## NETSCOUT Reports Second Quarter Fiscal Year 2026 Financial Results

2025-11-06

### Quarterly Results Exceed Top and Bottom-Line Expectations Company Raises Fiscal Year Outlook

WESTFORD, Mass.--(BUSINESS WIRE)-- NETSCOUT SYSTEMS, INC. (NASDAQ: NTCT), a leading provider of enterprise performance management, carrier service assurance, cybersecurity, and DDoS protection solutions, today announced financial results for its second quarter ended September 30, 2025.

#### Remarks by Anil Singhal, NETSCOUT's President & Chief Executive Officer:

"We delivered another solid quarter in Q2, driven by revenue growth from both our Cybersecurity and Service Assurance product lines as we continued to advance our strategic initiatives, including Al-driven product innovation. Our strong top and bottom-line performance also benefited from the acceleration of some orders originally anticipated in the second half of the fiscal year.

"Looking ahead, given our strong first-half performance, we are raising our revenue and earnings per share outlook while we continue to successfully navigate uncertainties in the macroeconomic environment. We are energized by strong customer feedback, including at our recent Engage Technology and User Summit, where we showcased our latest solutions. It is clear that our customers rely on our highly curated data to drive improved business outcomes across key ecosystems, which positions us well to capture new opportunities through our differentiated solutions."

#### Q2 FY26 Financial Results

Total revenue for the second quarter of fiscal year 2026 increased to \$219.0 million, compared with \$191.1 million

in the second quarter of fiscal year 2025.

Product revenue for the second quarter of fiscal year 2026 was \$94.7 million, or approximately 43% of total revenue in the period. This compares with product revenue of \$81.0 million, or approximately 42% of total revenue in the second quarter of fiscal year 2025. As of September 30, 2025, NETSCOUT had a total product backlog of \$39.8 million, which includes \$27.7 million of fulfillable backlog, \$7.1 million related to a multi-year enterprise license commitment, and \$5.0 million of radio frequency propagation modeling projects. This compares to \$27.1 million on September 30, 2024, consisting of \$22.4 million of fulfillable backlog and \$4.7 million of radio frequency propagation modeling projects.

Service revenue for the second quarter of fiscal year 2026 was \$124.3 million, or approximately 57% of total revenue in the period. This compares with service revenue of \$110.1 million, or approximately 58% in the second quarter of fiscal year 2025.

NETSCOUT'S GAAP income from operations was \$32.5 million in the second quarter of fiscal year 2026, which included a restructuring charge of \$0.3 million. This compares with a GAAP income from operations of \$14.1 million in the second quarter of fiscal year 2025, which included a restructuring charge of \$2.4 million. The Company's GAAP operating margin was 14.8% in the second quarter of fiscal year 2026, versus 7.4% in the same period of fiscal year 2025. Non-GAAP income from operations was \$58.1 million with a non-GAAP operating margin of 26.5% in the second quarter of fiscal year 2026. This compares to non-GAAP income from operations of \$44.1 million and a non-GAAP operating margin of 23.1% in the second quarter of fiscal year 2025. Non-GAAP EBITDA from operations in the second quarter of fiscal year 2026 was \$60.7 million, or 27.7% of quarterly revenue for the period. This compares to non-GAAP EBITDA from operations of \$47.5 million in the second quarter of fiscal year 2025, or 24.9% of quarterly revenue for the period.

Net income (GAAP) for the second quarter of fiscal year 2026 was \$25.8 million, or \$0.35 per share (diluted), which included the restructuring charge mentioned above, versus a GAAP net income of \$9.0 million, or \$0.13 per share (diluted), for the second quarter of fiscal year 2025, which included the previously mentioned restructuring charges. Non-GAAP net income was \$45.1 million or \$0.62 per share (diluted) for the second quarter of fiscal year 2026, compared with \$33.6 million, or \$0.47 per share (diluted), for the second quarter of fiscal year 2025.

As of September 30, 2025, cash, cash equivalents, short and long-term marketable securities and investments were \$526.9 million, compared with \$492.5 million as of March 31, 2025. As previously disclosed, NETSCOUT completed the sale of a foreign investment for the equivalent of \$11.8 million on August 4, 2025. The original purchase price was \$7.5 million. During the second quarter of fiscal year 2026, NETSCOUT repurchased a total of 740,981 shares of its common stock at an average price of \$22.34 per share for an aggregate purchase price of approximately \$16.6 million. As of September 30, 2025, the Company had no debt outstanding under its \$600 million revolving credit

facility, which expires in October 2029.

• A reconciliation between GAAP and non-GAAP numbers for NETSCOUT's fiscal year 2026 outlook is included in the financial tables below.

