In this document we use a number of performance measures that are not defined in generally accepted accounting principles ("GAAP") which follow the disclosure requirements established by National Instrument 52-112 Non-GAAP and Other Financial Measures Disclosures (effectively, the "Non-GAAP Measures"), to measure, compare and explain the operating results and financial performance of the Trust.

These Non-GAAP Measures do not have standardized meanings prescribed by GAAP and, therefore, may not be comparable to similar measures used by other issuers. The Real Property Association of Canada ("REALPAC") issued white papers with recommendation for calculation of Funds from Operations ("FFO") the "REALPAC Guidance". Our FFO definition is substantially consistent with the definition adopted by REALPAC. Refer to the "Additional Information on Non-GAAP Measures" section of this MD&A for details.

In this document we use various financial metrics and ratios in our disclosure of financial covenants. These metrics are calculated in accordance with the definitions contained in our credit agreements and the trust indenture governing our outstanding debentures and may be described using terms which differ from standardized meanings prescribed by GAAP. These metrics may not be comparable to similar metrics used by other issuers.

Specified financial measures are categorized as non-GAAP financial measures, non-GAAP ratios, supplementary financial measures, and capital management measures as follows:

Non-GAAP Financial Measures:

FFO, FFO for continuing operations, Total FFO, FFO from LTC Discontinued Operations, FFO for Equity-Accounted JVs, Internal Funds from Operations, ("IFFO"), IFFO for continuing operations, Total IFFO, and IFFO from LTC Discontinued Operations, including per unit amounts ("PU"), Earnings before interest, tax, depreciation and amortization ("consolidated EBITDA" or "EBITDA"), Adjusted Resident Revenue, Adjusted Direct Property Operating Expense, Adjusted Operating Margin, Consolidated Interest Expense, Adjusted Consolidated Gross Book Value of Assets, Book value of assets, Gross book value adjustment on IFRS transition, Adjustment for accumulated depreciation and amortization, Aggregate Adjusted Assets, Payment of cash distributions and Amortization of finance costs and fair value adjustments on assumed mortgages, Finance cost reserve, Proforma adjustments, and Total Units Outstanding.

Non-GAAP Ratios:

Debt Service Coverage Ratio, Interest Coverage Ratio, Total Leverage Ratio, Adjusted Consolidated Unitholders' Equity Ratio, Secured Indebtedness Ratio, Unencumbered Property Asset Ratio, Consolidated EBITDA to Consolidated Interest Expense Ratio, Indebtedness Percentage, Net Debt to Adjusted EBITDA Ratio, Payment of Cash Distributions, Expected Unlevered Yield, and Coverage Ratio.

Net Operating Income ("NOI"), Adjusted NOI, Adjusted Development Costs, Lease-up-Losses, Estimated Stabilized NOI, Unencumbered Property Asset Value and Unencumbered Aggregate Adjusted Assets.

Capital Management Measures:

Liquidity, Imputed Cost of Debt, Regularly Scheduled Debt Principal Payments, Consolidated Indebtedness, Secured Indebtedness, Unsecured Indebtedness, and Investment Restrictions.

Property Portfolio Groupings

We use groupings of our properties to evaluate and monitor our financial and operating performance. Our portfolio groupings are: same property, growth, and repositioning.

The supplemental disclosures of these portfolio groupings are Non-GAAP Measures that do not have standardized meanings prescribed by GAAP and, therefore, may not be comparable to similar measures used by other issuers. In addition to the definition for these portfolio groupings, the following includes the composition of each portfolio for the current reporting period.

Same Property Portfolio

Our same property portfolio includes properties that have been owned continuously since the beginning of the previous fiscal year. To improve comparability, our same property portfolio excludes development properties that have not yet achieved 90% occupancy by January 1 of the preceding fiscal year, properties that are expected to be sold in the current or next fiscal year, and properties that are undergoing a significant redevelopment or repositioning.

The following table summarizes the composition of our same property portfolio as at June 30, 2024:

	Composition of Suites						Total at Chartwell's Share of Ownership
	Properties	IL	ISLA	ISLS	AL	LTC	
Same property							
100% Owned	94	604	2,841	7,632	1,031	201	12,309

Total same property	101	621	3,262	8,119	1,031	201	13,234

(1) We own an 85% interest in three properties and a 50% interest in four properties.

Growth Portfolio

Our growth portfolio includes properties that were acquired subsequent to January 1 of the preceding fiscal year and development properties that have not yet achieved 90% occupancy by January 1 of the preceding fiscal year. Consequently, the previous fiscal year's results are not fully comparable for these properties. Additionally, our growth portfolio includes properties for which we will acquire incremental ownership interest in the current or next fiscal year.

The following table summarizes the composition of our growth portfolio as at June 30, 2024:

	Composition of Suites						Total at Chartwell's Share of Ownership
	Properties	IL	ISLA	ISLS	AL	LTC	
Growth							
100% Owned	7	285	122	375	30	-	812

Total growth	27	564	3,032	1,734	316	-	5,646

(1) We own an 85% interest in three properties, a 60% interest in one property, a 50% interest in 15 properties, and a 45% interest in one property.

Repositioning Portfolio

Our repositioning portfolio includes properties that we expect to sell in the current or next fiscal year, and properties that are undergoing a significant redevelopment or repositioning, including in some cases changes in capacity or use.

The following table summarizes the composition of our repositioning portfolio as at June 30, 2024:

	Properties	Composition of Suites					Total	Total at Chartwell's Share of Ownership

(1) Includes three long term care homes (358 beds) which were previously reported in our Long Term Care Operations segment and are now monitored and reported with our Retirement Operations, and excludes 323 suites that have been removed from available capacity effective January 1, 2024, related to the operational closure of one property.

(2) We own a 50% interest in 22 properties and a 42.5% interest in three properties.

Business Strategy

Our Strategy Statement

"In 2025, we will achieve in our retirement residences, **Employee Engagement** of 55% (highly engaged), **Resident Satisfaction** of 67% (very satisfied) and Same Property **Occupancy** of 95% to drive strong **IFFOPU** growth by providing exceptional resident experiences through personalized services in our upscale and mid-market residences in urban and suburban locations."

A detailed discussion of our business strategy can be found in our 2023 MD&A. The following provides an update as of 2024 YTD.

Employee Engagement

Our annual employee engagement survey includes 25 core engagement statements. In addition, for the third year we added specific statements with respect to diversity of our employees and their perception of inclusivity at Chartwell.

In 2024, in our retirement residences we achieved a score of 57% of employees indicating high engagement ('Strongly Agree' responses). Our combined 'Agree' and 'Strongly Agree' score was 86% in 2024 compared to 84% in 2023.

The following chart summarizes historical employee engagement survey results for our retirement residences:

(1) In 2020, a modified survey was conducted; therefore, the 2020 result is not comparable to prior periods and it has not been presented.

2024 Outlook

Our 2023 MD&A contains a detailed discussion of our 2024 Outlook; the following provides an update.

