Voyager Awarded Multi-Million-Dollar Contract for an Agentic-AI Platform

2026-07-09

DENVER--(BUSINESS WIRE)-- Voyager Technologies (NYSE: VOYG) was awarded a contract to deliver an agentic-AI spectrum operations platform for an undisclosed program.

“There is a critical and urgent need for intelligent tools that help operators optimize everything from mission management and command and control to intelligence extraction and exploitation of ground, sea, air and space systems, enabling them to move smarter and faster,” said Matt Kuta, president, Voyager. “Our agentic solution is a total spectrum operations platform that supports a broader ecosystem across domains.”

Voyager’s agentic platform will support the full lifecycle of autonomous systems operations, from mission planning and execution to data management and exploitation. The yearlong contract focuses on explainable AI, human-machine teaming and modular open architectures, priorities that align with the U.S. government’s long-term vision for next-generation mission systems.

Cautionary Statement Concerning Forward-Looking Statements:

This press release contains “forward-looking statements.” All statements, other than statements of historical fact, including those with respect to Voyager Technologies, Inc.’s (the “Company’s”) mission statement and growth strategy, are “forward-looking statements.” Although the Company’s management believes that such forward-looking statements are reasonable, it cannot guarantee that such expectations are, or will be, correct. These forward-looking statements involve many risks and uncertainties, which could cause the Company’s future results to differ materially from those anticipated. Potential risks and uncertainties include, among others, the Company’s ability to sustain and generate growth, ability to generate a sustainable order rate for its products and services and develop new technologies to meet customer needs, general economic conditions and conditions affecting the industries in which the Company operates; the uncertainty of regulatory requirements and approvals; and the ability to obtain necessary financing on acceptable terms or at all. Readers should not place any undue reliance on forward-looking statements since they involve these known and unknown uncertainties and other factors which are, in some cases, beyond the Company’s control and which could, and likely will, materially affect actual results, levels of activity, performance or achievements. Any forward-looking statement reflects the Company’s current views with respect to future events and is subject to these and other risks, uncertainties and assumptions relating to operations, results of operations, growth strategy and liquidity. The Company assumes no obligation to publicly update or revise these forward-looking statements for any reason, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.
