NEWS RELEASE

NETSCOUT Demonstrates How to Protect & Grow Mobile Networks

2018-02-23

Communications Service Providers Learn to Leverage Smart Data for Unprecedented Vision, Knowledge, and Speed at #MWC18

WESTFORD, Mass.--(BUSINESS WIRE)--Feb. 23, 2018-- **NETSCOUT SYSTEMS, INC.,** (NASDAQ: NTCT), a leading provider of business assurance, a powerful combination of service assurance, cybersecurity, and business intelligence solutions, today announced we will showcase our expanded service assurance, security and smart data analytics portfolio in our booth at Mobile World Congress 2018 in Barcelona, Spain the week of February 26, 2018. As service providers transition to software-centric networks, automation, and the cloud, they will require total visibility into physical, virtual and hybrid environments.

“With the digital transformation of the service providers’ business, it is important that carriers have a comprehensive service assurance, analytics and security strategy,” stated Bruce Kelley, senior vice president and chief technology officer, NETSCOUT. “NETSCOUT’s end-to-end coverage and **Smart Data technology** puts us in a unique position to assist our service provider customers to cost-effectively transition their network into the cloud. Our carrier-grade solutions provide greater intelligence, allowing communications service providers (CSPs) to accelerate, transform, and innovate their network and their services with confidence.”

NETSCOUT’s industry leading service assurance platform has taken a disruptive pivot to a software-based, pervasive instrumentation model supporting the ongoing change in how CSPs operate their networks. NETSCOUT will have experts on-hand to discuss how leading service providers are deploying **NETSCOUT’s InfiniStreamNG®** as a software-based appliance as part of their NFV initiatives.

WHERE:

Hall 1, Stand 1D70
Fira de Barcelona
Barcelona, Spain

OrbTV at Mobile World Congress

NETSCOUT has once again partnered with **Light Reading** to produce and distribute OrbTV from our booth #1D70 during this event. OrbTV brings together industry thought-leaders, executives, and visionaries. Interviews can be viewed on both the Light Reading website, as well as the **NETSCOUT YouTube channel**. These videos will cover a breadth of topics, trends, and news from Mobile World Congress.

Learn how to secure a smart future with ASI Smart Data. Visit NETSCOUT representatives in our booth and take part in the network revolution.

About NETSCOUT

NETSCOUT SYSTEMS, INC. (NASDAQ: NTCT) assures digital business services against disruptions in availability,

performance, and security. Our market and technology leadership stems from combining our patented smart data technology with smart analytics. We provide real-time, pervasive visibility, and insights customers need to accelerate and secure their digital transformation. Our approach transforms the way organizations plan, deliver, integrate, test, and deploy services and applications. Our nGenius service assurance solutions provide real-time, contextual analysis of service, network, and application performance. Arbor security solutions protect against DDoS attacks that threaten availability and advanced threats that infiltrate networks to steal critical business assets. To learn more about improving service, network, and application performance in physical or virtual data centers, or in the cloud, and how NETSCOUT's performance and security solutions, powered by service intelligence can help you move forward with confidence, visit **www.netscout.com** or follow @NETSCOUT and @ArborNetworks on Twitter, Facebook, or LinkedIn.
