is guaranteed by certain of Teradata's material domestic subsidiaries and contains certain customary representations and warranties, default provisions, and affirmative and negative covenants, including, among others, covenants regarding the maintenance of a leverage ratio and covenants relating to financial reporting, compliance with laws, subsidiary indebtedness, liens, sale and leaseback transactions, mergers and other fundamental changes, and entry into certain restrictive agreements. Most of the covenants are subject to materiality, thresholds, and exceptions. In addition, the Credit Agreement provides that Teradata may request that the Credit Agreement be amended to establish key performance indicators with respect to certain environmental, social, and governance ("ESG") targets, pursuant to which certain positive or negative adjustments would be made to various fees and applicable margin based on Teradata's performance against such ESG targets.

As of June 30, 2022, the Company had no borrowings outstanding under the Revolving Facility, leaving \$400 million in borrowing capacity available under the Revolving Facility and the Term Loan principal outstanding was \$500 million. The Term Loan is recognized on the Company's balance sheet at the unpaid principal balance, net of deferred issuance costs, and is not subject to fair value measurement. The Company was in compliance with all covenants under the Credit Facility as of June 30, 2022.

Teradata's all-in interest rate, associated with the Company's Prior Agreements, for the three and six months ended June 30, 2022, was approximately 4.23%.

As disclosed in Note 7, Teradata entered into an interest rate swap to hedge the portion of the floating interest rate of the Term Loan and a cross currency swap to hedge a portion of Euro currency exposure of its net investment in certain foreign subsidiaries. As of June 30, 2022, the blended all-in interest rate was 3.98%.

11. Earnings per Share

Basic earnings per share is calculated by dividing net income by the weighted average number of shares outstanding during the reported period. The calculation of diluted earnings per share is similar to basic earnings per share, except that the weighted average number of shares outstanding includes the dilution from potential shares resulting from stock options, restricted stock awards and other stock awards. The components of basic and diluted earnings per share are as follows:

In millions, except per share amounts	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
Net (loss) income attributable to common stockholders	\$ (4)	\$ 44	\$ 32	\$ 97
Weighted average outstanding shares of common stock	103.5	109.0	104.2	108.9
Dilutive effect of employee stock options, restricted stock and other stock awards	—	3.7	2.9	3.8
Common stock and common stock equivalents	103.5	112.7	107.1	112.7
Net (loss) income per share:				
Basic	\$ (0.04)	\$ 0.40	\$ 0.31	\$ 0.89
Diluted	\$ (0.04)	\$ 0.39	\$ 0.30	\$ 0.86

For the three months ended June 30, 2022, due to the net loss attributable to Teradata common stockholders, common shares that otherwise potentially would cause dilution, such as employee stock options, restricted shares and other stock awards, have been excluded from the diluted share count because their effect would have been anti-dilutive. The fully diluted shares would have been 105.6 million for the three months ended June 30, 2022.

Options to purchase 0.4 million shares and 0.4 million shares of common stock for the three and six months ended June 30, 2022 and 0.2 million shares and 0.6 million shares of common stock for the three and six months ended June 30, 2021 were not included in the computation of diluted earnings per share because the exercise prices of these options were greater than the average market price of the common shares for the period, and therefore would have been anti-dilutive.

Accelerated Share Repurchase Agreement ("ASR")

On February 9, 2022 Teradata entered into an ASR agreement with JPMorgan Chase Bank, National Association ("JPMorgan Chase") to purchase shares of its common stock from JPMorgan Chase for an aggregate purchase price of \$250 million. Pursuant to the ASR, the Company received an initial delivery of 3,930,045 shares of common stock based on the \$50.89 closing price of the common stock on February 8, 2022. A final delivery of 1,635,863 shares was received on May 6, 2022 to complete the ASR agreement.

12. Segment and Other Supplemental Information

Teradata manages its business under three geographic regions, which are also the Company's operating segments: (1) Americas region (North America and Latin America); (2) EMEA region (Europe, Middle East and Africa) and (3) APJ region (Asia Pacific and Japan). For purposes of discussing results by segment, management excludes the impact of certain items, consistent with the manner by which management evaluates the performance of each segment. This format is useful to investors because it allows analysis and comparability of operating trends. It also includes the same information that is used by Teradata management to make decisions regarding the segments and to assess financial performance. The chief operating decision maker, who is the Company's President and Chief Executive Officer, evaluates the performance of the segments based on revenue and multiple profit measures, including segment gross profit. For management reporting purposes, assets are not allocated to the segments.

The following table presents segment revenue and segment gross profit for the Company:

In millions	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
Segment revenue				
Americas	\$ 249	\$ 274	\$ 539	\$ 537
EMEA	103	128	232	275
APJ	78	89	155	170
Total revenue	430	491	926	982
Segment gross profit				
Americas	153	185	342	367
EMEA	63	80	141	168
APJ	47	53	92	98
Total segment gross profit	263	318	575	633
Stock-based compensation costs	4	5	9	8
Acquisition, integration, reorganization and transformation-related costs	1	3	7	8
Total gross profit	258	310	559	617
Selling, general and administrative expenses	163	161	320	310
Research and development expenses	81	79	157	156
Income from operations	\$ 14	\$ 70	\$ 82	\$ 151

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A").

