Forward-looking statements

This release contains forward-looking statements within the meaning of Section 21E of the Securities and Exchange Act of 1934. Forward-looking statements generally relate to opinions, beliefs, and projections of expected future financial and operating performance, business trends, liquidity, and market conditions, among other things. These forward-looking statements are based upon current expectations and assumptions and often can be identified by words such as “expect,” “strive,” “looking ahead,” “outlook,” “guidance,” “forecast,” “anticipate,” “continue,” “plan,” “estimate,” “believe,” “focus,” “see,” “commit,” “should,” “project,” “will,” “would,” “likely,” “intend,” “potential,” or similar expressions. Forward-looking statements in this release include our 2026 third quarter and 2026 full year financial outlook and product innovation and demand. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially, including those relating to: our strategy and ongoing business transformation, significant execution risk for our cloud, hybrid, on-premises, Artificial Intelligence (“AI”) and Machine Learning (“ML”) offerings, operational disruptions and unforeseen circumstances, impact of unanticipated delays or acceleration in our sales cycles to make accurate estimates impacting quarterly operating results, financial guidance and forecasts, the global economic environment and business conditions in general, including inflation, tariffs, and/or recessionary conditions; impact of price increase on our net sales, profit margins and earnings, the ability of our suppliers to meet their commitments to us; the timing of purchases, migrations, or expansions by our current and potential customers, including our ability to retain customers; the rapidly changing and intensely competitive nature of the information technology industry, the data analytics business, and artificial intelligence capabilities; fluctuations in our operating, capital allocation, and cash flow

results; our ability to execute and realize the anticipated benefits of our refreshed brand, business transformation program or restructuring, sales and operational execution initiatives, and cost saving initiatives, including restructuring actions; risks inherent in operating in foreign countries, export controls and trade compliance, including sanctions, tariffs, foreign currency fluctuations, and/or acts of war; risks associated with data privacy, IP-enforcement actions, cyberattacks and maintaining secure and effective products for our customers, as well as, internal information technology and control systems; the timely and successful development, production or acquisition, availability and/or market acceptance of new and existing products, product features and services, including for our artificial intelligence, cloud, on-prem and hybrid offerings, tax rates; turnover of our workforce and the ability to attract and retain skilled employees; protecting our intellectual property; availability and successful execution of new alliance and acquisition opportunities; subscription arrangements that may be cancelled or fail to be renewed; the impact on our business and financial reporting from changes in accounting rules; and other factors described from time to time in Teradata’s filings with the U.S. Securities and Exchange Commission, including its most recent annual report on Form 10-K, and subsequent quarterly reports on Forms 10-Q or current reports on Forms 8-K, as well as Teradata’s annual report to stockholders. Teradata does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Non-GAAP Financial Measures

This presentation and the accompanying discussion include certain non-GAAP financial measures, which exclude such items as stock-based compensation expense and other special items, as well as other non-GAAP financial measures, such as free cash flow (FCF), adjusted FCF and constant currency revenue comparisons. Please refer to the Appendix for a reconciliation of non-GAAP to GAAP measures as well as additional useful information regarding Teradata’s use of non-GAAP financial measures.

Teradata – at a glance

Corporate purpose

Transforming knowledge into autonomous decisions that drive meaningful outcomes.

What we do

We turn enterprise data and context into scalable, trusted autonomous intelligence that drives real-time business outcomes.

How we do it

We unify data, knowledge, and business context, activating intelligence for immediate impact.

Q2'26 Financial Overview

Recurring Revenue growth of 3% YoY and 2% constant currency⁽¹⁾

Cash flow from operations of \$106 million, up 147% from the prior year period

Non-GAAP Operating Margin of 21.5%, up 510 basis points from the prior year period⁽²⁾

Adjusted Free Cash Flow of \$127M, up 226% from the prior year period⁽²⁾

Notes:

(1) The impact of currency is determined by calculating the prior-period results using the current-year monthly average currency rates. See the foreign currency fluctuation schedule, which is used to determine revenue on a constant currency ("CC") basis, on the Investor Relations page of the Company's website at investor.teradata.com. (2) Non-GAAP Operating Margin and Adjusted Free Cash Flow are non-GAAP financial measures. Please refer to the Appendix for additional information on these non-GAAP financial measures, including reconciliations to the nearest GAAP measures.

