

NEWS RELEASE

Claritev Invests in Klaim, Inc. to Accelerate Provider Payment Solutions Across the U.S. and MENA Region

2025-10-27

The investment expands Claritev's presence in the MENA region connecting Claritev's U.S. presence with Klaim's healthcare-fintech expertise from the Middle East.

MCCLEAN, Va. & RIYADH, Saudi Arabia--(BUSINESS WIRE)-- Claritev Corporation ("Claritev" or the "Company") (NYSE: CTEV), a global leader in healthcare analytics and claims analysis, today announced a strategic investment in Klaim, Inc., an AI-driven healthcare payment-acceleration solutions provider. The investment will help fund the launch of a co-branded Payment Acceleration Service integrated within Claritev's extensive provider network, helping healthcare organizations gain faster and more predictable access to reimbursements across the U.S. and MENA regions.

This investment and relationship strengthen Claritev's strategic expansion in the MENA region while supporting Klaim's expansion across the U.S. Together, the companies can combine Claritev's deep payor-provider infrastructure and ACE analytics platform with Klaim's proven payment-acceleration technology, aiming to set a new benchmark for liquidity access and operational efficiency in healthcare finance.

The Claritev-Klaim Payment Acceleration platform is designed to allow eligible healthcare providers in the U.S. and MENA region to convert pending insurance claims into near-instant liquidity, reducing the typical 30-120-day reimbursement cycle.

As part of the collaboration, Klaim will leverage Claritev's Advanced Code Editing (ACE) technology for claim coding intelligence to enable evaluation of claims qualified for funding.

Additional key benefits to participating providers are anticipated to include:

- Certainty of payment for qualifying claims and reduced risk of cash flow gaps due to denials or delays
- Flexible usage as providers can choose the volume of claims to accelerate, based on their working capital needs
- Reduced administrative burden as Klaim undertakes reconciliation and payor follow-up for accelerated claims
- Scalable access, making the platform suitable for small clinics, large hospitals and multi-specialty networks

“Our investment in Klaim reflects Claritev’s commitment to modernizing provider cash flow and strengthening financial resilience across the healthcare system,” said Will Mintz, Chief Strategy Officer at Claritev. “By combining Claritev’s trusted provider relationships and ACE technology with Klaim’s fintech infrastructure, we’re helping providers get paid faster and operate with greater confidence.”

“This relationship is about unlocking liquidity at scale for healthcare providers,” added Karim Dakki, Co-Founder & CEO of Klaim. “Together with Claritev, we’re bringing a data-driven solution that turns delayed reimbursements into predictable cash flow, helping practices stay focused on delivering care rather than chasing payments. The investment also marks the beginning of Klaim’s global restructuring, which is anticipated to bring together Klaim Middle East (under Klaim Holdings Limited) and Klaim, Inc. under a planned global holding company.”

About Claritev

Claritev is a healthcare technology, data and insights company focused on improving affordability, transparency and quality. Led by a team of deeply experienced associates, data scientists and innovators, Claritev provides tech-enabled solutions and services fueled by multiple data sources and over 40 years of claims repricing experience. Claritev utilizes world-class technology and AI solutions to power a robust enterprise platform that delivers meaningful insights to drive affordability in healthcare, brings price transparency and optimizes networks and benefits design. By focusing on purpose-built solutions that support all key players—including payors, employers, patients, providers and third parties—Claritev aims to make healthcare more accessible and affordable for all.

Claritev serves more than 700 healthcare payors, over 100,000 employers, 60 million consumers, and 1.4 million contracted providers. For more information, visit claritev.com.

About Klaim, Inc.

Klaim, Inc. is healthcare-fintech company founded by Karim Dakki and Ghafoor Ahmad. Klaim enables healthcare providers to accelerate insurance reimbursements and improve cash flow predictability through proprietary AI-powered funding technology.