You should read the following discussion in conjunction with the Condensed Consolidated Financial Statements and the notes to those statements included elsewhere in this Quarterly Report on Form 10-Q. This Quarterly Report on Form 10-Q contains certain statements that are forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995. Certain statements contained in the MD&A are forward-looking statements that involve risks and uncertainties. The forward-looking statements are not historical facts, but rather are based on current expectations, estimates, assumptions and projections about our industry, business and future financial results. Our actual results could differ materially from the results contemplated by these forward-looking statements due to a number of factors, including those discussed in other sections of this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021 (the "2021 Annual Report"). The Company does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Overview

Teradata Corporation ("we," "us," "Teradata," or the "Company") is a provider of a leading connected multi-cloud data platform for enterprise analytics, focused on helping companies leverage all their data across an enterprise, at scale. In doing so, we help companies to find answers to their toughest business challenges. All of our efforts are in support of our purpose of transforming how businesses work and people live through the power of data. Our platform is composed of our data platform — Teradata Vantage — which is designed to run across private cloud and public cloud environments and on-premises. This platform is supported by business consulting and support services that enable customers to extract insights from across a company's entire data and analytics ecosystem.

We are continuing to execute on our key priorities, including product expansion of our Teradata Vantage multi-cloud data platform offering, expanding our business with existing customers and adding new customers, increasing our focus on sustainability and diversity, equity, and inclusion, and driving operational excellence and agility across the company.

Later in August, we will be announcing a significant expansion to our cloud analytics capabilities, which is designed to allow companies to scale and innovate more effectively in the cloud, specifically with the largest and most complex workloads. The goal is to help customers solve business challenges through data-driven analytics in a timely, cost-effective manner.

To allow for greater transparency regarding the progress we are making toward achieving our strategic objectives, we utilize the following financial and performance metrics:

- Annual Recurring Revenue ("ARR") - annual value at a point in time of all contracts, including subscription, cloud, software upgrade rights, and maintenance. ARR does not include managed services and third-party revenue.
- Public Cloud ARR (included within total ARR) - annual value at a point in time of all recurring contracts related to public cloud implementations of Teradata Vantage and does not include ARR related to private or managed cloud implementations.
- Cloud Net Expansion Rate - Teradata calculates its last-twelve months dollar-based cloud net expansion rate as of a fiscal quarter end as follows:
 - Identify ARR for active cloud customers in the fiscal quarter ending one year prior to the given fiscal quarter (the "base period");
 - Identify Public Cloud ARR in the given fiscal quarter (the "current period") from the same set of active cloud customers as the base period, including increases in usage, as well as reductions and cancellations, and additional conversions of on-premises revenues to the cloud for customers active in the base period, all in constant currency;
 - Cloud net expansion rate is calculated by taking the ARR from the current period and dividing by the ARR from the base period (all quarterly-dollar based); and
 - The last twelve-month dollar-based cloud net expansion rate is calculated by taking the average of the quarterly dollar-based cloud net expansion rate from the last fiscal quarter and the prior three fiscal quarters.

COVID-19 Update

See Part I, Item 1A. "Risk Factors" and Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the 2021 Annual Report for a discussion related to risks and impact of COVID-19 on the Company. As of the date of this Quarterly Report on Form 10-Q, we are continuing to execute our pandemic response plan, and the Teradata Pandemic Response Team is refining and executing return-to-office plans. Under our return-to-office plans, none of our employees are required to return to an office environment and can choose to continue to work remotely or under a hybrid model. For employees choosing to return to the office environment, certain safety protocols will be required to be followed. Customer-facing teams are also proactively

working to identify ways to assist customers, meet service level commitments, and engage with customers via virtual events if requested by our customers.

Second Quarter Financial Overview

As more fully discussed in later sections of this MD&A, the following were significant financial items for the second quarter of 2022:

- At the end of the second quarter of 2022, ARR was \$1.390 billion compared to \$1.426 billion in the second quarter of 2021, decreasing 3% as compared to the second quarter of 2021, including a 4% adverse impact from foreign currency translation.
- At the end of second quarter of 2022, Public Cloud ARR was \$234 million compared to \$139 million in the second quarter of 2021, increasing 68% as compared to the second quarter of 2021, including a 7% adverse impact from foreign currency fluctuations.
- Total revenue was \$430 million for the second quarter of 2022, a 12% decrease compared to the second quarter of 2021, with an underlying 8% decrease in recurring revenue. Revenue was impacted primarily by foreign currency fluctuations, lost revenue from ceasing operations in Russia, and the timing of upfront license revenue from on-premises customer transactions. Perpetual software licenses, hardware and other revenue decreased 53%, and consulting services revenue decreased 21%. Foreign currency fluctuations had a 4% adverse impact on total revenue for the quarter compared to the prior year.
- Gross margin decreased to 60.0% in the second quarter of 2022 from 63.1% in the second quarter of 2021, primarily due to adverse foreign currency fluctuations, the negative impact from upfront revenue arrangements, and ceasing our business operations in Russia.
- Operating expenses for the second quarter of 2022 increased by 2% compared to the second quarter of 2021, primarily due to investments in our go-to-market organization and research and development to accelerate our cloud growth.
- Operating income was \$14 million in the second quarter of 2022, compared to \$70 million in the second quarter of 2021.
- Net loss in the second quarter of 2022 was \$4 million, compared to net income of \$44 million in the second quarter of 2021.
- Cloud Net Expansion Rate for the second quarter of 2022 was approximately 120%.

