NEWS RELEASE

NETSCOUT to Demonstrate Service Assurance Solutions for Visibility, Insight, Innovation and Security at the Internet & Television Expo 2016

2016-05-16

BOSTON--(BUSINESS WIRE)--May 16, 2016-- Today at Internet and Television Expo (INTX) 2016 hosted by the National Cable & Telecommunications Association (NCTA), **NETSCOUT SYSTEMS, INC.** (NASDAQ: NTCT), a market leader in service assurance and cybersecurity solutions, announced that it will demonstrate the NETSCOUT **nGeniusONE**® Service Assurance platform, the IRIS Traffic Analyzer, Arbor Networks DDoS protection and network security solutions and WiFi analyzer and software, as well as discuss how these tools provide Cable operators with a comprehensive, end-to-end solution for achieving visibility, insight, innovation and security throughout the network. NETSCOUT will showcase how it can deliver Cable operation teams a comprehensive suite of tools for achieving extraordinary service quality and a flawless user experience at INTX this week in Boston.

WHERE:

INTX 2016, NETSCOUT Booth 852

Boston Convention & Exhibition Center, Boston, MA.

WHEN:

Date: May 16-18, 2016

As Guardians of the Connected World, NETSCOUT supplies customers with time-sensitive actionable intelligence based on the traffic carried across their networks so that they can drive a better return on their infrastructure investments, reduce the tangible risks associated with downtime and ensure a high-quality user experience. Since the world today hinges on the flow of information, NETSCOUT helps customers ensure that 'There is no Off' for their

network. NETSCOUT's solutions enable customers to take a proactive approach to managing their systems and keeping them running smoothly. As a result, customers can innovate with confidence to take advantage of technology advances while delivering capital and operational savings along with a high-quality end-user experience.

About NETSCOUT SYSTEMS, INC.

NETSCOUT SYSTEMS, INC. (NASDAQ: NTCT) is a market leader in real-time service assurance and cybersecurity solutions for today's most demanding service provider, enterprise and government networks. NETSCOUT's Adaptive Service Intelligence (ASI) technology continuously monitors the service delivery environment to identify performance issues and provides insight into network-based security threats, helping teams to quickly resolve issues that can cause business disruptions or impact user experience. NETSCOUT delivers unmatched service visibility and protects the digital infrastructure that supports our connected world. To learn more, visit **www.netscout.com**.
