Cautionary Statements

This presentation contains forward-looking information that reflects the current expectations, estimates and projections of management about the future results, performance, achievements, prospects or opportunities for Chartwell and the seniors housing industry. Forward-looking statements are based upon a number of assumptions and are subject to a number of known and unknown risks and uncertainties, many of which are beyond our control, and that could cause actual results to differ materially from those that are disclosed in or implied by such forward-looking statements. Examples of forward-looking information in this document include, but are not limited to, statements regarding our business strategies, operational, sales, marketing, and optimization strategies including targets, and the expected results of such strategies, predictions and expectations with respect to industry trends regarding growth in the senior population, a deficit of long term care beds and the slow down of new construction starts, expectations with respect to taxes that are expected to be payable in the current and future years and statements regarding the tax classification of distributions, and occupancy rate forecasts. There can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those expected or estimated in such statements. Accordingly, readers should not place undue reliance on forward-looking information. These factors are more fully described in the "Risks and Uncertainties and Forward-Looking Information" section of our Management's Discussion & Analysis for year ended December 31, 2025 (the "2025 MD&A"), and in materials filed with the securities regulatory authorities in Canada from time to time, including but not limited to our most recent Annual Information Form. Except as required by law, Chartwell does not intend to update or revise any forward-looking statements, whether as a result of new information, future events or for any other reason.

In this presentation "Q1" refers to the three-month period ended March 31; "Q2" refers to the three-month period ended June 30; "Q3" refers to the three-month period ended September 30; "Q4" refers to the three-month period ended December 31; "2026" refers to the calendar year 2026, "2025" refers to the calendar year 2025; "2024" refers to the calendar year 2024; "2023" refers to the calendar year 2023.

In this presentation we use a number of performance measures that are not defined in generally accepted accounting principles ("GAAP") which follow the disclosure requirements established by National Instrument 52-112 Non-GAAP and Other Financial Measures Disclosures (collectively, the "Non-GAAP Measures"), to measure, compare and explain the operating results and financial performance of the Trust.

These Non-GAAP Measures do not have standardized meanings prescribed by GAAP and, therefore, may not be comparable to similar measures used by other issuers. The Real Property Association of Canada ("REALPAC") issued white papers with recommendations for calculations of Funds from Operations ("FFO") (the "REALPAC Guidance"). Our FFO definition is substantially consistent with the definition adopted in the REALPAC Guidance. Please refer to the "Additional Information on Non-GAAP Measures" section of our Q2 2026 MD&A for details.

In this presentation we use various financial metrics and ratios in our disclosure of financial covenants. These metrics are calculated in accordance with the definitions contained in our credit agreements and the trust indenture governing our outstanding debentures and may be described using terms which differ from standardized meanings prescribed by GAAP. These metrics may not be comparable to similar metrics used by other issuers.

The Non-GAAP Measures are categorized as non-GAAP financial measures, non-GAAP ratios, supplementary financial measures, and capital management measures as follows:

Non-GAAP Financial Measures

FFO, FFO per unit, FFO for Equity-Accounted JVs including per unit amounts ("PU"), Earnings before interest, tax, depreciation and amortization ("consolidated EBITDA" or "EBITDA"), Adjusted Property Revenue, Adjusted Resident Revenue, Adjusted Other Property Revenue, Adjusted Direct Property Operating Expense ("Adjusted DOE"), Adjusted Operation Margin, Adjusted Resident Revenue per occupied suite ("REVPOS"), Adjusted DOE per occupied suite ("DOEPOS"), Adjusted NOI per occupied suite ("NOIPOS"), FFO Payout Ratio, Consolidated Interest Expense, Adjusted Consolidated Gross Book Value of Assets, Book value of assets, Gross book value adjustment on IFRS transition, Adjustment for accumulated depreciation and amortization, Aggregate Adjusted Assets, and Amortization of finance costs and fair value adjustments on assumed mortgages, Proforma adjustments, and Total Units Outstanding.