Results of Operations for the Three Months Ended June 30, 2022
Compared to the Three Months Ended June 30, 2021

Revenue and ARR

In millions	2022	% of Revenue	2021	% of Revenue
Recurring	\$ 345	80.2 %	\$ 376	76.5 %
Perpetual software licenses, hardware and other	8	1.9 %	17	3.5 %
Consulting services	77	17.9 %	98	20.0 %
Total revenue	\$ 430	100 %	\$ 491	100 %

Total revenue decreased \$61 million, or 12%, in the second quarter of 2022, including a 4% negative impact from foreign currency fluctuations. Total revenue was adversely impacted by the loss of approximately \$16 million in revenue (approximately \$12 million of which related to recurring revenue) as a result of our ceasing operations in Russia during the first quarter of 2022 in support of sanctions imposed because of Russia's invasion of Ukraine. Total revenue was also impacted by the timing of upfront revenue associated with on-premises customer transactions involving substantial long-term commitments on a recurring annual basis rather than a recurring quarterly basis resulting in approximately 7% of net negative impact to recurring revenue in the second quarter of 2022 compared to the second quarter of 2021.

Recurring revenue declined by 8%, including a 3% negative impact from foreign currency fluctuations. As a percentage of total revenue, recurring revenue was 80% in the second quarter. The recurring revenue decline was due primarily to ceasing operations in Russia and the impact of upfront revenue discussed above. Revenues from perpetual software licenses, hardware and other declined 53% in the second quarter of 2022, including a 3% negative impact from foreign currency fluctuations, primarily due to the timing of deals and our continued transition to recurring subscriptions. Consulting services revenue decreased 21% in the second quarter of 2022, including a 5% adverse impact from foreign currency fluctuations, primarily due to our continued realignment of our consulting resources on higher-margin engagements, both direct engagement with customers and joint engagement with partners that drive increased software consumption within our targeted customer base. Consulting services revenue was also impacted by ceasing our operations in Russia.

At the end of the second quarter of 2022, total ARR was \$1.390 billion compared to \$1.426 billion in the second quarter of 2021, decreasing 3% as compared to the second quarter of 2021, including a 4% adverse impact from foreign currency fluctuations. The 3% decrease in total ARR also includes the reduction we realized upon deciding to cease operations in Russia during the first quarter. As the Russia business was primarily on-premises, ceasing our operations in Russia resulted in minimal impact to Public Cloud ARR. At the end of second quarter of 2022, Public Cloud ARR was \$234 million compared to \$139 million in the second quarter of 2021, increasing 68% as compared to the second quarter of 2021, including a 7% adverse impact from foreign currency fluctuations. Public Cloud ARR grew in all three geographic regions year-over-year. Public Cloud ARR growth in the second quarter of 2022 was driven primarily by migrations. This migration activity came from customers that are new to the cloud with Teradata (i.e., migration from current on-premises Vantage platform). Many of these customers are adding new workloads onto our Vantage cloud platform while also maintaining hybrid environments on Teradata.

In the second quarter, several trends started to develop with regard to our cloud business, including:

- More existing on-premises customer expansion into Vantage cloud when compared to the same period last year with many customers starting their expansion on the Vantage cloud platform with smaller test and development workloads, with the potential for future expansion into other areas.
- Customers expanding into additional cloud capabilities when they migrate to Vantage cloud as compared to the capabilities they had in an on-premises environment.
- Existing on-premises customers are adding new, incremental cloud workloads when expanding into hybrid environments.

Upon deciding to cease operations in Russia during the first quarter of 2022, we removed anticipated contributions for the partial period from our first half results and from the projections for the remainder of 2022. In addition, the recent strengthening of the U.S. dollar is expected to have an adverse impact on guidance and the macro-economic environment has impacted the timing and closure of deals. As a result, we issued revised guidance in the first quarter of 2022 and we reaffirm that guidance. However, for total ARR, we widen our guidance range and now

anticipate full year 2022 total ARR to decline in the low-to-mid-single-digit percentage range year-over-year as reported, which includes the anticipated \$55 million reduction of ARR related to ceasing operations in Russia.

As a portion of the Company's operations and revenue occur outside the United States, and in currencies other than the U.S. dollar, the Company is exposed to fluctuations in foreign currency exchange rates. Based on currency rates as of July 29, 2022, Teradata is estimating a 3.75%-to-4.25% negative impact from currency translation on our 2022 full-year total reported revenues.

Gross Profit

In millions	2022	% of Revenue	2021	% of Revenue
Recurring	\$ 249	72.2 %	\$ 289	76.9 %
Perpetual software licenses, hardware and other	2	25.0 %	6	35.3 %
Consulting services	7	9.1 %	15	15.3 %
Total gross profit	\$ 258	60.0 %	\$ 310	63.1 %

The decrease in recurring revenue gross profit as a percentage of revenue was primarily due to negative foreign currency exchange rate impact, ceasing our operations in Russia, and the negative impact from upfront revenue arrangements in the quarter. This was partially offset by modest improvement in cloud margins as we continue to scale cloud revenue.