Operations

The following chart provides an update in respect of our same property occupancy:

(1) Forecast includes leases and notices as at July 31, 2024 and an estimate of mid-month move-ins of 20 basis points ("bps") for August and 40 bps for September, based on the preceding 12-month average of such activity.

We continue to experience strong demand fundamentals having achieved occupancy growth through the historically weaker winter season. Our same property portfolio occupancy increased from December to March by 40 bps compared to a 70 bps decline for the same period last year. We expect to reach 88.7% occupancy in our same property portfolio in September 2024, representing 560 bps growth over the prior year. Initial contacts and personalized tour activity remains robust, and we are experiencing strong conversion rates to permanent move-ins. We expect this positive momentum to continue throughout 2024. The growth in same property occupancy combined with our blended rental and service rate growth of 4.3%, resulted in an 11.7% increase in same property adjusted resident revenue in Q2 2024 compared to Q2 2023. 2024 YTD same property adjusted resident revenue grew 11.9% as compared to 2023 YTD from blended rental and service rate growth of 4.6% and 630 bps of occupancy growth.

For our combined same property and growth portfolios, the annual revenue impact of a one percent change in rate and service fees is estimated at approximately \$7.1 million and a one percentage point change in occupied suites is estimated at \$8.4 million.

Adjusted NOI from continuing operations in Q2 2024 grew to \$80.8 million from \$64.0 million in Q2 2023, an increase of \$16.8 million. Same property adjusted operating margin in Q2 2024 grew to 38% from 35% in Q2 2023 as growth in revenue exceeded inflationary and occupancy driven direct property operating expense increases. Adjusted operating margin is adjusted NOI divided by adjusted resident revenue. 2024 YTD adjusted NOI from continuing operations grew by \$33.7 million compared to 2023 YTD and same property adjusted operating margin grew to 37% from 34% in 2023 YTD.

Liquidity and Financing

As at August 8, 2024, liquidity amounted to \$341.9 million, which included \$41.9 million of cash and cash equivalents and \$300.0 million of available borrowing capacity on our Credit Facilities.

We finance our operations primarily through long-term fixed-rate mortgage debt and generally have access to low-cost mortgage financing insured by Canada Mortgage and Housing Corporation (“CMHC”). We intend to continue financing our properties through this program including accessing CMHC’s mortgage financing top-up programs and, for those properties operating at high occupancy levels, converting conventional mortgages to CMHC debt and placing mortgages on certain currently unencumbered properties. As of the date of this MD&A, for the remainder of 2024, we have \$152.6 million of mortgage debt maturing at the weighted average interest rate of 6.58%. As at August 8, 2024, 10-year CMHC-insured mortgage rates are estimated at approximately 4.10% and five-year conventional mortgage financing is available at approximately 5.0%.

Significant Events

In addition to the items discussed in the “2024 Outlook” section of this MD&A, the following events have had a significant effect on our financial results in Q2 2024 and/or may be expected to affect our results in the future:

Development

Expected Unlevered Yield, Development Lease-up-Losses, and Imputed Cost of Debt

In addition to monitoring development costs measured on a GAAP basis which includes land, hard and soft development costs, furniture, fixtures and equipment, we assess our return on investment in development activities using the non-GAAP measure ‘Expected Unlevered Yield’. Expected Unlevered Yield should not be construed as an alternative to other GAAP metrics and may not be comparable to measures used by other entities.

Expected Unlevered Yield is defined as the ratio of:

- the estimated annual NOI of a development property in the first year it achieves an expected stabilized occupancy level (“Estimated Stabilized NOI”) which varies from project to project,
- divided by the estimated adjusted development costs (the “Adjusted Development Costs”) which is the sum of:
 - development costs on a GAAP basis, plus
 - operating results generated by the development property, including pre-opening costs (the “Lease-up-Losses”), plus
 - an imputed cost of debt calculated by applying our estimated weighted average cost of debt to our GAAP development costs plus Lease-up-Losses, compounded during the development of the property (the “Imputed Cost of Debt”).

We believe this is a useful measure as we believe it reflects our financial returns on the total economic cost of developing a new property.

Completed Developments

The following table summarizes development projects that were completed since January 1, 2023:

Project	Location	Suites / Beds	Suite Type	Chartwell Ownership Interest	Operations Start Date	Current Occupancy ⁽¹⁾	Estimated Adjusted Development Costs ⁽²⁾⁽³⁾ (\$millions)	NOI ⁽⁴⁾ (\$millions)	Expected Stabilized Occupancy Date	Expected Stabilized Occupancy	Estimated Stabilized NOI ⁽³⁾ (\$millions)	Expected Unlevered Yield ⁽³⁾

(1) As of July 31, 2024.

(2) As at June 30, 2024, includes actual Adjusted Development Costs incurred of \$31.3 million.

(3) Non-GAAP; please refer to the preamble to this section for the definition of this metric and discussion of its significance.

(2) Non-GAAP; represents the total of estimated Development Costs and estimated Lease-up-Losses and Imputed Cost of Debt.

(3) Calculated as the Estimated Adjusted Development Costs less the Adjusted Development Costs incurred as at June 30, 2024.

(4) Redevelopment of the existing 100-bed Class C LTC to a 224-bed LTC home. The existing LTC operations are continuing during the redevelopment. The Ontario Ministry of Long-Term Care ("MLTC") will provide both capital funding to the project for 25 years post completion and a 17% grant toward land, hard and certain soft costs estimated at \$10.1 million, payable at substantial completion. Effective April 1, 2024, the forward sale contract of this property as part of the LTC Transactions was terminated; refer to the "Significant Events – Portfolio Optimization" section on page 11 of this MD&A.

Projects by Batimo

In addition to our own development activities, we have built an important pipeline of future acquisition opportunities by participating in certain development projects conducted by Batimo in the province of Quebec. Batimo carries out development activities and we provide certain operations management services to these projects and in some cases, provide mezzanine financing. Pursuant to our agreements with Batimo, we have certain call rights to acquire, and Batimo has certain put rights which may require us to acquire an 85% ownership interest in these properties upon achievement of occupancy threshold, defined as 90% occupancy for two consecutive months (the "Batimo Option"). The purchase price is based on Fair Market Value ("FMV"), determined by the appraisal mechanism described in such agreements. For Chartwell Le Montcalm and Chartwell L'Envol, the Batimo Option is for a five-year period commencing when the related property achieves the occupancy threshold. Upon expiry of the Batimo Option, we have a two-year option to require Batimo to sell an 85% interest in these properties at 99% of FMV.

We have revised the terms of our arrangement to provide for Batimo's put rights to be for a two-year period instead of five ("Batimo Option 2.0") for certain projects. Upon expiry of the Batimo Option 2.0, we have a one-year option instead of two to acquire an 85% interest in the property at 99% of FMV. Two projects, Le Florilège and L'Aubier, are subject to this arrangement.