Non-GAAP Ratios

Debt Service Coverage Ratio, Interest Coverage Ratio, Total Leverage Ratio, Adjusted Consolidated Unitholders' Equity Ratio, Secured Indebtedness Ratio, Unencumbered Property Asset Ratio, Consolidated EBITDA to Consolidated Interest Expense Ratio, Indebtedness Percentage, Net Debt to Adjusted EBITDA Ratio, Expected Unlevered Yield, and Coverage Ratio.

Supplementary Financial Measures

Net Operating Income ("NOI"), Adjusted NOI, Adjusted Development Costs, Estimated Stabilized NOI, Unencumbered Property Asset Value and Unencumbered Aggregate Adjusted Assets.

Capital Management Measures

Liquidity, Imputed Cost of Debt, Regularly Scheduled Debt Principal Payments, Consolidated Indebtedness, Secured Indebtedness, and Unsecured Indebtedness.

Please refer to the "Additional Information on Non-GAAP Measures", "Results of Operations/FFO", "Results of Operations/Adjusted Resident Revenue, Adjusted Property Operating Expenses, Adjusted Operating Margin, and Adjusted NOI" and "Liquidity and Capital Resources/Debt Covenants" sections of our Q2 2026 MD&A for details on these measures.

Due to rounding, numbers presented throughout this presentation may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Acquisition Strategy Highlights 2024-2026⁽¹⁾

- Focused on attractively priced acquisitions to support growth during slowdown in development market
- Successfully executed on acquisition strategy to add high quality assets in our core markets
- Newer and larger properties attract higher market rents and stronger operating margins and provide more future growth potential
- Investment team continues to identify new acquisition opportunities in 2026

Acquired at ~30% below replacement cost, accretive at stabilized occupancy

(1) Transactions completed in 2024 to 2026 including announced transactions as of August 6, 2026. Includes investments in incremental ownership of existing properties.

Attractively Positioned Real Estate Portfolio

Strategic 23-Residence Partnership

- Completed the acquisition of a 30% ownership interest on June 2, 2026, for \$382.5M, funded through the proportionate assumption of in-place debt of ~\$208.8M (majority CMHC-insured), with the balance paid in cash. The agreement provides for the opportunity to acquire a further 20% ownership interest in the portfolio.
- Chartwell will manage the 23 properties (2,943 suites) with average occupancy of 85% at closing.
- Strategic partnership with Fengate, a leading real estate investment and development firm, provides option for Chartwell to participate in future retirement residence developments in Ontario.

Industry Fundamentals Support Future Growth

Accelerating Demand

Population of Age 75+ Year Olds

- 4.0% CAGR in age 80+ population for next 20 years. Acceleration of demand driven by aging of baby boomer population
- Ongoing shortage of long term care beds and care alternatives further enhances need and demand for seniors housing
- Resilient residential housing market continues to support seniors' affordability

Lagging Supply

New Construction Starts as a % of Inventory

- Multiple years of low construction starts has resulted in new supply not offsetting physical / economic obsolescence (~35% of seniors residences are 25 years or older).
- In 2025, there were six new residence construction starts within 5 km of a Chartwell home in our top 15 markets
- New construction is expected to begin increasing in 2026 at a more moderate pace with limited new deliveries until 2029 / 2030

Industry Fundamentals

Demand will Overwhelm Supply

Demand vs. Supply

- Current seniors housing demand is projected to double over the next 20 years
- 200,000+ new suites required over the next 10 years compared with ~73,000 suites built over the last 10 years
- Represents ~\$100 billion capital requirement over next 10 years, despite limited development pipelines, resources and capital given the broader housing shortage

Market imbalance will drive higher occupancy levels and fuel rent growth

Source: Cushman and Wakefield ULC, Statistics Canada, and Chartwell.

(1) New supply reflects Cushman & Wakefield ULC new construction starts as a % of inventory forecasts (2026-2030), with a 3-year lag applied to estimate construction completion / opening. Construction starts as a % of inventory for 2031-2032 are based on Chartwell estimates and assumes that the 2030 rate holds.