The decrease in perpetual software licenses, hardware and other gross profit as a percentage of revenue was primarily driven by deal mix.

Consulting services gross profit as a percentage of revenue decreased as compared to the prior year primarily due to lower revenue. We continue to refocus our consulting organization on Vantage-oriented offerings and reduce our footprint in non-core consulting engagements.

Operating Expenses

In millions	2022	% of Revenue	2021	% of Revenue
Selling, general and administrative expenses	\$ 163	37.9 %	\$ 161	32.8 %
Research and development expenses	81	18.8 %	79	16.2 %
Total operating expenses	\$ 244	56.7 %	\$ 240	48.9 %

The selling, general and administrative expense ("SG&A") increase was primarily driven by increased investments in cloud and go-to-market operations, and expenses incurred in connection with ceasing our operations in Russia, which was partially offset by continued cost discipline and actions to adjust our cost structure for the unplanned closure of our operations in Russia. Research and development ("R&D") expense was relatively flat year over year.

Other Expense, net

In millions	2022	2021
Interest income	\$ 3	\$ 2
Interest expense	(5)	(7)
Other	(12)	(6)
Other expense, net	\$ (14)	\$ (11)

Other expense, net in the second quarter of 2022 and 2021 is comprised primarily of interest expense on long-term debt and finance leases, losses resulting from foreign currency transactions, as well as benefit costs on our pension and postemployment plans, partially offset by interest income earned on our cash and cash equivalents. Other expense is higher in 2022 primarily due to losses resulting from foreign currency transactions compared to the prior period.

Provision for Income Taxes

Income tax provisions for interim periods are based on estimated annual income tax rates, adjusted to reflect the effects of any significant infrequent or unusual items which are required to be discretely recognized within the current interim period.

The effective tax rates for the three months ended June 30, 2022 and 2021 were as follows:

	2022	2021
Effective tax rate	972.0 %	25.4 %

For the three months ended June 30, 2022, we recorded \$4 million of net discrete tax expense, a majority of which related to the recording of a valuation allowance against the current tax receivable and deferred tax asset balance that were not expected to be realized as a result of the discontinuation of our business in Russia in the first quarter of 2022. As a result of this tax expense, our effective tax rate for the quarter was 972%.

For the three months ended June 30, 2021, the Company had no material discrete tax adjustments.

Effective on January 1, 2022, the U.S. tax law changed to require that R&D expenses be capitalized and amortized for tax purposes under Internal Revenue Code Section 174; as a result of this law change, we are currently forecasting approximately \$9 million of tax expense related to GILTI in our marginal effective tax rate for 2022. Should Congress enact proposed legislation to defer the implementation of R&D capitalization rules retroactively by the end of the year, our GILTI tax and overall effective tax rate for 2022 would be significantly reduced. We expect that a majority of our foreign earnings will be repatriated to the U.S. As a result, the effective tax rates in the periods presented are largely based upon the forecasted pre-tax earnings mix between the U.S. and other foreign taxing jurisdictions where we conduct our business.

We estimate that the full-year effective tax rate for 2022 will be approximately 40%, which takes into consideration, among other things, the forecasted earnings mix by jurisdiction, the estimated impact to GILTI tax as a result of the requirement to capitalize R&D for tax purposes, and the estimated discrete items to be recognized in 2022. The forecasted tax rate is based on the foreign profits being taxed at an overall effective tax rate of approximately 22%, as compared to the U.S. federal statutory tax rate of 21%.

Revenue and Gross Profit by Operating Segment

Teradata manages its business under three geographic regions, which are also our operating segments: (1) Americas region (North America and Latin America); (2) EMEA region (Europe, Middle East, and Africa) and (3) APJ region (Asia Pacific and Japan). For purposes of discussing results by segment, management excludes the impact of certain items, consistent with the manner by which management evaluates the performance of each segment. This format is useful to investors because it allows analysis and comparability of operating trends. It also includes the same information that is used by our management to make decisions regarding the segments and to assess financial performance. The chief operating decision maker, who is our President and Chief Executive Officer, evaluates the performance of the segments based on revenue and multiple profit measures, including segment gross profit. For management reporting purposes, assets are not allocated to the segments. Our segment results are reconciled to total company results reported under GAAP in Note 12 of Notes to Condensed Consolidated Financial Statements (Unaudited).

The following table presents segment revenue and segment gross profit for the Company for the three months ended June 30:

In millions	2022	% of Revenue	2021	% of Revenue
Segment revenue				
Americas	\$ 249	57.9 %	\$ 274	55.8 %
EMEA	103	24.0 %	128	26.1 %
APJ	78	18.1 %	89	18.1 %
Total segment revenue	\$ 430	100 %	\$ 491	100 %
Segment gross profit				
Americas	\$ 153	61.4 %	\$ 185	67.5 %
EMEA	63	61.2 %	80	62.5 %
APJ	47	60.3 %	53	59.6 %
Total segment gross profit	\$ 263	61.2 %	\$ 318	64.8 %

Americas

Americas revenue decreased 9% as compared to the prior year, including a 1% adverse impact from foreign currency fluctuations. Revenue was primarily impacted by the timing of upfront license revenue compared to the prior period as we continue to migrate customers to the cloud from on-premises. Recurring revenue declined 8% and perpetual and other revenue was down 25% (\$1 million). Consulting revenue decreased 16% as compared to the prior year. Segment gross profit as a percentage of revenues was lower primarily due to the gross profit associated with the negative impact of upfront revenue compared to the prior period.

