NETSCOUT ENGAGE ’18 Dedicated to Helping Customers Win in the Digital World

2018-04-04

Deep Technical & Operational Insights into the Issues Shaping IT Today; From Digital Transformation and Hybrid Cloud to IoT and Advanced Cyber Threats

WESTFORD, Mass.--(BUSINESS WIRE)--Apr. 4, 2018-- **NETSCOUT SYSTEMS, INC**., (NASDAQ:NTCT), a leading provider of service assurance, security, and business analytics, announced today that **registration is now open** for ENGAGE ’18, the Company’s annual user conference taking place at the Hyatt Regency in Dallas, TX between May 14 - May 17, 2018.

“The NETSCOUT customer base brings together the leading service provider and enterprise organizations in the world. These are the people building, operating and securing the connected world. They are also driving some of the most advanced digital transformation initiatives in operation today,” said Anil Singhal, NETSCOUT’s president and CEO. “ENGAGE is dedicated to education and advancement. It is an opportunity to learn from your peers, to hear and discuss their technical and operational challenges and how they overcame them. I hope you can join us in Dallas.”

Why Attend ENGAGE ’18?

- Collaborate with Peers and Connect with other IT Professionals: ENGAGE offers ample opportunities to have some fun, relax and get to know your fellow peers inside and outside of the classroom. Network with and learn from more than 600 of your colleagues from 50+ countries. Diverse background of attendees includes engineers, architects, IT, DevOps, network and security operations, managed services and marketing.
- Ask the Experts: Chalk-talk your use case: down-to-earth conversations at the whiteboard with executives, engineers and product management teams from all NETSCOUT solutions areas. Discuss your individual

environments, technical complexities and business challenges.

- Boot Camps and Certifications: One of the most popular offerings at ENGAGE - free contextual training with NETSCOUT University Solution Lab experts. Geared for all levels of expertise. Delivered via deep-dive, real-world network incident resolution.
- Hands-on Learning: Expand your knowledge and use cases for the solutions you have today and learn more about future enhancements. Visit the solutions center for hand-on demonstrations and use-case discussions with our product experts.

“We like to think of our businesses as being “data driven”; however, we run the risk of too much data and not enough information. At ENGAGE ‘18, you’ll get to hear about NETSCOUT’s Smart Data solutions, and I will be speaking to how we can leverage this to deliver new applications and services that change the way you deliver value to your customers,” said entrepreneur and technologist Andrew J. Nash.

“Balancing security with the performance of applications and services is a constant challenge for IT professionals,” said Jason Bloomberg, president of analyst firm Intellyx. “In today’s dynamic digital world, threats are constantly evolving as bad actors leverage new mechanisms to compromise the network. At ENGAGE ‘18, I will be addressing how security solutions must evolve to extend visibility beyond the perimeter and edge of the network to secure the modern digital ecosystem.”

- **Register** for ENGAGE ’18.

About NETSCOUT

NETSCOUT SYSTEMS, INC. (NASDAQ: NTCT) assures digital business services against disruptions in availability, performance, and security. Our market and technology leadership stems from combining our patented smart data technology with smart analytics. We provide real-time, pervasive visibility, and insights customers need to accelerate and secure their digital transformation. Our approach transforms the way organizations plan, deliver, integrate, test, and deploy services and applications. Our nGenius service assurance solutions provide real-time, contextual analysis of service, network, and application performance. Arbor security solutions protect against DDoS attacks that threaten availability and advanced threats that infiltrate networks to steal critical business assets. To learn more about improving service, network, and application performance in physical or virtual data centers, or in the cloud, and how NETSCOUT’s performance and security solutions, powered by service intelligence can help you move forward with confidence, visit **www.netscout.com** or follow @NETSCOUT and @ArborNetworks on Twitter, Facebook, or LinkedIn.

Safe Harbor

Forward-looking statements in this release are made pursuant to the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934 and other federal securities laws. Investors are cautioned that statements in this press release, which are not strictly historical statements, including without limitation, the statements related to the benefits and capabilities of NETSCOUT's portfolio of solutions, constitute forward-looking statements which involve risks and uncertainties. Actual results could differ materially from the forward-looking statements due to known and unknown risk, uncertainties, assumptions and other factors. Such factors include slowdowns or downturns in economic conditions generally and in the market for advanced network and service assurance solutions specifically; the volatile foreign exchange environment; the Company's relationships with strategic partners and resellers; dependence upon broad-based acceptance of the Company's network performance management solutions; the presence of competitors with greater financial resources than ours and their strategic response to our products; our ability to retain key executives and employees; and lower than expected demand for the Company's products and services. For a more detailed description of the risk factors associated with the Company, please refer to the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2017 and subsequent Quarterly Reports on Form 10-Q, which are on file with the Securities and Exchange Commission. NETSCOUT assumes no obligation to update any forward-looking information contained in this press release or with respect to the announcements described herein.
