

NEWS RELEASE

As previously announced, UScellular will hold a teleconference on August 5, 2022, at 9:00 a.m. CDT. Listen to the call live via the Events & Presentations page of investors.uscellular.com.

FOR IMMEDIATE RELEASE

UScellular reports second quarter 2022 results *2022 guidance reaffirmed*

CHICAGO (August 4, 2022) — United States Cellular Corporation (NYSE:USM) reported total operating revenues of \$1,027 million for the second quarter of 2022, versus \$1,014 million for the same period one year ago. Service revenues totaled \$783 million, versus \$774 million for the same period one year ago. Net income attributable to UScellular shareholders and related diluted earnings per share were \$21 million and \$0.25, respectively, for the second quarter of 2022 compared to \$35 million and \$0.39, respectively, in the same period one year ago.

"UScellular is continuing to execute on its growth strategy, resulting in increased retail service revenues and ARPU in the quarter," said Laurent Therivel, UScellular President and CEO. "We are seeing nice momentum in a number of the growth areas of the business, including fixed wireless and our tower portfolio. Additionally, we are seeing promising early results from our recent moves in the marketplace, including our rate plan guarantee and our existing-same-as-new offers."

"Halfway through the year, I believe UScellular is well-positioned, and I thank all of our associates for their hard work."

2022 Estimated Results

UScellular's current estimates of full-year 2022 results are shown below. Such estimates represent management's view as of August 4, 2022 and should not be assumed to be current as of any future date. UScellular undertakes no duty to update such estimates, whether as a result of new information, future events, or otherwise. There can be no assurance that final results will not differ materially from estimated results.

2022 Estimated Results		
	Previous	Current
(Dollars in millions)		
Service revenues	\$3,100-\$3,200	Unchanged
Adjusted OIBDA ¹	\$750-\$900	Unchanged
Adjusted EBITDA ¹	\$925-\$1,075	Unchanged
Capital expenditures	\$700-\$800	Unchanged

The following table reconciles EBITDA, Adjusted EBITDA and Adjusted OIBDA to the corresponding GAAP measures, Net income or Income before income taxes. In providing 2022 estimated results, UScellular has not completed the below reconciliation to Net income because it does not provide guidance for income taxes. Although potentially significant, UScellular believes that the impact of income taxes cannot be reasonably predicted; therefore, UScellular is unable to provide such guidance.

		Actual Results	
	2022 Estimated Results	Six Months Ended June 30, 2022	Year Ended December 31, 2021
(Dollars in millions)			
Net income (GAAP)	N/A	\$ 74	\$ 160
Add back:			
Income tax expense	N/A	50	20
Income before income taxes (GAAP)	\$45-\$195	\$ 124	\$ 180
Add back:			
Interest expense	160	73	175
Depreciation, amortization and accretion expense	705	342	678
EBITDA (Non-GAAP) ¹	\$910-\$1,060	\$ 539	\$ 1,033
Add back or deduct:			
Loss on impairment of licenses	—	3	—
(Gain) loss on asset disposals, net	15	8	23
(Gain) loss on sale of business and other exit costs, net	—	—	(2)
Adjusted EBITDA (Non-GAAP) ¹	\$925-\$1,075	\$ 550	\$ 1,054
Deduct:			
Equity in earnings of unconsolidated entities	170	82	179
Interest and dividend income	5	4	6
Adjusted OIBDA (Non-GAAP) ¹	\$750-\$900	\$ 464	\$ 869

¹ EBITDA, Adjusted EBITDA and Adjusted OIBDA are defined as net income adjusted for the items set forth in the reconciliation above. EBITDA, Adjusted EBITDA and Adjusted OIBDA are not measures of financial performance under Generally Accepted Accounting Principles in the United States (GAAP) and should not be considered as alternatives to Net income or Cash flows from operating activities, as indicators of cash flows or as measures of liquidity. UScellular does not intend to imply that any such items set forth in the reconciliation above are non-recurring, infrequent or unusual; such items may occur in the future. Management uses Adjusted EBITDA and Adjusted OIBDA as measurements of profitability, and therefore reconciliations to Net income are deemed appropriate. Management believes Adjusted EBITDA and Adjusted OIBDA are useful measures of UScellular's operating results before significant recurring non-cash charges, gains and losses, and other items as presented above as they provide additional relevant and useful information to investors and other users of UScellular's financial data in evaluating the effectiveness of its operations and underlying business trends in a manner that is consistent with management's evaluation of business performance. Adjusted EBITDA shows adjusted earnings before interest, taxes, depreciation, amortization and accretion, and gains and losses, while Adjusted OIBDA reduces this measure further to exclude Equity in earnings of unconsolidated entities and Interest and dividend income in order to more effectively show the performance of operating activities excluding investment activities. The table above reconciles EBITDA, Adjusted EBITDA and Adjusted OIBDA to the corresponding GAAP measure, Net income or Income before income taxes. Additional information and reconciliations related to Non-GAAP financial measures for June 30, 2022, can be found on UScellular's website at investors.uscellular.com.