EMEA

EMEA revenue decreased 20%, which included a 7% adverse impact from foreign currency fluctuations. The overall decrease in EMEA revenue included a decrease of 13% in recurring revenue, a decrease of 57% (\$4 million) in perpetual and other revenue, and a decrease of 29% in consulting revenue. EMEA revenue in all categories was negatively impacted primarily by our ceasing operations in Russia during the first quarter of 2022 in support of the sanctions imposed because of Russia's invasion of Ukraine. Segment gross profit as a percentage of revenues was lower primarily due to deal mix and the impact of ceasing operations in Russia.

APJ

APJ revenue decreased 12%, including a 9% adverse impact from foreign currency fluctuations. Recurring revenue decreased by 4%, perpetual and other revenue decreased 67% (\$4 million), and consulting revenue decreased by 19%. Segment gross profit as a percentage of revenues was higher primarily due to a higher mix of recurring revenue.

Results of Operations for the Six Months Ended June 30, 2022

Compared to the Six Months Ended June 30, 2021

Revenue

In millions	2022	% of Revenue	2021	% of Revenue
Recurring	\$ 731	78.9 %	\$ 748	76.2 %
Perpetual software licenses, hardware and other	34	3.7 %	40	4.1 %
Consulting services	161	17.4 %	194	19.7 %
Total revenue	\$ 926	100 %	\$ 982	100.0 %

Total revenue decreased \$56 million, or 6%, in the first six months of 2022, and included a 4% adverse impact from foreign currency fluctuations. Total revenue was adversely impacted by the loss of approximately \$27 million in revenue (approximately \$21 million of which related to recurring revenue) as a result of our ceasing operations in Russia during the first quarter of 2022. Recurring revenue declined 2%, including 3% of negative impact from foreign currency fluctuations.

Revenues from perpetual software licenses, hardware and other were down 15% in the first six months of 2022, including 4% of adverse impact from foreign currency fluctuations, as customers continue to transition to subscription-based offerings, consistent with our overall strategy.

Consulting services revenue decreased 17% in the first six months of 2022, including a 4% negative impact from foreign currency fluctuations, as we continue to realign and focus our consulting resources on higher-margin engagements, both direct engagement with customers and joint engagement with partners that drive increased software consumption within our targeted customer base. Consulting services revenue was also impacted by ceasing our operations in Russia.

Gross Profit

In millions	2022	% of Revenue	2021	% of Revenue
Recurring	\$ 530	72.5 %	\$ 571	76.3 %
Perpetual software licenses, hardware and other	10	29.4 %	18	45.0 %
Consulting services	19	11.8 %	28	14.4 %
Total gross profit	\$ 559	60.4 %	\$ 617	62.8 %

The decrease in recurring revenue gross profit as a percentage of revenue was primarily driven by foreign currency fluctuations, charges related to ceasing operations in Russia, a higher deal mix that shifted to cloud, and the impact of upfront license revenue compared to the prior period.

The decrease in perpetual software licenses, hardware and other gross profit as a percentage of revenue was primarily driven by deal mix and opportunities with higher hardware mix as compared to prior year.

Consulting services gross profit as a percentage of revenue decreased as compared to the prior year primarily due to the decrease in revenue. We continue to refocus our consulting organization on Vantage-oriented offerings and reduce our footprint in non-core consulting engagements.

Operating Expenses

In millions	2022	% of Revenue	2021	% of Revenue
Selling, general and administrative expenses	\$ 320	34.6 %	\$ 310	31.6 %
Research and development expenses	157	17.0 %	156	15.9 %
Total operating expenses	\$ 477	51.5 %	\$ 466	47.5 %

The SG&A expense increase was primarily driven by higher stock-based compensation and expenses incurred in connection with ceasing operations in Russia, which was partially offset by continued cost discipline and actions to adjust our cost structure for the unplanned closure of our operations in Russia.

R&D expenses were relatively flat for the first six months of 2022 as compared to prior year.

Other Expense, net

In millions	2022	2021
Interest income	\$ 5	\$ 3
Interest expense	(11)	(14)
Other	(21)	(9)
Other expense, net	\$ (27)	\$ (20)

Other expense, net in the second quarter of 2022 and 2021 is comprised primarily of interest expense on long-term debt and finance leases, losses resulting from foreign currency transactions, and benefit costs associated with our pension and postemployment plans, partially offset by interest income earned on our cash and cash equivalents. Other expense is higher in 2022 primarily due to losses resulting from foreign currency transactions compared to the prior period.

Provision for Income Taxes

The effective tax rates for the six months ended June 30, 2022 and 2021 were as follows:

	2022	2021
Effective tax rate	41.8 %	26.0 %

For the six months ended June 30, 2022, we recorded \$1 million of net discrete tax benefit, a majority of which related to a \$6 million tax benefit derived from stock-based compensation vesting, offset by \$5 million of discrete tax expense associate with valuation allowances against the current tax receivable and deferred tax asset balance not expected to be realized as a result of the discontinuation of our business in Russia in the first quarter of 2022.

