Voyager Technologies Ushers in a New Era of Innovation and Leadership in Defense and Space

2025-01-16

DENVER, Jan. 16, 2025 /PRNewswire/ — Voyager Space today announced its evolution to Voyager Technologies, Inc. (Voyager), this formalizes the company's position as a trusted leader in national security and space innovation. This strategic shift highlights Voyager's capabilities and position across broad technology markets and underscores our commitment to delivering mission-critical solutions that address the most complex challenges from ground to orbit.

"Our new identity as Voyager Technologies signals a bold step forward," said Dylan Taylor, Chairman and CEO of Voyager. "This is more than a name change—it's a declaration to the broader market of our expanded capabilities and our role as a driving force with proven impact across multiple diverse domains. This evolution showcases the breadth and depth of our mission enabling capabilities and solutions."

As part of this evolution, Voyager has also organized its operations into three business segments: Defense & National Security, focusing on defense systems, spectrum dominance, communications systems, guidance and navigation systems, and national security space; Space Solutions, delivering cutting-edge space and science systems including the Bishop Airlock, advanced exploration systems, space science and mission management; and Starlab Space Stations, developing the next generation of commercial space infrastructure to ensure continued human presence in Low Earth Orbit (LEO).

"This transformation positions Voyager to meet the growing demands of an increasingly complex global geopolitical landscape and a new era of exploration," added Matthew Kuta, President of Voyager. "While defense and national security have always been a cornerstone of our business, we are now publicly elevating this focus as we continue to provide trusted, transformative solutions to our partners and customers across the U.S. government and global

industries.”

Voyager’s legacy of innovation will continue across its operations, from its leadership in national security technologies and space systems to its pioneering work in commercial space infrastructure. Now operating as Voyager Technologies, we are positioned to deliver mission enabling products and technologies and end-to-end mission solutions for the future.

About Voyager:

Voyager Technologies, Inc. (Voyager) is a defense and space technology company committed to advancing and delivering transformative, mission-critical solutions. By tackling the most complex challenges, Voyager aims to unlock new frontiers for human progress, fortify national security, and protect critical assets from ground to space. Cautionary Statement Concerning Forward- Looking Statements:

This press release contains “forward-looking statements.” All statements, other than statements of historical fact, including those with respect to Voyager Technologies, Inc.’s (the “Company’s”) mission statement and growth strategy, are “forward-looking statements.” Although the Company’s management believes that such forward-looking statements are reasonable, it cannot guarantee that such expectations are, or will be, correct. These forward-looking statements involve many risks and uncertainties, which could cause the Company’s future results to differ materially from those anticipated. Potential risks and uncertainties include, among others, general economic conditions and conditions affecting the industries in which the Company operates; the uncertainty of regulatory requirements and approvals; and the ability to obtain necessary financing on acceptable terms or at all. Readers should not place any undue reliance on forward-looking statements since they involve these known and unknown uncertainties and other factors which are, in some cases, beyond the Company’s control and which could, and likely will, materially affect actual results, levels of activity, performance or achievements. Any forward-looking statement reflects the Company’s current views with respect to future events and is subject to these and other risks, uncertainties and assumptions relating to operations, results of operations, growth strategy and liquidity. The Company assumes no obligation to publicly update or revise these forward-looking statements for any reason, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.
