NEWS RELEASE

MEDIA ALERT: NETSCOUT Systems to Demonstrate Service Assurance Solutions for the Connected World at Interop Las Vegas 2015

2015-04-22

WESTFORD, Mass.--(BUSINESS WIRE)--Apr. 22, 2015-- **NetScout Systems, Inc.** (NASDAQ: NTCT), today announced that it will demonstrate how **nGeniusONE®** Service Assurance platform and Adaptive Service Intelligence™ (ASI) technology allows IT teams to rapidly triage performance issues achieving extraordinary service quality and a flawless user experience at **Interop Las Vegas** being held April 27- May 1, 2015, in Las Vegas at the Mandalay Bay Convention Center. In addition, NetScout is a sponsor of the **InformationWeek Conference**, co-located with Interop, where NetScout solution experts will be available to discuss how these solutions can help assure service delivery in a shared connected world.

WHAT

NetScout will be demonstrating the nGeniusONE service assurance platform and patented ASI technology, and discussing how proactive service triage reduces mean-time-to-knowledge (MTTK) and assures service delivery. Through this solution, NetScout unlocks the power of traffic-based data to gain real-time, actionable intelligence and deliver service assurance for various initiatives including data center, application rollouts, unified communications (UC), cybersecurity, desktop virtualization, bring your own device (BYOD) and cloud services.

WHEN

Interop Expo: Tuesday, April 28 – April 30, 2015
MythBlasters Presentation: Service assurance challenges in the shared connected world
Location: NetScout Systems, Booth #1339

WHERE

NetScout Systems, Inc. at **Interop Las Vegas 2015**, Booth #1339
Solution experts will also be available at the **InformationWeek Conference**, April 27-28
Mandalay Bay Convention Center, Las Vegas, Nevada

WHO

Director of Solutions Marketing, Michael Segal, a seasoned NetScout product management, product marketing and business development professional, will be available on-site to discuss emerging unified communications trends and how they impact the connected world. Michael is an expert in technical areas such as cloud, virtualization, security, IP networking, mobility, Wi-Fi/wireless and VoIP/UC. Find out more about Michael from his **LinkedIn profile**.

Vendor Tech Sessions: Sponsored by NetScout Systems