The following table summarizes the status of projects by Batimo as of the date of this MD&A:

Project	Location	Suites	Suite Type	Current Project Status ⁽¹⁾	Actual / Expected Completion Date	Current Occupancy ⁽²⁾	Actual / Expected Stabilized Occupancy Date
Chartwell Le Montcalm	Candiac, QC	283	ISLA	O	September 2017	96.5%	Q4 2022
Chartwell L'Envol	Cap Rouge, QC	360	ISLA / AL	O	September 2019	96.9%	Q4 2023
Le Florilège	Beauport, QC	345	ISLA / AL	O	December 2022	93.6%	Q3 2024
L'Aubier	Lévis, QC	376	ISLA / AL	O	June 2024	13.9%	Q4 2025
		1,364					

(1) Current project status is defined where 'O' means Operating.

(2) As of July 31, 2024.

Chartwell Le Montcalm, Chartwell L'Envol and Le Florilège have achieved the occupancy threshold giving effect to the Batimo put rights. We estimate the current value of these three projects at approximately \$278.0 million at 100% ownership interest. In June 2024, we entered into a standstill agreement with Batimo which will defer the existing put rights until January 1, 2025.

Acquisitions

On May 3, 2024, we acquired an 85% interest in Chartwell Le Prescott ("Le Prescott") from Batimo. Le Prescott is a 324-suite retirement residence built in 2017 and is located in the Montreal suburb of Vaudreuil, Quebec. The purchase price was \$80.2 million and was partially settled through the assumption of a \$42.1 million variable rate mortgage bearing interest at the banks' prime rate ("Prime") plus 55 bps maturing on December 1, 2024. Acquisition-related costs of \$0.7 million and mark-to-market adjustments of \$0.4 million have been capitalized. The remainder of the purchase price, subject to normal working capital and other closing adjustments, was settled utilizing our cash on hand and credit facilities.

On May 15, 2024, we acquired an 85% interest in Chartwell Trait-Carré ("Trait-Carré") from Batimo. Trait-Carré is a 361-suite retirement residence built in 2021 and is located in Quebec City, Quebec. The purchase price was \$86.0 million and was settled through the assumption of a \$58.4 million demand variable rate mortgage bearing interest at the Canadian Overnight Repo Rate Average ("CORRA") plus credit spread adjustment plus 260 bps. Batimo provided NOI support for six months and \$0.2 million of the purchase price was held back for this obligation. Acquisition-related costs of \$0.2 million have been capitalized. The remainder of the purchase price, subject to normal working capital and other closing adjustments, was settled utilizing our cash on hand and credit facilities.

On June 21, 2024, we acquired an 85% interest in Résidence Légende ("Légende") from Batimo. Légende is a 368-suite retirement residence built in 2019 and is located in Greenfield Park, Quebec. The purchase price was \$86.4 million and was settled through the assumption of a \$59.1 million variable rate mortgage bearing interest at Prime plus 85 bps maturing on January 1, 2025, as well as settlement of an outstanding mezzanine loan. Batimo provided NOI support until the property achieves stabilization and \$1.6 million of the purchase price is being held in escrow for this obligation. Acquisition-related costs of \$0.2 million and mark-to-market adjustments of \$1.0 million have been capitalized. The remainder of the purchase price, subject to normal working capital and other closing adjustments, was settled utilizing our cash on hand and credit facilities.

On June 27, 2024, we entered into definitive agreements for strategic acquisitions of two seniors housing portfolios in Quebec from separate vendors for an aggregate purchase price of \$511 million, consisting of the following:

- Acquisition of a 100% ownership interest in a portfolio of five high quality, modern retirement residences with 1,428 suites, located in the greater Montreal area, Gatineau, and Sherbrooke, which we subsequently completed on July 22, 2024. The purchase price was \$297.0 million and, subject to

normal working capital and other closing adjustments, was settled utilizing our cash on hand, credit facilities and term loans.

- Acquisition of a 50% ownership interest in a portfolio of five high quality, modern retirement residences with 1,805 suites located in the Quebec City area and Shawinigan (the "Quebec City Portfolio"). The purchase price at our share is \$214 million and will be partially satisfied by the assumption of approximately \$154.0 million of mortgages. The vendor has agreed to provide us with a two-year NOI guarantee, with \$4.7 million of the purchase price to be held in escrow to support the vendor's obligation. The remainder of the purchase price, subject to normal working capital and other closing adjustments will be paid in cash utilizing cash on hand and credit facilities. We expect the closing of this transaction in Q4 2024. In addition, beginning on August 28, 2028, subject to a one-year extension at the vendor's option, the vendor will have an option to sell and we will have an option to purchase the remaining 50% ownership interest in the Quebec City Portfolio at the then fair market value.

Portfolio Optimization

On September 6, 2023, we completed the sale of our Long Term Care Operations in Ontario which was then reclassified as "LTC Discontinued Operations" as previously described in our 2023 MD&A. This sale, the "LTC Transactions", included a forward sale contract related to one owned long term care home (100 beds) currently being redeveloped to have 224 beds ("Ballycliffe LTC"). The forward sale contract was terminated effective April 1, 2024.

On November 9, 2023, we entered into a definitive agreement with Welltower to wind-up our existing joint arrangements (the "Welltower Transaction"). Under the terms of the agreement, Chartwell will convey its ownership interest in 23 assets (the "Welltower Assets") to Welltower for consideration of: (i) Welltower's ownership interest in 16 assets (the "Chartwell Assets") and (ii) \$97.2 million in cash. Net proceeds to Chartwell after estimated transaction costs of \$12.2 million and taxes of \$6.8 million are expected to be approximately \$78.2 million (the "Cash Consideration"). Closing of the transaction, subject to the required regulatory and lender approvals, is expected in Q4 2024. Chartwell will assume approximately \$135.7 million in debt on the Chartwell Assets, bearing a weighted average interest rate of 3.1% and having a weighted average term to maturity of 5.6 years. The net change to total debt for Chartwell's balance sheet will be a reduction of approximately \$51.7 million including the impact of the settlement of the Welltower loan of \$33.3 million which will also be settled upon closing of the transaction, as discussed in the "Joint Arrangements" section on page 12 of this MD&A. This net change is before any impact of the cash consideration.

On February 1, 2024, we completed the sale of Chartwell Bridlewood Retirement Residence (61 suites) located in Ontario for a sale price of \$3.8 million. A vendor take-back mortgage was extended to the purchaser in the amount of \$2.8 million, maturing in February 2027, and bearing an interest rate of 8% per annum for the first two years and 10% per annum for the third year.

On March 19, 2024, we commenced the operational closure of Chartwell Heritage Glen Retirement Residence (323 suites).

On July 8, 2024, Chartwell entered into a definitive agreement to sell one property in Ontario for a sale price of \$10.8 million. The purchase price will be settled in cash.

Financing

On May 22, 2024, we entered into amending agreements to extend the maturity date of the secured and unsecured credit facility from May 29, 2025 to May 29, 2027, with substantially the same terms with a change in pricing being the update of the benchmark from the Bankers' Acceptance rate ("BA") to CORRA.

