Issuance of New Ordinary Shares in Connection with LTIP

Burford Capital Limited ("Burford" or the "Company"), the leading global finance and asset management firm focused on law, today announces that, in connection with the Burford Capital 2016 Long Term Incentive Plan (the "LTIP"), on June 30, 2026, Burford has issued 1,823 new ordinary shares, no par value per share ("Ordinary Shares"), to satisfy the vesting of restricted share units pursuant to the realization of awards under the LTIP on June 29, 2026.

Application will be made for these 1,823 new Ordinary Shares to be admitted to trading on the AIM market of the London Stock Exchange plc, with an expected date of admission of July 8, 2026. These 1,823 new Ordinary Shares will also be listed on the New York Stock Exchange.

Following the issuance of these new Ordinary Shares, the Company's issued ordinary share capital is 221,829,450, of which 2,244,947 Ordinary Shares are held in treasury and do not have any voting rights. Therefore, the total number of voting rights in the Company, excluding treasury shares, will be 219,584,503 after giving effect to the issuance of these new Ordinary Shares. This figure for the total number of voting rights may be used by shareholders as the denominator for the calculations by which they will determine if they are required to notify their interest in the Company under the Disclosure Guidance and Transparency Rules of the UK Financial Conduct Authority.

The Company notes that, during the course of June and July 2026, it has issued shares in connection with a number of separate compensation-related obligations arising at different times. Each of these events has a distinct calculation date and settlement timetable, and in this instance it was not practicable to consolidate them into a single issuance or announcement. Accordingly, the Company has made, and is required to make, separate regulatory announcements.
