# Voyager's Science Park Signs Memorandum of Understanding with NASA's Glenn Research Center

2026-01-26

DENVER--(BUSINESS WIRE)-- Voyager Technologies (NYSE: VOYG) signed a memorandum of understanding with NASA's Glenn Research Center in Cleveland, Ohio, expanding the Voyager Institute for Space, Technology and Advancement (VISTA) science park ecosystem and establishing a new collaboration to advance variable gravity research.

"This agreement with NASA Glenn reinforces VISTA as an open, collaborative ecosystem designed to accelerate research, innovation and space commercialization," said Jeffrey Manber, special assistant to the CEO, Voyager. "VISTA is scaling rapidly and we're actively welcoming tenants across academia, government and industry to work side-by-side, turning breakthrough science into real-world impact."

Under the MOU, NASA Glenn and VISTA will foster engagement through technical exchanges, collaborative discussions and potential educational outreach, including programs such as Voyager's High School Students United with NASA, or HUNCH. These efforts will strengthen the talent pipeline, deepen national research capabilities, and accelerate pathways for innovation and technology transition.

VISTA is a state-of-the-art science park ecosystem that brings together Fortune 500 companies, leading universities, cutting-edge startups and federal agencies focused on advancing in-space science, research and manufacturing. The ecosystem recently expanded to include the University of Connecticut and the University of North Dakota, further strengthening VISTA's national footprint and establishing a foundation for future global collaboration.

## About Voyager Technologies

Voyager Technologies is a defense and space technology company committed to advancing and delivering transformative, mission-critical solutions. By tackling the most complex challenges, Voyager aims to unlock new frontiers for human progress, fortify national security, and protect critical assets from ground to space. ## Cautionary Statement Concerning Forward-Looking Statements:

This press release contains “forward-looking statements.” All statements, other than statements of historical fact, including those with respect to Voyager Space, Inc.’s (the “Company’s”) mission statement and growth strategy, are “forward-looking statements.” Although the Company’s management believes that such forward-looking statements are reasonable, it cannot guarantee that such expectations are, or will be, correct. These forward-looking statements involve many risks and uncertainties, which could cause the Company’s future results to differ materially from those anticipated. Potential risks and uncertainties include, among others, general economic conditions and conditions affecting the industries in which the Company operates; the uncertainty of regulatory requirements and approvals; and the ability to obtain necessary financing on acceptable terms or at all. Readers should not place any undue reliance on forward-looking statements since they involve these known and unknown uncertainties and other factors which are, in some cases, beyond the Company’s control and which could, and likely will, materially affect actual results, levels of activity, performance or achievements. Any forward-looking statement reflects the Company’s current views with respect to future events and is subject to these and other risks, uncertainties and assumptions relating to operations, results of operations, growth strategy and liquidity. The Company assumes no obligation to publicly update or revise these forward-looking statements for any reason, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.