On June 27, 2024, we completed a public offering of 28,290,000 Trust Units inclusive of 3,690,000 Trust Units issued pursuant to the exercise in full of the over-allotment option at a price of \$12.20 per Trust Unit for total gross proceeds of \$345.1 million (the "Public Offering"). Underwriting commission and other offering related costs amounted to \$13.2 million.

On June 28, 2024, we fully repaid the \$125.0 million unsecured term loan.

On July 22, 2024, we entered into a \$150.0 million unsecured term loan agreement with a Canadian chartered bank. The terms of the loan include borrowings based on CORRA and Prime, with an initial term of six months and an optional extension for an additional six months.

Joint Arrangements

'IFRS 11 – Joint Arrangements' classifies joint arrangements either as a joint operation or as a joint venture. Joint operations are joint arrangements in which the parties that have joint control have rights to the assets and obligations for the liabilities relating to the arrangement. Joint operations are accounted for using proportionate consolidation. Joint ventures are joint arrangements in which the parties have rights to the net assets relating to the arrangement. Generally, where the party holds its interest in the joint arrangement through a separate legal entity, the joint arrangement will be classified as a joint venture. Joint ventures are accounted for using the equity method of consolidation. Chartwell does not independently control its joint arrangements which are accounted for using the equity method, and Chartwell's proportionate share of the financial position and results of operations of its investment in such joint arrangements, where presented and discussed in this MD&A using the proportionate consolidation method, does not necessarily represent Chartwell's legal claim to such items.

The following table summarizes the classification of properties which are owned through our joint arrangements, or which are partially owned as at June 30, 2024:

Joint Arrangements	# of Properties	Suites/Beds	Chartwell Ownership	Joint Arrangement Type	Consolidation Method

On November 9, 2023, we entered into a definitive agreement with Welltower to wind-up our existing joint arrangements as outlined in the "Significant Events – Portfolio Optimization" section on page 11 of this MD&A.

During Q1 2024, Welltower extended two loans to us for \$33.3 million ("Welltower Loan 1") and \$40.7 million ("Welltower Loan 2"), at interest rates of 6.71% and 6.85%, respectively, as bridge financing for two properties with mortgages that matured in Q1 2024. One of these properties will be transferred to Welltower and the associated Welltower Loan 1 will be settled upon the earlier of February 14, 2025, or the completion of the Welltower Transactions wind-up. Welltower Loan 2 matures on February 15, 2025.

Net Income/(Loss)

The following table summarizes select financial measures:

(\$000s)	Q2 2024	Q2 2023	Change	2024 YTD	2023 YTD	Change
Resident revenue	189,563	168,171	21,392	373,483	333,995	39,488
Direct property operating expense	120,709	113,290	7,419	242,083	231,164	10,919
Net loss	(2,798)	(7,457)	4,659	(4,769)	(16,710)	11,941

For Q2 2024, resident revenue increased \$21.4 million or 12.7%, and direct property operating expense increased \$7.4 million or 6.5%. Refer to the “Adjusted Resident Revenue, Adjusted Direct Property Operating Expense, Adjusted Operating Margin, and Adjusted NOI” section on page 15 of this MD&A for details.

For Q2 2024, net loss was \$2.8 million compared to \$7.5 million in Q2 2023 primarily due to:

- higher resident revenue,
- lower general, administrative, and Trust (“G&A”) expenses, and
- higher net income from joint ventures,

partially offset by:

- higher direct property operating expense,
- absence of income from discontinued operations due to the completed LTC Transactions,
- deferred tax expense in Q2 2024 as compared to a deferred tax benefit in Q2 2023,
- net loss on asset sales as compared to net gain in Q2 2023,
- higher finance costs, and
- higher depreciation of property, plant and equipment (“PP&E”).

For 2024 YTD, resident revenue increased \$39.5 million or 11.8%, and direct property operating expense increased \$10.9 million or 4.7%. Refer to the “Adjusted Resident Revenue, Adjusted Direct Property Operating Expense, Adjusted Operating Margin, and Adjusted NOI” section on page 15 of this MD&A for details.

For 2024 YTD, net loss was \$4.8 million compared to \$16.7 million in 2023 YTD primarily due to:

- higher resident revenue,
- higher net income from joint ventures,
- lower G&A expenses, and
- lower depreciation of PP&E,

partially offset by:

- deferred tax expense in Q2 2024 as compared to a deferred tax benefit in Q2 2023,
- higher direct property operating expense,
- absence of income from discontinued operations due to the completed LTC Transactions,
- net loss on asset sales as compared to net gain in Q2 2023,
- higher transaction costs related to dispositions,
- higher finance costs, and
- higher negative changes in fair value of financial instruments, primarily due to increases in trading prices of our Trust Units.

FFO

FFO, a non-GAAP financial measure, should not be construed as an alternative to net earnings or cash flow from operating activities as determined by GAAP. FFO as presented may not be comparable to similar measures used by other issuers. We present FFO substantially consistent with the definition adopted in the REALPAC Guidance. This definition is included in the “Additional Information on Non-GAAP Measures” section on page 32 of this MD&A.

We believe that the use of FFO, combined with the required primary GAAP presentations, is beneficial to the users of the financial information, improving their understanding of our operating results. We generally consider FFO to be a meaningful measure for reviewing our operating and financial performance because, by excluding real estate asset depreciation and amortization of intangible assets (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), transaction costs arising on business acquisitions and dispositions, impairment of PP&E, distributions on Class B Units of Chartwell Master Care LP (“Class B Units”) recorded as interest expense, change in fair value of financial instruments, deferred income tax expense/(benefit), remeasurement gain, gain/(loss) on disposal of assets, and adjustments for Equity-Accounted JVs, FFO can assist the user of the financial information in comparing the financial and operating performance of our real estate portfolio between financial reporting periods.

Refer to the “Additional Information on Non-GAAP Measures” section on page 32 of this MD&A for the reconciliation of net income/(loss), the most closely comparable GAAP measure, to FFO and FFO per unit (“FFOPU”) amounts.

The following table presents FFO, FFOPU and Weighted average number of units:

(\$000s, except per unit amounts and number of units)	Q2 2024	Q2 2023	Change	2024 YTD	2023 YTD	Change

(3) Non-GAAP; refer to “Weighted Average Number of Units” section on page 37 of this MD&A.

For Q2 2024, FFO from continuing operations was \$44.7 million or \$0.18 per unit, compared to \$25.9 million or \$0.11 per unit for Q2 2023. The change in FFO from continuing operations was primarily due to:

- higher adjusted NOI from continuing operations of \$16.8 million,
- lower G&A expenses of \$4.2 million,
- higher interest income of \$0.3 million, and
- lower depreciation of PP&E and amortization of intangibles assets used for administrative purposes of \$0.2 million,

partially offset by

- higher finance costs of \$2.7 million.

For Q2 2024, FFO from continuing operations includes \$0.3 million of Lease-up-Losses and Imputed Cost of Debt related to our development projects (Q2 2023 – \$0.3 million).

