Teradata Earns 2025 Top Rated Awards from TrustRadius

2025-10-21

Teradata Vantage has been recognized as a leader among Cloud Data Warehouse, Data Warehouse, Data Lakehouse, and Relational Databases.

SAN DIEGO--(BUSINESS WIRE)-- **Teradata** (NYSE: **TDC**) today announced that TrustRadius has recognized Teradata Vantage with 2025 Top Rated Awards in four categories: Cloud Data Warehouse, Data Warehouse, Data Lakehouse, and Relational Databases.

With **over 215 verified reviews**, Teradata Vantage **earned a trScore of 8.5 out of 10** and is recognized by its customer reviews as a top player in the Cloud Data Warehouse software category.

“Teradata Vantage earning a TrustRadius Top Rated award highlights its strength in helping enterprises unlock the full potential of their data,” said Allyson Havener, Chief Marketing Officer at TrustRadius. “Their customers consistently praise Vantage in reviews for its scalability, advanced analytics, and ability to unify complex data environments.”

Since 2016, the TrustRadius Top Rated Awards have become the B2B industry standard for unbiased recognition of excellent technology products, based entirely on customer feedback rather than analyst opinion or status as a TrustRadius customer.

“This recognition from TrustRadius validates our mission to deliver a platform that not only excels in data management but also powers enterprise-scale AI,” said Sumeet Arora, Chief Product Officer at Teradata. “Vantage is more than a data platform—it’s an AI and knowledge platform that enables intelligent decision-making and autonomous AI. These awards reflect the trust our customers place in Vantage to drive innovation and real business outcomes.”

Hear from verified users on how much they value Teradata Vantage:

“Today we use Teradata Vantage as the central tool for managing all the Bank's information. It serves as our central repository to ensure data accuracy, a unified data view, and secure information handling. We are also leveraging Vantage's analytical capabilities to develop predictive models based on the information stored in the datawarehouse, without needing to transfer it to another technological solution and executing everything in-database.”

- Marcelo Valeiras, Data & Analytics Lead, Banco de la Nación Argentina

At Teradata, we're proud to create products that inspire such gracious feedback in our user community. Thank you for supporting our work, and for sharing your feedback on TrustRadius.