Stock Repurchase

During the second quarter of 2022, UScellular repurchased 294,721 of its Common Shares for \$9 million.

Conference Call Information

UScellular will hold a conference call on August 5, 2022 at 9:00 a.m. Central Time.

- Access the live call on the Events & Presentations page of investors.uscellular.com or at <https://events.q4inc.com/attendee/249925609>
- Access the call by phone at (888)330-2384 conference ID: 1328528.

Before the call, certain financial and statistical information to be discussed during the call will be posted to investors.uscellular.com. The call will be archived on the Events & Presentations page of investors.uscellular.com.

About UScellular

United States Cellular Corporation provides a comprehensive range of wireless products and services, excellent customer support, and a high-quality network to customers with 4.8 million retail connections in 21 states. The Chicago-based company had 4,700 full- and part-time associates as of June 30, 2022. At the end of the second quarter of 2022, Telephone and Data Systems, Inc. owned 83 percent of UScellular. Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995: All information set forth in this news release, except historical and factual information, represents forward-looking statements. This includes all statements about the company's plans, beliefs, estimates, and expectations. These statements are based on current estimates, projections, and assumptions, which involve certain risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. Important factors that may affect these forward-looking statements include, but are not limited to: intense competition; the ability to attract people of outstanding talent throughout all levels of the organization; USM's smaller scale relative to larger competitors; the ability to obtain or maintain roaming arrangements with other carriers on acceptable terms; the ability to obtain access to adequate radio spectrum to meet current or anticipated future needs, including participation in FCC auctions; changes in demand, consumer preferences and perceptions, price competition, or churn rates; advances in technology; impacts of costs, integration problems or other factors associated with acquisitions, divestitures or exchanges of properties or wireless spectrum licenses and/or expansion of UScellular's businesses; the ability of the company to successfully construct and manage its networks; uncertainties in UScellular's future cash flows and liquidity and access to the capital markets; the ability to make payments on UScellular indebtedness or comply with the terms of debt covenants; conditions in the U.S. telecommunications industry; the value of assets and investments; the state and federal regulatory environment; pending and future litigation; cyber-attacks or other breaches of network or information technology security; potential conflicts of interests between TDS and UScellular; disruption in credit or other financial markets; deterioration of U.S. or global economic conditions; the impact, duration and severity of public health emergencies, such as the COVID-19 pandemic. Investors are encouraged to consider these and other risks and uncertainties that are more fully described under "Risk Factors" in the most recent filing of UScellular's Form 10-K, as updated by any UScellular Form 10-Q filed subsequent to such Form 10-K.

ARPU ²	\$ 35.25	\$ 34.59	\$ 34.53	\$ 35.05	\$ 35.64
Churn rate ⁴	4.07 %	4.84 %	4.39 %	4.09 %	3.66 %
Market penetration at end of period					
Consolidated operating population	32,370,000	32,370,000	32,127,000	31,865,000	31,493,000
Consolidated operating penetration ⁵	15 %	15 %	15 %	16 %	16 %
Capital expenditures (millions)	\$ 268	\$ 137	\$ 321	\$ 185	\$ 148
Total cell sites in service	6,916	6,899	6,898	6,857	6,819
Owned towers	4,323	4,310	4,301	4,274	4,278

¹ Q3 2021 Postpaid ARPU and ARPA amounts exclude \$9 million of postpaid revenue related to an out-of-period error recorded in that quarter.

² Average Revenue Per User (ARPU) - metric is calculated by dividing a revenue base by an average number of connections and by the number of months in the period. These revenue bases and connection populations are shown below:

- Postpaid ARPU consists of total postpaid service revenues and postpaid connections.
- Prepaid ARPU consists of total prepaid service revenues and prepaid connections.

³ Average Revenue Per Account (ARPA) - metric is calculated by dividing total postpaid service revenues by the average number of postpaid accounts and by the number of months in the period.

⁴ Churn rate represents the percentage of the connections that disconnect service each month. These rates represent the average monthly churn rate for each respective period.

⁵ Market penetration is calculated by dividing the number of wireless connections at the end of the period by the total estimated population of consolidated operating markets.
