# Voyager Onboards USAF Enterprise-wide Agile Acquisition Contract

2025-04-07

DENVER, April 7, 2025 /PRNewswire/ — Voyager Technologies, Inc. (Voyager), a global leader in defense technology and space solutions, secured its place under the U.S. Air Force Enterprise-wide Agile Acquisition Indefinite Delivery/Indefinite Quantity (IDIQ), establishing the contractual framework for future weapons systems requirements development, studies and demonstrations.

“A weapon system is only as good as the sum of its parts,” said Matt Magaña, president, Defense & National Security, Voyager. “We believe our enabling technologies are positioned to drive innovative capabilities into weapons systems with increased speed and agility.”

Voyager provides next-gen solid propulsion technology and associated systems for divert, attitude, post-boost and reaction and roll-control systems. These systems are the propulsion workhorses that direct energy-output to orient, position and steer missiles and payloads.

The propulsion products meet stringent Department of Defense requirements, performing under extreme conditions to substantially enhance performance. Applications include missile defense interceptors and kill vehicles; strategic, tactical and hypersonic missiles, and reentry systems; and civil, commercial and military space launch systems and payloads.

Primary IDIQ customers include AFLCMC/EB divisions, SOCOM Det-1, Air Force Research Lab (AFRL), and the Air Force Nuclear Warfare Center (AFNWC). Other service departments and federal agencies may be authorized to use IDIQ if their requirement complements, supplements, or supports the Air Force Air Armament’s mission.

## About Voyager:

Voyager Technologies, Inc. (Voyager) is a defense and space technology company committed to advancing and delivering transformative, mission-critical solutions. By tackling the most complex challenges, Voyager aims to unlock new frontiers for human progress, fortify national security and protect critical assets from ground to space. ## Cautionary Statement Concerning Forward-Looking Statements

This press release contains “forward-looking statements.” All statements, other than statements of historical fact, including those with respect to Voyager Technologies, Inc.’s (the “Company’s”) mission statement and growth strategy, are “forward-looking statements.” Although the Company’s management believes that such forward-looking statements are reasonable, it cannot guarantee that such expectations are, or will be, correct. These forward-looking statements involve many risks and uncertainties, which could cause the Company’s future results to differ materially from those anticipated. Potential risks and uncertainties include, among others, general economic conditions and conditions affecting the industries in which the Company operates; the uncertainty of regulatory requirements and approvals; and the ability to obtain necessary financing on acceptable terms or at all. Readers should not place any undue reliance on forward-looking statements since they involve these known and unknown uncertainties and other factors which are, in some cases, beyond the Company’s control and which could, and likely will, materially affect actual results, levels of activity, performance or achievements. Any forward-looking statement reflects the Company’s current views with respect to future events and is subject to these and other risks, uncertainties and assumptions relating to operations, results of operations, growth strategy and liquidity. The Company assumes no obligation to publicly update or revise these forward-looking statements for any reason, or to update the reasons that actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.