#### Recent Developments and Highlights

- In late October, the Company announced the availability of extended continuous end-through-end monitoring to enhance attribution for audit controls and incident reports, prove zero-trust network policies, and shorten time to detect, contain, and document incidents. Enhanced monitoring is designed into NETSCOUT's Omnis® KlearSight Sensor for Kubernetes (KlearSight) to help address the complex compliance demands faced in Cloud environments related to both security and regulatory requirements. NETSCOUT's continuous and comprehensive monitoring solutions provide real-time visibility into critical aspects such as workloads, cluster configurations, network traffic, and API calls.
- In October, NETSCOUT announced an innovation aimed at meeting organizations' increasing needs for comprehensive observability within complex cloud environments. KlearSight delivers deep, actionable, and real-time insights into system performance, health, and cost drivers. The solution is specifically designed to support environments that are challenging to monitor due to their encrypted nature, such as dynamic and distributed architectures.
- In late September, NETSCOUT hosted its annual Engage Technology and User Summit, gathering tech leaders and innovators who are shaping the future of Observability, AlOps, and Cybersecurity. NETSCOUT is driving intelligence into Observability and AlOps to feed the need for actionable telemetry derived from wire data and to leverage the unmatched power of its scalable DPI and metadata technology.
- In late September, NETSCOUT announced solutions to support cable providers and multiple service operators (MSOs). NETSCOUT's Omnis™ Al Insights generates a high-fidelity, curated dataset to provide real-time network visibility, ensuring a high-quality user experience for video streaming and over-the-top (OTT) services to help MSOs deliver better high-quality user experiences more cost-effectively.
- In late August, NETSCOUT released its latest research detailing the evolving Distributed Denial-of-Service (DDoS) attack landscape. The Company monitored more than 8 million DDoS attacks globally in the first half of 2025, including more than 3.2 million in EMEA. NETSCOUT maps the DDoS landscape through passive, active, and reactive vantage points, providing unparalleled visibility into global attack trends.

#### **Use of Non-GAAP Financial Information:**

To supplement the financial measures presented in NETSCOUT's press release in accordance with accounting principles generally accepted in the United States (GAAP), NETSCOUT also reports the following non-GAAP measures: non-GAAP gross profit, non-GAAP income from operations, non-GAAP operating margin, non-GAAP net income, non-GAAP diluted net income per share, and non-GAAP earnings before interest and other expense, income taxes, depreciation, and amortization from operations (Non-GAAP EBITDA from operations). Non-GAAP gross profit removes expenses related to the amortization of acquired intangible assets, share-based compensation expense, and acquisition-related depreciation expense. Non-GAAP income from operations includes the aforementioned adjustments related to non-GAAP gross profit and also removes goodwill impairment charges, executive transition costs, and restructuring charges. Non-GAAP operating margin includes the foregoing adjustments related to non-GAAP income from operations. Non-GAAP net income includes the foregoing adjustments related to non-GAAP income from operations, and also removes the income tax effects of such adjustments. Non-GAAP diluted net income per share includes the foregoing adjustments related to non-GAAP net income. Non-GAAP EBITDA from operations includes the aforementioned adjustments related to non-GAAP income from operations and also removes non-acquisition related depreciation expense. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures included in the attached tables within this press release.

These non-GAAP measures are not in accordance with GAAP, should not be considered an alternative for measures prepared in accordance with GAAP (gross profit, operating margin, net income, and diluted net income per share), and may have limitations because they do not reflect all NETSCOUT's results of operations as determined in accordance with GAAP. These non-GAAP measures should only be used to evaluate NETSCOUT's results of operations in conjunction with the corresponding GAAP measures. The presentation of non-GAAP information is not meant to be considered superior to, in isolation from, or as a substitute for results prepared in accordance with GAAP. NETSCOUT believes these non-GAAP financial measures will enhance the reader's overall understanding of NETSCOUT's current financial performance and NETSCOUT's prospects for the future by providing a higher degree of transparency for certain financial measures and providing a level of disclosure that helps investors understand how the Company plans and measures its own business. NETSCOUT believes that providing these non-GAAP measures affords investors a view of NETSCOUT's operating results that may be more easily compared to peer companies and also enables investors to consider NETSCOUT's operating results on both a GAAP and non-GAAP basis during and following the integration period of NETSCOUT's acquisitions. Presenting the GAAP measures on their own, without the supplemental non-GAAP disclosures, might not be indicative of NETSCOUT's core operating results. Furthermore, NETSCOUT believes that the presentation of non-GAAP measures when shown in conjunction

with the corresponding GAAP measures provides useful information to management and investors regarding present and future business trends relating to its financial condition and results of operations.

NETSCOUT management regularly uses supplemental non-GAAP financial measures internally to understand, manage and evaluate its business and to make operating decisions. These non-GAAP measures are among the primary factors that management uses in planning and forecasting.