Teradata vision

Autonomous

Deliver autonomous experience across platform layers and end-to-end data and AI processes.

AI

Build, activate, and manage AI outcomes through agents, AI/ML, apps, and marketplaces.

Knowledge

Enabled through systems of intelligence and informed by agentic knowledge that adapts and evolves.

Autonomous AI + Knowledge

Notes: Total Annual Recurring Revenue ("Total ARR") is defined as the annual contract value for all active and contractually binding term-based contracts at the end of the period, including cloud, recurring AI services, subscriptions, hardware rental, maintenance, and software upgrade rights. Public cloud ARR is defined as the annual contract value for all active and contractually binding term-based contracts at the end of a period that are operated in a public cloud environment. The Company believes these are useful metrics to investors as it demonstrates progress toward achieving our strategic objectives as outlined in the Form 10-K and Form 10-Q. The impact of currency on ARR is determined by calculating the prior period ending ARR using the current period end currency rates. The impact of currency on revenue is determined by calculating the prior-period results using the current-year monthly average currency rates. See the foreign currency fluctuation schedule, which is used to determine revenue on a constant currency ("CC") basis, on the Investor Relations page of the Company's website at investor.teradata.com. Non-GAAP diluted earnings per share and adjusted free cash flow are non-GAAP financial measures. Please refer to the Appendix for additional information on these non-GAAP financial measures, including reconciliations to the nearest GAAP measures.

Notes: Amounts in U.S. Dollars in Millions. Please see Teradata's Form 10-K for the period ended December 31, 2025, for additional information. Subscription ARR (included within total ARR) - annual contract value for all active and contractually binding term-based contracts at the end of a period. Subscription ARR includes on-premises subscription-based transactions and private cloud. Maintenance and Software Upgrade Rights ARR (included within total ARR) - annual contract value for all active and contractually binding term-based contracts at the end of a period. Maintenance and Software Upgrade Rights ARR includes maintenance and software upgrade rights on perpetual products. Public Cloud ARR (included within total ARR) is defined as the annual contract value for all active and contractually binding term-based contracts at the end of a period that are operated in a public cloud environment. The Company believes these are useful metrics to investors as it demonstrates progress toward achieving our strategic objectives as outlined in the Form 10-K and Form 10-Q. The impact of currency is determined by calculating the prior-period results using the current-year monthly currency rates. See the foreign currency fluctuation schedule, which is used to determine revenue on a constant currency ("CC") basis, on the Investor Relations page of the Company's website at investor.teradata.com.

GAAP to Non-GAAP Reconciliations and Additional Information

Use of Non-GAAP Measures

Teradata reports its results in accordance with GAAP. However, as described below, the Company believes that certain non-GAAP measures such as free cash flow, adjusted free cash flow, non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income, non-GAAP operating margin, non-GAAP Adjusted EBITDA, non-GAAP net income, and non-GAAP diluted earnings per share, all of which exclude certain items, and which may be reported on a constant currency basis, are useful for investors. Our non-GAAP measures are not meant to be considered in isolation to, as substitutes for, or superior to, results determined in accordance with GAAP, and should be read only in conjunction with our condensed consolidated financial statements prepared in accordance with GAAP. Each of our non-GAAP measures do not have a uniform definition under GAAP and therefore, Teradata's definition may differ from other companies' definitions of these measures.

The following tables reconcile Teradata's actual and projected results and EPS under GAAP to the Company's actual and projected non-GAAP results and EPS for the periods presented, which exclude certain specified items. Our management internally uses supplemental non-GAAP financial measures, such as gross profit, operating income, net income, and EPS, excluding certain items, to understand, manage and evaluate our business and support operating decisions on a regular basis. The Company believes such non-GAAP financial measures (1) provide useful information to investors regarding the underlying business trends and performance of the Company's ongoing operations, (2) are useful for period-over-period comparisons of such operations and results, that may be more easily compared to peer companies and allow investors a view of the Company's operating results excluding stock-based compensation expense and special items, (3) provide useful information to management and investors regarding present and future business trends, and (4) provide consistency and comparability with past reports and projections of future results.

Three months ended June 30, 2026 and 2025

Amounts in U.S. Dollars in Millions, except per share amounts.
Amounts are unaudited.

