

Frost & Sullivan Picks NETSCOUT as Top DDoS Defense in APAC

2018-08-23

NETSCOUT's Arbor DDoS Protection Solutions Cited for Innovation, Automation and Scalability

SINGAPORE--(BUSINESS WIRE)-- **NETSCOUT SYSTEMS, INC.**, (NASDAQ: NTCT), a leading provider of service assurance, security, and business analytics, today announced that it has been named as the best 'Anti-DDoS Solutions Vendor of the Year' at Frost & Sullivan's 15th annual 2018 Asia Pacific ICT Awards. For the third consecutive year, NETSCOUT has been recognized for its commitment to continuously innovating and effectively delivering protection from the full spectrum of modern DDoS attacks to its customers in the region.

Vu Anh Tien, Industry Analyst, Cybersecurity Practice at Frost & Sullivan commented, "NETSCOUT registered another successful year in 2017 as the company continued to dominate the market with robust regional growth, enabling it to solidify market leadership despite stiff competition. NETSCOUT's Arbor solutions provide customers with comprehensive, high-performing and cost-effective solutions to help them protect against volumetric and sophisticated DDoS attacks."

"Vast global intelligence, outstanding expertise in DDoS attack management, extensive network partners around the world, and commitment to automation and innovation allow NETSCOUT to outshine competitors and gain greater popularity among organizations in the region, particularly telcos, governments, and enterprises that run critical information infrastructure," Vu Anh Tien added.

"We are honored to once again be recognized as the leader in the Asia Pacific market for DDoS protection. This demonstrates our unwavering commitment to customers to stay ahead of the threats and ensure that their business operations aren't disrupted by DDoS attacks," said Jeff Buhl, vice president of Asia Pacific for NETSCOUT's security solutions. "As DDoS enters the **terabit attack era**, we remain focused on delivering continuous innovation,

enhanced automation and greater scale so our customers can stay ahead of the threats, no matter where they're headed."

Held in Singapore by the leading Growth Partnership Company, Frost & Sullivan's annual ICT Awards acknowledge the best-in-class companies that demonstrate excellence and dedication to improving the ICT sector as a whole. The contenders were evaluated on a variety of market performance indicators. These include leadership in product innovation, breadth of products and solutions and market share and growth in market share, amongst other category-specific criteria.

About NETSCOUT

NETSCOUT SYSTEMS, INC. (NASDAQ: NTCT) assures digital business services against disruptions in availability, performance, and security. Our market and technology leadership stems from combining our patented smart data technology with smart analytics. We provide real-time, pervasive visibility, and insights customers need to accelerate and secure their digital transformation. Our approach transforms the way organizations plan, deliver, integrate, test, and deploy services and applications. Our nGenius service assurance solutions provide real-time, contextual analysis of service, network, and application performance. Arbor security solutions protect against DDoS attacks that threaten availability and advanced threats that infiltrate networks to steal critical business assets. To learn more about improving service, network, and application performance in physical or virtual data centers, or in the cloud, and how NETSCOUT's performance and security solutions, powered by service intelligence can help you move forward with confidence, visit www.netscout.com or follow @NETSCOUT and @ArborNetworks on Twitter, Facebook, or LinkedIn.
