2026-05-05

LOS ANGELES--(BUSINESS WIRE)-- Oaktree Specialty Lending Corporation (NASDAQ:OCSL) (“Oaktree Specialty Lending” or the “Company”), a specialty finance company, today announced its financial results for the second fiscal quarter ended March 31, 2026.

## Financial Highlights for the Quarter Ended March 31, 2026

- Total investment income was \$70.4 million (\$0.80 per share) for the second fiscal quarter of 2026 as compared to \$75.1 million (\$0.85 per share) for the first fiscal quarter of 2026. Adjusted total investment income was \$69.7 million (\$0.79 per share) for the second fiscal quarter of 2026 as compared with \$74.5 million (\$0.85 per share) for the first fiscal quarter of 2026. The decrease was primarily driven by lower reference rates and lower non-recurring income.
- GAAP net investment income was \$34.4 million (\$0.39 per share) for the second fiscal quarter of 2026 as compared with \$36.7 million (\$0.42 per share) for the first fiscal quarter of 2026. The decrease for the quarter was primarily driven by lower total investment income, partially offset by lower interest expense and lower income-based (“Part I”) incentive fees (net of fees waived).
- Adjusted net investment income was \$33.7 million (\$0.38 per share) for the second fiscal quarter of 2026 as compared with \$36.1 million (\$0.41 per share) for the first fiscal quarter of 2026. The decrease for the quarter was primarily driven by lower total investment income, partially offset by lower interest expense and lower income-based (“Part I”) incentive fees (net of fees waived).
- Net asset value (“NAV”) per share was \$15.69 as of March 31, 2026, down as compared with \$16.30 as of December 31, 2025. The decrease from December 31, 2025 was primarily driven by realized and unrealized

depreciation on certain debt and equity investments during the quarter.

- Originated \$204.1 million of new investment commitments and received \$334.1 million of proceeds from prepayments, exits, other paydowns and sales during the quarter ended March 31, 2026. The weighted average yield on new debt investments was 9.2%.
- Total debt outstanding was \$1,490.0 million as of March 31, 2026. The total debt to equity ratio was 1.08x, and the net debt to equity ratio was 1.04x, after adjusting for cash and cash equivalents.
- Liquidity as of March 31, 2026 was composed of \$51.3 million of unrestricted cash and cash equivalents and \$620.0 million of undrawn capacity under the Company's credit facility (subject to borrowing base and other limitations). Unfunded investment commitments were \$276.7 million, or \$249.6 million excluding unfunded commitments to the Company's joint ventures.
- Quarterly and supplemental cash distributions were declared of \$0.30 per share and \$0.04 per share, respectively, payable in cash on June 30, 2026 to stockholders of record on June 15, 2026.

“During the quarter, we continued to make progress on reducing non-accrual investments and selectively redeploying capital following investment exits, as we focus on overall portfolio quality,” said Armen Panossian, Chief Executive Officer and Co-Chief Investment Officer of Oaktree Specialty Lending. “Our results reflect a moderation of investment income, driven by lower base rates and reduced fee activity, alongside some depreciation across certain investments, largely attributable to market-driven spread widening for software investments. We have maintained leverage at the low to mid-point of our target range, preserving liquidity to navigate market dislocation and selectively deploy capital into credits that offer attractive risk-adjusted returns. Due to our conservative use of leverage, we adjusted our cash dividend to \$0.34 per share for the quarter ending June 30, 2026.”

## Distribution Declaration

The Board of Directors declared quarterly and supplemental cash distributions of \$0.30 per share and \$0.04 per share, respectively, payable in cash on June 30, 2026 to stockholders of record on June 15, 2026.

Distributions are paid primarily from distributable (taxable) income. To the extent taxable earnings for a fiscal taxable year fall below the total amount of distributions for that fiscal year, a portion of those distributions may be deemed a return of capital to the Company's stockholders.

## Non-GAAP Financial Measures

On a supplemental basis, the Company is disclosing certain adjusted financial measures, each of which is calculated and presented on a basis of methodology other than in accordance with GAAP ("non-GAAP"). The Company's management uses these non-GAAP financial measures internally to analyze and evaluate financial results and performance and believes that these non-GAAP financial measures are useful to investors as an additional tool to evaluate ongoing results and trends for the Company and to review the Company's performance without giving

effect to non-cash income/gain/loss resulting from the OCSI Merger and the OSI2 Merger and in the case of adjusted net investment income, without giving effect to capital gains incentive fees. The presentation of the below non-GAAP measures is not intended to be a substitute for financial results prepared in accordance with GAAP and should not be considered in isolation.