For the six months ended June 30, 2021, we recorded \$4 million of discrete tax benefit, a majority of which related to the excess tax benefits derived from stock-based compensation vesting.

Revenue and Gross Profit by Operating Segment

The following table presents segment revenue and segment gross profit for the Six Months Ended June 30:

In millions	2022	% of Revenue	2021	% of Revenue
Segment revenue				
Americas	\$ 539	58.2 %	\$ 537	54.7 %
EMEA	232	25.1 %	275	28.0 %
APJ	155	16.7 %	170	17.3 %
Total segment revenue	<u>\$ 926</u>	<u>100 %</u>	<u>\$ 982</u>	<u>100 %</u>
Segment gross profit				
Americas	\$ 342	63.5 %	\$ 367	68.3 %
EMEA	141	60.8 %	168	61.1 %
APJ	92	59.4 %	98	57.6 %
Total segment gross profit	<u>\$ 575</u>	<u>62.1 %</u>	<u>\$ 633</u>	<u>64.5 %</u>

Americas

Americas revenue was relatively flat as compared to the prior year, and included 1% of negative impact from foreign currency fluctuations. Recurring revenue was up 2% and perpetual software licenses, hardware and other revenue grew 36% (\$4 million). Perpetual software licenses, hardware and other was up primarily due to a low prior year comparison. Consulting revenue decreased 16% as compared to the prior year consistent with our overall strategy to refocus our consulting organization on Vantage-oriented offerings and reduce our footprint in non-core consulting engagements. Segment gross profit as a percentage of revenues was lower primarily due to the gross profit associated with the negative impact of upfront revenue compared to the prior period.

EMEA

EMEA revenue decreased 16%, which included a 7% adverse impact from foreign currency fluctuations. The overall decrease in revenue included a decrease of 12% in recurring revenue, a 21% decrease in consulting revenue and a 30% decrease in perpetual software licenses, hardware and other revenue. Overall revenue decreased primarily due to the negative effects of foreign currency and ceasing operations in Russia. Segment gross profit as a percentage of revenues was lower primarily due to the impact of ceasing operations in Russia.

APJ

APJ revenue decreased 9%, which included a 7% adverse impact from foreign currency fluctuations. The overall decrease in revenue included a decrease in recurring revenue of 4%, a decrease in perpetual software licenses, hardware and other revenue of 44% (\$4 million) and a decrease in consulting revenue of 14%. Perpetual software

licenses, hardware and other revenue is down as customers continue to transition to subscription-based offerings, consistent with our overall strategy. The decrease in consulting revenue is also consistent with our strategy to refocus our consulting organization on Vantage-oriented offerings and reduce our footprint in non-core consulting engagements. Segment gross profit as a percentage of revenues was higher primarily due to a higher mix of recurring revenue.

Financial Condition, Liquidity and Capital Resources

Cash provided by operating activities was \$256 million, which decreased by \$79 million in the six months ended June 30, 2022 compared to the six months ended June 30, 2021. The decrease in cash provided by operating activities was primarily due to lower net income and timing of working capital dynamics. In addition, we received a \$50 million tax refund related to our Cares Act carryback claim, which was included in our cash provided by operating activities for the six months ended June 30, 2022. Teradata used approximately \$16 million of cash in the first six months of 2022 for reorganizing and restructuring its operations and go-to-market functions to align to its strategy, as compared to \$30 million in the first six months of 2021.

Teradata's management uses a financial measure called "free cash flow," which is not a measure defined under GAAP. We use free cash flow (which we define as net cash provided by operating activities less investing activities related to capital expenditures for property and equipment and additions to capitalized software) as one measure of assessing the financial performance of the Company, and this may differ from the definitions used by other companies. The components that are used to calculate free cash flow are GAAP measures taken directly from the Condensed Consolidated Statements of Cash Flows (Unaudited). We believe that free cash flow information is useful for investors because it relates the operating cash flow of the Company to the capital that is spent to continue and improve business operations. In particular, free cash flow indicates the amount of cash available after capital expenditures, for among other things, investments in the Company's existing businesses, strategic acquisitions and repurchases of Teradata common stock. Free cash flow does not represent the residual cash flow available for discretionary expenditures since there may be other non-discretionary expenditures that are not deducted from the measure. This non-GAAP measure should not be considered a substitute for, or superior to, cash flows from operating activities under GAAP.

The table below shows net cash provided by operating activities and net cash used in investing activities related to capital expenditures, along with free cash flow, for the following periods:

In millions	Six Months Ended June 30,	
	2022	2021
Net cash provided by operating activities	\$ 256	\$ 335
Less:		
Expenditures for property and equipment	(3)	(9)
Additions to capitalized software	(1)	(2)
Free cash flow	\$ 252	\$ 324

Financing activities and certain other investing activities are not included in our calculation of free cash flow. There were no other investing activities for the six months ended June 30, 2022 and 2021.

Teradata's financing activities for the six months ended June 30, 2022 and 2021 primarily consisted of cash outflows for share repurchases and payments on our finance leases partially offset by \$100 million of net cash inflows from refinancing our prior term loan to our new Term Loan (as defined below) and as described in Note 10 of Notes to Condensed Consolidated Financial Statements (Unaudited). At June 30, 2022, we had no outstanding borrowings on our \$400 million Revolving Facility (as defined below).