Total FFO for Q2 2023 includes results of LTC Discontinued Operations of \$4.8 million or \$0.02 per unit.

For 2024 YTD, FFO from continuing operations was \$83.9 million or \$0.34 per unit, compared to \$46.8 million or \$0.20 per unit for 2023 YTD. The change in FFO from continuing operations was primarily due to:

- higher adjusted NOI from continuing operations of \$33.7 million,
- lower G&A expenses of \$5.2 million,
- higher interest income of \$0.6 million, and
- lower depreciation of PP&E and amortization of intangibles assets used for administrative purposes of \$0.2 million,

partially offset by

- higher finance costs of \$2.6 million.

For 2024 YTD, FFO from continuing operations includes \$0.7 million of Lease-up-Losses and Imputed Cost of Debt related to our development projects (2023 YTD – \$1.1 million).

Total FFO for 2023 YTD includes results of LTC Discontinued Operations of \$8.3 million or \$0.03 per unit.

Adjusted Resident Revenue, Adjusted Direct Property Operating Expense, Adjusted Operating Margin, and Adjusted NOI

The tables on the following pages of this section summarize our adjusted resident revenue, adjusted direct property operating expense, adjusted operating margin and adjusted NOI, which are each non-GAAP measures, and also includes supplemental disclosure of our same property portfolio, our growth portfolio, and our repositioning portfolio. The supplemental disclosure of our same property portfolio, our growth portfolio, and our repositioning portfolio are non-GAAP measures and should not be construed as an alternative to GAAP measures. We use these groupings of properties to evaluate and monitor our financial and operating performance and we believe that this additional disclosure enhances the ability to understand and assess our results of operations and particularly to compare such results from period to period. Definitions for each of these portfolio groupings as well as the composition of the portfolio included in the respective grouping for the current reporting period are provided in the “Business Overview” section on page 5 of this MD&A.

The measure of profit or loss is adjusted NOI which is adjusted resident revenue less adjusted direct property operating expense. Adjusted resident revenue is resident revenue plus Chartwell’s proportionate share of its joint ventures’ resident revenue. Adjusted direct property operating expense is direct property operating expense plus Chartwell’s proportionate share of its joint ventures’ direct property operating expense.

The following table reconciles resident revenue and direct property operating expense from our financial statements to adjusted resident revenue and adjusted direct property operating expense, and NOI to adjusted NOI from continuing operations and adjusted NOI, and identifies contributions from our same property portfolio, our growth portfolio, and our repositioning portfolio:

For Q2 2024, adjusted resident revenue decreased 13.6% primarily due to:

- lower revenue from our repositioning portfolio, primarily due to the completed LTC Transactions, partially offset by:
- higher same property adjusted resident revenue of 11.7%, and
- higher revenue from our growth portfolio.

For Q2 2024, adjusted direct property operating expense decreased 24.1% primarily due to:

- lower direct property operating expense from our repositioning portfolio, primarily due to the completed LTC Transactions,
- partially offset by:
- higher same property adjusted direct operating expense of 6.8%, and
- additional expenses in our growth portfolio.

As a result, for Q2 2024, adjusted NOI increased \$10.3 million or 14.6%.

For 2024 YTD, adjusted resident revenue decreased 14.6% primarily due to:

- lower revenue from our repositioning portfolio, primarily due to the completed LTC Transactions,
- partially offset by:
- higher same property adjusted resident revenue of 11.9%, and
- higher revenue from our growth portfolio.

For 2024 YTD, adjusted direct property operating expense decreased 25.4% primarily due to:

- lower direct property operating expense from our repositioning portfolio, primarily due to the completed LTC Transactions,
- partially offset by:
- higher same property adjusted direct operating expense of 6.6%, and
- additional expenses in our growth portfolio.

As a result, for 2024 YTD, adjusted NOI increased \$22.1 million or 16.7%.

G&A expenses	12,924	17,163	(4,239)	27,395	32,592	(5,197)

For Q2 2024, G&A expenses decreased \$4.2 million primarily due to the CFO transition costs that were incurred in 2023, lower compensation costs as we continue to execute on our plan to achieve efficiency improvements, partially offset by higher unit-based compensation costs due to the increase in value of our Trust Units.

For 2024 YTD, G&A expenses decreased \$5.2 million primarily due to the CFO transition costs that were incurred in 2023, lower compensation costs as we continue to execute on our plan to achieve efficiency improvements, partially offset by higher unit-based compensation costs due to the increase in value of our Trust Units and higher legal fees. 2024 YTD G&A included \$0.6 million of severance related to our efficiency initiatives.

Interest expense on Debentures increased \$1.8 million and \$3.7 million in Q2 2024 and 2024 YTD due to higher interest rate and higher balances outstanding.

Interest expenses on Credit Facilities decreased marginally in Q2 2024 and \$1.8 million in 2024 YTD due to lower balances outstanding.

Interest expense on Loans Payable increased in Q2 2024 and 2024 YTD due to the new Welltower loans. Refer to the “Liquidity and Capital Resources – Debt – Loans Payable” section on page 25 of the Q1 2024 MD&A for details.

Other Income/(Expense)

The following table applies to our continuing operations:

(\$000s)	Q2 2024	Q2 2023	Change	2024 YTD	2023 YTD	Change
Transaction costs arising on dispositions	(528)	(104)	(424)	(2,521)	(506)	(2,015)
Gain/(loss) on sale of assets	(1,584)	709	(2,293)	(945)	3,421	(4,366)
Total other income/(expense)	(2,112)	605	(2,717)	(3,466)	2,915	(6,381)

Transaction costs arising on dispositions are expensed as incurred and fluctuate from period to period based on the timing and volume of transactions.

Gain/(loss) on sale of assets changed by \$2.3 million in Q2 2024 primarily due to loss for a retained obligation for remediation of lands on a long term care home that was sold in 2020, partially offset by insurance proceeds from property claims. Gain/(loss) on sale of assets changed by \$4.4 million in 2024 YTD primarily due to loss for a retained obligation for remediation of lands on a long term care home that was sold in 2020, and lower gains on sales of non-core properties.

Other Items

(\$000s)	Q2 2024	Q2 2023	Change	2024 YTD	2023 YTD	Change

Deferred income tax benefit/(expense)	(2,413)	2,340	(4,753)	(3,466)	9,817	(13,283)

Depreciation of PP&E and amortization of intangible assets increased \$0.8 million in Q2 2024 primarily due to acquisitions and completed developments partially offset by transfer of assets to assets held for sale and decrease in the property portfolio due to dispositions. For 2024 YTD, depreciation of PP&E and amortization of intangible assets decreased \$3.2 million primarily due to transfer to assets held for sale and property portfolio dispositions partially offset by acquisitions and developments.

Change in fair value of financial instruments is primarily a result of changes in the market value of the underlying financial instruments. These amounts are expected to fluctuate from period to period due to changes in financial markets.