NOTES:

- 1. While Teradata reports its results using generally accepted accounting principles in the U.S. (GAAP), certain non-GAAP financial measures may be used to reflect operational performance and to determine the effectiveness of its business management. Certain special items may be segregated from our GAAP results from time-to-time to reflect the on-going Earnings Per Share performance of the Company. Non-GAAP measures should not be used as a substitute for, or superior to, the Company's reported GAAP results.
- 2. Special items for the three months ended June 30, 2026, include \$6 million (\$4 million after-tax) for reorganization, transformation and other activities.
- 3. Special items for the three months ended June 30, 2025 include \$12 million (\$4 million after-tax) for reorganization, transformation and other activities.

Amounts in U.S. Dollars in Millions, except per share amounts. Amounts are unaudited.

NOTES:

- 1. While Teradata reports its results using generally accepted accounting principles in the U.S. (GAAP), certain non-GAAP financial measures may be used to reflect operational performance and to determine the effectiveness of its business management. Certain special items may be segregated from our GAAP results from time-to-time to reflect the on-going Earnings Per Share performance of the Company. Non-GAAP measures should not be used as a substitute for, or superior to, the Company's reported GAAP results.
- 2. Special items for the three months ended September 30, 2025 include \$7 million (\$5 million after-tax) for reorganization, transformation and other activities.
- 3. Special items for the three months ended September 30, 2024 include \$14 million (\$10 million after-tax) for reorganization, transformation and other activities.

NOTES:

* While Teradata reports its results using GAAP, certain non-GAAP financial measures may be used to reflect operational performance. These non-GAAP measures may exclude the impact of stock compensation expense and certain special items, which are used to support our GAAP results from time-to-time to reflect the on-going Earnings Per Share performance of the Company. Although non-GAAP measures should not be used in isolation or as a substitute for, or superior to, the Company's reported GAAP results, and should be read only in conjunction with our condensed consolidated financial statements prepared in accordance with GAAP. Teradata uses non-GAAP measures to manage and determine the effectiveness of its business management. A reconciliation of Teradata's GAAP results to these non-GAAP financial measures for each period included in this summary is found in the supplemental appendices hereto.

Earnings per share – Three months ended June 30, 2026 and 2026 Outlook

NOTES:

- i. Represents the income tax effect of the pre-tax adjustments to reconcile GAAP to Non-GAAP income based on the applicable jurisdictional statutory tax rate of the underlying item, including the \$67 million discrete income tax effect of the SAP settlement recorded in the first half of 2026. Including the income tax effect assists investors in understanding the tax provision associated with those adjustments and the effective tax rate related to the underlying business and performance of the Company's ongoing operations. As a result of these adjustments, the Company's GAAP effective tax rate and non-GAAP effective tax rate for the three months ended June 30, 2026, was 2.1% and 23.3%, respectively, and June 30, 2025, was 30.8% and 19.6%, respectively. For the six months ended June 30, 2026, the Company's GAAP effective tax rate and non-GAAP effective tax rate was 21.3% and 24.5%, respectively and June 30, 2025, was 25.4% and 21.6%, respectively.

Adjusted free cash flow reconciliation – Last twelve months

NOTES:

As described below, the Company believes that free cash flow and adjusted free cash flow are useful non-GAAP measures for investors. Free cash flow and adjusted free cash flow do not have a uniform definition under GAAP in the United States and therefore, Teradata's definitions may differ from other companies' definitions of this measure. Teradata defines free cash flow as cash provided by/used in operating activities, less total capital expenditures and adjusted free cash flow as free cash flow less the gross proceeds from the SAP settlement, plus the non-recurring legal and other expenses incurred in connection with the SAP litigation and resulting settlement, and taxes paid specific to the settlement agreement. Teradata's management uses free cash flow and adjusted free cash flow to assess the financial performance of the Company and believes they are useful for investors because they relate the operating cash flow of the Company to the capital that is spent to continue and improve business operations. In particular, free cash flow indicates the amount of cash generated after capital expenditures which can be used for among other things, investments in the Company's existing businesses, strategic acquisitions, strengthening the Company's balance sheet, repurchase of Company stock and repay the Company's debt obligations and adjusted free cash flow adjusts the impact of the SAP settlement. Neither free cash flow or adjusted free cash flow represent the residual cash flow available for discretionary expenditures since there may be other non-discretionary expenditures that are not deducted from these measures. These non-GAAP measures should not be considered as a substitute for, or superior to, cash flows from operating activities under GAAP.