As to share repurchases, we have two share repurchase programs that were authorized by our Board of Directors:

- The dilution offset share repurchase program allows us to repurchase Teradata common stock to the extent (i) cash is received from the exercise of stock options and (ii) employees purchase Teradata stock pursuant to the Teradata Employee Stock Purchase Plan ("ESPP"). The purpose of the dilution offset share repurchase program is to offset dilution from shares issued pursuant to the exercise of stock options and shares purchased under the ESPP.

- Our open market share repurchase program provides for the repurchase of Teradata stock periodically on an ongoing basis in open market transactions, through 10b5-1 programs, through accelerated share repurchase programs, in privately negotiated transactions, or through the use of derivative instruments, in accordance with applicable securities rules regarding issuer repurchases. The open market share repurchase program will expire on December 31, 2025. On November 1, 2021, our Board of Directors authorized an additional \$1 billion for share repurchases under the open market share repurchase program and on February 9, 2022 we entered into an accelerated share repurchase agreement ("ASR") with JPMorgan Chase Bank, National Association ("JPMorgan Chase") to purchase shares of Teradata common stock from JPMorgan Chase for an aggregate purchase price of \$250 million, which was completed on May 6, 2022. There is a total authority of \$904 million remaining under the open market share repurchase program as of June 30, 2022.

In the aggregate under the dilution offset share repurchase program, the open market share repurchase program and the ASR, we repurchased approximately 7.2 million shares of common stock at an average price per share of \$43.88 in the six months ended June 30, 2022, which includes approximately 5.6 million shares delivered under the ASR, and 1.6 million shares in open market purchases.

Share repurchases are reported on a trade date basis. Our share repurchase activity depends on factors such as our working capital needs, our cash requirements for capital investments, our stock price, and economic and market conditions.

Other financing activities, including proceeds from the ESPP and the exercise of stock options, net of tax, and fees from our new credit facility agreement were \$1 million for the six months ended June 30, 2022 and \$18 million for the six months ended June 30, 2021. These proceeds are included in other financing activities, net in the Condensed Consolidated Statements of Cash Flows (Unaudited).

Our total cash and cash equivalents held outside the United States in various foreign subsidiaries was \$373 million as of June 30, 2022 and \$401 million as of December 31, 2021. The remaining balance held in the United States ("U.S.") was \$172 million as of June 30, 2022 and \$191 million as of December 31, 2021. The Company expected that a majority of its foreign earnings will be repatriated to the U.S. Effective January 1, 2018, the U.S. moved to a territorial system of international taxation, and as such will generally not subject future foreign earnings to U.S. taxation upon repatriation in future years.

Management believes current cash, cash generated from operations and the \$400 million available under the Credit Facility will be sufficient to satisfy future working capital, research and development activities, capital expenditures, pension contributions, and other financing requirements for at least the next twelve months. The Company principally holds its cash and cash equivalents in bank deposits and highly-rated money market funds.

The Company's ability to generate positive cash flows from operations is dependent on general economic conditions, competitive pressures, and other business and risk factors described in the 2021 Annual Report and elsewhere in this Quarterly Report on Form 10-Q. If the Company is unable to generate sufficient cash flows from operations, or otherwise comply with the terms of the Credit Facility or its term loan agreement, the Company may be required to seek additional financing alternatives.

Long-term Debt. On June 28, 2022, we entered into a Credit Agreement that provides for (i) a five-year unsecured term loan in an aggregate principal amount of \$500 million (the "Term Loan"), and (ii) a five-year unsecured revolving credit facility in an aggregate principal amount of up to \$400 million, including a \$50 million sublimit for the issuance of standby letters of credit and a \$50 million sublimit for swingline loans (the "Revolving Facility" and, collectively with the Term Loan, the "Credit Facility"). The Credit Facility replaces our prior revolving credit agreement in the maximum principal of \$400 million and our prior term loan agreement in the principal amount of \$500 million, both of which were entered into in 2018 (the "Prior Agreements"). In connection with the execution of the Credit Facility, the \$400 million term loan outstanding under the Prior Agreements was repaid in full. Our long-term debt is discussed in Note 10 of Notes to Condensed Consolidated Financial Statements (Unaudited).

Contractual and Other Commercial Commitments. There has been no significant change in our contractual and other commercial commitments as described in the 2021 Annual Report. Our commitments and contingencies are discussed in Note 8 of Notes to Condensed Consolidated Financial Statements (Unaudited).

Critical Accounting Policies and Estimates

Our financial statements are prepared in accordance with GAAP. In connection with the preparation of these financial statements, we are required to make assumptions, estimates and judgments that affect the reported amounts

of assets, liabilities, revenues, expenses and the related disclosure of contingent liabilities. These assumptions, estimates and judgments are based on historical experience and assumptions that are believed to be reasonable at the time. However, because future events and their effects cannot be determined with certainty, the determination of estimates requires the exercise of judgment. Our critical accounting policies are those that require assumptions to be made about matters that are highly uncertain. Different estimates could have a material impact on our financial results. Judgments and uncertainties affecting the application of these policies and estimates may result in materially different amounts being reported under different conditions or circumstances. Our management periodically reviews these estimates and assumptions to ensure that our financial statements are presented fairly and are materially correct. We assessed certain accounting matters that generally require consideration of forecasted financial information in context with the information reasonably available to us as of June 30, 2022 and through the date of this report. The accounting matters assessed included, but were not limited to, our allowance for doubtful accounts, stock-based compensation, the carrying value of our goodwill and other long-lived assets, financial assets, valuation allowances for tax assets and revenue recognition.