Deferred income tax benefit/(expense) changed by \$4.7 million in Q2 2024 and \$13.2 million in 2024 YTD, primarily due to higher non-taxable portion of capital losses in Q2 2024 and fair value adjustments.

Liquidity and Capital Resources

Liquidity

Our liquidity and capital resources are used to fund capital investments in our properties, development and acquisition activities, servicing of our debt obligations, and distributions to our unitholders. Our principal source of liquidity is net operating income generated from our property operations. We also finance our business, subject to market conditions, through the use of property-specific mortgages, secured and unsecured credit facilities, secured and unsecured term loans, senior unsecured debentures and equity financing.

At June 30, 2024, our liquidity was \$376.2 million as presented in the following table:

(\$000s)	June 30, 2024	December 31, 2023
Cash and cash equivalents	18,159	24,619
Available under Credit Facilities ⁽¹⁾	358,048	324,012
Total	376,207	348,631

(1) Refer to the "Credit Facilities" section on page 24 of this MD&A for the determination and calculation of this amount.

In addition, at June 30, 2024, our share of cash and cash equivalents held in our Equity-Accounted JVs was \$8.6 million.

As at June 30, 2024, our current liabilities were \$856.9 million, exceeding our current assets of \$365.5 million, resulting in a working capital deficiency of \$491.4 million. Current liabilities include \$290.8 million of current mortgages payable, \$74.0 million of Loans Payable, \$149.9 million of senior unsecured debentures, and \$153.3 million of liabilities related to assets held for sale.

We expect to refinance or repay this maturing debt and meet all of our other obligations as they become due. We may utilize some or all of the following sources of liquidity, subject to market conditions:

- (i) cash flow generated from our operations,
- (ii) proceeds from non-core asset sales,
- (iii) property-specific mortgages,
- (iv) secured and unsecured credit facilities,
- (v) secured and unsecured loans,
- (vi) debentures, and
- (vii) new equity financing.

Debt

Our debt portfolio currently consists of property-specific mortgages, Credit Facilities, Loans Payable, and Debentures. Our debt management objective is to maximize financial flexibility and to maintain a strong balance sheet by:

- accessing low-cost, long term, fixed-rate debt and short-term, variable-rate financing,
- managing interest rate risk by spreading debt maturities over time,
- proactively managing our short-term maturities and where appropriate, refinancing maturing mortgages with long term debt, and
- growing our unencumbered asset pool.

The following table summarizes the components of the principal balance of our debt at June 30, 2024 and December 31, 2023:

Mortgage Debt

We generally have access to low-cost mortgage financing insured by CMHC. As of June 30, 2024, approximately 86% of our mortgage debt was CMHC insured. We intend to continue financing our properties through this program including, for those properties operating at high occupancy levels, converting conventional mortgages to CMHC debt and placing mortgages on certain currently unencumbered properties.

Total Credit Facilities	400,000	400,000	5,952	394,048	36,000	358,048	

(1) Available capacity is determined based on a formula that considers the lending value of the properties included in the secured asset pool. The factors impacting the lending value formula include property valuations, the mortgageability amount determined on the basis of NOI for the previous four quarters, and the secured collateral.

(2) An option to increase borrowing capacity by an additional \$50.0 million is available, subject to certain conditions.

The cost of our Credit Facilities was amended on May 22, 2024. At the current BBB(low) rating by DBRS, last confirmed by DBRS on November 28, 2023, amounts borrowed under the secured credit facility bear interest at Prime plus 65 bps or CORRA plus 165 bps, and amounts borrowed under the unsecured credit facility bear interest at Prime plus 70 bps or CORRA plus 170 bps. The secured credit facility is secured by first and second ranked charges on specific properties. The cost of our Credit Facilities is based on our credit rating.

Distributions

The following table summarizes distributions declared on Trust Units in Q2 2024, 2024 YTD, 2023 and 2022 in relation to cash flows from operating activities and net income/(loss):

(\$000s)	Q2 2024	2024 YTD	2023	2022
Cash flows from operating activities	35,725	76,568	157,425	137,709
Net income/(loss)	(2,798)	(4,769)	128,273	49,531
Finance costs included in cash flow from financing activities	(3,101)	(5,220)	(9,212)	(8,944)
Distributions declared on Trust Units	38,453	75,329	146,037	143,548
Excess/(deficit) of cash flows from operating activities over distributions declared on Trust Units	(2,728)	1,239	11,388	(5,839)
Excess/(deficit) of cash flows from operating activities less finance costs included in cash flow from financing activities over distributions declared on Trust Units	(5,829)	(3,981)	2,176	(14,783)
Excess/(deficit) of net income over distributions declared on Trust Units	(41,251)	(80,098)	(17,764)	(94,017)

The declaration and payment of future distributions is at the discretion of the Board of Trustees of Chartwell (the "Trustees"). The Trustees rely upon forward-looking cash flow information including forecasts and budgets, results of operations, requirements for capital expenditures and working capital, future financial prospects of the Trust, debt covenants and obligations, and any other factors considered relevant by them in setting the distribution rate. The Trustees do not use net income/(loss) as determined in accordance with GAAP as the basis for establishing the level of distributions to unitholders as it includes items that we do not believe are informative or reflective of the factors described above that are used in and considered relevant in setting the distribution rate. The items that are included in net income/(loss) and are not used or considered relevant include, among other items, distributions on Class B Units which are recorded as interest expense, non-cash depreciation and amortization, changes in fair values of certain liabilities and impairment losses. We believe that, with the appropriate level of capital reinvestment in our properties, their income-generating potential does not generally diminish over time.

The deficit in Q2 2024 and 2024 YTD in cash flows from operating activities and the deficit in Q2 2024 in operating activities less finance costs included in cash flows from financing activities compared to distributions declared is primarily due to timing differences in working capital and higher interest paid.

In 2024 YTD we achieved positive operating cash flows over distributions. Our operational, sales, marketing, and portfolio optimization strategies have produced improvements in our occupancies and reductions in agency staffing and pandemic expenses. We believe that these trends will continue in 2024 and our distributions are sustainable.

Unitholders who are Canadian residents are eligible to participate in our DRIP, which allows reinvestment of their distributions into new units of Chartwell, including a 3% bonus distribution with no commissions. This facilitates unitholders' ability to realize the benefits of compound growth in their investment. Unitholders can enroll in our DRIP by contacting their investment advisor. In Q2 2024, our average DRIP participation was 25.4% compared to 24.0% participation in Q2 2023.

Capital Investments

In normal circumstances, we regularly reinvest capital in our owned property portfolio with the goal of growing our property NOI and protecting and maintaining our properties.

(\$000s)	2024 YTD	2023 YTD
Capital investments in Equity-Accounted JVs	1,267	480

Building Improvements

This category primarily includes investments in facades, balconies, garages, elevators and parking lots. In addition to preserving the existing revenue generating capacity and value of our properties, these investments support occupancy growth due to improved physical appearance of the property, growth in ancillary property revenues (e.g., parking rates) and operating cost savings (e.g., energy efficient windows and doors, improved building insulation).

