

BURFORD CAPITAL REPORTS FIRST HALF AND SECOND QUARTER 2023 FINANCIAL RESULTS; STRONGEST SET OF SIX-MONTH FINANCIAL RESULTS IN BURFORD'S HISTORY

2023-09-13

NEW YORK, Sept. 13, 2023 /PRNewswire/ -- Burford Capital Limited ("Burford"), the leading global finance and asset management firm focused on law, today announces its unaudited financial results at and for the three and six months ended June 30, 2023.¹ Burford's report on Form 6-K at and for the three and six months ended June 30, 2023, including unaudited condensed consolidated financial statements (the "2Q23 Quarterly Report"), is available on the Burford Capital website at <http://investors.burfordcapital.com>.

Christopher Bogart, Chief Executive Officer of Burford Capital, commented:

"We have produced the strongest set of six-month financial results in Burford's history, with net income attributable to shareholders of nearly \$240 million and tangible book value per share growth of 12% over the past six months. Our core portfolio generated a lot of cash with realized gains tripling on our core portfolio realizations, and new business was very strong. Our new valuation methodology is sensitive to interest rate changes and thus higher rates during the first six months of 2023 were a headwind for the fair value of our core portfolio, especially during the second quarter, but these valuation movements are non-cash and unrealized and are expected to continue to fluctuate over time. Operating expenses reflect strong portfolio performance and certain idiosyncratic events."

¹ In this announcement, references to (1) "2Q23" and "2Q22" are to Burford's unaudited financial results for the three months ended June 30, 2023 and 2022, respectively, and (2) "1H23" and "1H22" are to Burford's unaudited financial results for the six months ended June 30, 2023 and 2022, respectively. All figures in this announcement are unaudited and presented on a consolidated basis in accordance with the generally accepted accounting principles in the United States ("US GAAP"), unless otherwise stated. Definitions, reconciliations and information additional to those set forth in this announcement are available on the Burford Capital website and in the 2Q23 Quarterly Report (as defined above). In addition, Burford applied its revised valuation methodology for capital provision assets to its unaudited condensed consolidated financial statements at June 30, 2023 and for the three and six months ended June 30, 2023 and 2022 included in this announcement. Thus, for comparative purposes, this announcement contains Burford's restated unaudited condensed consolidated financial statements for the six months ended June 30, 2022. However, because Burford has not previously issued quarterly financial statements, the unaudited condensed consolidated financial statements for the three months ended June 30, 2022 contained in this announcement have not historically been presented and therefore are not a restatement of previously issued unaudited condensed consolidated financial statements.

Definitions and Use of Non-GAAP Financial Measures and Alternative Performance Measures

Burford reports its financial results in accordance with US GAAP. US GAAP requires us to present financial statements that consolidate some of the limited partner interests in private funds we manage as well as assets held on our balance sheet where we have a partner or minority investor. We therefore refer to various presentations of our financial results as follows:

- *Consolidated* refers to assets, liabilities and activities that include those third-party interests, partially owned subsidiaries and special purpose vehicles that we are required to consolidate under US GAAP. At the date of this announcement, the major entities where there is also a third-party partner in, or owner of, those entities include BCIM Strategic Value Master Fund, LP, Burford Opportunity Fund C LP, Burford Advantage Master Fund LP, Colorado Investments Limited ("Colorado") and several other entities in which Burford holds investments where there is also a third-party partner in, or owner of, those entities.
- *Burford-only* refers to assets, liabilities and activities that pertain only to Burford on a proprietary basis, excluding any third-party interests and the portions of jointly owned entities owned by others.
- *Group-wide* refers to the totality of assets managed by Burford, including those portions of the private funds owned by third parties and including private funds that are not consolidated within Burford's consolidated financial statements. Group-wide is therefore the sum of Burford-only and non-controlling interests in consolidated and non-consolidated private funds. Group-wide does not include third-party interests in capital provision assets, the economics of which have been sold to those third parties, that do not meet the criteria to be recognized as a sale under US GAAP. This includes the third-party interests in Colorado and other capital provision asset subparticipations.

We subdivide our capital provision assets into two categories:

- *Direct*, which includes all of our capital provision assets that we have originated directly (i.e., not through participation in a private fund) from our balance sheet. We also include direct (i.e., not through participation in a private fund) complex strategies assets in this category.
- *Indirect*, which includes our balance sheet's participations in two of our private funds (i.e., BCIM Strategic Value Master Fund, LP and Burford Advantage Master Fund LP).

