NEWS RELEASE

SANS Webinar Featuring NETSCOUT & Arbor Networks: How to Use Your Network to Fend Off the Latest Cyber Threats

2017-01-11

Moderated by SANS Institute Director John Pescatore

BURLINGTON, Mass.--(BUSINESS WIRE)--Jan. 11, 2017-- **Arbor Networks Inc.**, the security division of NETSCOUT (NASDAQ: NTCT), announced that it will be participating in a SANS webinar titled **How to Use Your Network to Fend Off the Latest Cyber Threats** on January 12. The webinar will be moderated by SANS Institute's John Pescatore, who will be joined by Ann Sun of NETSCOUT and Arabella Hallawell of Arbor Networks.

The webinar will focus on the latest cyber-attack methods and approaches facing security teams, including ransomware. It will cover how identifying malicious or suspicious network traffic communications can be the key to faster detection and effective response. Attendees of this webinar will learn how to rapidly identify the signs of intrusion and shut down malicious activity in the network. Participants will also learn how to access data where and when you need it from your security infrastructure.

Date: Thursday, January 12, 2017
Time: 11:00 a.m. ET
Duration: 60 minutes

About Arbor Networks

Arbor Networks, the security division of **NETSCOUT**, is driven to protect the infrastructure and ecosystem of the internet. It is the principle upon which we were founded in 2000 and remains the common thread that runs

through all that we do today. Arbor's approach is rooted in the study of network traffic. Arbor's suite of visibility, DDoS protection and advanced threat solutions provides customers with a micro view of their network enhanced by a macro view of global internet traffic and emerging threats through our ATLAS infrastructure. Sourced from more than 300 service provider customers, ATLAS delivers intelligence based on insight into approximately 1/3 of global internet traffic. Supported by Arbor's Security Engineering & Response Team (ASERT), smart workflows and rich user context, Arbor's network insights help customers see, understand and solve the most complex and consequential security challenges facing their organizations.

To learn more about Arbor products and services, please visit our website at **arbornetworks.com** or follow on Twitter **@ArborNetworks**. Arbor's research, analysis and insight is shared via the **ASERT blog**. For a global data visualization of DDoS attacks that leverages our ATLAS intelligence, visit the **Digital Attack Map**, a collaboration with Jigsaw, an incubator within Alphabet, Google's parent company (NASDAQ: GOOGL).