For 2024 YTD, we completed 61 major building improvement projects valued over \$50,000 each, totalling \$13.8 million (2023 YTD – 76 projects totalling \$13.7 million). In addition, included in this category are the acquisitions of three condominium suites at two of our properties in British Columbia totalling \$1.2 million in 2023 YTD.

Mechanical and Electrical

This category primarily includes investments in heating, air conditioning and ventilation systems, fire safety systems, including sprinklers and lighting systems. These investments are generally expected to result in energy cost savings and lower equipment maintenance costs over time.

For 2024 YTD, we completed 50 major M&E projects valued over \$50,000 each, totalling \$5.4 million (2023 YTD – 54 projects totalling \$5.8 million).

Suite Improvements and Upgrades

This category includes capital investments in resident suites. We have developed and implemented a program of strategic capital allocation to resident suite upgrades. These discretionary investments are made to improve the competitive position of our properties in the market and to allow for higher rental rate increases on suite turnover. In most cases, in addition to regular painting, resident suite upgrades include flooring upgrades and/or, full renovations of bathrooms and kitchens.

For 2024 YTD, we invested in strategic suite upgrade programs in 43 properties (2023 YTD – 43 properties).

Interior Improvements and Upgrades

This category includes investments in common areas of our properties that are made primarily to improve their marketability and improved functionality for our residents. These investments include upgrades to property resident amenity areas, such as hallways, dining rooms, lounges, theatres, etc.

For 2024 YTD, we invested in strategic common area upgrade programs in 23 properties (2023 YTD – nine properties).

Furniture, Fixtures and Equipment

This category primarily includes investments in resident common area and model suite furnishings and equipment, including upgrades to commercial kitchens and investments in resident transportation programs. These investments are primarily made to improve competitiveness of our properties and to provide enhanced services to our residents.

Communication and Information Services

This category includes investments in telecommunication systems, including emergency call systems and computer hardware.

Balance Sheet Analysis

The following table summarizes the significant changes in assets, liabilities and equity for June 30, 2024 compared to December 31, 2023.

	Increase (Decrease) <i>(\$millions)</i>	Explanation
Total assets	250.8	Total assets increased primarily due to increases in PP&E, other assets, investment in joint ventures, loans receivables and trade and other receivables, partially offset by decreases in cash and intangible assets.
Total liabilities	(31.2)	Total liabilities decreased primarily due to repayment of term loan, lower draws on our Credit Facilities, liabilities related to assets held for sale, decreases in income tax payable and deferred tax liabilities, partially offset by increases in mortgages payable, loans payable and accounts payable and other liabilities.
Equity	282.0	The increase in equity is primarily due to the issuance of Trust Units under the Public Offering, and under DRIP, partially offset by underwriters fees and issuance costs, net of tax related to the issuance of Trust Units under the Public Offering, distributions and net loss for the period.

Commitments and Contingencies

Contractual Obligations and Guarantees

Details of our contractual obligations and guarantees are outlined in our 2023 MD&A. There were no significant changes in our contractual obligations and guarantees in Q2 2024 which are outside the ordinary course of business.

Litigation, Claims and Contingencies

Class Action

In 2020, Chartwell was named in three proposed class action lawsuits related to our handling of the COVID-19 pandemic in our Ontario Long Term Care homes which were subsequently consolidated into one proceeding (the “Consolidated Claim”). On November 20, 2020, the Ontario government enacted the *Supporting Ontario’s Recovery Act* (the “Recovery Act”). Under the Recovery Act, which is retroactive to March 17, 2020, proceedings are barred and dismissed without costs if they allege injury by COVID-19 if the defendant made good faith efforts to follow public health guidance and COVID-19 related laws and did not act with gross negligence.

Our insurer has assigned defense counsel and is responding to the Consolidated Claim through the appropriate court process. On March 7, 2024, the Consolidated Claim was certified, but pursuant to the Recovery Act, only claims of negligence rising to the level of gross negligence survived the cause of action test. The class is confined to residents and visitors in the long term care homes who contracted COVID-19 between January 25, 2020 to May 5, 2023. The common issues are restricted to the duty and breach of standard of care with respect to Infection Prevention and Control measures and excludes causation and damages, except if the issues of duty and standard of care are determined against Chartwell. If the duty and breach of standard of care issues are found against Chartwell, then causation and damages are to be determined through home-by-home mini-trials to consider Infection Prevention and Control implementation at each long term care home. A request for leave to appeal on the issues of the inclusion of a visitor class and the use of mini-trials to determine causation and damages has been filed by assigned counsel. The plaintiffs have not appealed the decision. We did not record a provision with respect to the Consolidated Claims as at June 30, 2024. The contingencies associated with these long term care homes remain with Chartwell upon sale.

Pay Equity

On October 14, 2021, the application for leave to appeal from the judgment of the Court of Appeal for Ontario in *Attorney General of Ontario et al. v. Ontario Nurses’ Association, et al.* was dismissed by the Supreme Court of Canada, thus upholding the appellate decision. The Court of Appeal decision held that LTC homes that used proxy comparators to develop pay equity plans have not met their maintenance requirements. Notwithstanding the closing of the sale of the long-term segment in 2023, we continue to work with the unions, the other participating LTC homes, and the Ontario Government to reach a pay equity maintenance framework appropriate for the sector.

There are a significant number of uncertainties related to how the appellate court decision regarding pay equity maintenance should be implemented. Discussions between the affected parties regarding the development of an appropriate framework and resolution to this matter have not meaningfully progressed, thereby creating additional uncertainty related to potential outcomes, as well as uncertainty relating to the timing of when more information on the outcomes will be known and when the matter may be settled. As a result of the significant number of judgments that would be required, a reliable estimate of our liability for any pay equity adjustments cannot currently be made. We expect that any adjustments will be fully funded by the Ontario government. No liability for potential pay equity adjustments or expected recovery from the Ontario Government has been recognized in our financial statements. An increase in labour costs as a result of any unfunded adjustments could adversely affect our financial condition.

Our results for the past eight quarters have primarily been affected by:

- developments, acquisitions, and dispositions of properties as described in the "Significant Events" section on page 8 and the "2024 Outlook" section on page 7 of this MD&A and in our 2023 MD&A,
- pandemic impacts,
- changes in fair value of financial instruments,
- deferred income taxes,
- current income taxes,
- gain on the LTC Transactions, and
- impairment charges.

The effect of seasonal factors on our quarterly results is primarily related to outbreaks and weather patterns which affect both direct operating expenses, primarily utilities, staffing and maintenance cost trends, and also revenue due to changes in occupancy based on new resident move-in trends.