We also use certain unaudited alternative performance measures, including:

- *Internal rate of return* ("IRR") is a discount rate that makes the net present value of a series of cash flows equal to zero and is expressed as a percentage figure. We compute IRR on concluded (including partially concluded) legal finance assets by treating that entire portfolio (or, when noted, a subset thereof) as one undifferentiated pool of capital and measuring actual and, if necessary, estimated inflows and outflows from that pool, allocating costs appropriately. IRRs do not include unrealized gains or losses.
- *Return on invested capital* ("ROIC") from a concluded asset is the absolute amount of realizations from such asset in excess of the amount of expenditure incurred in funding such asset divided by the amount of expenditure incurred, expressed as a percentage figure. ROIC is a measure of our ability to generate absolute returns on our assets. Some industry participants express returns on a multiple of invested capital ("MOIC") instead of a ROIC basis. MOIC includes the return of capital and, therefore, is 1x higher than ROIC. In other words, 70% ROIC is the same as 1.70x MOIC.

Other unaudited alternative performance measures and terms we use include:

- *Commitment* is the amount of financing we agree to provide for a legal finance asset. Commitments can be definitive (requiring us to provide funding on a schedule or, more often, when certain expenses are incurred) or discretionary (allowing us to provide funding after reviewing and approving a future matter). Unless otherwise indicated, commitments include deployed cost and undrawn commitments.
- *Deployment* refers to the funding provided for an asset, which adds to our deployed cost in such asset.
- *Deployed cost* is the amount of funding we have provided for an asset at the applicable point in time.
- *Fair value adjustment* is the amount of unrealized gain or loss recognized in our consolidated statements of operations in the relevant period and added to or subtracted from, as applicable, the asset or liability value in our consolidated statements of financial position.
- *Portfolio* includes deployed cost, net unrealized gains or losses and undrawn commitments.
- *Realization*: A legal finance asset is realized when the asset is concluded (i.e., when litigation risk has been resolved). A realization will result in us receiving cash or, occasionally, non-cash assets or recognizing a due from settlement receivable, reflecting what we are owed on the asset.
- *Realized gain / loss* reflects the total amount of gain or loss generated by a legal finance asset when it is realized, calculated as realized proceeds less deployed cost, without regard for any previously recognized fair value adjustment.
- *Unrealized gain / loss* represents the fair value of our legal finance assets over or under their funded cost, as determined in accordance with the requirements of the applicable US GAAP standards, for the relevant financial reporting period (consolidated statement of operations) or cumulatively (consolidated statement of financial position).
- *YPF-related assets* refers to our Petersen and Eton Park legal finance assets, which are two claims relating to Republic of Argentina's nationalization of YPF S.A., the Argentine energy company.

We also use certain non-GAAP financial measures, including:

- *Cash receipts* provide a measure of the cash that our capital provision and other assets generate during a given period as well as cash from certain other fees and income. In particular, cash receipts represent the cash generated from capital provision and other assets, including cash proceeds from realized or concluded assets and any related hedging assets, and cash received from asset management income, services and/or other income, before any deployments into funding existing or new assets. Cash receipts are a non-GAAP financial measure and should not be considered in isolation from, as a substitute for, or superior to, financial measures calculated in accordance with US GAAP. The most directly comparable measure calculated in accordance with US GAAP is proceeds from capital provision assets as set forth in our consolidated statements of cash flows. We believe that cash receipts are an important measure of our operating and financial performance and are useful to management and investors when assessing the performance of our Burford-only capital provision assets.
- *Tangible book value attributable to Burford Capital Limited* is calculated by subtracting intangible assets (such as goodwill) from total Burford Capital Limited equity. *Tangible book value attributable to Burford Capital Limited per ordinary share* is calculated by dividing tangible book value attributable to Burford Capital Limited by the total number of outstanding ordinary shares. Each of tangible book value attributable to Burford Capital Limited and tangible book value attributable to Burford Capital Limited per ordinary share is a non-GAAP financial measure and should not be considered in isolation from, as a substitute for, or superior to, financial measures calculated in accordance with US GAAP. The most directly comparable measure calculated in accordance with US GAAP is total Burford Capital Limited equity as set forth in our consolidated statements of

financial position. We believe that tangible book value attributable to Burford Capital Limited per ordinary share is an important measure of our financial condition and is useful to management and investors when assessing capital adequacy and our ability to generate earnings on tangible equity invested by our shareholders.

For additional information, including reconciliations of our non-GAAP financial measures to the most directly comparable US GAAP measures and reconciliations of our alternative performance measures additional to those set forth in this announcement, see the 2Q23 Quarterly Report furnished to the US Securities and Exchange Commission on September 13, 2023 and made available on our website at <http://investors.burfordcapital.com>. Non-GAAP financial measures should not be considered in isolation from, as substitutes for, or superior to, financial measures calculated in accordance with US GAAP.
