NEWS RELEASE

NETSCOUT Demonstrates How Enterprises Can Leverage Smart Data

2018-06-11

Enterprises Learn to “Future Smarter” and Successfully Deliver, Deploy, and Secure Applications and Services across Physical, Virtual, and Cloud Environments

ORLANDO, Fla.--(BUSINESS WIRE)-- Cisco Live, Cisco’s Annual IT and Communications Conference — **NETSCOUT SYSTEMS, INC.** (NASDAQ: NTCT), a leading provider of service assurance, security, and business analytics, announced today it will discuss how enterprises can leverage **Smart Data** technology, which distills real-time, precise, and relevant intelligence from all connected services and their interactions at Cisco Live this week. NETSCOUT will demonstrate how smart data fuels the visibility and analytics needed to protect the enterprise and assure that the user experience is not compromised.

As digital transformation continues to accelerate, application and service complexities are creating unique business challenges. In order to deliver uninterrupted, high-quality services in the digital economy, to “future smarter,” companies must find new ways to extract value from the mountains of data they are accumulating. NETSCOUT makes this possible, enabling enterprises to successfully deliver, deploy, and secure applications and services across physical, virtual, and cloud environments. nGenius Hybrid Cloud Monitoring and Arbor Security Solutions are the key to achieving performance and security assurance.

WHERE:

West Hall, Booth 1753 and Security Village Booth 1767
Orange County Convention Center, Orlando, Florida

WHEN:

June 10 – 14, 2018

WHAT:

NETSCOUT will be demonstrating its award-winning enterprise tools, technology and software solutions that help businesses achieve service and security assurance. Live product demos will include:

Performance Solutions

See how real-time, pervasive visibility and insights can dramatically accelerate digital transformation initiatives that include moving applications to the cloud and hybrid cloud.

- Cloud Migration
- Hybrid Cloud Visibility and Monitoring

Security Solutions

Learn how security teams can use powerful visibility and threat intelligence to understand their own IT environment, as well as threat actors, their tools, behaviors and campaigns on a global scale.

- Multi-Vector DDoS Protection
- Cyber Risk and Response
- Packet Brokers for Security and Service Assurance
- Comprehensive Visibility

Smart Data Solutions

Get the facts about accurate and actionable data for service assurance and security.

- nGeniusONE Platform for Service Delivery Assurance
    - The nGeniusONE platform is powered by Adaptive Service Intelligence™ (ASI) technology, and converges network and application performance management to deliver holistic service visibility across application tiers, end-to-end networks, and diverse user devices.

NETSCOUT thought leaders will be presenting the following Cisco Live Sessions:

Cutting Through the Multi-Cloud Fog

This session will explore and demonstrate methods for gaining visibility into the multi-cloud to deliver exceptional user experience while minimizing risk.

Russ Currie, VP, Enterprise Strategy * Monday, June 11 @ 2:30 -3:30 PM
Location: World of Solutions, Think Tank 2

Application Visibility in Hybrid Multi-Cloud Environments

This session will explore how to get holistic visibility of all traffic, the value of Internet-based threat intelligence, and how to mitigate today's advanced network threats.
Ray Krug, Solution Architect * Tuesday, June 12 @ 12:00 – 12:15 PM
Location: World of Solutions, Campus Arena

Advanced Cyber Risk and Response

This session will explore how the visibility provided by NETSCOUT Smart Data can reduce the risk to the business as applications are migrated and provide DevOps the information they need to migrate their applications to the cloud with confidence.
JP Blaho, Product Marketing Manager * Tuesday, June 12 @ 1:15 – 1:30 PM
Location: World of Solutions, Security Village

DevSecOps is NOT "Just Another Brick in the Wall*"

This session will explore the DevSecOps contribution to the continuous value delivery to customers, while mitigating business risk, and the pivotal role Smart Data plays in this process.
Michael Segal, Area VP Strategic Marketing * Wednesday, June 13 @ 3:45 – 4:00 PM
Location: World of Solutions, Campus Arena

About NETSCOUT

NETSCOUT SYSTEMS, INC. (NASDAQ: NTCT) assures digital business services against disruptions in availability, performance, and security. Our market and technology leadership stems from combining our patented smart data technology with smart analytics. We provide real-time, pervasive visibility, and insights customers need to accelerate and secure their digital transformation. Our approach transforms the way organizations plan, deliver, integrate, test, and deploy services and applications. Our nGenius service assurance solutions provide real-time, contextual analysis of service, network, and application performance. Arbor security solutions protect against DDoS attacks that threaten availability and advanced threats that infiltrate networks to steal critical business assets. To learn more about improving service, network, and application performance in physical or virtual data centers, or in the cloud, and how NETSCOUT's performance and security solutions, powered by service intelligence can help you move forward with confidence, visit **www.netscout.com** or follow @NETSCOUT and @ArborNetworks on Twitter,

Facebook, or LinkedIn.
