# Ambiq Names Jeff Winzeler as Chief Financial Officer

2025-06-02

AUSTIN, TX, June 02, 2025 – Ambiq®, a technology leader in ultra-low-power semiconductor solutions for edge AI, is pleased to announce Jeff Winzeler as Ambiq’s new Chief Financial Officer (CFO).

Jeff Winzeler brings extensive CFO and COO experience in the semiconductor and renewable energy industries. He has successfully led global finance teams at both private and public startups, including Kandou AI, Everspin Technologies, Avnera, Rackwise, Solar Power Incorporated, and International DisplayWorks.

Throughout his career living and working in the U.S., Asia, Europe, and the Middle East, Winzeler has raised over \$1 billion in equity and debt financing to fuel business growth while managing Finance, Information Technology, Human Relations, Operations, Procurement, and Investor Relations.

“We are excited to welcome Jeff to Ambiq’s executive team,” says Fumihide Esaka, CEO of Ambiq. “We are confident that his proven track record in successfully leading finance organizations and operations will help Ambiq’s momentum as we enter into the next stage of our company’s growth.”

“I’m thrilled to join Ambiq at such a pivotal time in the edge AI and ultra-low-power computing space,” says Jeff Winzeler, CFO of Ambiq. “The company’s innovative technology and strong market position create an exceptional foundation for sustainable growth. I look forward to working with the talented team to maximize financial performance and deliver value to our stakeholders as we scale the business globally.”

Ambiq

Ambiq’s mission is to enable intelligence (artificial intelligence (AI) and beyond) everywhere by delivering the lowest

power semiconductor solutions. Ambiq enables its customers to deliver AI compute at the edge where power consumption challenges are the most profound. Ambiq's technology innovations, built on the patented and proprietary sub-threshold power optimized technology (SPOT), fundamentally deliver a multi-fold improvement in power consumption over traditional semiconductor designs. Ambiq has powered over 270 million devices to date. For more information, visit [www.ambiq.com](http://www.ambiq.com).