In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP and does not require significant management judgment in its application. There are also areas in which management's judgment in selecting among available alternatives would not produce a materially different result. The significant accounting policies and estimates that we believe are the most critical to aid in fully understanding and evaluating our reported financial results are discussed in the 2021 Annual Report. Teradata's senior management has reviewed these critical accounting policies and related disclosures and determined that there were no significant changes in our critical accounting policies in the six months ended June 30, 2022.

New Accounting Pronouncements

See discussion in Note 2 of Notes to Condensed Consolidated Financial Statements (Unaudited) for new accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have not been any material changes to the market risk factors previously disclosed in Part II, Item 7A of the 2021 Annual Report.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Teradata maintains a system of disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to provide reasonable assurance that information required to be disclosed in its reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including, as appropriate, the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Based on their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2022, our disclosure controls and procedures were effective to provide reasonable assurance that the information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the fiscal quarter ended June 30, 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. We have not experienced any material adverse impact to our internal controls over financial reporting as a result of most of our employees working remotely due to the COVID-19 pandemic. We are continually monitoring and assessing the COVID-19 situation on our internal controls to minimize the impact on their design and operating effectiveness.

Part II—OTHER INFORMATION

Item 1. Legal Proceedings.

The information required to be set forth under this Part II, Item 1 is incorporated by reference to Note 8, Commitments and Contingencies—Legal Proceedings of the Notes to Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q.

Item 1A. Risk Factors.

There have not been any material changes to the risk factors previously disclosed in Part I, Item 1A of the 2021 Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Purchases of Company Common Stock

From time to time, the Company's Section 16 officers sell to the Company shares of the Company's common stock received upon vesting of restricted share units at the current market price to cover their withholding tax obligations. For the six months ended June 30, 2022, the total of these purchases was 128,603 shares at an average price of \$42.32 per share.

The following table provides information relating to the Company's share repurchase programs for the six months ended June 30, 2022:

Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Dilution Offset Program ⁽¹⁾	Total Number of Shares Purchased as Part of Publicly Announced Open Market Share Repurchase Program ⁽²⁾	Maximum Dollar Value that May Yet Be Purchased Under the Dilution Offset Program	Maximum Dollar Value that May Yet Be Purchased Under the Open Market Share Repurchase Program
January 2022	1,187,816	\$ 42.09	—	1,187,816	\$ 522,134	\$ 1,162,770,562
February 2022	3,930,045	\$ 50.89	—	3,930,045	\$ 1,174,757	\$ 962,770,572
March 2022	—	\$ —	—	—	\$ 7,532,006	\$ 962,770,572
First Quarter Total	5,117,861	\$ 48.85	—	5,117,861	\$ 7,532,006	\$ 962,770,572
April 2022	—	\$ —	—	—	\$ 7,596,246	\$ 962,770,572
May 2022	1,935,834	\$ 31.34	216,645	1,719,189	\$ 1,289,761	\$ 909,770,814
June 2022	177,911	\$ 37.30	29,880	148,031	\$ 184,973	\$ 904,270,266
Second Quarter Total	2,113,745	\$ 31.84	246,525	1,867,220	\$ 184,973	\$ 904,270,266

(1) The dilution offset share repurchase program allows the Company to repurchase Teradata common stock to the extent of cash received from the exercise of stock options and purchases under the ESPP to offset dilution from shares issued pursuant to these plans.

(2) The open market share repurchase program authorized by the Board allows the Company to repurchase outstanding shares of Teradata common stock. Share repurchases made by the Company are reported on a trade date basis. The open market share repurchase program expires on December 31, 2025.

Accelerated Share Repurchase Agreement ("ASR")

On February 9, 2022 we entered into an ASR agreement with JPMorgan Chase Bank, National Association ("JPMorgan Chase") to purchase shares of our common stock from JPMorgan Chase for an aggregate purchase price of \$250 million. Pursuant to the ASR, we received an initial delivery of 3,930,045 shares of common stock based on the closing price of the common stock of \$50.89 on February 8, 2022. A final delivery of 1,635,863 shares was received on May 6, 2022 to complete the ASR agreement. The ASR agreement was entered into pursuant to our open market share repurchase authorization.

Chief Financial Officer

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO SECURITIES
EXCHANGE ACT RULE 13a-14**

I, Stephen McMillan, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Teradata Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Teradata Corporation, a Delaware corporation (the “Company”), on Form 10-Q for the period ended June 30, 2022 as filed with the U.S. Securities and Exchange Commission on the date hereof (the “Report”), each of the undersigned officers of the Company does hereby certify, pursuant to 18 U.S.C. § 1350 (section 906 of the Sarbanes-Oxley Act of 2002), that:

- (1) the Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

The foregoing certification (i) is given to such officers’ knowledge, based upon such officers’ investigation as such officers reasonably deem appropriate; and (ii) is being furnished solely pursuant to 18 U.S.C. § 1350 (section 906 of the Sarbanes-Oxley Act of 2002) and is not being filed as part of the Report or as a separate disclosure document.