Additional Information on Non-GAAP Measures

Throughout this MD&A, there are references to certain Non-GAAP Measures. As described in the relevant sections of this MD&A, where a Non-GAAP Measure is discussed for the first time, we have described why we believe it is useful to investors and how management uses the Non-GAAP Measure. Non-GAAP Measures do not have any standardized meaning prescribed by GAAP and therefore, are unlikely to be comparable to similar financial measures used by other issuers. The following provides detailed definitions and reconciliations to the most closely comparable GAAP measure for any Non-GAAP Measure that has not been provided elsewhere in this MD&A. We present FFO substantially consistent with the definition adopted by REALPAC.

Funds from Operations and Internal Funds from Operations

FFO

According to the REALPAC Guidance, FFO is defined as follows:

Profit or loss per GAAP Statement of Comprehensive Income adjusted for:

- A. Unrealized changes in the fair value of investment properties.
- B. Depreciation of depreciable real estate assets including depreciation for components relating to capitalized leasing costs, capitalized tenant allowances treated as capital improvements and lease-related items ascribed in a business combination.
- C. Amortization of tenant allowances and landlord's work spent for the fit-out of tenant improvements and amortized as a reduction to revenue.
- D. Amortization of tenant/customer relationship intangibles or other intangibles arising from a business combination.
- E. Gains or losses from sales of investment properties and owner-occupied properties, including the gain or loss included within discontinued operations (if applicable).
- F. Tax on profits or losses on disposals of properties.
- G. Deferred taxes.
- H. Impairment losses or reversals recognized on land and depreciable real estate properties, excluding those relating to properties used exclusively for administrative purposes.
- I. Revaluation gains or losses recognized in profit or loss on owner-occupied properties, excluding those relating to properties used exclusively for administrative purposes.
- J. Transaction costs expensed as a result of the purchase of a property being accounted for as a business combination.
- K. Foreign exchange gains or losses on monetary items not forming part of a net investment in a foreign operation.
- L. Gain or loss on the sale of an investment in a foreign operation.
- M. Changes in the fair value of financial instruments which are economically effective hedges but do not qualify for hedge accounting.
- N. Negative goodwill or goodwill impairment.
- O. Effects of puttable instruments classified as financial liabilities.
- P. Results of discontinued operations.
- Q. Adjustments for equity-accounted entities.
- R. Incremental leasing costs.
- S. Property taxes accounted for under IFRIC 21.
- T. Operational revenue and expenses from Right of Use assets.
- U. Non-controlling interests.

IFFO

IFFO is a Non-GAAP Financial Measure used to evaluate management performance and does not have a standardized meaning prescribed by IFRS; therefore, it is not comparable to similar measures presented by other income trusts or other companies. IFFO should not be construed as an alternative to net earnings or cash flow from operating activities as determined by IFRS. Chartwell calculates IFFO by adding or subtracting the following items to or from its FFO: (a) Lease-up-Losses and Imputed Cost of Debt on development properties; (b) income guarantees due from vendors of certain acquired properties; and (c) current income tax. These adjustments to FFO are made to ensure management is not incented to make short-term decisions for Chartwell by not developing new properties or acquiring properties with long term value creation potential.

Per Unit Amounts

In our calculations of FFOPU and IFFOPU, we add the weighted average Class B Units to the weighted average Trust Units as the Class B Units are exchangeable into Trust Units at any time at the option of the unitholder. In addition, we add Trust Units issued under EUPP and DTUs.

Weighted Average Number of Units

The following table provides details of the weighted average number of units outstanding:

Net Debt to Adjusted EBITDA

In addition to the financial covenants related to our Credit Facilities and Debentures, we internally monitor the Net Debt to Adjusted EBITDA ratio as calculated based on the definitions of Consolidated Indebtedness and Consolidated EBITDA contained in the trust indentures for our Debentures.

(\$000s, except ratio)	June 30, 2024	December 31, 2023

(2) Refer to the "Supporting Covenant Calculations – 1. Consolidated EBITDA for Credit Facilities, Loans Payable, and Debentures" section on page 39 of this MD&A for the calculation of this amount.

The Net Debt to Adjusted EBITDA ratio has improved primarily due to higher NOI and in part due to the Public Offering that was completed to fund portfolio acquisitions that are expected to close later in 2024. Further, 2023 was impacted by lower EBITDA as a result of reduced occupancy and higher direct property operating expense primarily as a result of the pandemic, which started to rebound in the latter half of 2023. Additionally, financing of certain acquisitions and development projects in lease-up which have not yet achieved their expected stabilized EBITDA contribution also impacted this ratio.

Critical Accounting Policies and Estimates

Critical Accounting Judgments, Estimates and Assumptions in Applying Accounting Policies

In our 2023 MD&A as well as in our 2023 Financial Statements, we identified the material accounting policies and estimates that are critical to the understanding of our business operations and our results of operations. There were no significant changes to our critical accounting judgments, estimates and assumptions in 2024 YTD or following the date of our 2023 Financial Statements.

Changes in Accounting Estimates and Changes in Accounting Policies

Our material accounting policies are described in Note 3 of our 2023 Financial Statements. Note 3(n) outlines future accounting policy changes. There were no significant changes to our accounting policies in 2024 YTD or following the date of our 2023 Financial Statements, except for the adoption of amendments to IAS 1 Presentation of Financial Statements, effective January 1, 2024, which resulted in the current classification of Class B units which were previously classified as non-current liabilities. This change was adopted retrospectively.

Related Party Transactions

In the normal course of operations, Chartwell enters into various transactions with related parties. A summary of related party transactions can be found in Note 10 of our Financial Statements.

Controls and Procedures

We are committed to maintaining effective disclosure controls and procedures and internal controls over financial reporting. We continue to invest in improvements to our information systems and financial processes to further strengthen our internal controls. A control system, no matter how well conceived and operated, can provide only reasonable, and not absolute, assurance that its objectives are met. As a result of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, including instances of fraud, if any, have been detected. These inherent limitations include, among other items: (i) that management's assumptions and judgments could ultimately prove to be incorrect under varying conditions and circumstances; and (ii) the impact of isolated errors. Additionally, controls may be circumvented by the unauthorized acts of individuals, by the collusion of two or more people or by management override. The design of any system of controls is also based, in part, upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential conditions.

Evaluation of Disclosure Controls and Procedures and Internal Control over Financial Reporting

The Chief Executive Officer and the Chief Financial Officer have evaluated, or caused an evaluation under their direct supervision of, the design of disclosure controls and procedures and internal controls over financial reporting (as defined in National Instrument 52-109, Certification of Disclosure in Issuers' Annual and Interim Filings) as at June 30, 2024. Based on this evaluation, we have concluded that we have a) designed disclosure controls and procedures to provide reasonable assurance that (i) material information relating to Chartwell is made known to the Chief Executive Officer and the Chief Financial Officer by others, particularly during the period in which the interim filings are being prepared and

(ii) information required to be disclosed by Chartwell in its various reports filed or submitted under securities legislation is recorded, processed, summarized and reported within time periods specified in securities legislation; and b) designed internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

There were no material changes in our internal controls over financial reporting that occurred during the quarter ended June 30, 2024, that have significantly affected or are reasonably likely to significantly affect our internal control over financial reporting.