- “Adjusted Total Investment Income” and “Adjusted Total Investment Income Per Share” – represents total investment income excluding any amortization or accretion of interest income resulting solely from the cost basis established by ASC 805 (see below) for the assets acquired in connection with the OCSI Merger and the OSI2 Merger.
- “Adjusted Net Investment Income” and “Adjusted Net Investment Income Per Share” – represents net investment income, excluding (i) any amortization or accretion of interest income resulting solely from the cost basis established by ASC 805 (see below) for the assets acquired in connection with the OCSI Merger and the OSI2 Merger and (ii) capital gains incentive fees (“Part II incentive fees”).
- “Adjusted Net Realized and Unrealized Gains (Losses), Net of Taxes” and “Adjusted Net Realized and Unrealized Gains (Losses), Net of Taxes Per Share” – represents net realized and unrealized gains (losses) net of taxes excluding any net realized and unrealized gains (losses) resulting solely from the cost basis established by ASC 805 (see below) for the assets acquired in connection with the OCSI Merger and the OSI2 Merger.
- “Adjusted Earnings (Loss)” and “Adjusted Earnings (Loss) Per Share” – represents the sum of (i) Adjusted Net Investment Income and (ii) Adjusted Net Realized and Unrealized Gains (Losses), Net of Taxes and includes the impact of Part II incentive fees <sup>1</sup>, if any.

The OCSI Merger and the OSI2 Merger (the "Mergers") were accounted for as asset acquisitions in accordance with the asset acquisition method of accounting as detailed in ASC 805-50, Business Combinations—Related Issues ("ASC 805"). The consideration paid to each of the stockholders of OCSI and OSI2 were allocated to the individual assets acquired and liabilities assumed based on the relative fair values of the net identifiable assets acquired other than "non-qualifying" assets, which established a new cost basis for the acquired investments under ASC 805 that, in aggregate, was different than the historical cost basis of the acquired investments prior to the OCSI Merger or the OSI2 Merger, as applicable. Additionally, immediately following the completion of the Mergers, the acquired investments were marked to their respective fair values under ASC 820, Fair Value Measurements, which resulted in unrealized appreciation/depreciation. The new cost basis established by ASC 805 on debt investments acquired will accrete/amortize over the life of each respective debt investment through interest income, with a corresponding adjustment recorded to unrealized appreciation/depreciation on such investment acquired through its ultimate disposition. The new cost basis established by ASC 805 on equity investments acquired will not accrete/amortize over the life of such investments through interest income and, assuming no subsequent change to the fair value of

the equity investments acquired and disposition of such equity investments at fair value, the Company will recognize a realized gain/loss with a corresponding reversal of the unrealized appreciation/depreciation on disposition of such equity investments acquired.

The Company's management uses the non-GAAP financial measures described above internally to analyze and evaluate financial results and performance and to compare its financial results with those of other business development companies that have not adjusted the cost basis of certain investments pursuant to ASC 805. The Company's management believes "Adjusted Total Investment Income", "Adjusted Total Investment Income Per Share", "Adjusted Net Investment Income" and "Adjusted Net Investment Income Per Share" are useful to investors as an additional tool to evaluate ongoing results and trends for the Company without giving effect to the income resulting from the new cost basis of the investments acquired in the Mergers because these amounts do not impact the fees payable to Oaktree Fund Advisors, LLC (the "Adviser") under its investment advisory agreement (as amended and restated from time to time, the "A&R Advisory Agreement"), and specifically as it relates to "Adjusted Net Investment Income" and "Adjusted Net Investment Income Per Share", without giving effect to Part II incentive fees. In addition, the Company's management believes that "Adjusted Net Realized and Unrealized Gains (Losses), Net of Taxes", "Adjusted Net Realized and Unrealized Gains (Losses), Net of Taxes Per Share", "Adjusted Earnings (Loss)" and "Adjusted Earnings (Loss) Per Share" are useful to investors as they exclude the non-cash income and gain/loss resulting from the Mergers and are used by management to evaluate the economic earnings of its investment portfolio. Moreover, these metrics more closely align the Company's key financial measures with the calculation of incentive fees payable to the Adviser under with the A&R Advisory Agreement (i.e., excluding amounts resulting solely from the lower cost basis of the acquired investments established by ASC 805 that would have been to the benefit of the Adviser absent such exclusion).

<sup>1</sup> Adjusted earnings (loss) includes accrued Part II incentive fees. As of and for the three months ended March 31, 2026, there was no accrued Part II incentive fee liability. Part II incentive fees are contractually calculated and paid at the end of the fiscal year in accordance with the A&R Advisory Agreement, which differs from Part II incentive fees accrued under GAAP. For the three months ended March 31, 2026, no Part II incentive fees were payable under the A&R Advisory Agreement.
